Good Day,

---

Thank you for the opportunity to comment on this planning application. Please find our response noted below:

With Reference to the above planning application the company's observations regarding sewerage are as follows.

I can confirm that we have no objections to the proposals subject to the inclusion of the following condition:

- The development hereby permitted should not commence until drainage plans for the disposal of foul and surface water flows have been submitted to and approved by the Local Planning Authority, and
- The scheme shall be implemented in accordance with the approved details before the development is first brought into use. This is to ensure that the development is provided with a satisfactory means of drainage as well as to prevent or to avoid exacerbating any flooding issues and to minimise the risk of pollution.

Note that the proposal is within the councils cordon sanitaire and that it is therefore possible that the development could be adversely affected by odour from the sewage works.

Please note if you wish to respond to this email please send it to Severn Trent where we will look to respond within 10 working days

If your query is regarding drainage proposals, please email to the aforementioned email address and mark for the attention of Rhiannon Thomas (Planning Liaison Technician).

Kind regards,

Asset Protection Team
