E Implementation Plan 2021 – 2032

287 - 304

Executive Summary

The School Places Strategy (SPS) examines the duties placed upon the Council by the Department for Education (DfE) and provides an analysis of current primary and secondary school provision. This is to help key stakeholders and partners understand how school places are planned and developed.

The role of the Council is set within a legal framework of statutory duties to ensure that there are sufficient school places in its area. The Council is seen as a commissioner of places rather than being the direct provider.

Between 2015 and 2019 the Office for National Statistics (ONS) estimates that the number of 0-19 year olds increased by approximately 3,315, this compares to a rise of only 78 in the last period of 2010 to 2015 with the largest growth in the 5-10 age range currently in our primary schools. The greatest growth for this age range is seen in the Gloucester and Tewkesbury areas.

Age Range	0-19	0-4	5-10	11-16	17-19
Cheltenham	26,086	6,648	7,471	7,490	4,477
Cotswold	17,666	3,919	5,392	5,541	2,814
Forest of Dean	18,354	4,163	5,239	5,394	3,558
Gloucester	31,714	8,868	9,495	8,636	4,715
Stroud	26,090	6,082	8,109	8,152	3,747
Tewkesbury	19,281	5,128	5,953	5,623	2,577
County total	139,191	34,808	41,659	40,836	21,888

Source: ONS 2015 & 2019 Mid-Year Population estimates - difference table

In Gloucestershire the school numbers on roll increased by almost 4,436 pupils. The growth in primary schools is evident and this pressure is now moving into our secondary sector increasing year by year, although during this period the post 16 numbers fell.

Sector	Overall	Primary	Secondary	Post 16
County total 2015	83,493	44,987	32,080	6,426
County total 2020	87,929	47,908	33,898	6,123
Difference	4,436	2,921	1,818	-303

Source: October School Census Returns in 2015 and 2020

The County Council has a good record of actively planning school places through its annual planning cycle of forecasting, review and change. Every year, the available data is analysed and the areas of greatest basic need are identified for options to expand or change.

Trend-based pupil projections for individual schools across both the primary and secondary school phases are produced annually. The County Council uses health data to track the numbers of births and location of pre-school age children.

Information about expected levels of new housing from the six district councils is also taken into account in the planning but in the past we have not directly included this data in the forecasts. As a result, the forecasts appeared to under estimate the need. We address this by incorporating the housing data in our School Capacity Return (SCAP) to give an overall forecast including housing.

All county councils must inform the Department for Education annually of the net capacity of each school in its area. To this end, schools must inform the Council of any physical change to the buildings that might change the area or capacity measurements. This information is then reported through an annual mid-summer statutory data collection which captures school capacities, pupil forecasts and details of capital spend (SCAP)

The County Council has a good record of actively planning school places to ensure that supply is in line with forecast demand and that parents are given the best possible chance of securing one of their preferences.

The Universal Commissioning Team receive new pupil forecasts in February each year, when we start examining the data to identify action that may be required to provide additional places to meet basic need for September of the following year.

Priority projects are included in the SPS Implementation Plan and officers engage with schools to discuss the findings and explore how additional capacity might be realised. Site visits will establish the suitability of a site for expansion and then architects will carry out initial feasibility studies with indicative costings which are also shared with schools.

Once a scheme is approved in the Council's Schools Capital Programme plans are drawn up in consultation with all stakeholders and planning applications are submitted where required. Capital works are progressed in accordance with the timescales required to deliver additional capacity on a school site ideally at the start of the new academic year (September).

In addition, after the Christmas break, a review of preference data from the Admissions Team is undertaken. We identify the need for any urgent or temporary expansions not already planned for, that have emerged at this point due to a change in patterns of parental preference.

The County Council must follow a statutory process if

- a proposed enlargement to the premises of the school is permanent (longer than three years) and would increase the capacity of the school by:
 - more than 30 pupils; **and**
 - 25% or 200 pupils (whichever is the lesser)¹;
- a proposal involves the making permanent of any temporary enlargement (that meets the above threshold).

There are four stages for a statutory proposal:

Publication, Representation (formal consultation), Decision, Implementation

The authority receives an annual capital allocation from the Department for Education (DfE) for basic need and maintenance.

Where new places are required as a result of new housing developments, it is necessary to look to other funding, specifically developer contributions (S106).

The County Council works closely with all six local planning authorities in relation to S106 and Community Infrastructure Levy (CIL) contributions, which are sought on an individual development basis to meet the necessity tests. In general, contributions relate to the number of children likely to come from the new development multiplied by DfE building cost factors. If there is likely to be sufficient capacity at the nearest school to accommodate all the children anticipated from a development, then this would mean that a request for a contribution would not be justified.

Since 2011, the council has had a programme of expansion in the primary sector although this is now levelling off. Primary school forecasts indicate a decrease in the total pupil numbers by approximately 1872, between the September 2020 forecast and September 2023 forecast for the county as a whole. There are pockets of localised pressure on primary places, in particular in the large urban centres of Cheltenham and Gloucester and to meet new housing. The demand for additional places has now moved into the secondary schools.

The latest forecasts suggest that we will need to continue some further expansion in more urban areas over coming years. Lower cost options, using existing spare capacity in school buildings, are becoming exhausted, leading to increased costs in order to provide additional new build for expansion.

We are currently responding to need arising from strategic housing sites and large urban extensions, seeking S106/CIL funding to provide new primary schools and additional secondary places.

As the majority of schools are full to capacity, increasing numbers of in-year applications continue to prove difficult to address. In 2017/18 2296 in-year applications

¹ As an example: if the proposal is to increase a five-form of entry school with a net capacity of 750 to a six-form of entry school with a capacity of 900 pupils then no proposal is required as although the increase is by more than 30 pupils, it is less than 25% of the current capacity

were received for 1265 places from children previously unknown to the LA, either out of county or from outside of the UK. This equates to approximately one-third of all in-year applications that year. Roughly 75% of all applications are for primary school places. The Council is exploring new models of expansion that would enable a better solution for the growing number of in-year applicants

Primary Pupil Numbers (Areas)

In general, supply is meeting demand for places in the Forest of Dean, and there are a few areas where numbers have been dropping which impacts on the sustainability of smaller schools. In some areas of the Forest of Dean additional places may be required as a result of planned new housing developments. Where we have secured S106 funding, this will be used to increase provision to meet that demand.

Housing development in Tewkesbury town and surrounding areas will also impact on the supply of primary places locally. We have recently completed the expansion at John Moore Primary and Mitton Manor Primary Schools.

Schools in Bishop's Cleeve have expanded to meet the demand from new housing developments locally. Further developments now in the pipe line require a new primary school to be provided.

Large strategic housing developments are impacting on demand in pockets around the Cotswolds, where S106 funding will enable suitable expansions and the provision of new schools. Planning Areas of notable growth are Bourton-on-the-Water, Moreton in the Marsh, Rissington, Fairford and Cirencester.

Following a recent review of school places in the Stroud area, two of the smaller village schools have or are about to be closed which will help maintain the viability of other small schools. There should be sufficient capacity in the local primary schools to meet demand in the area and the large strategic development at Stonehouse (Great Oldbury) is in the process of delivering a new primary school as part of the S106 agreement.

Cheltenham has continued to experience pressure on places. A number of schools have been permanently expanded to meet demand in the South East of the town. Further housing developments are expected to impact on demand but timing of the delivery of these plans can be fluid. Large strategic housing to the West and North West of Cheltenham will be addressed with new schools as part of the S106 agreements.

New housing developments planned for the Tewkesbury planning area that sits close to the Gloucester city boundary at Churchdown, Innsworth, Twigworth and Brockworth are all underway and will provide new schools as part of the S106 agreements. Pressure to the south of Gloucester in Quedgeley, Kingsway and Hardwicke will be met by the new Clearwater and Hunts Grove primary schools as they fill from the impact of further housing. Any further new housing planned will be required to provide new schools.

Secondary Pupil Numbers (Areas)

Secondary school forecasts now show a slight decrease in pupil numbers between the forecast years Sept 2020 and Sept 2025 for the county as a whole. It should again be noted that the impact of new housing is not taken into account in those forecasts. There will be pressure on places resulting from rising numbers in specific localities across the county and in some areas current supply levels will not be sufficient.

In Cheltenham, the demand for Year 7 places has been growing and a new secondary school in Leckhampton is planned to open in 2021.

Year 7 numbers across Gloucester have been rising gradually, with demand exceeding supply in some areas by 2020 and across the whole district by 2023.

In the Tewkesbury planning area, forecasts suggest that intake numbers will increase and exceed available places in 2021 and in 2024 some permanent expansion will be required to ensure parental preferences and attendance at a local school can be met.

We continue to explore options to increase capacity in our secondary sector, with full co-operation of our secondary leadership teams. We have large numbers of secondary pupils coming through from significant housing developments for which we were unable to secure sufficient S106 funding and as a consequence local Academy Trusts have been encouraged to submit bids for new Free Schools.

In the Forest of Dean, the legacy of surplus places means that in most cases, the extra places that will be needed will be accommodated contained within existing schools.

A number of secondary schools have already been expanded or will be expanded to meet expected demand including Cleeve Secondary School, Winchcombe Secondary School, The Cotswold School and the Grammar Schools. The large strategic site to the north of Cheltenham at Uckington will provide a new secondary school as part of the S106 agreement. Demand for secondary places in the Gloucester area is expected to rise gradually throughout the 2020s decade. If all of the proposed housing development is delivered to the expected timescales, then, we will have a shortfall of secondary places and require an extra 6FE on a permanent basis. The Department for Education announced in February 2021 that a Free School funding bid for a new secondary school to the south of Gloucester city has been successful.

Post 16 Numbers

Post 16 places are predominantly within local academy 6th forms or local FE college provision. The number of Post 16 places has reduced for a number of years but with the introduction of new legislation requiring all young people to be in education, employment or training until the age of 19, the numbers are rising again. Demand for High Needs places is also rising.

Conclusion

For the next five years we expect to see an increase in primary places predominantly in more urban areas or to meet new development, although the demand will be levelling off or even dropping in some areas. There will be a continuing rise in secondary places and the Local Authority will continue to monitor pupil forecasts each year and increase availability of places at existing schools or in new schools to meet basic need as currently outlined in the Implementation Plan.

The Local Authority will respond to planning applications as they arise and where we have insufficient capacity in schools.

Context

A1 Statutory duties

Gloucestershire County Council has a statutory duty to plan the provision of school places and to ensure there are sufficient appropriately located places for all 4 to 16-year-old young people in the county. This includes the provision of suitable accommodation to support the promotion of high educational standards, ensuring an admissions process to allocate school places and ensure vulnerable learners get fair access to educational opportunities. The council as the local authority manages the impact of rising and declining pupil numbers and helps to create a diverse community of schools. This document has been prepared as a planning tool to respond to the continuing need to review the number and nature of school places alongside any new housing developments, any changes in the birth rate, migration and in line with any government policy change.

A core ambition of Gloucestershire County Council is that all children and young people living in Gloucestershire are entitled to the highest quality education so that they are able to fulfil their potential. Through the commissioning of school places, as outlined in the School Places Strategy, the aim is to produce an effective match between pupils and places by providing an infrastructure of high quality school buildings and facilities, where all schools, regardless of status, are of an appropriate size and standard to deliver the curriculum effectively.

It should be noted that use of the term 'school' throughout this document refers to schools of all status including Academies, UTC's, and Free Schools etc.

A2 What is the School Places Strategy?

Commissioning is the overall process by which services are planned and delivered. This Strategy pulls together the information required to form a strategic view of the need for mainstream school places across Gloucestershire and provides a revised and updated policy framework for considering statutory proposals (opening, closing and defining the size of schools); implementing new school competition arrangements and encouraging free school proposals where needed; facilitating the development of collaborative and federated arrangements and where appropriate and there is capacity to do so encouraging all through school models.

To be effective, the commissioning process requires the strategic planning of services based on an analysis of need, a set of policies and principles by which decisions will be made and well defined processes for the implementation of proposals. The Strategy therefore sets out demographic trends in Gloucestershire, including a summary of major new house building, details of current school and post-16 provision, an analysis of the latest pupil projections, emerging proposals and guiding policies and principles upon which decisions will be informed.

A3 Who is this Strategy for?

This Strategy is intended to help key stakeholders and partners in Education, including the Local Authority, schools, governors, trustees, parents, the churches, local communities, housing developers, business and other providers of education, to understand what mainstream and specialist school places are needed in Gloucestershire, both now and in the future, and how they might be provided.

A4 Geographical and population context

The planning and organisation of school places in the Local Authority (LA) is a complex task, not least because of the size and diversity of the county.

Gloucestershire is a predominately a rural county, with two large urban areas in Gloucester and Cheltenham. It has a population of approximately 637,070ⁱ, with almost 40% living in these two urban districts; the remaining population is spread across a large rural area. There are 12 areas of Gloucestershire in the most 10% deprived nationally for the overall Indices of Multiple Deprivation (IMD), a decrease from 13 areas in 2015. These 12 areas account for 29,593 people (3.1% of the county populationⁱⁱ).

LSOA (Lower Super Output Area) Name	District	IMD national rank
PODSMEAD 1	Gloucester	621
MATSON AND ROBINSWOOD 1	Gloucester	735
WESTGATE 1	Gloucester	1183
KINGSHOLM AND WOTTON 3	Gloucester	1456
WESTGATE 5	Gloucester	1579

MORELAND 4	Gloucester	2221
St PAUL'S 2	Cheltenham	2368
CINDERFORD WEST 1	Forest of Dean	2729
TUFFLEY 4	Gloucester	2801
MATSON AND ROBINSWOOD 5	Gloucester	2948
BARTON AND TREDWORTH 4	Gloucester	3126

The Armed Forces have some light presence, particularly in South Cerney, Fairford and Innsworth. Currently there are around 2330 serving military personnel, including 380 civilians, based in the county.²

Gloucestershire County Council is a two tier Authority, comprising six district councils. Gloucestershire borders seven counties, **Herefordshire** to the northwest, **Wiltshire** (including Swindon) to the south, **Bristol** (including South Gloucestershire) and **Somerset** to the south west, **Worcestershire** to the north, **Oxfordshire** to the east, **Warwickshire** to the northeast, and the Welsh county of **Monmouthshire** to the west. Gloucestershire is a largely rural area encompassing many natural and historic features which make it distinctive, including Areas of Outstanding Natural beauty, the Royal Forest of Dean, the River Severn, over 1128 listed buildings, over 260 conservation areas. Including all of Cheltenham town, Gloucestershire also includes the Cotswold Way and significant green belt area. Deprivation is generally low and communities benefit from safe environments. Gloucestershire enjoys strong sub-regional links and is within commutable distance of London, Bristol, Swindon, South Wales and the south coast. Gloucestershire is made up of two large urban settlements, several market towns and numerous villages and small settlements reflecting the rural nature of the county. The two large settlements are the historic cathedral city of Gloucester to the west of the county and the Spa Town of Cheltenham to the east of the county.

Gloucestershire has a considerable variety of school buildings in terms of age and type. The Designation of Rural Primary Schools (England) 2014 Order came into force on 1 October

² Mid year population estimates 2019

ii Overall index of Multiple Deprivation 2019

2014 which determines that 90 of Gloucestershire's primary schools are 'rural' with a presumption against their closure.

A5 Major contextual issues

Gloucestershire County Council faces two specific issues in managing school places:

- The demographic trend in the school population age range is largely driven by the birth rate – births in Gloucestershire averaged approximately 6612 births per calendar year between 2009 and 2019.
- The pressure on primary school places since 2012 has been significant and will continue to be so as the higher numbers feed through primary and secondary education. These figures do not account for the high number of children moving into the county due to migration, house moves, army relocations etc. All these issues are covered in more detail under the School organisation and planning issues section of the document.
- Significant housing development across the county – 42,730 new homes delivered across the county between 1992 and 2009/10. The six district councils have varying timescales for future delivery of additional housing up to 2031. The Joint Core Strategy (JCS) has outlined a further 35,446 homes, of these 14,360 for Gloucester, 10,917 for Cheltenham and 10,169 for Tewkesbury between 2011 and 2031. Stroud have published the need for 11,400 new homes between 2006 and 2031. Cotswolds have published the need for 9614 new homes between 2011 and 2031 and Forest of Dean have published the need for 6200 between 2006 and 2026. Many of these developments are predominately concentrated around the outskirts of the two urban areas however there are pockets of new development being approved in more rural towns and villages in particular in the Cotswolds, resulting in the need for additional school places or the take up of remaining surplus places. The timing of some of these developments is uncertain but the extent of housing is detailed in the District plans for Stroud, Cotswold and Forest of Dean together with the Gloucestershire JCS which covers Cheltenham, Tewkesbury and Gloucester .

Gloucestershire County Council, the Diocese of Gloucester and Clifton, the Education and Skills Funding Agency (ESFA) and the governing bodies/trusts of schools and academies are all key partners and have important roles in school place planning. With 295 schools and nearly 88,000 pupils to consider, finding workable strategies for planning sufficient school places is demanding and challenging for all concerned.

Planning for school places is based on probabilities and while pupil projections are derived from sound data and methodology they are often influenced by external factors such as sociological and economic changes, parental preference for certain schools, new Government policy and the need to raise standards. Planning must also respond to internal and external findings on the quality of schools as well as the need to ensure that limited resources are used efficiently.

Gloucestershire County Council will need to respond to changes in demand over time by:

- Negotiating the expansion of (or increasing the PAN of) existing schools and academies (where sites allow)
- Commissioning new schools as academies/free schools
- Improving facilities at existing schools (when resources are available)
- Reducing places at existing schools to ensure that provision matches demand

- Closing and amalgamating schools as well as facilitating federation when numbers fall.

