

Gloucester City Council-MASTER-2022

For further information on TOMs, please refer to the [TOMs Handbook](#) or the [National TOMs Framework](#).

Jobs: Promote Local Skills and Employment: More local people in employment

Reference	Measure	Requirements	Guidance
<p>NT1</p> <p>Units no. people FTE</p> <p>Proxy Localised by project</p>	<p>No. of full time equivalent direct local employees (FTE) hired or retained for the duration of the contract</p> <p>Definition The full time annual equivalent (FTE) number of people directly employed on the contract , e.g. as a result of this procurement requirements (if you are the procuring organisation) or other set targets. If you are the bidding organisation or are reporting for measurement, only direct employees should be included here, while employment through supply chain can be captured through NT1c where this is included. Employees should be residing in the local area and with an employment contract duration of at least one year, unless the overall duration of the contract is less (in which case it is at least the overall duration of the contract). Please refer to the definition of local area provided for the contract. Measure NT1b might signpost specific targeted areas found in LIST NT1b. If you are recording direct employees under NT1b please ensure no double counting occurs. Please check evidence requirements for details on postcode collection.</p>	<p>Target guidance Summarise your strategy for directly employing your target number of local people on this contract. For example, if you plan to advertise in local newspapers, please explain which ones and how regularly. Or, if you will cooperate with local job centres, please specify which ones and how you will approach engaging with them.</p> <p>Evidence required Specify the number of qualifying employees directly employed on this contract (for details on what a qualifying employee is defined as, please see the Definition box of this Measure). For each qualifying employee, specify: 1.) the duration of employment; 2.) the employment status (e.g. full time or part time); 3.) the Full-Time Equivalent (FTE); 4.) the first half of their home postcode (i.e. the postcode district). For example, Employee 1: 6 months; full-time; 0.5 FTE; SE1. Information provided should be made compliant with data protection requirements (GDPR).</p>	<p>Unit guidance The proxy value can be applied to a person working full time for a year, so if you are employing people part-time, or if the duration of the contract is shorter than one year, please calculate the full time equivalent (FTE) number of employees for the year. Please note that only direct employees with a contract duration that is at least one year or that lasts the full duration of the contract (if this is shorter than one year) can be included within this Measure. While there is no fixed definition of full time employment, an FTE of 1.0 corresponds to having one person employed on a full time basis for a period of 12 months. For example, two people employed full time for six months would equal 1.0 FTE. We define full time employment here as working at least 35 hours per week.</p>

Jobs: Promote Local Skills and Employment: More opportunities for disadvantaged people

