

# Are you really helping homeless people?

In some cases, the people you see sleeping rough are not homeless. They are in accommodation, receiving support and benefits.

**Think before you give – change is more than coins.**

**Worried about someone sleeping rough?** Give them the help they need by contacting the homeless outreach team via [streetlink.org.uk](https://streetlink.org.uk) or download the app from the app store. Prefer to give money? Make your change count by giving to an established homeless charity.
