Dear Sirs/Madam

Exolum Pipeline System Ltd – Objection – Planning Application
Location: Land at Hill Farm, Hempsted Lane, Gloucester

Thank you for your consultation dated 19th May 2022. We confirm that our client Exolum's apparatus will be affected by your proposals as indicated on the attached plan(s). The plan(s) supplied are intended for general guidance only and should not be relied upon for excavation or construction purposes. No guarantee is given regarding the accuracy of the information provided and in order to verify the true location of the pipeline you should contact Exolum to arrange a site visit.

It appears from the plans submitted by the applicant that their proposed development is to be constructed within close proximity to Exolum apparatus. Such works would require consent from Exolum and, in this instance, consent would not be granted as the proposed development would restrict access to the pipeline, both for routine maintenance and in an emergency situation. We must therefore **object** to the planning application. My client must be consulted to ensure the proposal has no impact on their apparatus. Their contact details are:

When contacting Exolum, please quote our unique reference **222285**, which is specific to this enquiry. Please note that you should contact Exolum within 28 days of the date of this letter in order to validate this enquiry, otherwise it will become void.

You should note that the interests of the Exolum are conserved by means of the Energy Act 2013, in particular Part IV of the Act, and other legislation such as the Pipeline Safety Regulations 1996. It is, however, the Energy Act 2013 that prohibits any development and most intrusive activities within the Easement Strip without specific consent from Exolum. Exolum's Easement Strips are 6 metres wide and can incorporate other associated Exolum facilities.

Exolum will be able to provide guidance on the required procedures for entering into a Works Consent and provide confirmation on permitted development and intrusive activities. The whole process of obtaining a Works Consent can take between four and six weeks depending on circumstances at the time of application.

Fisher German LLP is a limited liability partnership. Registered in England and Wales, Registered Number: OC317554. Registered Office: 40 High Street, Market Harborough, Leicestershire LE16 7NX. A list of members' names is available for inspection at the Market Harborough office.

Regulated by RICS.

To reiterate, you should not undertake any work or activity without first contacting Exolum for advice and, if required, a Works Consent. For a copy of Exolum's Standard Requirements for Crossing or Working in Close Proximity to Exolum Pipelines, please visit <https://lsbud.co.uk/wp-content/uploads/2021/10/lsbud-standard-requirement-uk-um.pdf>. This will provide you with practical information regarding the legislation that governs the Exolum.

You should also be aware that landowners and third parties have a duty of care not to carry out any works that have the potential to damage Exolum apparatus. This duty of care applies even if the works themselves are situated more than 3 metres from the pipeline. Examples of such works are mineral extraction, mining, explosives, piling and windfarms.

Please note that implementation of any unapproved work that affects the Exolum Easement Strip may result in serious consequences in terms of health and safety, expense and other attendant liabilities. In such cases it is the perpetrator of the act, together with any other promoting organisation, that shall be held fully accountable for any resulting damage.

Should you require any further assistance regarding this letter please contact the undersigned or alternatively, you can contact Exolum using the details provided above.