Reference	Measure	Requirements	Guidance
NT3 Units no. people FTE Proxy £20,429	No. of full time equivalent employees (FTE) hired on the contract who are long term unemployed (unemployed for a year or longer) Definition This Measure applies to direct employees only and can only be applied once per employee, for the first year of employment. This is to record people directly employed as a result of a specific and deliberate employment initiative. Record the number of full time annual equivalent (FTE) employees taken on as a result of the contract that had been claiming Jobseeker's Allowance (JSA) or Universal Credit unemployment benefits for at least the 12 months preceding the start of the employment contract. For a definition of long term unemployment see: https://tinyurl.com/ycktsk4n . The value is additional to NT1, so that the job can be counted both as NT1 and in this Measure if the conditions apply. Entries should not be double counted with any additional initiatives around employment from disadvantaged groups in this outcome (e.g. NT3a, NT3b, NT3c, NT3d, NT4, all NT5s, NT6, NT76 etc).	Target guidance Summarise your strategy for employing your target number of long-term unemployed people on this contract. For example, it is likely you will need to cooperate with job centres or other specialist organisations so please specify the organisations you intend to partner with and how you will approach working with them. Evidence required Specify the number of qualifying employees on this contract (for details on how a qualifying employee is defined please see the Definition box of this Measure). For each qualifying employee, specify: 1.) the duration of employment; 2.) the employment status; 3.) the Full-Time Equivalent (FTE); 4.) that this is the first employment experience after having been long-term unemployed; 5.) how long they were unemployed for before the start of the employment contract. For example, Employee 1: 1 year; full-time; 1 FTE; this is the first employment experience after 14 months of unemployment. Provide details of any organisation partnered with. Information provided should be made compliant with data protection requirements (GDPR).	Unit guidance The proxy value can be applied to a person working full time for a year, so if you are employing people part-time, or if the duration of the contract is shorter than one year, please calculate the full time equivalent (FTE) number of employees for the year. Please note that only direct employees with a contract duration that is at least one year or that lasts the full duration of the contract (if this is shorter than one year) can be included within this Measure. While there is no fixed definition of full time employment, an FTE of 1.0 corresponds to having one person employed on a full time basis for a period of 12 months. For example, two people employed full time for six months would equal 1.0 FTE. We define full time employment here as working at least 35 hours per week.
NT4 Units no. people FTE Proxy £15,382.90	No. of full time equivalent employees (FTE) hired on the contract who are NOT in Employment, Education, or Training (NEETs) Definition This Measure applies to direct employees only and can only be applied once per employee,	Target guidance Summarise your strategy for employing your target number of people who are NEET on this contract. For example, it is likely you will need to cooperate with job centres or other	Unit guidance The proxy value can be applied to a person working full time for a year, so if you are employing people part-time, or if the duration of the contract is shorter than one year, please calculate the full time equivalent (FTE) number of employees for the year. Please note that

Reference	Measure	Requirements	Guidance
	<p>for the first year of employment. This is to record people employed as a result of a specific and deliberate employment initiative. Record the full time annual equivalent (FTE) number of 16-24 yr. old employees taken on as a result of the contract that had not been in employment, education, or training (NEET) before the start of the employment contract. See the following link for a list of categories included: https://tinyurl.com/3vz7h8wv. The value is additional to NT1, so that the job can be counted both as NT1 and in this Measure if the conditions apply. Entries should not be double counted with any additional initiatives around employment from disadvantaged groups in this outcome (e.g. all NT3s, NT4, all NT5s, NT6, NT76 etc).</p>	<p>specialist organisations so please specify the organisations you intend to partner with and how you will approach working with them.</p> <p>Evidence required Specify the number of qualifying employees on this contract (for details on how a qualifying employee is defined please see the Definition box of this Measure). For each qualifying employee, specify: 1.) the duration of employment; 2.) the employment status; 3.) the Full-Time Equivalent (FTE); 4.) whether this is the first employment experience after having been NEET. For example, Employee 1: 3 months; full-time; 0.25 FTE; this is the first employment experience after being NEET. Provide details of any organisation partnered with. Information provided should be made compliant with data protection requirements (GDPR).</p>	<p>only direct employees with a contract duration that is at least one year or that lasts the full duration of the contract (if this is shorter than one year) can be included within this Measure. 		resulting qualification. Information provided should be made compliant with data protection requirements (GDPR). Provide information on the number of weeks provided by level of qualification. If an apprenticeship has been part financed through the apprenticeship levy attribution has to be applied, to account for reduced costs of provision for the apprenticeship provider.	
NT11 Units no. hrs (total session duration)*no. attendees Proxy £105.58	No. of hours of 'support into work' assistance provided to unemployed people through career mentoring, including mock interviews, CV advice, and careers guidance Definition This is the number of staff hours dedicated to individual or group employment support . This Measure requires support to be targeted and focussed on the participating individuals. Group sessions should therefore be of a size that allows for individuals to be supported based on their specific needs. Units targeted or claimed within this Measure should not be double counted with other similar Measures.	Target guidance Summarise your strategy for supporting unemployed people into work (including the number of staff hours to be spent and the number of people to be supported). Describe the activity/activities to be carried out and provide details of any partner organisations you will work with. Evidence required Specify number of sessions, and for each session the duration, number of staff providing unemployment support and unemployed people supported. Describe the activity/activities delivered and provide details of any organisation partnered with. Information provided should be made compliant with data protection requirements (GDPR).	Unit guidance The number of units reported should be calculated by multiplying the length of the session by the number of beneficiaries. For example, a 2-hour session attended by 8 unemployed people would be 16 hours, regardless of the number of people delivering the session.