The School Places Strategy provides comprehensive information on school place planning in the county and outlines how the local authority, in securing the provision of primary, secondary and special education, will support the promotion of:

- Raising standards
- Improved outcomes for all pupils
- Diversity of provision
- Increased collaboration between schools
- Greater community cohesion.

The Strategy provides the context for the future organisation and commissioning of school places in each secondary school pyramid - defined as the primary schools which feed into a specific secondary school or town - or Multi Academy Trust in Gloucestershire and sets out the principles needed when planning school places. It will help Gloucestershire schools, academy trusts, sponsors, parents and local communities to understand the rationale behind the provision of school places and establish future demands. The Strategy will be reviewed and updated biennially to ensure provision continues to be matched with demand.

The anticipated scale of expansion of population in Gloucestershire will require the review of school provision in a number of areas. The timescale and order of priority for such reviews is significantly influenced by the districts individual housing strategies, changes in the birth rate and migration etc.

B Policies and Principles Relevant to the Provision of School Places

B1 Corporate Aims

Gloucestershire County Council's vision is to improve outcomes for children and young people in Gloucestershire, in particular vulnerable children, to promote safeguarding, reduce the effects of child poverty and enable resilient individuals, families and communities.

Gloucestershire County Council states that more children and young people will be educated in high quality buildings as a result of the implementation of the vision. This can only be achieved by careful management of the estate, of school place supply and of funding streams such as:

- Maintenance and Basic Need capital allocations
- Targeted Capital e.g. Priority School Building Programme (PSBP)
- School contributions and Devolved Formula Capital funding
- Developer contributions – Section 106, CIL and other capital receipts.

B2 Principles of School Place Planning

Pupil Forecasting - How we project pupil numbers

The County Council has a good record of actively planning school places to ensure that supply is in line with forecast demand and that parents are given the best possible chance of securing a place at one of their preferred schools. The planning cycle - the process of forecasting, review and change – is a continual one.

The County Council produces pupil projections for individual schools across both the primary and secondary school phases. Bespoke automated systems generate figures in the early stages of the process. To inform the process of forecasting primary school numbers, the County Council uses health data to track the numbers of births and location of pre-school age children across the county.

The pre-school age population is projected into primary school rolls according to trend-based intake patterns at each school.

Secondary school forecasts are calculated by projecting forward the Year 6 cohort, also according to trend-based intake patterns. If the size of the Year 6 cohort is forecast to rise, the projected Year 7 cohort size at Secondary schools will also be forecast to rise.

Pupil forecasts are compared with school capacities to give the projected surplus or deficit places. It is important to note that where a deficit is identified within the next few years, work will already be underway to address the situation.

The forecasting process is trend-based, which means that relative popularity and intake patterns from the previous five years are assumed to continue throughout the forecasting period. The annual refresh offers an opportunity to take account of recent changes in these trends.

The County Council receives information from the six district councils about expected levels of new housing through the yearly Housing Audits and local Core Strategies. This is the most accurate reflection of short, medium and long term building projects at the local level. Where a large development is expected, compared with little or no previous housing-building in the area, a manual adjustment to the forecasts may be required to reflect the likely growth in pupil numbers more accurately.

The pupil yield rate is the expected number of pupils generated by new house-development. We have recently commissioned an independent review of our pupil yields, endorsed by a number of local housing developers, this has evidenced that the number of children arising from new developments has increased substantially.

We have therefore amended our pupil ratios and will be applying the new pupil yields from January 2021 as follows.

The pupil yield from housing developments across the county will be applied for each 100 dwellings as follows:

- 30 Pre-school children
- 41 Primary school children
- 20 Secondary school children (11-16)
- 7 Post 16 children (17-18)
- Children with SEND

Forecasting future demand for school places can never be absolutely accurate given the broad assumptions which have to be made about movements in and out of any given locality, the pace of individual developments, patterns of occupation and not least the parental preference for places at individual schools. This will be a function of geography, school reputation, past and present achievement levels and the availability of alternative provision, hence the need to review on an annual basis.

In areas where pupil numbers are increasing the LA will identify where additional places may be required, either by expanding existing schools or by commissioning new schools on new sites within the community.

As a local authority (LA), Gloucestershire County Council is responsible for planning and providing sufficient school places in appropriate locations. To do so the LA must monitor the supply of school places against forecasts of future demand. The size of the revenue budget for distribution to all schools is determined by pupil numbers. This means that where pupil numbers reduce schools may have insufficient budget to maintain standards and retain and recruit teachers, particularly head teachers. By taking out surplus places and facilitating the closure or amalgamation of schools that are unviable, the LA can ensure effective overall provision within an area and within the school system.

School place planning and ensuring schools are of the right size for the future enables (where appropriate) surplus space to be considered for alternative uses, including community purposes, although surplus space in our urban areas is almost non-existent. Accommodation released can be re-allocated to a wide variety of purposes including additional early years and childcare places, health care, libraries, adult and children's services bases and community facilities.

Falling rolls in some rural areas have already necessitated the closure or amalgamation of some village primary schools. The LA would consider the concept of 4 to 19 'All-through' schools to serve some areas, particularly where numbers of secondary pupils are low and a local school could serve the whole community or where school sites are more limited. Where possible the use of extensive transport to alternative schools will be avoided so that our limited funds can be devoted to other educational purposes.

The LA will, in all cases, consult with the head teacher, staff, governors, academy trustees, the relevant Diocesan Authority (where appropriate) and the local community where any major re-organisation or closure of provision is proposed. Such factors as the number of available and required places, school performance, the condition and suitability of the school buildings as well as parental choice, community issues and resources available will be considered in respect of both general and specific place planning.

B3 School Performance

Raising achievement for all learners is one of the key priorities for the LA and all school planning decisions should support and promote the improvement of educational standards. This means that the performance of an existing school, or group of schools, is an important factor to be taken into consideration when proposals to add or remove capacity or make other structural changes are being formulated. Any proposals for reviewing school organisation will take account of OFSTED inspection reports and other relevant performance data on the school(s) involved. Although in some more rural areas there may only be one school to serve the community.

The LA works with head teachers and governors to ensure that schools and settings are supported in the development and planning of facilities in the form of information, advice and guidance to improve outcomes for young people and support high quality learning.

B4 Place Planning - School Planning Areas

The planning of school places in Gloucestershire is based on the geographical areas defined by the secondary school catchments and feeder schools aligned to them. These are the same demographic planning areas that the council is required to report on annually to the Department for Education (DfE) to inform future capital basic need allocations.

Place planning can be influenced by parental preference in terms of selecting a school. Applications for school places are considered in line with the relevant Admission Authority Admission Policy and over-subscription criteria.

B5 Access and Diversity - Categories of schools

Gloucestershire has a wide diversity of mainstream school provision with:

- Community schools (infant, junior, primary, secondary and special)
- Voluntary Aided schools (primary and secondary)
- Voluntary Controlled schools (infant, junior and primary)
- Foundation schools (infant, junior, primary and secondary)
- Academies/Free Schools (primary, secondary, special, UTC and Post 16).

As at October 2020 there are 196 maintained schools and 99 academies/free schools in Gloucestershire giving a total of 295 schools overall. The table below gives a breakdown of schools in Gloucestershire by category.

Category	Primary	Secondary	Special	Total
Community	85	1	4	90
Foundation	15	4		19
Academy	56	34	6	96
Voluntary Aided	38			38
Voluntary Controlled	49			49
Free School		1(UTC)		3
Total	245	40	10	295

Encouraging Diversity

The County Council is committed to providing children and young people with equal access to high quality education provision. It recognises that local communities are diverse and supports the local management of schools to help reflect this diversity. Schools need to serve their local community so if the needs of the community are best served by some specialisation or federated/trust type governance then the County Council will support it. Gloucestershire County Council is committed to maintaining the current diversity of provision and extending it where possible.

The development of new schools, including the academy conversion programme, is co-ordinated by members of the Universal Commissioning Team. The County Council is supportive of schools as self-governing institutions and is committed to raising standards. The LA believes if schools can work collaboratively with other schools to improve the life chances of all children and young people within the local area then this will support the raising of standards.

The current pattern of school provision includes several schools with a religious foundation and/or background. The Diocesan authorities work closely with Gloucestershire County Council in the planning of school places to provide opportunities for parents to express a preference for denominational education.

B6 Re-organisation of Schools

Primary Schools

The preferred size for new primary schools is within the range of 420 places to 840 places (2FE to 4FE) and Gloucestershire County Council will only seek to open new primary schools of full or half forms of entry.

Where a new primary phase school is required this will be built as an all through primary school, rather than separate infant or junior schools. The County Council will continue to seek opportunities to amalgamate separate infant and junior schools where the combined numbers are less than 420 and the sites lend themselves to a single institution.

The County Council recognises the government's presumption against the closure of village schools and will only bring forward proposals to close a village school where it can be demonstrated that one or more of the following criteria can be met:

- There is only very limited demand for places at the school from children living within the designated area.
- Surplus places at the school exceed 25%.
- Standards are low and there is little confidence in the likelihood of improvement.
- Recruitment of a head teacher has not proved possible.
- The necessary improvements to the school accommodation are either not possible or not cost effective.
- The school has a deficit budget without realistic prospects of recovery.

For all schools with fewer than 90 pupils on roll Gloucestershire County Council will actively encourage the governors of the school to consider further collaboration and ultimately federation or amalgamation with one or more neighbouring schools or by joining a Multi Academy Trust.

Secondary Schools

The optimum size for an 11 to 16 secondary school is 900 (6FE) to 1,200 (9FE) pupils. Gloucestershire County Council however recognises that provision in some communities may fall outside the ideal size of secondary school and demand for additional places could be met either by expanding existing schools, if there is sufficient capacity on the site, or by new provision located within a new housing community.

Gloucestershire secondary school provision includes grammar or selective and two faith schools as an option for students transferring to Y7. In the autumn term, Y6 pupils are invited to sit an entry test for grammar schools. There are five selective single sex grammar schools and two selective co-ed grammar schools in Gloucestershire places are open to all students both in county and across county borders, subject to meeting the criteria.

All of the grammar schools have recently increased in capacity and there are now a total of 1,050 selective places in Year 7

The schools are:

- Pates Grammar School (Co-educational) – Cheltenham
- Marling School (Boys) – Stroud
- Stroud High School (Girls) – Stroud
- Denmark Road High School (Girls) – Gloucester
- Ribston Hall High School (Girls) – Gloucester
- Sir Thomas Rich's School (Boys) – Gloucester
- The Crypt Grammar School (Co-educational from 2018) – Gloucester

Gloucestershire secondary provision also includes a Catholic secondary school located in Gloucester which attracts pupils from across the county, subject to meeting the admission criteria. All Saints' Academy in Cheltenham is a Church of England school sponsored by the Diocese of Gloucester it has a non-selective admissions policy, admitting pupils of all faiths and none. The mix of secondary provision on offer to Gloucestershire pupils and also pupils from out of the county adds to the complex process of forecasting and planning for school places at Y7 intake.

Special Schools

Special schools need to be of sufficient size to provide appropriate facilities and opportunities to meet the needs of the range of pupils they admit and to act as resource and outreach centres for other schools and pupils. Their size will depend on the age range of pupils and the type/nature of special educational needs that they cater for. Work is currently ongoing to review special needs provision across the county to ensure future demand can be met moving forward.

There are currently 10 maintained special schools and academies in Gloucestershire. These have been commissioned to capacity to provide 1339 places across the county. A new 75 place special school to meet the needs of pupils between the ages of 11 and 16 with SEMH (Social, Emotional and Mental Health) needs is being developed for opening in 2022. This is in response to a rising need in this area in the county. Expansion work is currently underway at Alderman Knight School in Tewkesbury to provide 10 additional places for complex pupils and plans are also underway for Heart of the Forest Community School, Coleford to provide support for 10 SEMH primary pupils.

Further information on specialist provision can be found in GCC's SEND Commissioning Strategy, which is available at the link below

www.gloucestershire.gov.uk/media/2094439/approved-send-commissioning-strategy-jan-2020.pdf

School Size

Whilst the County Council does define optimum sizes for schools it recognises that there will be many schools falling outside this range which provide excellent education. Factors that can affect the size of a school include local population, site constraints, availability of funding and deployment of revenue resources.

Gloucestershire County Council will plan to provide school places in schools of sizes which promote:

- Sufficient curriculum coverage and, where appropriate, adequate curriculum choice
- Viable and sustainable schools which do not require disproportionate financial support and may attract DFE capital funding
- Viable class organisation structures
- Adequate non-contact time for staff
- Meet the needs of the local community

B7 Academy Free Schools

Academy free schools are publicly funded schools which operate outside of council control. A key difference is that they are funded directly by central government, instead of receiving their funds via the council.

Some academy free schools are sponsored, while some schools simply converted to academy/free status without a sponsor. From the point of view of the county council, all academies and free schools form part of our overall school provision and in that sense, they are no different from the maintained schools. The County Council coordinates the admissions system and allocation of places for all schools, including academies.

Academy free schools will be eligible to receive S106 developer contributions but will be required to adhere to the established protocol with regard to the use of the funding.

Where the LA considers there is a need for a new school in its area it must seek proposals to [establish a free school](#). The LA is responsible for providing the site for the new school and meeting all associated capital and pre-/post-opening costs. All new free school proposals require the Secretary of State's approval and it is the Secretary of State who will enter into a Funding Agreement with the sponsor.

The Secretary of State will consider the assessments and preferences of the LA carefully before determining and approving the preferred sponsor for the new school. However, he reserves the right to put in place a sponsor of his own choice.

The role of the Regional Schools Commissioner

The Regional Schools Commissioner (RSC) for South-West England is responsible for making decisions about the academies and free schools in Gloucestershire.

RSCs are responsible for approving and monitoring academies and free schools in their area on behalf of the Secretary of State for Education.

Their main responsibilities are to:

- monitor the performance of the academies in their area
- take action when an academy is underperforming
- decide on the development of new academies
- address underperformance in local-authority-maintained schools through sponsored academy arrangements
- make recommendations to ministers about free school applications
- encourage organisations to become academy sponsors
- approve changes to open academies, including:
 - changes to age ranges
 - mergers between academies
 - changes to multi-academy trust arrangements

When the LA is seeking to establish a new school in their area, they must seek expressions of interest from parties who would like to be the sponsor of that school. The LA can make recommendations to the RSC of their preferred sponsor from those who have expressed an interest, but the decision is ultimately his/hers on behalf of the Secretary of State.

An academy is a public funded independent school; (not maintained by a LA) accountable to the Department for Education (DfE) and funded directly by the Education and Skills Funding Agency (ESFA). Academies directly employ staff and have freedoms to set their own pay and conditions of service, are free to deliver the curriculum as they see fit and can vary the length of school terms and the length of the school day. Academies must follow the same admissions guidance, exclusion processes and meet the statutory processes for pupils with Special Educational Needs (SEN) however they may set their own admissions criteria. Academies are inspected by OFSTED using the same framework as other state funded schools.

The LA works closely with the Regional Schools Commissioner to ensure all new school proposals including bids for new Free Schools are supported by approved academy trusts that understand the needs and aspirations of the community.

B8 Location of New Schools

The fundamental aim in planning school places is to provide places near to where children live, to meet parental preferences as far as possible; to locate schools at the heart of their communities and to minimise travel to school distances. Gloucestershire County Council believes that where additional school places are needed because of new housing development, as far as possible the costs should fall on the landowners and/or developers, by way of contributions falling within the concept of planning obligations. Gloucestershire has an agreed methodology for calculating the infrastructure needs arising from new development and a policy for requesting contributions from developers and for the use of such funding is in place.

It is Gloucestershire County Council policy that new primary schools should be provided, wherever possible, within major new housing developments. The site should ideally be within a 2 mile walking distance of most of the development and Gloucestershire County Council will seek, through the planning processes, to provide for safe routes to school for pedestrians and cyclists. Sites of a suitable size for future expansion if required will be sought, this may require the LA to purchase additional safeguarded land in addition to the land supplied by the developer to ensure that the school can be expanded in the future to maintain the location where the school can provide a natural focus for the local community, possibly in association with other local facilities such as shops or other community buildings.

Where a new secondary school is planned, a site will be sought that provides safe pedestrian and cycling routes and, because of the longer distances travelled, good access for those pupils arriving by public and school transport. To discourage the use of private cars, schools are expected to prepare and maintain a Travel Plan. Again additional land may be sought to futureproof any expansion needs.

Gloucestershire County Council recognises the importance of considering distance of travel from home to school when planning new developments to reduce dependence on subsidised bus travel and encourage safe walking and cycling to school.

Home to School Travel

Gloucestershire County Council has a statutory requirement to ensure that children aged 4-16 are able to access compulsory school age education. Transport assistance for most students aged over 16 is a discretionary provision. Different arrangements are in place for children with special educational needs, where support with travel to school is stated in their Education and Health Care Plan (EHCP).

To meet this requirement Gloucestershire County Council will encourage the use of walking and cycling. Where this is not an option Gloucestershire County Council's 4-16 Home to School Transport policy will provide bus passes to entitled children who are able to travel to a maintained school or academy by public transport. Students aged over the age of 16 years are not entitled to receive free transport to their school/college. However, Gloucestershire County Council will continue to meet best practice expectations set out within Home to School Travel and Transport Guidance.

More information on the Home to School Transport Policies can be found at www.gloucestershire.gov.uk/transport/school-and-college-transport.

