

# Planning Policy Position Statement

June 2018

## 1. Introduction

1.1 This paper provides a policy position statement on the relevant local planning policies that are a material consideration in the determination of planning applications and in any pre-application advice provided by the Local Planning Authority (LPA).

1.2 This paper does not replace the current Local Development Scheme (LDS) (October 2017), it does however set out the status of the policies within the Development Plan Documents.

1.3 The LDS can be found at:

<http://www.gloucester.gov.uk/resident/Documents/Planning%20and%20Building%20Control/EvidenceBase/LDS%202017%202002.10.2017%20FINAL%20APPENDIX.pdf>

## 2. Status of the Development Plan Documents

### 2.1 Joint Core Strategy (JCS)

The JCS was fully adopted 11<sup>th</sup> December 2017. The policies contained within the JCS are therefore a material consideration and have significant weight in the determination of planning applications.

### 2.2 Draft City Plan (DCP)

The DCP is an emerging Development Plan Document that will sit beneath the JCS. A timetable for the production of the DCP can be found in the LDS. Although considered a material consideration, the policies contained within the DCP are not advanced enough at this stage to be given significant weight in the decision making process. As the Plan is at an early stage, it is considered that it carries limited weight in accordance with paragraph 216 of the National Planning Policy Framework (NPPF).

### 2.3 Second Stage Deposit City of Gloucester Local Plan (SSD) (2002)

2.4 The SSD is a draft plan that was published and approved by the council for development management decision making in 2002. As the SSD is not an adopted plan the policies contained within it could not be superseded by the adoption of the JCS in accordance with Regulation 8(5) of the Town and Country Planning (Local Planning) (England) Regulations 2012.

2.5 The policies of the SSD have therefore been reviewed in light of the JCS and the National Planning Policy Framework (NPPF).

2.6 The full assessment of the policies can be found in Appendix A. The following table identifies the policies that are considered to be a material consideration and have significant weight in the decision making process:

### 2.8 Gloucester Local Plan 1983

Prior to the adoption of the JCS the Gloucester Local Plan 1983 was the council's last fully adopted Local Plan. A number of policies were 'saved' by the Secretary of State in 2007. Since this time the planning context has significantly changed both locally and nationally.

In accordance with Regulation 8(5) of the Town and Country Planning (Local Planning) (England) Regulations 2012) a number of the 'saved' policies have been superseded through the adoption of the JCS.

### 2.9 Relevant Policies The 1983 Plan

The remaining ‘saved’ policies from 2007 have been reviewed in light of the National Planning Policy Framework (NPPF) and local evidence base.

The following table states the ‘saved’ policies from the 1983 Plan that are still considered to be relevant and significant to the decision making process.
