It is the responsibility of

their needs**

WELCOME TO THE COMMUNITY DIRECTORY FOR GLOUCESTER & LOCAL AREAS

This directory has been put in place to assist all people within schools and the community to access sport & activity within the local area. This directory has been compiled by the School Sports Partnership (SSP) & Gloucester City Council. It compliments the Active Gloucestershire club directory for the whole county.

This edition of the community directory will offers access to many of the community styled clubs and activities in the area & useful contacts. This includes basic access to various activities & schools which are generally open to the communities they serve.

We are offering a basic level of information on the activity, club, group, which should be useful for all who need to make contact. We currently have little influence on how a community club operates, their child protection policies, CRB checks, please bear this in mind and rather than recommend a club, only offer the information as signposting.

All publications such as these include information that may be quickly out of date, nevertheless in the future we will have a website version that will be updated on a regular basis.