The key challenges that Gloucestershire County Council has in terms of providing access to compulsory education are summarised as follows:

- Providing truly flexible choices for young people is a challenge for the Council
- Managing down the costs of school transport within the context of a growing population and increasing fuel costs
- Ensuring new housing growth areas are well connected by walking and cycling routes (where appropriate) to minimise demand on school services provided under statutory regulation
- Encouraging young people to take up active modes where convenient as a substitute for car use through means such as Safer Routes to School, Bike It and cycle training. This will help form positive lifetime travel habits amongst the future generation

Expected Policy Outcomes

The implementation of the Home to School Transport policy will ensure that all children in Gloucestershire are able to access compulsory school age education, which will result in a reduced reliance on the private car for school drop offs and increased use of more active and sustainable forms of travel which will develop into positive travel habits that will continue on with the next generation of transport users in Gloucestershire.

Detailed information can be found at the following links

The overarching strategy can be accessed

here: <https://www.gloucestershire.gov.uk/transport/gloucestershires-local-transport-plan-2015-2031/overarching-strategy/>

The bus policy document here:

<https://www.gloucestershire.gov.uk/transport/gloucestershires-local-transport-plan-2015-2031/bus/>

B9 Capital Investment

It is recognised that pupils benefit from high quality learning environments and equipment. Capital investment priorities are based on requirements to:

- Provide sufficient places to meet the needs of local communities
- Provide healthy and safe environments
- Meet curricular and organisational needs
- Enhance physical access to buildings
- Replace temporary accommodation with permanent where possible
- Implement key strategic initiatives.

Gloucestershire County Council uses condition surveys alongside net capacity assessments to determine investment priorities for the schools it remains responsible for. Where basic need expansion is required, government grant, council resources and developer contributions are used to fund the necessary capital investment alongside any centrally acquired monies through a national bidding process. Capital resources are however becoming increasingly stretched. Condition work in Academies and Free Schools is no longer the responsibility of the Local Authority and these schools receive capital funding direct from the ESFA.

At present, there are two main funding streams allocated by Department for Education (DfE) for school building projects - one which is solely for maintenance (Condition funding) and the other is for the provision of additional pupil places (Basic Need). The Priority School Building

Programme (PSBP) is a separate Education and Skills Funding Agency (ESFA) funding stream which invites bids for the replacement or substantial refurbishment of schools in the worst condition. We are currently awaiting information from the DfE following the latest Comprehensive Spending Review, on any new capital funding plans. .

B10 Accessibility of School Buildings

Improving access to education and securing educational achievement for pupils with a disability is essential to ensure equality of opportunity, full participation in society, access to employment opportunities and inclusion within mainstream schools.

Gloucestershire's inclusion vision is that every disabled child and young person in the county should achieve their potential educationally, socially and in their personal life. The Accessibility Strategy is a core component in realising this vision. It is available at the link below

<https://glostext.gloucestershire.gov.uk/documents/s61004/Accessibility%20Strategy%202020-22%20Appendix%201.pdf>

Gloucestershire County Council is committed to increasing the accessibility of schools, wherever possible and where reasonable adaptations can be made, for wheelchair users and pupils with sensory impairment.

This does not mean however that every school will be fully accessible as older buildings may not be able to be adapted for full access. All new schools are designed to be fully accessible in line with latest DDA legislation and guidance.

B11 Special Schools

It is acknowledged that there has been increasing numbers of children and young people in Gloucestershire who have an Education Health and Care Plan (EHCP[1]) and this number is expected to continue to rise due to a combination of population growth, improving medical care for children with complex health issues and increasing numbers of children being diagnosed with additional needs or on the autistic spectrum.

The aim of Gloucestershire County Council is to provide the required level of support for as many of young people as possible within mainstream settings and within the child's local community. Where this is not possible, suitable special school provision will be made available.

Further detailed information on SEN specialist commissioning and place planning, can be found by following the link below

www.gloucestershire.gov.uk/media/2094439/approved-send-commissioning-strategy-jan-2020.pdf

B12 Provision for Permanently Excluded Students

Gloucestershire County Council has a duty to ensure that any child permanently excluded from school has access to full-time education through alternative provision.

In Gloucestershire we have 3 Alternative Provision Schools (APS) to meet this duty: Gloucester & Forest APS (GFAPS), Cheltenham & Tewkesbury APS (CTAPS) and Stroud & Cotswolds APS (SCAPS). Places are commissioned to meet the needs of excluded children and, in exceptional circumstances, for those whom no other maintained school provision can be secured. In the 2019/20 academic year we commissioned 216 places at the APS.

The High Needs Strategy and the SEND Commissioning Strategy both identified that the APS structure and the offer required some change. The guiding principles for this include lower level of provision for primary aged pupils (following a new approach to meeting the needs of children on the verge of exclusion within primary school clusters/hubs), a more focused APS offer assisting children to return to mainstream school in a planned way, and a longer-term alternative provision option for those excluded children who require a different pathway to mainstream KS4 education.

Provision for primary aged pupils will now be offered on different sites to that of secondary pupils and two sites have been identified and are currently being developed. Further information on GCC's High Needs Strategy and SEND Commissioning Strategy can be found via the link below

www.gloucestershire.gov.uk/media/2094439/approved-send-commissioning-strategy-jan-2020.pdf

B13 Expansion of Schools

DfE guidance gives a strong emphasis towards the expansion of successful and popular schools where possible. Gloucestershire County Council is committed to examining ways of increasing parental choice in school admissions and ensuring places are located where parents want them, ideally serving the local community. In a more rural county, it can sometimes be difficult to provide diversity, when there is only one school serving a local community, however, as the population continues to grow, the council will seek to meet the increasing demand wherever school places can be expanded or provided new in local communities.

B14 Schools in the Wider Community

Gloucestershire County Council recognises that schools should act as a focus for the local community in a way that extends beyond the education of children who attend the school. The council recognises the importance of schools engaging with their local communities to promote social inclusion and community cohesion as an integral part of ensuring success for all children. This is particularly important for communities with a high proportion of vulnerable families.

In co-operation with agencies and other organisations, many schools have facilities which are made available to the wider community including sports and leisure complexes, ICT facilities, playgroups, childcare facilities, adult education and youth provision. School facilities are increasingly being made available for evening, weekend and holiday use making more effective use of the resources available.

B15 Admissions Policy - Access to Education

Admissions Policy

The Coordinated Admissions Team administers Gloucestershire's admissions scheme when children start Reception class, move from Infant to Junior and move from Primary to Secondary School.

All applications to move school at any other time are called 'In Year' admissions, and these applications are managed by schools directly, and the Access to Education In Year team at Shire Hall will offer advice and guidance to parents and schools. The In-Year team also works in conjunction with schools and alternative provision school providers with the admission of hard to place pupils under the Fair Access Protocol, which is used to ensure these pupils are placed in a school quickly and with the appropriate support.

There is a wide range of admissions authorities as each academy, free, foundation or voluntary aided schools determine their own Admission Policy. The Admissions Team co-ordinates all applications to place more than 17,000 children in schools each year, including those moving into the county. The In-Year team processes up to 6,500 applications per year. The knowledge, understanding and data that the team holds contributes to successful school organisation and place planning. Admissions statistics, produced annually, are used to support the school place planning process, ensuring that sufficient places are provided to meet parental preference where possible.

Admissions authorities, including the LA, must have regard to the Admissions Code in determining their admission arrangements, which includes expansions and contractions of school capacities. Up to date details of the Gloucestershire schools' admissions processes can be found on the Gloucestershire County Council website via the following link:

<https://www.gloucestershire.gov.uk/education-and-learning/school-admissions/>

B16 Early years and childcare

In Gloucestershire, all three and four-year-old children are currently entitled to 30 hours funded part-time nursery education if parents are working.

Funded places are available in a range of settings such as pre-schools, full day-care nurseries, independent schools, private nursery schools and with childminders. Access to funding early education by providers is dependent on the setting's OFSTED judgment. Settings can be school located or privately run and many preschools in Gloucestershire are run by the voluntary sector. They are often situated on school sites and use is also made of local facilities such as community and church halls and through private accommodation. The government also provides part-time education for the most disadvantaged two year olds in the county and 68% of eligible 2 year olds claimed 15 hours' funded early education per week in summer term 2020.

B17 Post 16 Provision

Gloucestershire County Council has a statutory duty to commission sufficient and suitable education and training provision to meet the reasonable needs of all young people in their area, by influencing and shaping provision through local partnerships and by identifying gaps, enabling new provision and developing the market. The young people covered by this statutory duty are those aged 16-19 and those aged 19-25 who have a learning difficulty and/or disability and are the subject of an EHCP.

There are a number of Post 16 settings situated within Gloucestershire:

- Three FE colleges including one sixth form college (16-25)
- 26 Mainstream School Sixth Forms (16-19)
- Three Maintained Special School Sixth Forms (16-19)
- One University Technology College (14-19)
- Three Special Post 16 Institutions (16-25)
- Three Private Partnership Post 16 Training Providers (16-25)

In addition, Gloucestershire County Council commissions a small number of places at independent special schools to meet the needs of young people with profound learning difficulties.

Gloucestershire County Council is committed to working in partnership with all providers to review and develop education provision in the county. Collaborative projects between schools, academies, college and work-based learning providers will continue to underpin this approach in Gloucestershire.

In all cases the aim of the Gloucestershire County Council will be to develop plans which ensure adequate, high quality facilities are available to support learners aged 14 to 19 (25).

C School Organisation and Planning Issues

C1 Influencing Factors

The key factors likely to have the greatest influence on managing school places across the county over the next 5 years include the birth rate, housing development, home education, COVID, internal and overseas migration and the presence of the Armed Services in Gloucestershire.

Birth Rate

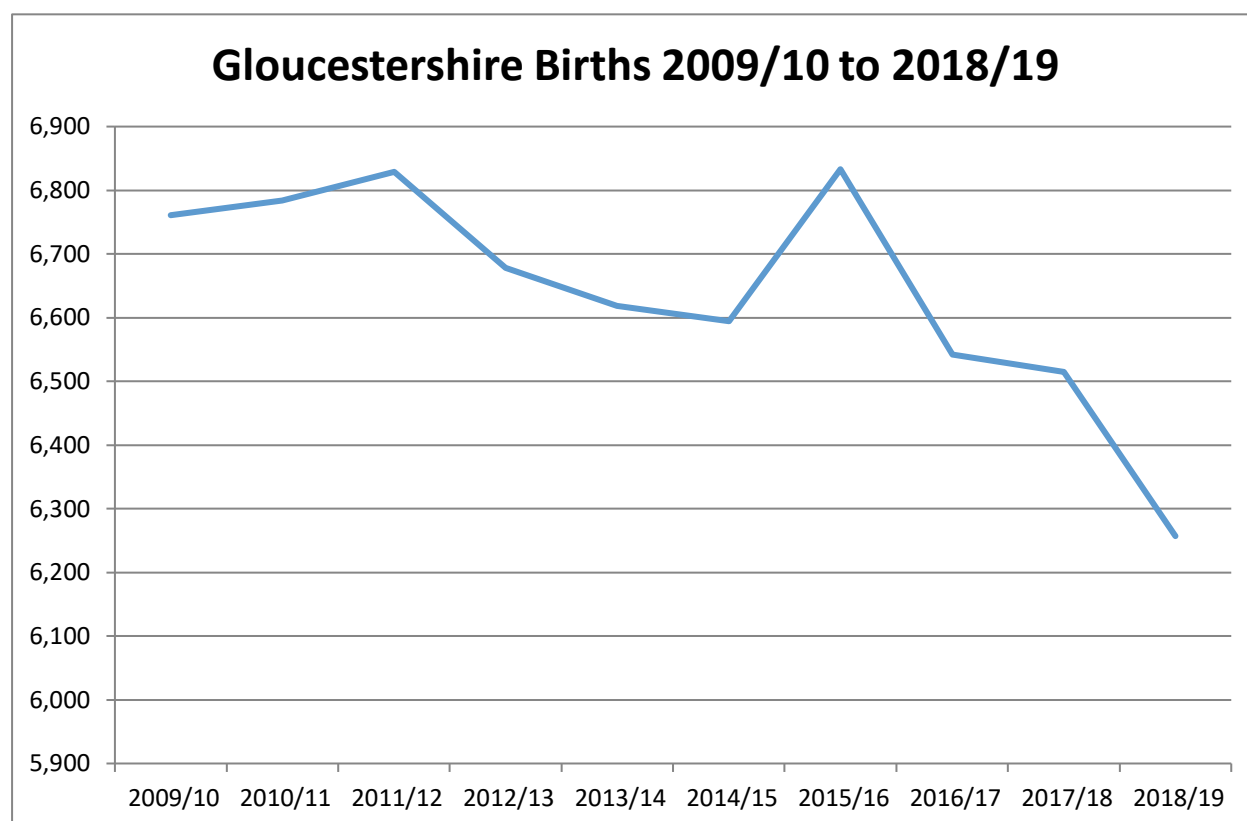

The demographic trend in the school population age range is largely driven by the birth rate, and similarly to national figures the number of births has generally increased since 2007.

Births in Gloucestershire averaged 6,641 births per year between academic years 2009/10 and 2018/19, with high numbers in 2011/12 and 2015/16. The pressure on primary school places since 2011 has been significant and will continue to be so for foreseeable future as the high continuing high birth figures feed through to primary schools. In addition, the oldest children from these peak years began to feed into secondary education from September 2016.

There has been an apparent reduction in the reported birth rate for 2019/2020, but it is apparent that there was a large step-change in the numbers recorded in Spring 2020 at the time of the first national lockdown relating to the COVID pandemic. It seems likely that much of the reported change is due to a delay or reduction in the number of children registered with their local GP practice during lockdown. This affects forecasts of the number of children expected to start school in Reception in 2024, and the numbers will be reviewed in the next two annual forecast updates.

Year of birth	2009/10	2010/11	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17	2017/18	2018/19
Number	6,761	6,784	6,829	6,678	6,618	6,594	6,833	6,542	6,515	6,257

Source: ONS Live Births

Comparison - Births to NOR

Year of birth	Number of births	Year of entry	Reception pupils	Reception numbers as a % of births
2006/07	6,435	2011/12	6,202	96.4
2007/08	6,767	2012/13	6,544	96.7
2008/09	6,492	2013/14	6,449	99.3
2009/10	6,761	2014/15	6,672	98.7
2010/11	6,784	2015/16	6,770	99.8
2011/12	6,829	2016/17	6,894	101.0
2012/13	6,678	2017/18	6,730	100.8
2013/14	6,618	2018/19	6,594	99.6
2014/15	6,594	2019/20	6,530	99.0

It is interesting to note that that in 2016 and 2017 Reception entry figures have been higher than the corresponding birth figures. Prior to that there were fewer which was assumed to be as a result of parents choosing home schooling and independent schools.

Housing Development

The Joint Core Strategy supporting Cheltenham, Gloucester and Tewkesbury districts along with the individual local plans of the three other districts of Stroud, Cotswolds and Forest of Dean sets out the housing totals and phasing for each community area. The density of housing development varies considerably across the county as outlined in the table below:

Locality	Number of Houses Allocated in Local Plans and JCS
Lydney	1900
Coleford	650
Rest of Forest of Dean across 6 sites	827
Cinderford / Ruspidge Northern Quarter	1050
Innsworth/ Twigworth	2295
South Churchdown	1100
North Brockworth (Perry Brook)	1500
North West Cheltenham (Elms Park)	4285
West Cheltenham	1100
Winnycroft	620
Leckhampton (Farm Lane)	377
Stroud Gloucester Fringe (Hunts Grove)	2500
West of Stonehouse	1350
Berkeley	300
North East Cam	450
Stroud Valleys across 7 sites	450
Chesterton	2350
Moreton	400
Bourton on the Water	300
Fairford across 5 sites	400
Mickleton across 3 sites	200
Rissington	368
TOTAL	24,772

The scale of the programme of work required to provide additional school places for the houses identified above should not be underestimated 24,772 (approx. 21,000 yet to be built) dwellings across the county roughly represents 10,157 primary and 4,955 11-16 places and 1,734 post 16 places secondary places across Gloucestershire in the period from 2006 to 2031 based on current pupil product ratios.

In addition, the council is aware of other large developments that could come forward which are not in the current local plans, whilst these may or may not come to fruition the information we have, should they happen, will help us to make more strategic decisions around securing land, ensuring Gloucestershire County Council owned land is kept available and looking at future proofing new schools by ensuring the site size is sufficient for the school to expand in the future. We are also in early discussions with the City Council regarding the impact of two potential and significant regeneration projects in the city. All four local plans are at various stages, the JCS has recently been adopted which covers three county districts, Stroud's

Local Plan has just been updated, as has the Cotswolds Plan with the Forest of Dean plan adopted in 2012.

It is important that we work with local planning districts on their housing allocations as this is required for annual national statistical returns on school places (SCAP). In producing the pupil forecasts for each area, account is taken of known housing allocations and planning permissions. It must be recognised, however, that the actual rate at which new housing is built depends on a mixture of economic and social factors. In forecasting the likely additional pupil product from such new housing, account will therefore need to be taken of changes in the age and household composition of the population and varying build out rates.

C2 Population Overview

Gloucestershire is predominantly a rural county, but has the two significant urban areas of Cheltenham and Gloucester. The approach of the LA to school place planning must therefore be designed to support dispersed populations in rural areas, those resident in small towns and the larger populations concentrated in the urban areas. The tables below show there has been a significant increase in both Gloucestershire's overall demographic population and that of school populations since 2014 with further increases projected. The effect of the upturn in the economy following the most recent recession and its impact on the housing market, and thus population mobility, will continue to be monitored throughout the period of this plan. The growth has been more significant in the primary phase for the past few years however that growth is now moving into the secondary phase and we will now need to expand secondary school places.