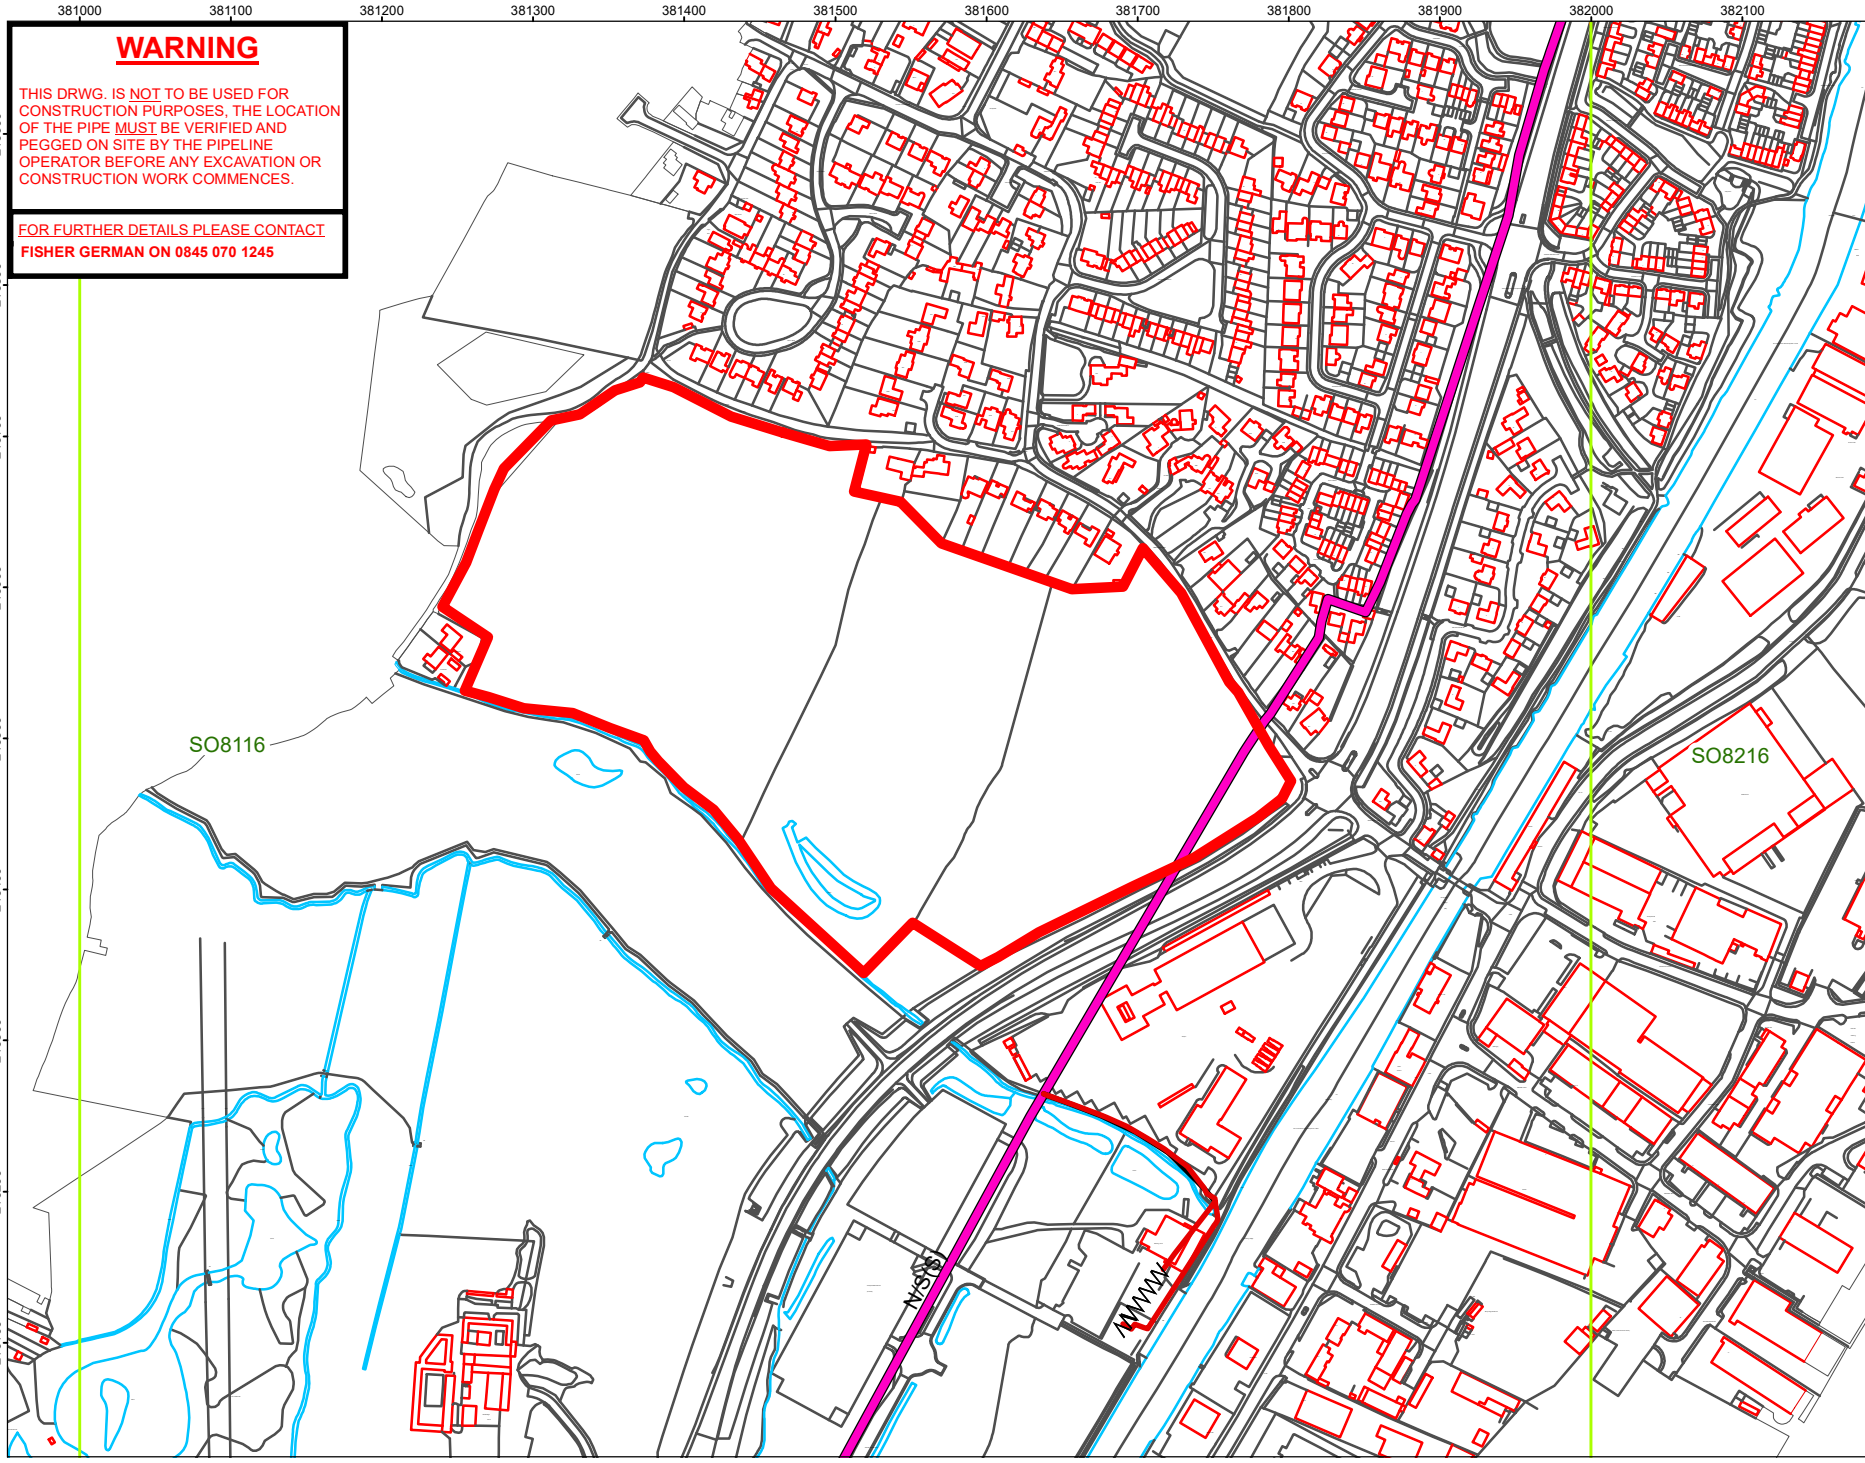

Yours faithfully

For and on behalf of FISHER GERMAN LLP (Exolum's Authorised Agent)

Appellant's name: Gladman Developments Ltd
Appeal reference: APP/U1620/W/22/3296510

I refer to the above details. I am writing to advise you that an appeal has been made to the Secretary of State against Gloucester City Council's failure to give notice of its decision in respect of the above application within the statutory period prescribed in the Town and Country Planning Act 1990.

Previous Comments Made by Yourselves

You may be aware that the Council has been the subject of a cyber incident and we are unable to access or view any of the documents associated with the original application which includes previous consultee responses and third party comments.

Arrangements for the Inquiry are currently being finalised by the Planning Inspectorate. These will include a pre-Inquiry conference call with the lead parties to deal with procedural and administrative matters, including how the evidence will be heard. As a Rule 6 party, it is anticipated that you would also be a part of that process. If, having read the above guidance, you wish to apply for Rule 6 status and/or have any related questions, you should contact the Planning Inspectorate immediately. If you are interested but are unable to access the guidance electronically, again, you should contact the Planning Inspectorate who will try and assist.

If, having read the above guidance, you wish to apply for Rule 6 status it is essential that you contact the Planning Inspectorate immediately.
