1. Summary

This is the Housing Monitoring Report for Gloucester City for the period 1st April 2024 to 31st March 2025. Gloucester City Council has been monitoring the progress of approved new housing planning applications and allocations since 1989. The following is the headline summary for the monitoring year:

- In 2024/25 there were 376 net dwelling completions in the administrative area of Gloucester City and 850 net dwelling completions at the Joint Core Strategy Strategic Allocations in Tewkesbury Borough meeting Gloucester's housing need. This is a total of 1,226 dwellings contributing to Gloucester's supply in this year.
- There were 1,652 extant Gloucester City commitments at the end of the monitoring year.
- There are 610 future dwellings available through Gloucester City Plan allocations, but only 273 in the next 5 years.
- 7 sites (a net total of 13 dwellings) were considered lapsed / superseded / not proceeded with in the monitoring year.
- There were 4 dwelling losses to changes of use or conversions.
- 0 self/custom build dwellings were permitted.
- 85% of Gloucester City completions in the monitoring year were on brownfield (previously developed) land.

Appendix 7. Self/Custom Build Register

The Self-Build and Custom House-building Act (2015) places a duty on Local Authorities to create a register of individuals and associations/groups who have expressed an interest in Self-build and Custom Build projects and are seeking to acquire serviced plots of land in the authority area, to build homes.

The City Council's self-build register collects valuable information on the demand for self-build and custom house building in Gloucester City and provides information to those who are interested. As of January 2025, there are 140 people (with a local connection) on Gloucester's register.

Clearly houses which are self-built still require planning permission and the small numbers built each year will show up as commitments and completions in the same way as houses built by professional builders / volume house builders.

The following table records the number of self-build commitments in Gloucester since the register was set up. Monitoring was undertaken by interrogating planning databases and by contacting agents and applicants.

These sites are either:

1. Commitments
2. City Plan allocations
3. Housing and Economic Land Availability Assessment (HELAA) sites
4. Sites known to officers with informal 'pipeline potential'

Other than sites which contribute as commitments and allocations, there are currently no 'Deliverable' Brownfield Land Register sites contributing to 5 Year Supply calculations. The Register is updated annually every December.

Appendix 10. Student Accommodation in Gloucester

Paragraph 34* of National Planning Practice Guidance on Housing Supply and Delivery states:

“All student accommodation, whether it consists of communal halls of residence or self-contained dwellings, and whether or not it is on campus, can in principle count towards contributing to an authority’s housing land supply based on:

- the amount of accommodation that new student housing releases in the wider housing market (by allowing existing properties to return to general residential use); and / or*
- the extent to which it allows general market housing to remain in such use, rather than being converted for use as student accommodation.”*

The Guidance indicates that plan-making authorities will need to base their calculations on the average number of students living in student only accommodation, using the published [census data](#). The calculations should indicate an appropriate ratio based on the number of students in student only households. Using the census data for Gloucester the table below confirms that, on average, 2.5 students live in student only households in Gloucester. This aligns with the national average of 2.5 which is the ratio used in the Housing Delivery Test.

* Paragraph: 034 / Reference ID: 68-034-20190722 / Revision date: 22 July 2019

Gloucester CT0773 figures from 2011 Census (Note: the 2021 Census data on student only accommodation is not yet available)		
Household Size	No. of households	Total students
1 student in household	117	117
2 students in household	76	152
3 students in household	64	192
4 students in household	47	188
5 students in household	37	185
6 students in household	5	30
7 students in household	2	14
8 students in household	0	0
9 students in household	0	0
10 students in household	0	0
10+ students in household	0	0
TOTAL	348	878
Average Student Household Size in Gloucester	(878/348 = 2.52) So 2.5 to 1 is the ratio for Gloucester from the above Census figures (CT0773) and it also happens to align with the ratio used in the Housing Delivery Test which reflects the national average student only household size. Thus for example, a development of 200 student rooms (divided by the 2.5 ratio) will equate to 80 ‘dwellings’ to be counted in housing supply.	

The Purpose-Built Student Accommodation sites in Gloucester where the 2.5 ratio has been applied are as follows:

Reference	Site	Permitted students rooms in Purpose Build Student Accommodation (PBSA)	Equivalent dwellings after ration applied
15/01190/OUT & 17/00224/REM	Student accommodation at Oxstalls Campus	200 (Not in 5 year supply)	80
16/01525/FUL	Barbican Phase 1	295 (Completed)	118
18/00156/FUL	Barbican Phase 2	186 (Completed)	74
18/00641/FUL	12-16 Quay Street	115 (Lapsed permission)	46

Appendix 11. Communal Accommodation – including supported housing and care homes

Communal accommodation can be included in a Council's five year supply. National Planning Practice Guidance (PPG) (ID: 68-035-20190722) states that housing for older people including care homes (planning use class C2) should be counted against the housing requirement. The Housing Delivery Test (HDT) measurement rulebook gives the ratio for communal accommodation based on the national average number of adults in all households as 1.8 based on the 2011 Census. For example, a 90 bed care home would equate to 50 net dwellings ($90 \div 1.8 = 50$).