Gloucestershire total population overview

Year	2014	2015	2016	2017	2018	2019	Difference 2014-2019	% Difference 2014-2019
Totals	611,739	617,527	623,094	628,139	633,558	637,070	25,331	4.14%

Source: School Census, Gloucestershire Schools - October 2019

A larger 'bulge' in births a few years ago led to pressures on primary places. Increases in primary pupil numbers have been managed since 2011. The overall increase in numbers will continue until at least 2028.

These pupils are now moving up through the secondary schools which are now presenting pressures to secondary admissions.

Overall numbers in primary schools have been increasing since 2011; by 2025 they are forecast to be close to 47,000 an increase of 0.4% since 2011.

Gloucestershire County Council recognises the changes in birth rate and the need to plan for the extra places where there is no capacity, but will keep places under constant review as the full impact of a changing birth rate, migration and more housing becomes clearer.

Secondary school numbers by year group as at October 2019

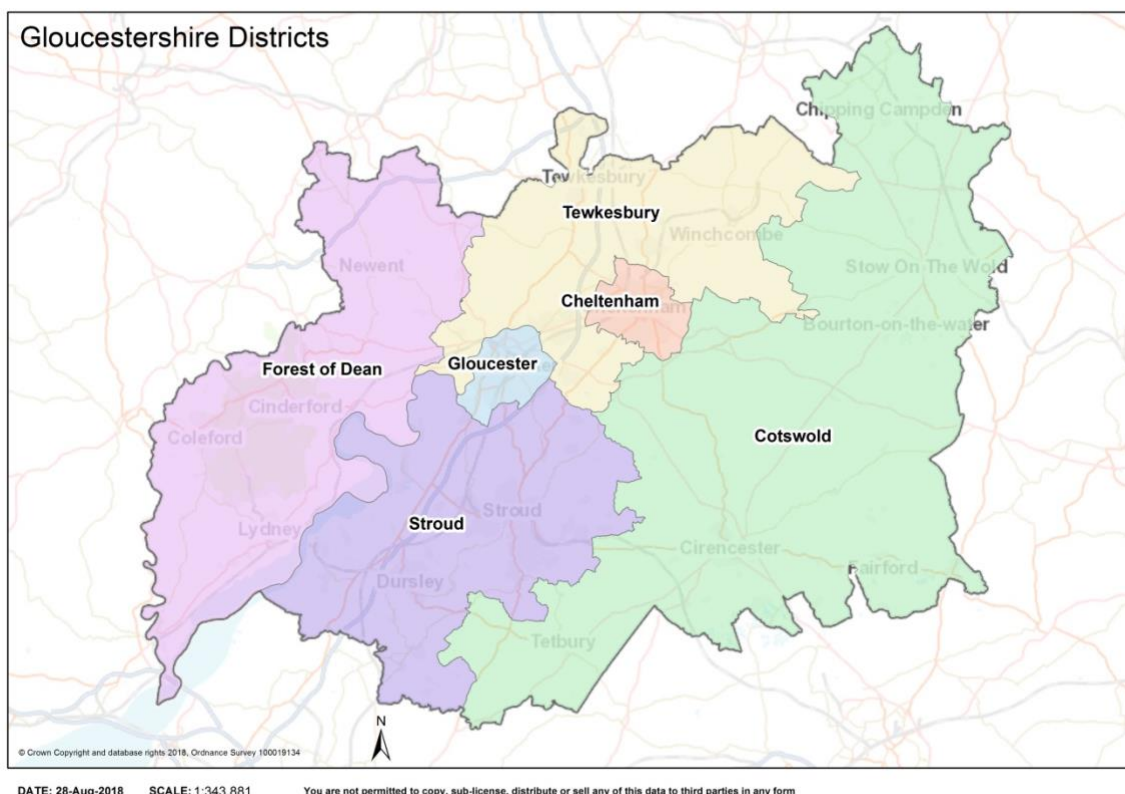

Year Group	Y7	Y8	Y9	Y10	Y11	Y12
Number	7,276	6,811	6,624	6,391	6,277	3,228

Source: School Census, Gloucestershire Schools - October 2019

There was a decline in secondary school numbers historically as smaller cohorts prior to 2011 moved up from primary school. However, numbers have steadily begun to rise with much higher numbers expected to exceed current capacity in 2023/24 and support the need for a new secondary school in Cheltenham opening in 2021 and further secondary expansions around the county. Demand for places have increased from 38,000 in 2015 and are forecast to reach 48,000 in 2025.

Although these tables give the overall picture in the county there will be significant variations between each district of the county, the list below summarises this.

County District Map

- **Forest of Dean:** In general we have surplus places across the Forest of Dean schools; however due to local housing developments there will be a need to expand a school in the Sedbury area by a permanent half form of entry (0.5FE) to manage the increase in demand for places. A large strategic development Cinderford North Quarter will impact primary provision locally and the LA is monitoring its development. Large strategic housing planned in Lydney will impact primary provision and will require the local school to expand by at least 1FE.
- **Tewkesbury:** New housing to be located at Twigworth and Innsworth will require additional school places for both primary and secondary and due to the size of the development will require new primary schools. The large settlement at Bishop's Cleeve has given rise to significant demand for primary school places and despite all local schools having permanently expanded, further places will be required. The Universal Commissioning Team is currently looking at options to achieve this. Housing developments in Winchcombe have put pressure on the secondary school which has expanded and may need to expand again.
- **Cotswold:** There have been significant housing developments throughout the Cotswolds. The Chesterton strategic site will provide a new 3FE primary school and expand local secondary provision. Other developments at Mickleton, Rissington, Fairford, Moreton, and Bourton, which are underway will require expansions to the local schools for both primary and secondary.
- **Stroud:** In general we have a small surplus of places; however a large strategic development at Stonehouse will require a new 2FE primary school. A large housing development at North West Cam will also require additional school places and we are in discussion with developers as to how this will be accommodated.

- **Cheltenham:** Demand for secondary places in the south of Cheltenham around the Leckhampton/Charlton Kings area continues and the LA is planning for a new 6FE Secondary school following some temporary expansions locally since 2019.
- **Gloucester:** A strategic review was completed highlighting the demand for primary and secondary places in Gloucester which remains a hotspot. Two local primary schools expanded permanently by 1FE each for 2019. Having opened a new 2FE free school in Quedgeley, a second school at Hunts Grove moved to new premises and expanded to 2FE in 2020 in line with the new housing development. Further new large housing developments planned for Hardwicke and Hunts Grove will require new primary schools. The Department for Education announced funding in February 2021 for two new free schools to be operated by academy trusts to the south of Gloucester city, comprising a new 2FE primary school and a new 6FE secondary school.
- It is interesting to note that on the border of Gloucester district but in the Tewkesbury planning area we are in discussions with developer's agents in connection with developments in Twigworth, Innsworth and Churchdown, which are large strategic developments that will require a new school and expansions of existing schools of up to 3.5FE to meet demand for places. It is planned to expand Norton Primary School to 1FE, subject to agreement of a S106 contribution from a development local to the school.

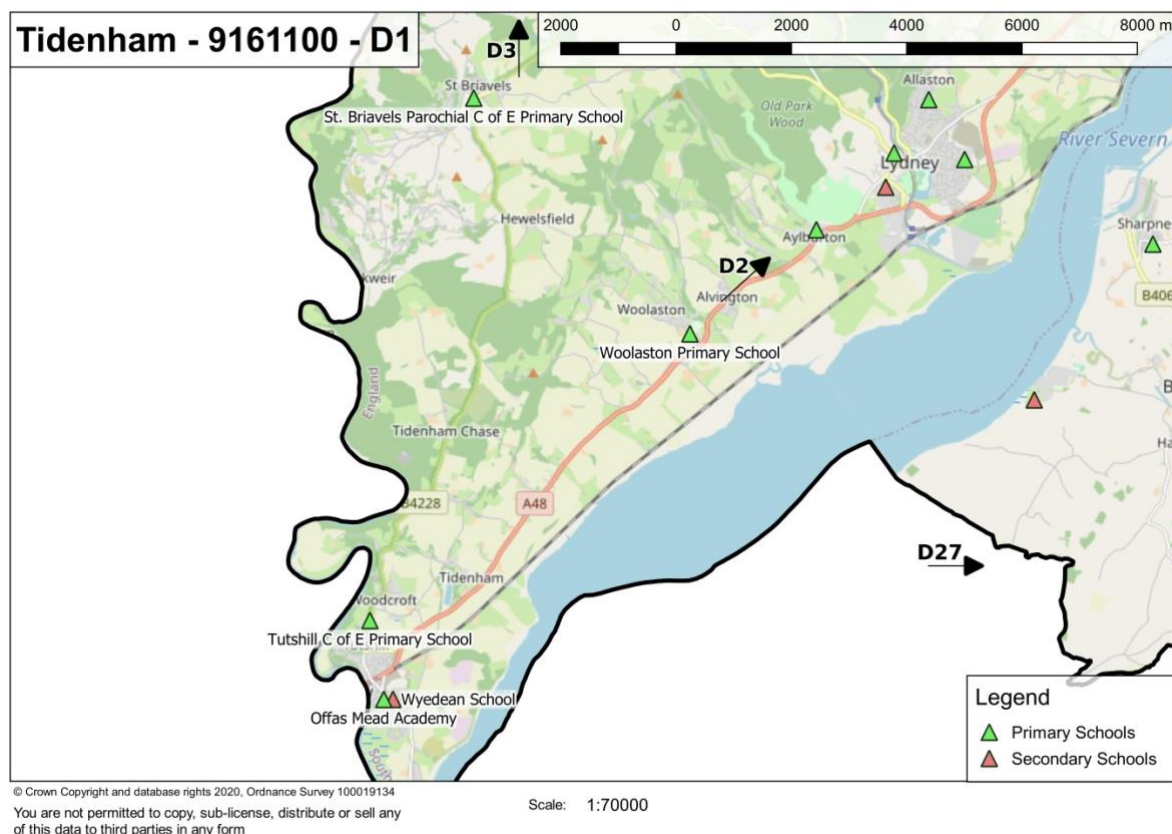

Recent government figures reveal that, nationally, the primary school population has been rising since 2009 and reached around 4.4m in 2015. However, the rate of increase is slowing down with a recent reduction in births and the population is projected to be broadly stable by 2024. In contrast, the secondary school population is projected to continue rising, reaching approximately 3.8m by 2024, an increase of 21% on the 2015 population.

A summary analysis of the projections and issues in key areas is provided at section D. Please refer to each of the individual areas appended to this document for more detailed information.

FOREST OF DEAN DISTRICT

D1 Tidenham

There are 4 primary age schools in the Tidenham area and 1 secondary school catering for the 11 to 19 age range. The nearest special school in Gloucestershire is the Heart of the Forest School; however some pupils may opt to go to the provision in Monmouth (Over Monnow Primary) this is a primary provision only.

Primary	DFE	Type	District
Offas Mead Academy	2006	Academy sponsor led	Forest of Dean
St. Briavels Parochial C of E Primary School	3344	Voluntary aided school	Forest of Dean
Tutshill C of E Primary School	3074	Voluntary controlled school	Forest of Dean
Woolaston Primary School	2114	Community school	Forest of Dean

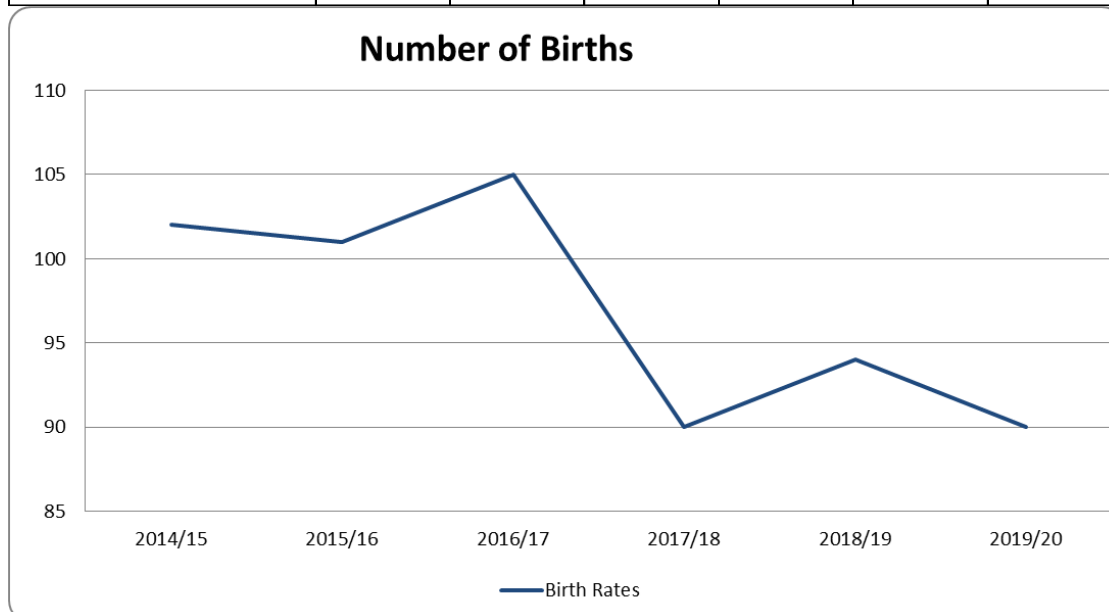

The Wyedean School is main secondary school serving the Tidenham area.

Secondary	DFE	Type	District
Wyedean School	5415	Academy converter	Forest (S)

Births in Tidenham

The number of births in the Tidenham area has been fairly stable across this period with a slight decrease in the most recent three years.

Tidenham	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	102	101	105	90	94	90

Primary pupil place demand in Tidenham

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

There has been little change in terms of the overall capacity in local primary schools in the Forest of Dean area. In the Tidenham Planning area there has been the following Planned Admission Number (PAN) changes

Woolaston increased their PAN from 27 to 30 in 2018

Recent housing developments close to Tutshill and Offa's Mead have led to increased demand for places. A small amount of S106 developer's contributions has been secured for Tutshill School, the LA is in discussion with both Tutshill and Offa's Mead Primary Schools as additional capacity of approximately 0.5FE of permanent places may be required. Tutshill School, the school site is limited and expansion may not be possible, however Offa's Mead is closely located to Tutshill and this site could be expanded.

Wyedean Secondary School serves the Tidenham area. The growth is likely to be able to be contained as currently the school has surplus places; however 2021/22 intake shows a peak in demand and this will be monitored. Additional temporary places may be required for a limited time as for following year's number fall back to a manageable level.

Tutshill has a small a local housing development nearby, however the site is restricted in how much it can expand. Offa's Mead near by is able to support a 0.5FE expansion and plans are being drawn up as to how this could be achieved if it is needed.

Tidenham is close to the welsh border and receives applications from children living in Wales. Housing in Chepstow could impact further on schools in this planning area. In addition the Army base at Beachley Barracks home to the 1st Rifles Light Infantry also causes some fluctuation to school numbers as families move with the regiment. Woolaston

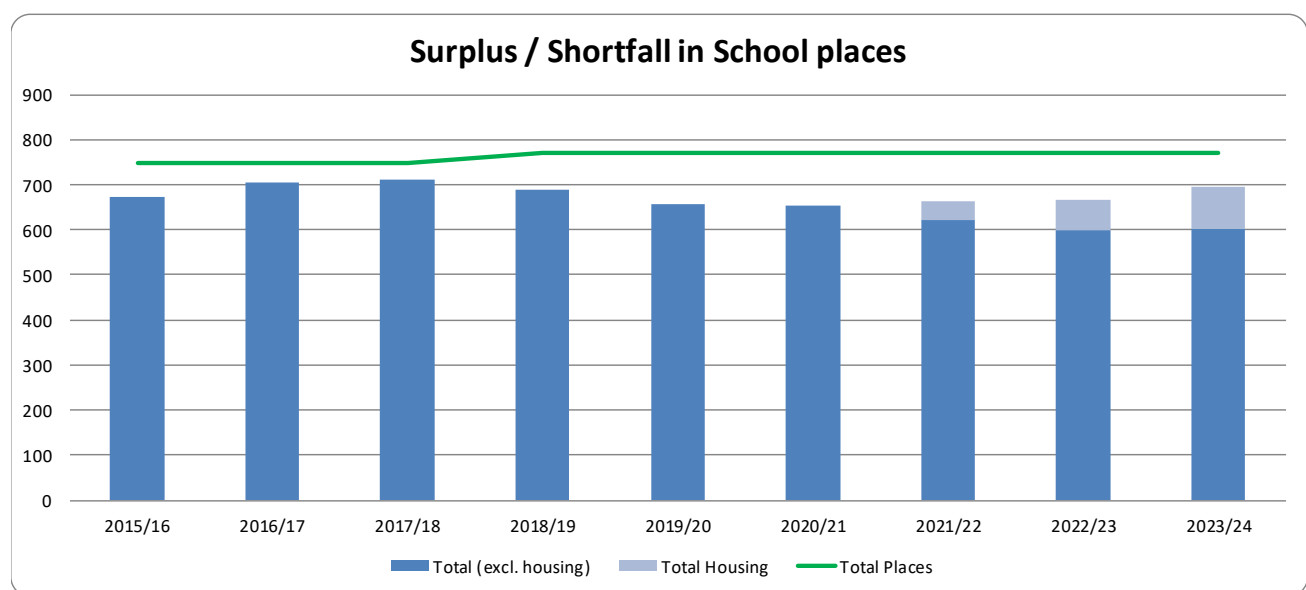

Primary School increased its Planned Admission Number (PAN) to 30 from 27 in September 2018.