Jobs: Promote Local Skills and Employment: Improved employability of young people

Reference	Measure	Requirements	Guidance
NT12 Units no. weeks Proxy	No. of weeks spent on meaningful work placements or pre-employment course; 1-6 weeks student placements (unpaid) Definition	Target guidance Summarise your strategy for providing your target number of weeks of student work placements or pre-employment courses on this contract. Specify the type of student work	Unit guidance Number of total student placement weeks on the contract (only student placements between 1-6 weeks).

Reference	Measure	Requirements	Guidance
£194.50	<p>Work placements indicate a temporary work experience within a company, for example working on junior-level tasks for the purpose of gaining experience and insight into the industry, or a more skill specific graduate position. Only work placements for students with a duration of 1 to 6 weeks (typically unpaid) should be registered here. The cumulative number of weeks (from 1 to 6 for each student work placement) should be registered. This Measure does not apply to placements longer than 6 weeks as the National TOMs framework discourage unpaid long-term employment. For guidance please see: https://tinyurl.com/2p8nk5fb. Should not be double counted with other work placement Measures.</p>	<p>placements or/and pre-employment courses that will be provided, including what kind of industry-based experience they will result in and how. As you will cooperate with schools, colleges, or universities, please specify which ones and how you will approach this.</p> <p>Evidence required Specify the number of people in student work placements or pre-employment courses on this contract, and for each person specify: the duration in weeks and type of the work placement or pre-employment course. Describe the industry-based experience gained and provide details of the school, college or university partnered with. Information provided should be made compliant with data protection requirements (GDPR).</p>	
<p>NT13</p> <p>Units no. weeks</p> <p>Proxy £194.50</p>	<p>Meaningful work placements that pay Minimum or National Living wage according to eligibility - 6 weeks or more (internships)</p> <p>Definition Work placements indicate a temporary work experience within a company, for example working on junior-level tasks for the purpose of gaining experience and insight into the industry, or a more skill specific graduate position. The cumulative number of weeks of work placements (noting that each placement must last 6 weeks or more) should be registered. This Measure does not apply for placements shorter than 6 weeks as meaningful learning opportunities should be promoted. Only placements paid at least minimum or national living wage, as per governmental regulations, should be included.</p>	<p>Target guidance Summarise your strategy for providing your target number of positions and weeks of paid work placements on this contract. Specify the type of work placements (as well as pay type, i.e. minimum wage, national living wage or higher wage) that will be provided, including what kind of industry-based experience they will result in and how. If you will partner with any organisations, schools, colleges or universities, please specify which you will partner up with and how you will approach these.</p> <p>Evidence required Specify the number of people in work placements, and for each person specify the following: the duration in weeks and type (including pay type, i.e. minimum wage, national living wage, higher wage) of the work</p>	<p>Unit guidance Number of weeks in total on the contract (note that each placement must be at least 6 weeks).</p>

Reference	Measure	Requirements	Guidance
	For guidance please see: https://tinyurl.com/2p8nk5fb and here https://tinyurl.com/pzrzsnkd . Should not be double counted with NT12 or similar work placement Measures.	placement. Information provided should be made</p>	<p>Unit guidance For example, if 10 staff will volunteer 3 hours each, then the total number of hours reported should be 30.</p>

Reference	Measure	Requirements	Guidance
	include only the amount of volunteering that has been provided by staff during working hours or on overtime, or that has been delivered as a direct result of an activity organised by the organisation and agreed with by the employees (please see the toolkit guidance document for worked out examples on attribution). This Measure should not be double counted with NT15, NT16, NT17, NT24, NT25, NT26, NT27, NT28, NT29a, NT29b NT30, NT63 and NT69 or other relevant Measures.	compliant with data protection requirements (GDPR).	

