Design and Access Statement

11 The Copse Barnwood Gloucester GL4 3FR

Introduction

The proposed scheme is for a two storey side extension, part garage conversion, single storey front entrance extension and internal alterations.

Context

The property is a detached modern house situated on a large housing development at the end of a cul-de-sac, with neighbouring properties primarily on the north and west elevations. The south elevation is concealed from the main road by an existing row of trees.

Use

The proposal development will provide additional living space to both ground and first floor levels

Amount

The proposed scheme will provide and additional 90m², including the converted garage space, for the combined floor levels.

Existing/Proposed Ground Floor, 65/124m² - First Floor 55/86m²

Layout

The proposed scheme is predominantly positioned on the south elevation of the property, between the side of the dwelling up to the boundary.

Scale

The proposed development has been deliberately sized so that the existing dwelling remains dominant, with a large section of the proposed scheme concealed between the main house and the trees along the boundary.

Appearance/Design

The proposed scheme has been designed to fit within the side wedge shaped garden space, to minimise any impact on the main neighbouring property and to utilise an effective dead space within the overall plot. The extensions will be finished with red brick and tiled roofs, both to match existing. New windows are added to each room area, with large windows incorporated to the open staircase area to maximise natural daylight on the shaded elevation.

Access

No alterations