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends, it also shows capacity and anticipated demand for places of the Tidenham area schools listed above:

Primary place demand in : Tidenham Planning Area 9161100

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)	Surplus - Shortfall Places	% Spare Year R		Total Places	Total (including students from housing)	Surplus - Shortfall Places	% Surplus - Shortfall Places	
2015/16	107	102	5	5%		749	672	77	10%	
2016/17	107	102	5	5%		749	706	43	6%	
2017/18	107	108	-1	-1%		749	712	37	5%	
2018/19	110	95	15	14%		770	689	81	11%	
2019/20	110	94	16	15%		770	656	114	15%	
2020/21	110	97	(0)	12%		770	654	(0)	15%	
2021/22	110	89	(6)	19%		770	664	(41)	106	14%
2022/23	110	97	(10)	12%		770	668	(69)	102	13%
2023/24	110	107	(14)	3%		770	695	(93)	75	10%

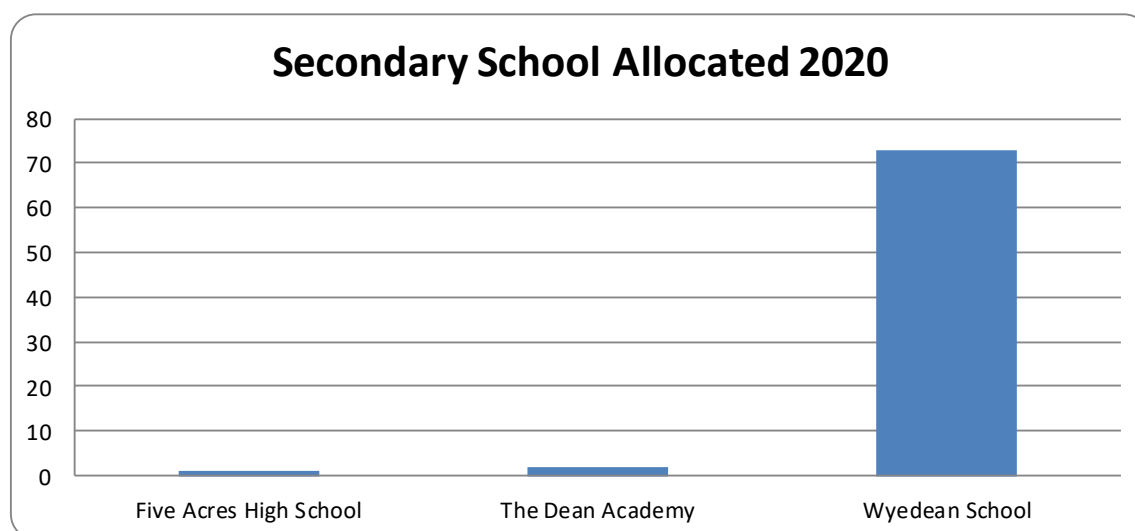

There are approximately 226 dwellings identified in the Forest of Dean housing trajectories to be built in the Tidenham area. This would generate approximately 93 primary aged pupils over the forecast period.

Assuming the birth rate continues at the average rate for the past four years and the housing in the area is delivered as planned there are forecast to be sufficient places for the whole of the forecast period until 2023/24.

Secondary pupil place demand in Tidenham

The Wyedean School is the main secondary school serving the Tidenham area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The following chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Tidenham planning area. 96% of the pupils attending a primary school in the Tidenham area were allocated Wyedean School in the 2020 round

Information on Secondary Place Planning relating to Tidenham planning area can be found from page 235 to page 236.

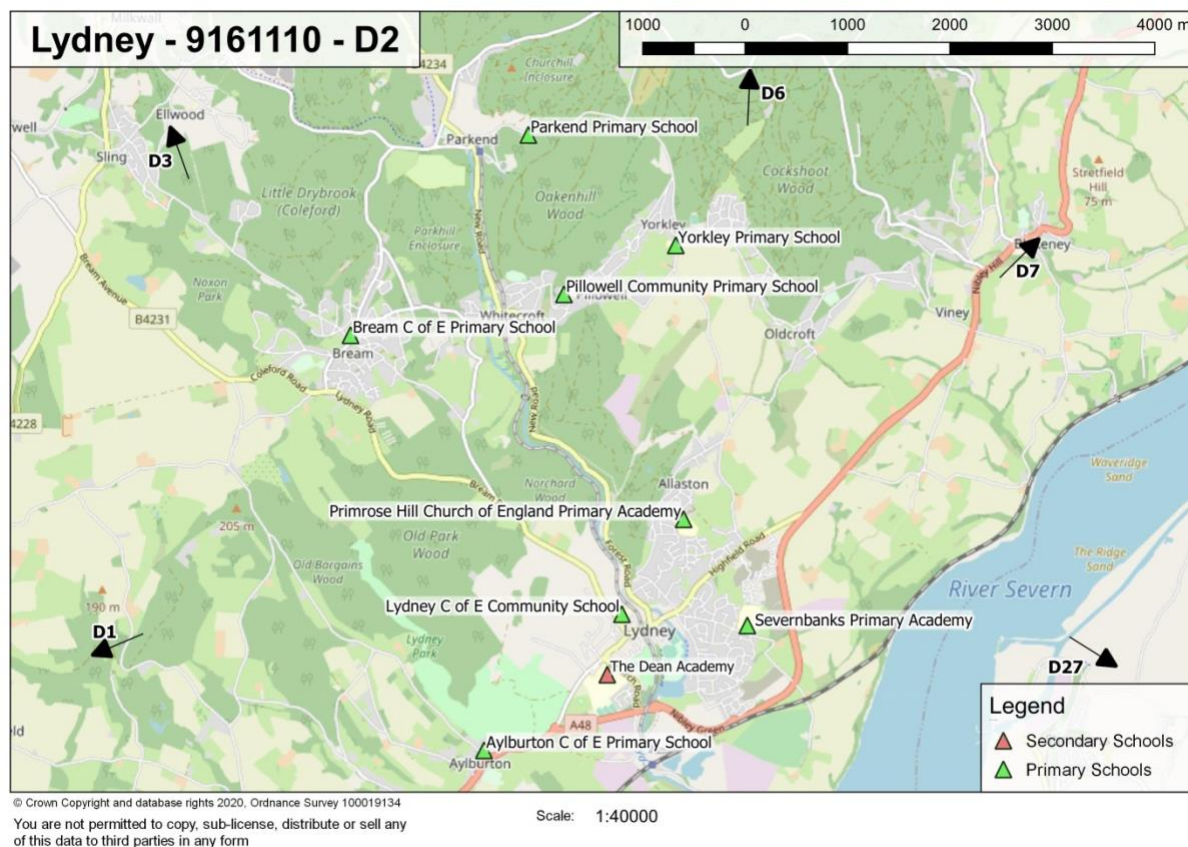

Tidenham Implementation Plan

Short term – 1 to 2 years Academic Years 2021/22 – 2022/23	Medium term – 3 to 5 years Academic Years 2023/24 – 2025/26	Long term – 5 to 10 years Academic Years 2026/27 – 2031/32
Monitor new housing delivery in the planning area to consider the need for a permanent increase of 0.5FE at Offa's Mead Primary School	No action required unless windfall housing sites come forward	No action required unless windfall housing sites come forward

D2 Lydney

There are 8 primary age schools in the Lydney area and 1 secondary school catering for the 11 to 16 age range. For sixth form The Royal Forest of Dean Five Acres College offers a number of post 16 options as well as post 16 provisions in the nearby community areas at Newent or opt to travel into Cheltenham or Gloucester for other sixth forms and college options. A new college provision is opening in Cinderford for 2018. The nearest special school in Gloucestershire is the Heart of the Forest School; however some pupils may opt to go to the provision in Monmouth (Over Monnow Primary) this is a primary provision only.

11.39

Primary	DfE	Type	District
Aylburton C of E Primary School	3018	Voluntary controlled school	Forest of Dean
Bream C of E Primary School	3078	Voluntary controlled school	Forest of Dean
Lydney C of E Community School	3048	Voluntary controlled school	Forest of Dean
Parkend Primary School	2108	Community school	Forest of Dean
Pillowell Community Primary School	2109	Community school	Forest of Dean
Primrose Hill Church of England Primary Academy	2010	Academy sponsor led	Forest of Dean
Severnbanks Primary Academy	5216	Academy converter	Forest of Dean
Yorkley Primary School	2110	Community school	Forest of Dean

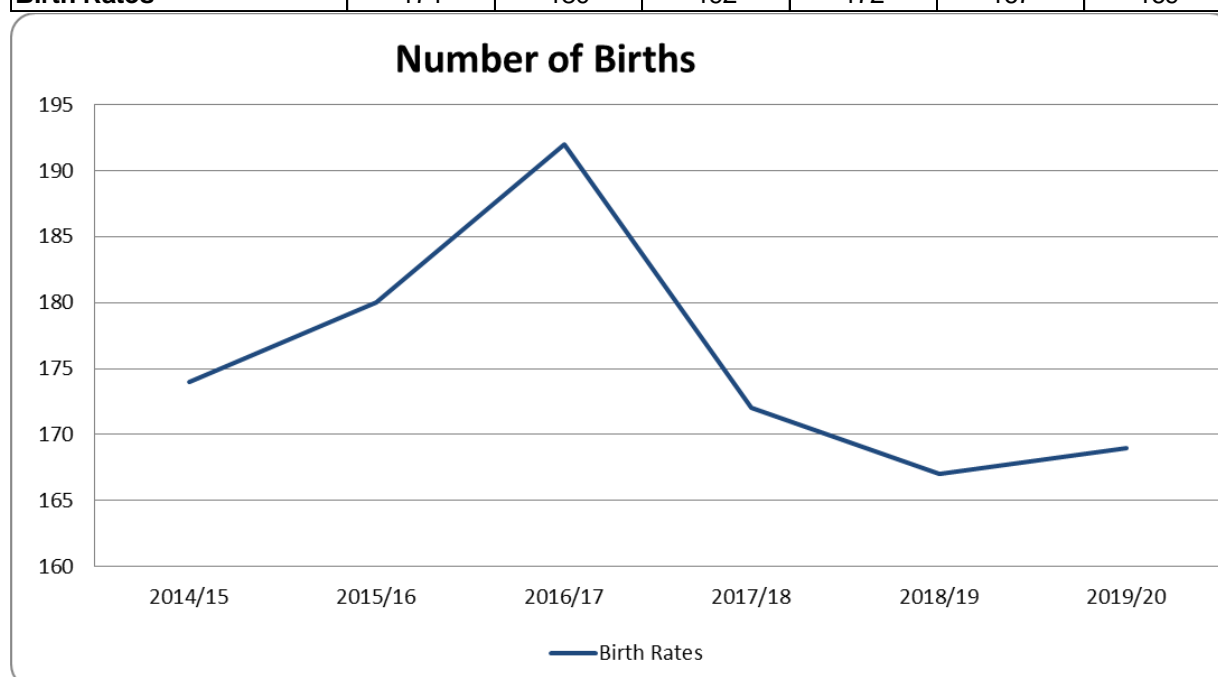

The 4 Secondary schools serving the Forest Central Area are listed below:

Secondary	DFE	Type	District
Dene Magna School	5422	Academy converter	Forest (C)
Five Acres High School	4009	Academy sponsor led	Forest (C)
The Dean Academy	4005	Academy sponsor led	Forest (C)
The Forest High School	4006	Academy sponsor led	Forest (C)

Births in Lydney

The number of births in the Lydney area has been fairly stable over the last few years with a notable bulge in 2016/17.

Lydney	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	174	180	192	172	167	169

Primary pupil place demand in Lydney

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Forecasts show a sustained rise in demand for places in this planning area over the forecast period.

- Parkend Primary permanently increased their PAN from 8 to 10 in 2016.
- Primrose Hill Primary reduced their PAN from 45 to 30 in 2014
- Severnbanks Primary admitted an additional 15 pupils as a temporary bulge class in 2017, and did so again in 2020.

Almost all of the additional places needed arise from the local housing developments that are proposed in the Forest of Dean Allocation Plan and include significant development around Severnbanks School and smaller developments in the Bream area. S106 funding has been secured from local housing developments for future expansion of Severnbanks School and the Local Authority is working with the academy trust to agree timing of the expansion.

The Secondary school for this area is The Dean Academy; there are sufficient places at the local secondary school to support the forecast demand for places.

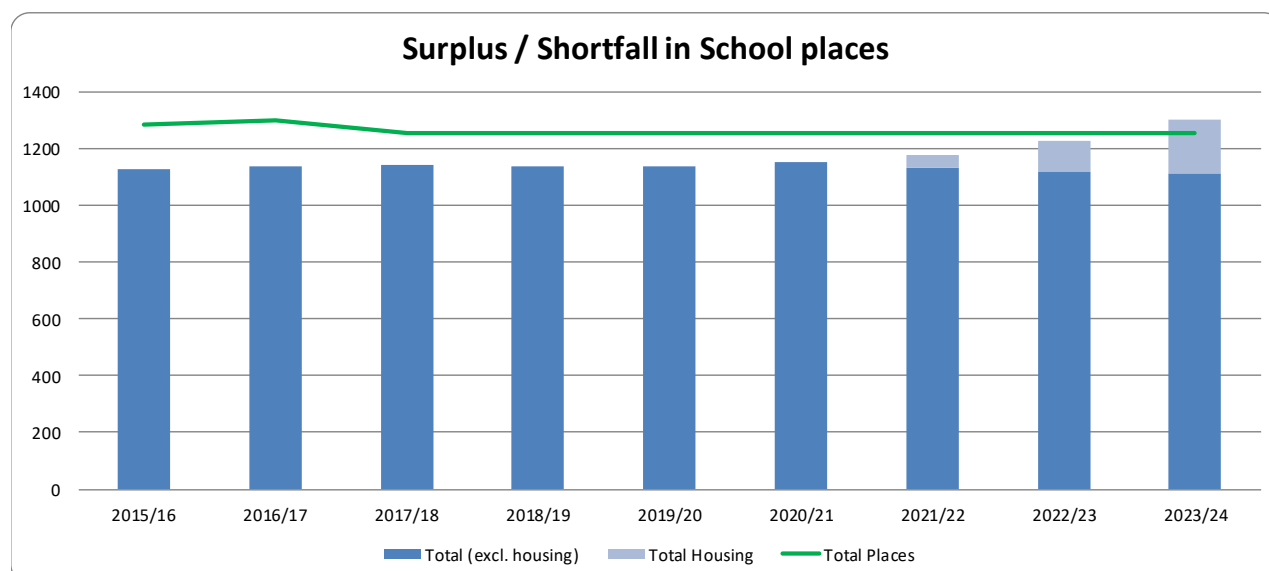

The table below provides historic information and future estimates for the total number of available primary places in the Reception year (the "Published Admission Number" or PAN) compared with the actual or forecast number of pupils in that year. This gives the number of spare places across the primary school planning area (a negative figure shows a shortage of places compared with the PAN).

Issues for Primary School Provision from 2021

The following table shows the number of pupils in the primary age range across the Lydney area based on the birth rate and the percentage of surplus places by age cohort both retrospectively and forecast.

Primary place demand in : Lydney Planning Area 9161110

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)	Surplus - Shortfall Places	% Spare Year R	Total Places	Total (including students from housing)	Surplus - Shortfall Places	% Surplus - Shortfall Places		
2015/16	175	160	15	9%	1285	1125	160	12%		
2016/17	177	168	9	5%	1299	1134	165	13%		
2017/18	192	176	16	8%	1254	1143	111	9%		
2018/19	177	143	34	19%	1254	1136	118	9%		
2019/20	177	167	10	6%	1254	1134	120	10%		
2020/21	177	169	(0)	5%	1254	1149	105	8%		
2021/22	177	160	(7)	10%	1254	1176	78	6%		
2022/23	177	166	(16)	6%	1254	1228	26	2%		
2023/24	177	186	(28)	-5%	1254	1302	-48	-4%		

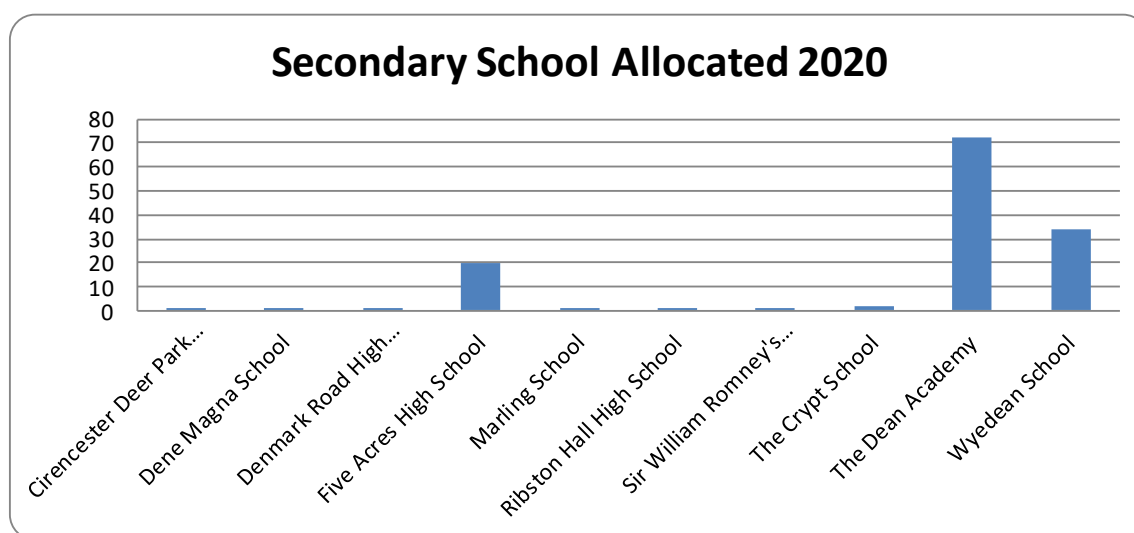

There are approximately 473 dwellings identified in the Forest of Dean housing trajectories to be built in the Lydney area. This would generate approximately 193 primary aged pupils over the forecast period.