Environment: Decarbonising and Safeguarding our World: Carbon emissions are reduced

Reference	Measure	Requirements	Guidance
<p>NT31</p> <p>Units tCO₂e</p> <p>Proxy £244.63</p> <p>Double counting Do not double count with NT82</p>	<p>Savings in CO₂e emissions on contract achieved through de-carbonisation (i.e. a reduction of the carbon intensity of processes and operations, specify how these are to be achieved) against a specific benchmark.</p> <p>Definition General savings could result, for example, from a deliberate programme aimed at changing processes or from de-carbonisation work. Where possible, savings resulting from specific interventions or achieved in specific areas should be recorded under the Measure(s) that is most relevant (if part of the operative Measure set): - CO₂e savings achieved to energy efficiency measures - use NT82 - Indirect CO₂e savings achieved along the supply chain (Scope 3 savings) - use NT31a - Transport related CO₂e savings resulting from car miles saved (e.g. through</p>	<p>Target guidance Describe the initiatives that you are going to put in place to achieve the identified savings in CO₂ emissions on the contract against the specified baseline, including timeframes. These could be e.g. from de-carbonisation work . Specify and evidence the baseline level of emissions used to measure reductions against and the baseline year, as well as the target emissions after reductions (i.e. the level of emissions on the project resulting from your reduction efforts). Also specify relevant emissions reduction policy (e.g. net zero by 2050). This could be a general corporate policy or a specific project policy. Include any relevant information on how the targeted/ realised reductions relate to this emission reduction policy or net zero targets. The purpose of the National TOMs framework is to report added value. This means going above</p>	<p>Unit guidance Reductions in tonnes of CO₂e against the baseline emissions level specified in the accompanying input field. The Measure requires data inputs for additional metrics: a baseline level of emissions (the level of emission estimated in a given year for the project in the absence of reduction efforts), the year that this estimate is based on (e.g. based on emission levels in 2018), the total level of emissions on the project as determined by the reduction efforts, and the relevant emission reduction policy (e.g. net zero by 2050 or earlier). These data inputs must be provided and evidenced, as they allow for the evidencing of the savings recorded through the main unit. The Social Value Portal offers a GHG savings calculator to derive the achieved/committed savings in CO₂e emissions.</p>

Reference	Measure	Requirements	Guidance
	<p>cycling to work or carpooling initiatives for employees) - use NT32 - Transport related CO2e savings resulting from freight miles saved (e.g. through green transport plans) - use NT84 - CO2e savings resulting from using low emission vehicles - use NT33. Reduction should be measured against a pre-existing baseline level of emissions (the level of emission estimated in a given year for the project in the absence of reduction efforts). The Measure therefore requires provision of additional metrics including this baseline level of emissions and a baseline year, the target level of emissions on the project (as determined by the reduction commitments), as well as the relevant net zero carbon target year (e.g. net zero carbon by 2030) as relevant at project or corporate level. Targets for reaching net zero carbon should be specified as a minimum to be in line with a net zero greenhouse gas emissions target of 2050. More ambitious targets are strongly encouraged (e.g. net zero by 2030). The Social Value Portal offers a GHG savings calculator to derive the achieved/committed savings in CO2e emissions. For further guidance on target setting and related baselining please see the Unit and Target Guidance. Should not be double counted with NT31a, NT32 and NT33 or RE37, Re37a, RE39 or RE39a.</p>	<p>and beyond the minimum required, and to support initiatives that help the world to decarbonise as quickly as possible. It also means pushing for a “green normal”, rather than treating environmental outcomes as a bolt-on or an afterthought. This determines how we establish the minimum requirements for carbon reduction Measures in the TOMs, which adopts the minimum targets identified by the UN, the UK Government, and the scientific community; namely that to keep global temperature rises as close to 1.5 degrees Celsius as possible, it is necessary to achieve net zero carbon emissions by 2050 (“NZC 2050”). While the TOMs adopts this minimum target to 2050 as the baseline, it follows that “added value” in measurement terms should come from the voluntary adoption of targets that exceed minimum requirements. More ambitious targets such as net zero by 2030, embraced by over 100 local authorities across the UK, are becoming increasingly widespread and provide greater scope to mitigate Climate Change than NZC 2050. Where a more demanding emissions requirement than NZC 2050 has been set, this should be adopted.</p> <p>Evidence required Carbon reductions should be evidenced through an independent and verifiable process (e.g. Planet Mark Certification or equivalent). There is an expectation for independently assured and audited reports to be provided. Specify and evidence the pre-existing baseline level and year that have been used to measure savings/reductions and the total emissions generated as a result of reduction efforts, as well as the relevant emission reduction policy (e.g. net zero by 2050 or earlier). Include any relevant information on</p>	

