- 4) This is a free service offered as a gesture of goodwill and is subject to availability.
- 5) The crew will do their best to get to every property requesting a collection. However if you book a collection for the first scheduled date but find your tree has not been removed by the end of that day, you must remove it from the highway and then present it the same day the following week. For collections taking place on the second week, if your tree has not been removed by the end of the collection day then you must remove the tree from the highway and arrange for its disposal.
- 6) Christmas trees can also be disposed of at a local [Household Recycling Centre](#) or if you take part in the chargeable Garden Waste service then you can chop up your Christmas tree and put it in your green bin. You may also find some local garden centres provide a 'bring back' service.