Assuming the birth rate continues at the average rate for the past four years, and the housing is delivered as planned, this increase in demand can be accommodated in the short term. Pupil numbers attending schools in Lydney area will be monitored closely in the coming years and additional accommodation is planned for Severnbanks Primary Academy at the end of the forecast period.

Secondary pupil place demand in Lydney

The Dean Academy is the main secondary school serving the Lydney area. Estimates of the future need for secondary places is based on the expected number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of parental choice, pupils moving to independent schools and schools in other areas.

The following chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Lydney planning area. 54% were allocated The Dean Academy School, 25% were allocated to Wydean School and 15% were allocated to Five Acres High School.

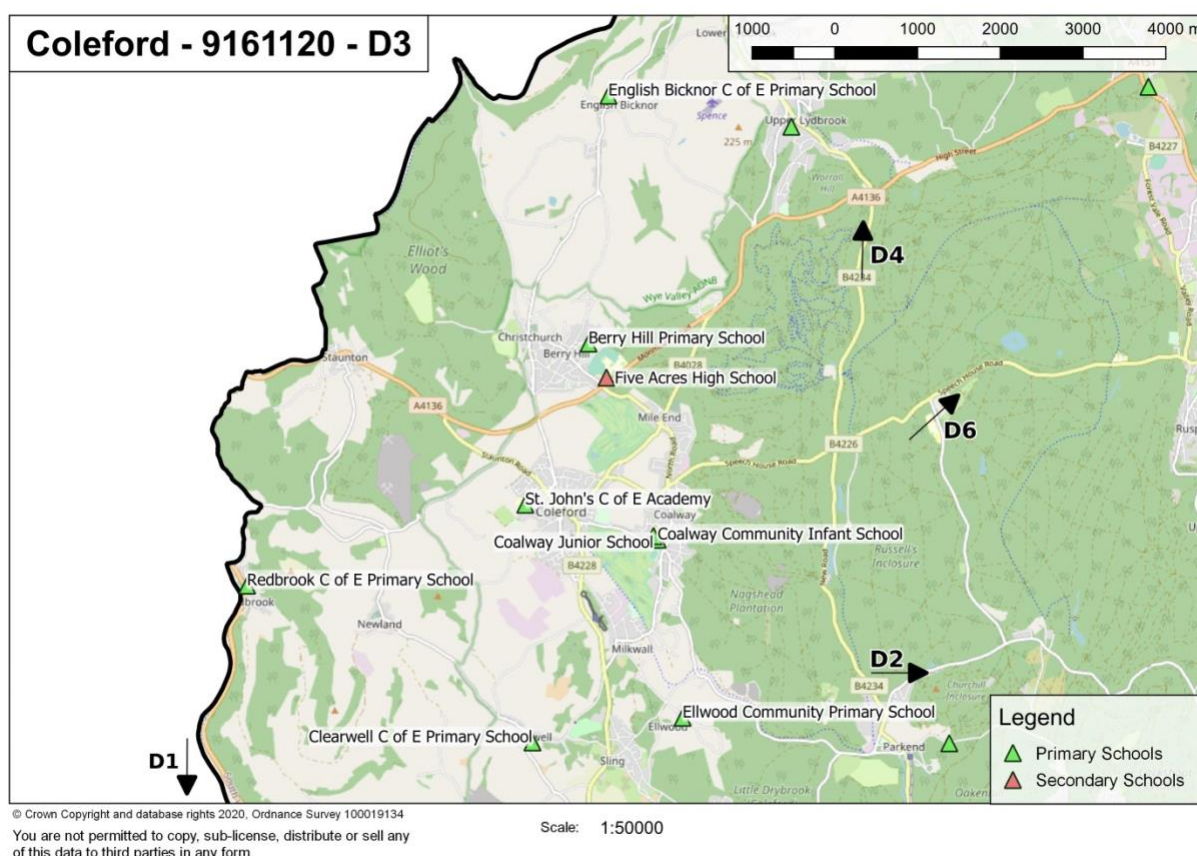

Information on Secondary Place Planning relating to Lydney planning area can be found from page 232 to page 234

Lydney Implementation Plan

<p>Short term – 1 to 2 years</p> <p>Academic Years 2021/22 – 2022/23</p>	<p>Medium term – 3 to 5 years</p> <p>Academic Years 2023/24 – 2025/26</p>	<p>Long term – 5 to 10 years</p> <p>Academic Years 2026/27 – 2031/32</p>
<p>Continue to monitor housing developments in the area close to Severnbanks. Agree timing of a 1FE expansion at Severnbanks with the academy trust.</p>		<p>No action required unless windfall housing sites come forward</p>

D3 Coleford

There are 8 primary age schools in the Coleford area of which one school is an infant and junior school pair. 1 secondary school caters for the 11 to 16 age range. For sixth form The Royal Forest of Dean Five Acres College offers a number of post 16 options as well as post 16 provisions in the nearby community areas at Newent or opt to travel into Cheltenham or Gloucester for other sixth forms and college options. A new college provision is opening in Cinderford for 2018. The nearest special school in Gloucestershire is the Heart of the Forest School; however some pupils may opt to go to the provision in Monmouth (Over Monnow Primary) this is a primary provision only.

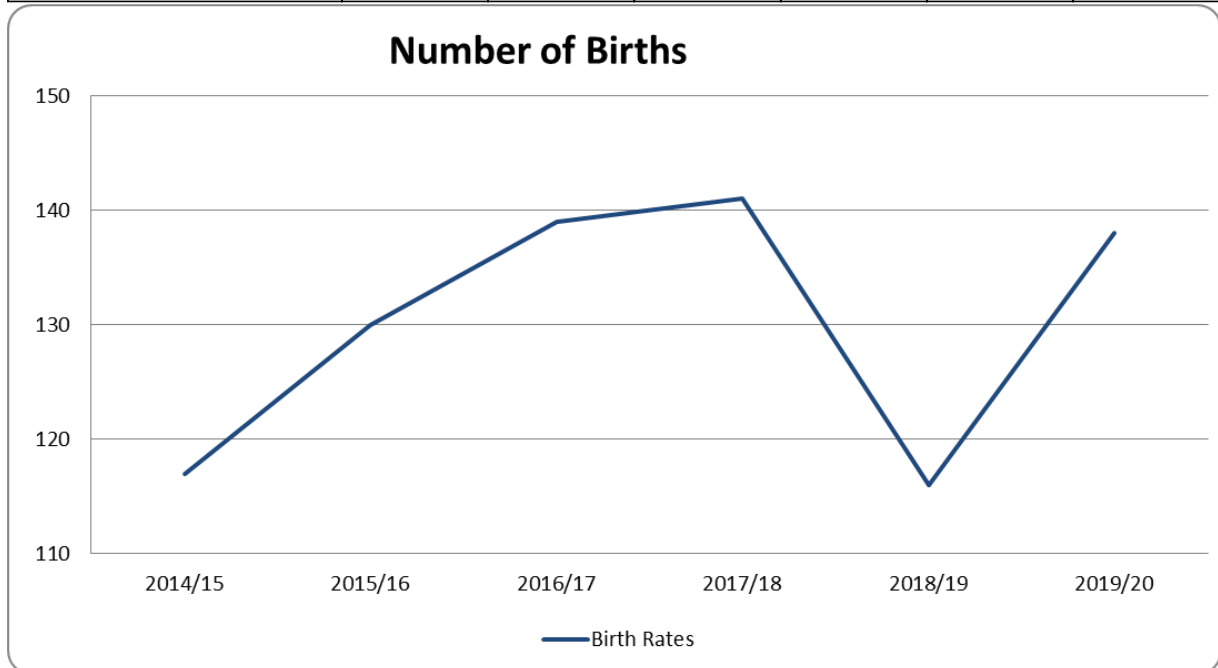

The 4 Secondary schools serving the Forest Central area are listed here:

Secondary	DfE	Type	District
Dene Magna School	5422	Academy converter	Forest (C)
Five Acres High School	4009	Academy sponsor led	Forest (C)
The Dean Academy	4005	Academy sponsor led	Forest (C)
The Forest High School	4006	Academy sponsor led	Forest (C)

Births in Coleford

The number of births in the Coleford area has fluctuated in recent years around an average of 130.

Coleford	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	117	130	139	141	116	138

Primary Pupil Place demand in Coleford

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Forecasts show fluctuating demand for places however there is sufficient capacity across primary schools to accommodate this demand and maintain a surplus of places. Approximately 2 FE of additional pupils are expected to arise from the local housing developments proposed in the Forest of Dean Allocation Plan. These pupils can be absorbed in the spare capacity at the existing schools.

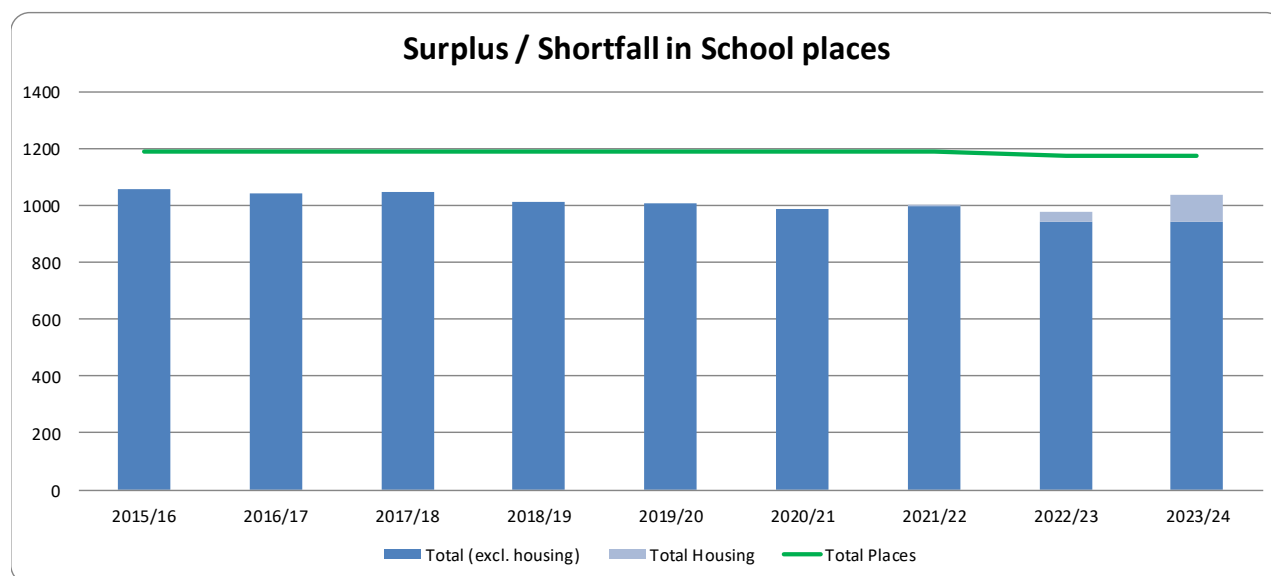

The local secondary school is Five Acres High School. There is currently no anticipated impact on secondary provision as increased numbers can be accommodated within the existing provision.

The table below provides historic information and future estimates for the total number of available primary places in the Reception year (the “Published Admission Number” or PAN) compared with the actual or forecast number of pupils in that year. This gives the number of spare places across the primary school planning area (a negative figure shows a shortage of places compared with the PAN).

Issues for Primary School Provision from 2021

The following table shows the number of pupils in the primary age range across the Coleford area based on the birth rate and the percentage of surplus places by age cohort both retrospectively and forecast.

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)		Surplus - Shortfall Places	% Spare Year R	Total Places	Total (including students from housing)		Surplus - Shortfall Places	% Surplus Shortfall Places
2015/16	183	177		6	3%	1191	1056		135	11%
2016/17	168	128		40	24%	1191	1040		151	13%
2017/18	168	159		9	5%	1191	1049		142	12%
2018/19	168	122		46	27%	1191	1013		178	15%
2019/20	168	119		49	29%	1191	1007		184	15%
2020/21	168	135	(0)	33	20%	1191	987	(0)	204	17%
2021/22	168	143	(1)	25	15%	1191	1000	(4)	191	16%
2022/23	168	119	(5)	49	29%	1176	976	(35)	200	17%
2023/24	168	158	(14)	10	6%	1176	1037	(94)	139	12%

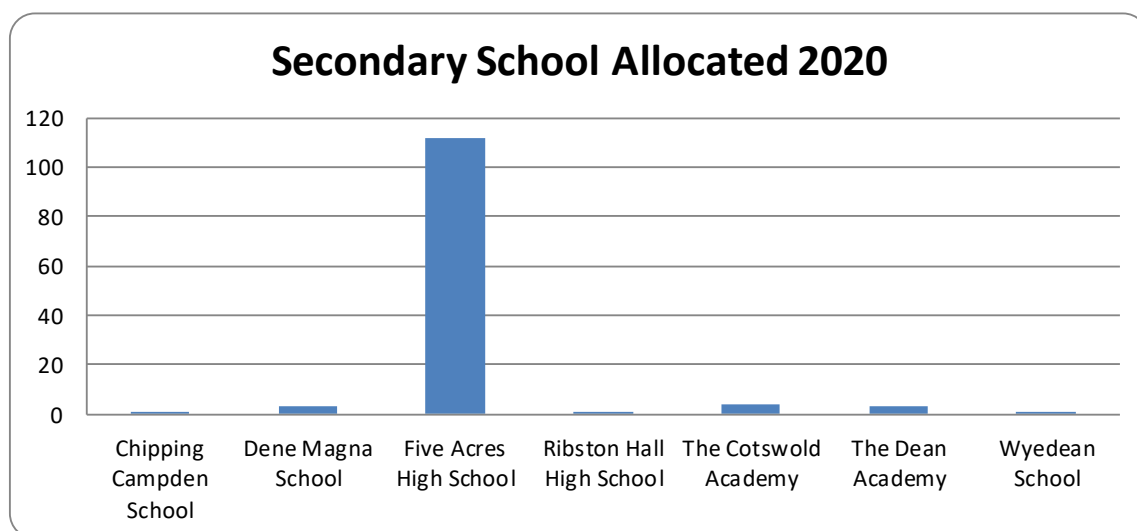

Overall, there are 228 houses identified in the Forest of Dean Local Plan to be built in the Coleford area, should all of this housing come forward it is predicted to generate approximately 94 Primary aged pupils in the forecast period. Therefore we will continue to monitor housing coming forward and make requests for S106 developer's contributions where necessary to ensure we have sufficient primary places locally.

Secondary Pupil Place demand in Coleford

The Five Acres High School is the secondary school serving the Majority of the Coleford community area. Estimates of the future need for secondary places is based on the expected number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of parental choice, pupils moving to independent schools and schools in other areas.

Bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Coleford planning area. 90% were allocated Five Acres High School.

Information on Secondary Place Planning relating to Coleford planning area can be found from page 232 to page 234.

Coleford Implementation Plan

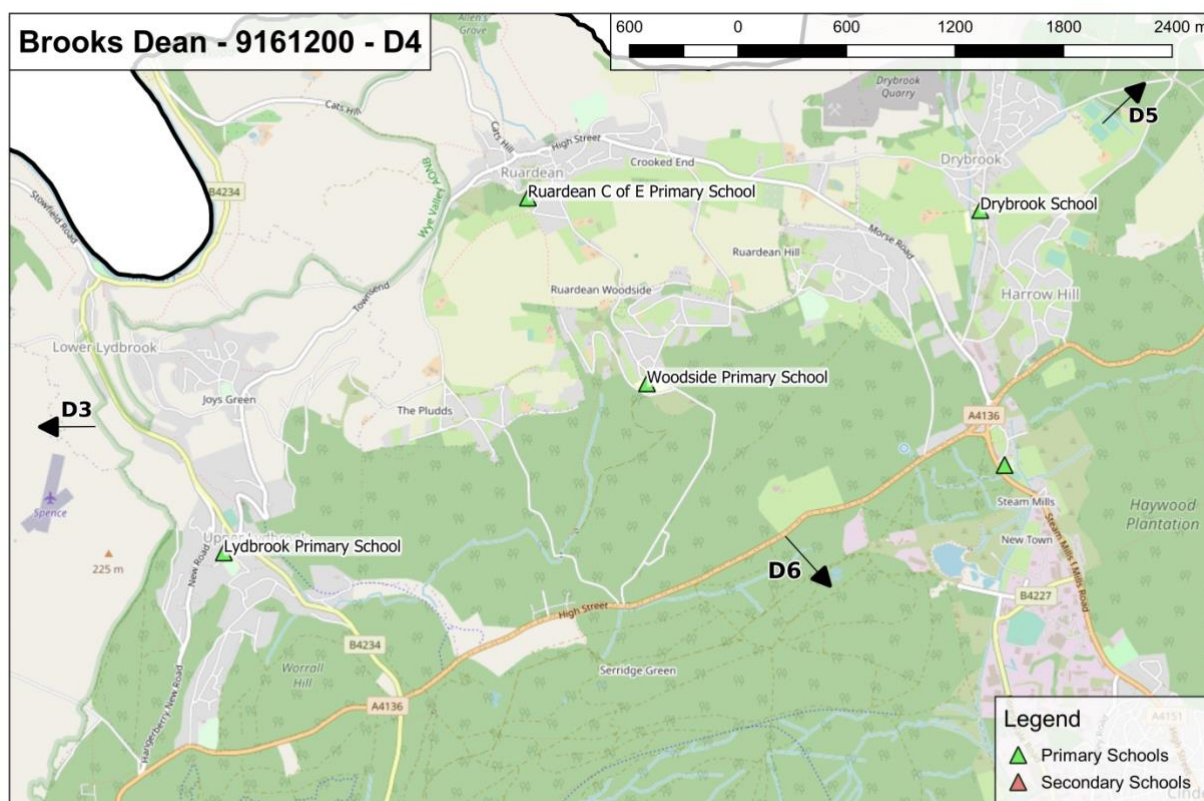

Short term – 1 to 2 years Academic Years 2021/22 – 2022/23	Medium term – 3 to 5 years Academic Years 2023/24 – 2025/26	Long term – 5 to 10 years Academic Years 2026/27 – 2031/32
Currently there are no plans for supply of further new places for either primary or secondary. There are currently significant surplus places for secondary provision and we will continue to monitor demand.	No action required unless windfall housing sites come forward	No action required unless windfall housing sites come forward

D4 Brooks Dean

There are 4 primary age schools in the Brooks Dean area and 1 secondary school catering for the 11 to 16 age range.