Reference	Measure	Requirements	Guidance
		<p>how the targeted or realised reductions relate to this emission reduction policy or net zero targets.</p>	
<p>NT82</p> <p>Units tCO₂e</p> <p>Proxy £244.63</p>	<p>Carbon emission reductions through reduced energy use and energy efficiency measures - on site</p> <p>Definition Reductions, baselines and target levels should be recorded in equivalent tonnes of CO₂ emissions based on standard kWh conversion factors. Reduction should be measured against a pre-existing baseline level of emissions (the level of emission estimated in a given year for the project in the absence of reduction efforts). The measure therefore requires provision of additional metrics including this baseline level of emissions and a baseline year, the target level of emissions on the project (as determined by the reduction commitments), as well as the relevant net zero carbon target year (e.g. net zero carbon by 2030) as relevant at project or corporate level. Targets for reaching net zero carbon should be specified as a minimum to be in line with a net zero greenhouse gas emissions target of 2050. More ambitious targets are strongly encouraged (e.g. net zero by 2030). For further guidance on target setting and related baselining please see the Unit and Target Guidance. Evidence could include metering data or a statement from the Energy Manager (i.e. degree day adjusted average). May include use of energy efficient equipment above required minimum standards, such as a use of LED lighting or of hybrid generators. For further information see: https://tinyurl.com/3hb5wm5b. Should not be double counted with other CO₂e reduction</p>	<p>Target guidance Specify and evidence the baseline level of emissions used to measure reductions against and the baseline year (e.g. based on 2018 emission levels), as well as the target emissions after reductions (i.e. the level of emissions on the project resulting from your reduction efforts). Also specify relevant emissions reduction policy (e.g. net zero by 2050). This could be a general corporate policy or a specific project policy. Include any relevant information on how the targeted or realised reductions relate to this emission reduction policy or net zero targets. All information provided through this Measure should relate specifically to on site energy use. The purpose of the TOMs is to report added value. This means going above and beyond the minimum required, and to support initiatives that help the world to decarbonise as quickly as possible. It also means pushing for a “green normal”, rather than treating environmental outcomes as a bolt-on or an afterthought. This determines how we establish the minimum requirements for carbon reduction measures in the TOMs, which adopts the minimum targets identified by the UN, the UK Government, and the scientific community; namely that to keep global temperature rises as close to 1.5 degrees Celsius as possible, it is necessary to achieve net zero carbon emissions by 2050 (“NZC 2050”). While the TOMs adopts this minimum target to 2050 as the baseline, it follows that “added value” in measurement terms should come from the voluntary adoption of targets</p>	<p>Unit guidance Reductions in tonnes of CO₂e against the baseline emissions level specified in the accompanying input field. The Measure requires data inputs for additional metrics: a baseline level of emissions (the level of relevant emissions estimated in a given year for the project in the absence of reduction efforts), the year that this estimate is based on (e.g. based on emission levels in 2018), the total level of relevant emissions on the project as determined by the reduction efforts, and the relevant emission reduction policy (e.g. net zero by 2050 or earlier). These data inputs must be provided and evidenced, as they allow for an evidencing of the savings recorded through the main unit</p>