For sixth form The Royal Forest of Dean Five Acres College offers a number of post 16 options as well as post 16 provisions in the nearby community areas at Newent. A new college provision opened in Cinderford in 2018.

The nearest special school in Gloucestershire is the Heart of the Forest School; however some pupils may opt to go to the provision in Monmouth (Over Monnow Primary) this is a primary provision only.

Primary	DFE	Type	District
Drybrook School	2062	Academy sponsor led	Forest of Dean
Lydbrook Primary School	2077	Community school	Forest of Dean
Ruardean C of E Primary School	3065	Voluntary controlled school	Forest of Dean
Woodside Primary School	2064	Community school	Forest of Dean

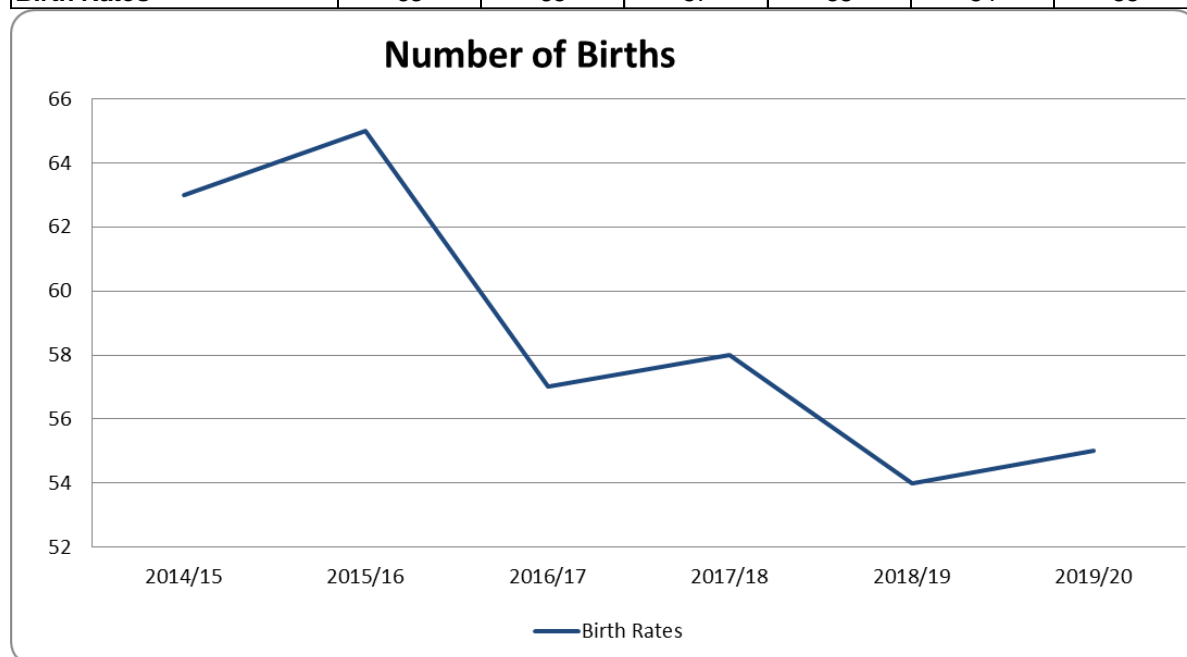

The 4 Secondary schools serving the Forest Central area are listed here:

Secondary	DFE	Type	District
Dene Magna School	5422	Academy converter	Forest (C)
Five Acres High School	4009	Academy sponsor led	Forest (C)
The Dean Academy	4005	Academy sponsor led	Forest (C)
The Forest High School	4006	Academy sponsor led	Forest (C)

Births in Brooks Dean

The number of births in the Brooks Dean area has decreased over the last few years.

Brooks Dean	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	63	65	57	58	54	55

Primary Pupil Place demand in Brooks Dean

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Forecasts show a steady rise in demand for places however there is sufficient capacity across the primary schools to accommodate this demand and maintain a surplus of places. There has been no change in terms of the overall capacity in local primary schools in this area to date.

There are a number of small housing developments in this area; however, there is spare capacity in the local schools.

The local secondary school is Dene Magna Academy whilst there is sufficient capacity available to meet the demand. Dene Magna is a popular choice of school and attracts pupils from surrounding areas of the Forest.

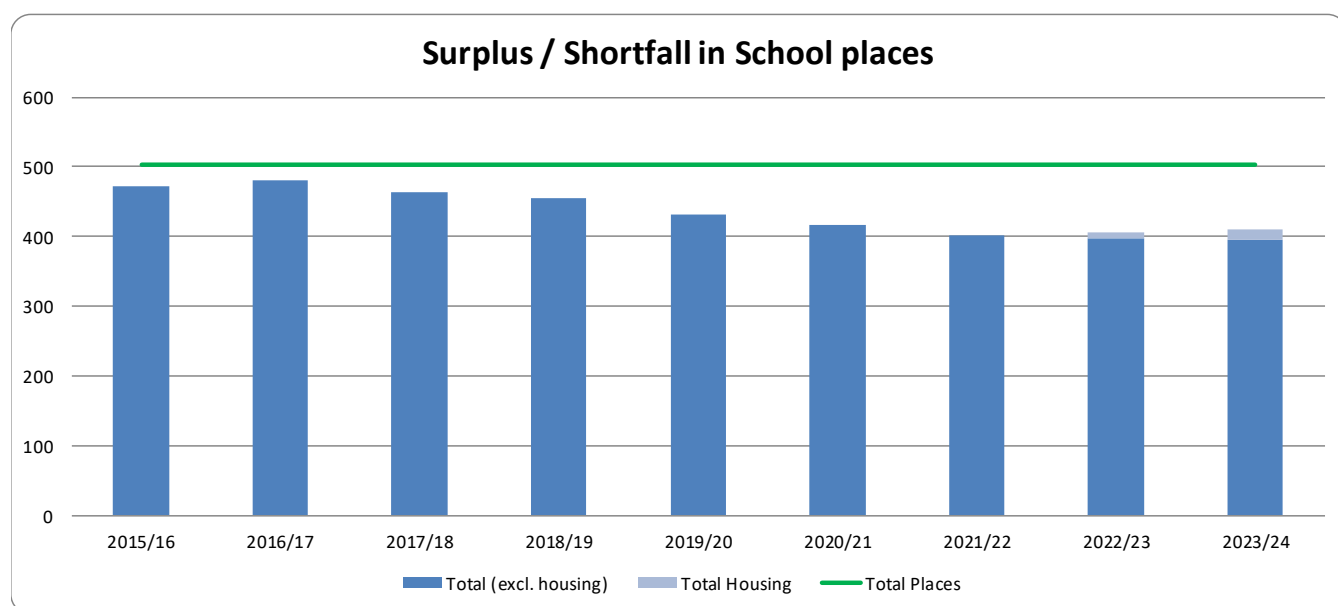

The table below provides historic information and future estimates for the total number of available primary places in the Reception year (the "Published Admission Number" or PAN) compared with the actual or forecast number of pupils in that year. This gives the number of spare places across the primary planning area (a negative figure shows a shortage of places compared with the PAN).

Issues for Primary School Provision from 2021

The following table shows the number of pupils in the primary age range across the Brooks Dean area based on the birth rate and the percentage of surplus places by age cohort both retrospectively and forecast.

Primary place demand in : Brooks Dean Planning Area 9161200

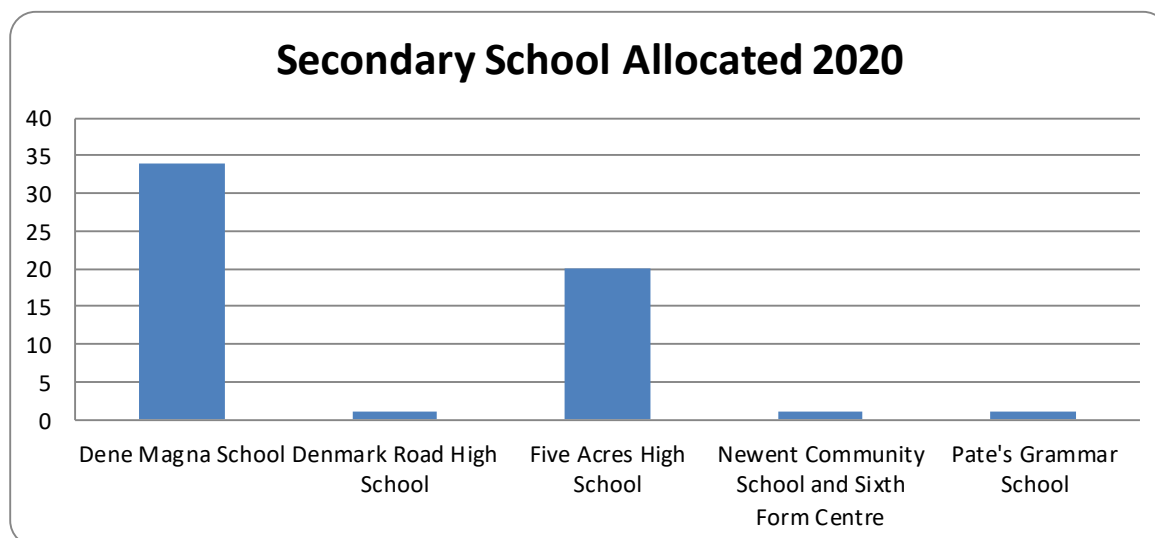

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)		Surplus - Shortfall Places	% Spare Year R	Total Places	Total (including students from housing)		Surplus - Shortfall Places	% Surplus - Shortfall Places
2015/16	72	57		15	21%	504	472		32	6%
2016/17	72	67		5	7%	504	480		24	5%
2017/18	72	56		16	22%	504	464		40	8%
2018/19	72	65		7	10%	504	455		49	10%
2019/20	72	57		15	21%	504	432		72	14%
2020/21	72	57	(0)	15	21%	504	417	(0)	87	17%
2021/22	72	59	(0)	13	18%	504	402	(0)	102	20%
2022/23	72	60	(2)	12	17%	504	406	(8)	98	19%
2023/24	72	64	(3)	8	11%	504	411	(16)	93	18%

Overall, there are 40 houses identified in the Forest of Dean Local Plan to be built in the Brooks Dean area, should all of this housing come forward it is predicted to generate approximately 16 primary aged pupils in the forecast period. Therefore we will continue to monitor housing coming forward and make requests for S106 developer's contributions where necessary to ensure we have sufficient primary places locally.

Secondary pupil place demand in Brooks Dean

Dene Magna School and Five Acres High School are the main secondary schools serving the Brooks Dean area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas. The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Brooks Dean planning area. 60% of the pupils attending a primary school in the Brooks Dean area were allocated Dene Magna School and 35% allocated Five Acres High school in the 2020 round

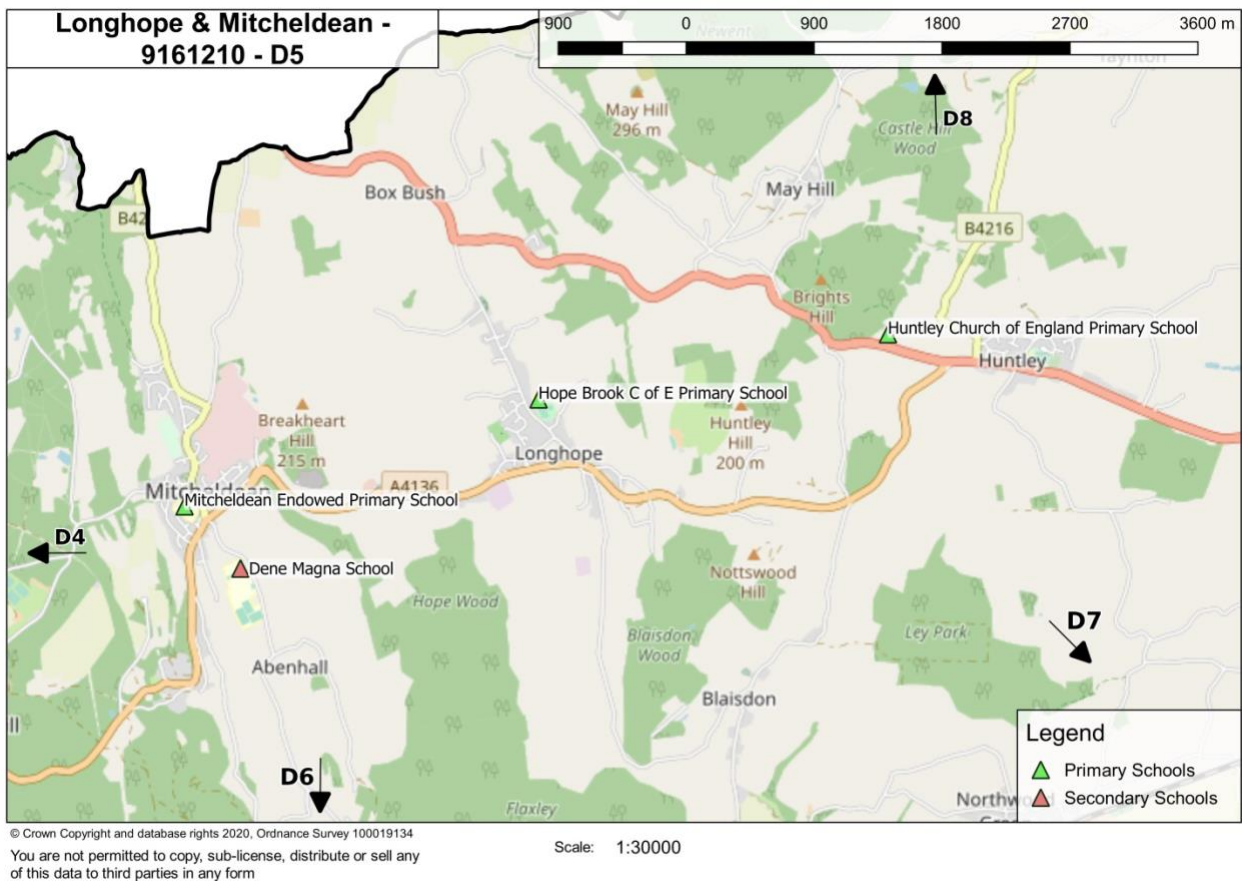

Information on Secondary Place Planning relating to Brooks Dean planning area can be found from page 232 to page 234

Brooks Dean Implementation Plan

Short term – 1 to 2 years Academic Years 2017/18 – 2019/20	Medium term – 3 to 5 years Academic Years 2020/21 – 2022/23	Long term – 5 to 10 years Academic Years 2023/24 – 2027/28
No action currently required, continue to monitor housing developments and seek S106 if appropriate.	No action currently required, continue to monitor housing developments and seek S106 if appropriate.	No action currently required, continue to monitor housing developments and seek S106 if appropriate.

D5 Longhope / Mitcheldean

There are 3 primary age schools in the Longhope/Mitcheldean area and 1 secondary schools catering for the 11 to 16 age range.

For sixth form The Royal Forest of Dean Five Acres College offers a number of post 16 options as well as post 16 provisions in the nearby community areas at Newent. A new college provision opened in Cinderford in 2018. The nearest special school in Gloucestershire is the Heart of the Forest School; however some pupils may opt to go to the provision in Monmouth (Over Monnow Primary) this is a primary provision only.

Primary	DFE	Type	District
Hope Brook C of E Primary School	2184	Voluntary controlled school	Forest of Dean
Huntley Church of England Primary School	3328	Voluntary aided school	Forest of Dean
Mitcheldean Endowed Primary School	3338	Voluntary aided school	Forest of Dean

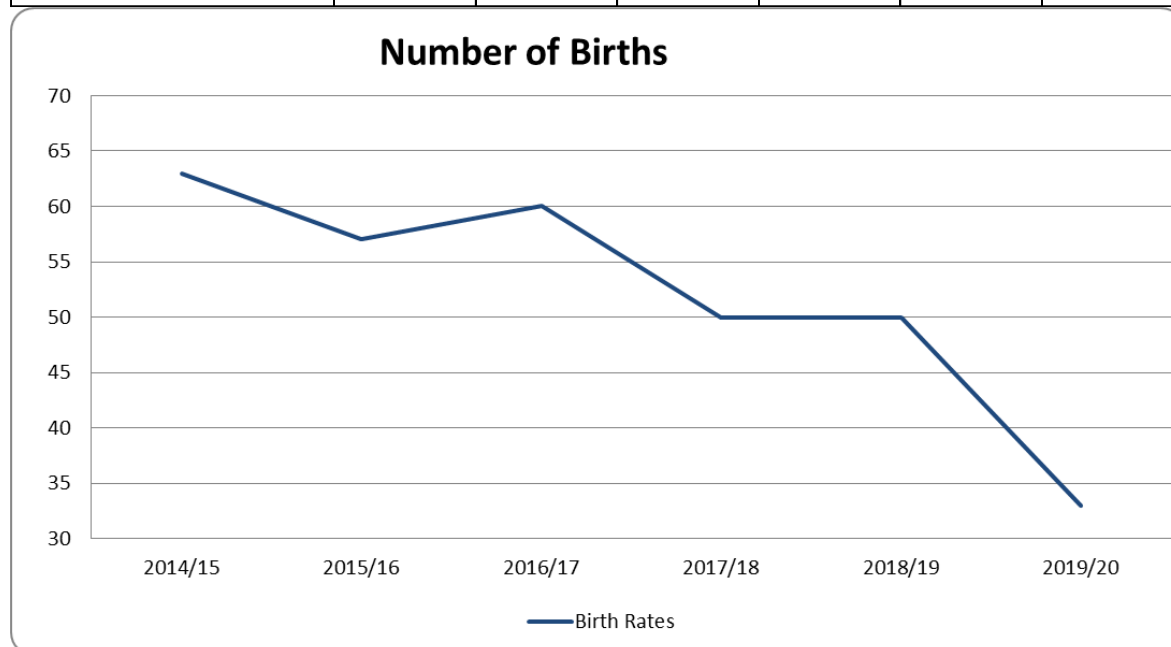

The 4 Secondary schools serving the Forest Central area are listed here:

Secondary	DFE	Type	District
Dene Magna School	5422	Academy converter	Forest (C)
Five Acres High School	4009	Academy sponsor led	Forest (C)
The Dean Academy	4005	Academy sponsor led	Forest (C)
The Forest High School	4006	Academy sponsor led	Forest (C)

Births in Longhope / Mitcheldean

The number of births in the Longhope area has decreased over the last three years for which data is available.

Longhope / Mitcheldean	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	63	57	60	50	50	33

Primary Pupil Place demand in Longhope / Mitcheldean

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Forecasts show a consistent demand for places. Mitcheldean Primary has experienced some increased demand for places in recent years resulting in admission appeals. Reducing pre-school numbers suggest that there has been a slight decline in the cohorts coming through which ultimately result in a decline in total numbers by 2023/24.

A number of small housing developments are proposed in the Allocation Plan for this area. Timing is uncertain, but the anticipated numbers are included in the forecasts. There are no issues anticipated with regard to capacity here.

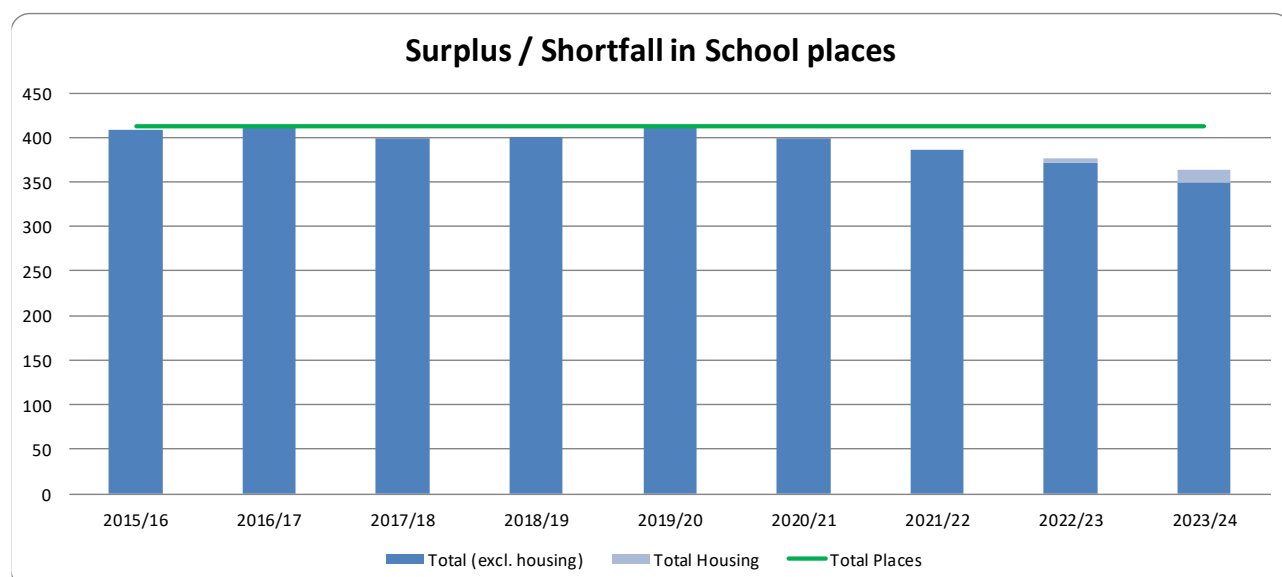

The local secondary school is Dene Magna; whilst there are sufficient places available to meet the demand. Dene Magna is a popular choice of school and attracts pupils from surrounding areas of the Forest.

Issues for Primary School Provision from 2021

The following table shows capacity and anticipated demand for places at the Longhope / Mitcheldean area schools listed above.

Primary place demand in : Longhope / Mitcheldean Planning Area 9161210

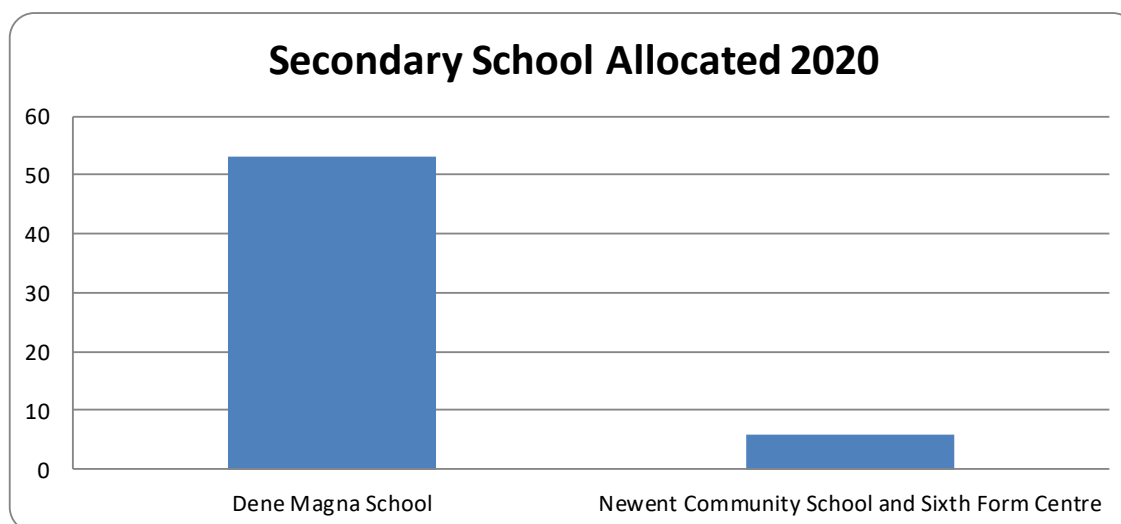

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)	Surplus - Shortfall Places	% Spare Year R		Total Places	Total (including students from housing)	Surplus - Shortfall Places	% Surplus - Shortfall Places	
2015/16	59	60		-1	-2%	413	409	4	1%	
2016/17	59	57		2	3%	413	413	0	0%	
2017/18	59	53		6	10%	413	399	14	3%	
2018/19	59	57		2	3%	413	401	12	3%	
2019/20	59	53		6	10%	413	414	-1	0%	
2020/21	59	58	(0)	1	2%	413	399	(0)	14	3%
2021/22	59	51	(0)	8	14%	413	386	(0)	27	7%
2022/23	59	51	(1)	8	14%	413	377	(5)	36	9%
2023/24	59	39	(2)	20	34%	413	363	(14)	50	12%

Overall, there are 35 houses identified in the Forest of Dean Local Plan to be built in the Mitcheldean area, should all of this housing come forward it is predicted to generate approximately 14 Primary aged pupils. Therefore we will continue to monitor housing coming forward and make requests for S106 developer's contributions where necessary to ensure we have sufficient primary places locally.

Secondary pupil place demand in Longhope / Mitcheldean

Dene Magna School is the main secondary school serving the Longhope / Mitcheldean area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Longhope / Mitcheldean planning area. 90% of the pupils attending a primary school in the Longhope / Mitcheldean area were allocated Dene Magna school in the 2020 round.

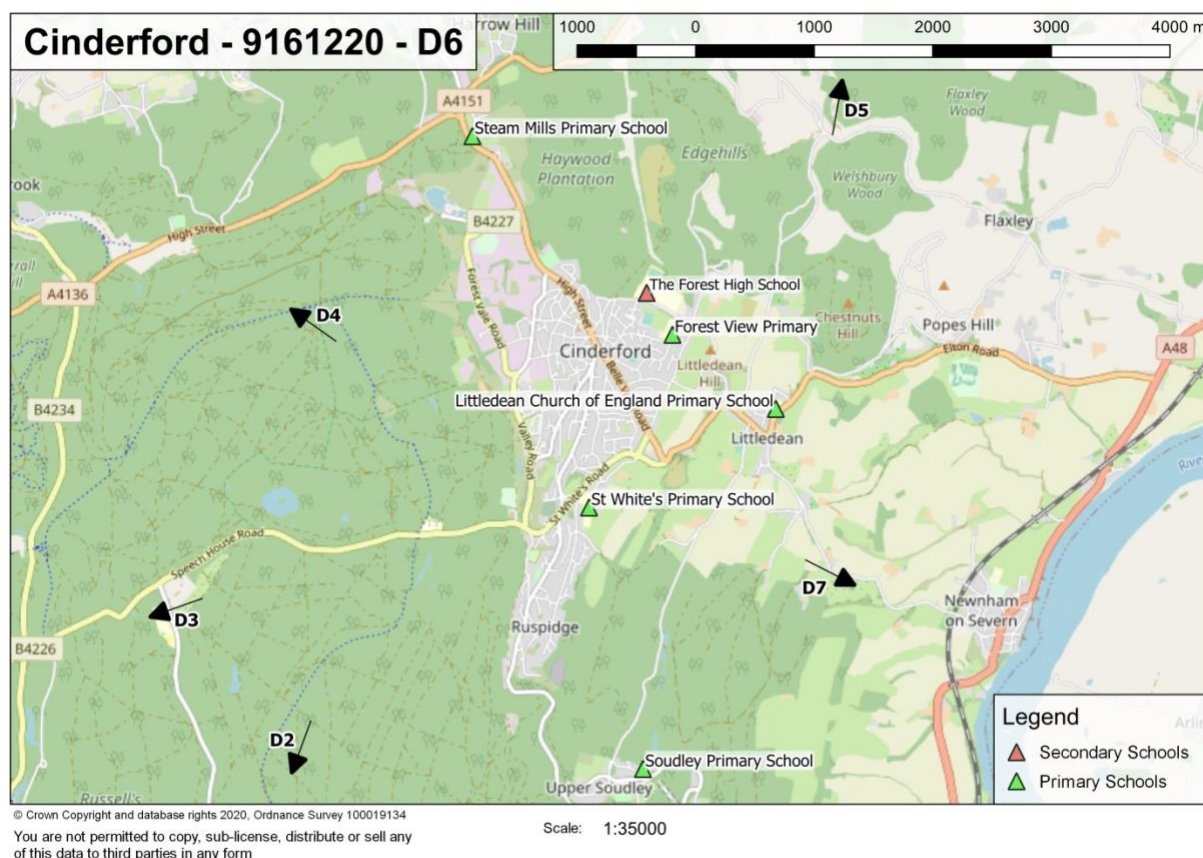

Information on Secondary Place Planning relating to Longhope/Mitcheldean planning area can be found from page 232 to page 234

Longhope / Mitcheldean Implementation Plan

Short term – 1 to 2 years Academic Years 2021/22 – 2022/23	Medium term – 3 to 5 years Academic Years 2023/24 – 2025/26	Long term – 5 to 10 years Academic Years 2026/27 – 2031/32
No action currently proposed, however we will closely monitor any housing coming forward that may require additional provision at primary schools locally.	No action currently required, continue to monitor housing developments and seek S106 if appropriate.	No action currently required, continue to monitor housing developments and seek S106 if appropriate.

D6 Cinderford

There are 5 primary age schools in the Cinderford area and 2 secondary schools catering for the 11 to 16 age range. For sixth form The Royal Forest of Dean Five Acres College offers a number of post 16 options as well as post 16 provisions in the nearby community areas at Newent or opt to travel into Cheltenham or Gloucester for other sixth forms and college options. A new college provision is opening in Cinderford for 2018. The nearest special school in Gloucestershire is the Heart of the Forest School; however some pupils may opt to go to the provision in Monmouth (Over Monnow Primary) this is a primary provision only.

Primary	DfE	Type	District
Forest View Primary	2061	Academy converter	Forest of Dean
Littledean Church of England Primary School	3044	Voluntary controlled school	Forest of Dean
Soudley Primary School	2066	Community school	Forest of Dean
St White's Primary School	2065	Community school	Forest of Dean
St. Anthony's Primary School	6049	Closed August 2018	Forest of Dean
Steam Mills Primary School	2067	Community school	Forest of Dean

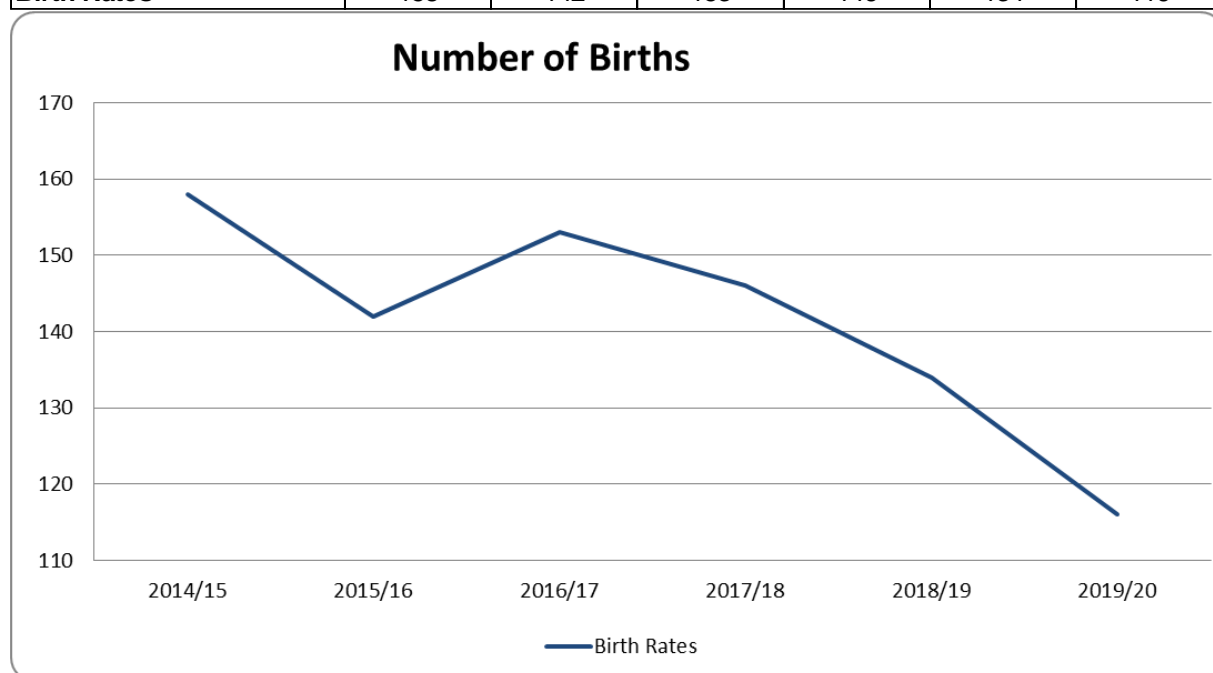

The 4 Secondary schools serving the Forest Central area are listed here:

Secondary	DFE	Type	District
Dene Magna School	5422	Academy converter	Forest (C)
Five Acres High School	4009	Academy sponsor led	Forest (C)
The Dean Academy	4005	Academy sponsor led	Forest (C)
The Forest High School	4006	Academy sponsor led	Forest (C)

Births in Cinderford

The number of births in the Cinderford area has decreased for the last three years after peaks and troughs in earlier years.

Cinderford	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	158	142	153	146	134	116

Primary pupil place demand in Cinderford

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

St Whites School was rebuilt in 2016. It was built as a 1.5FE with a 2FE core so can easily be expanded with the provision of 3 additional classrooms. Forest View is a 2FE school but has the site available for further expansion if required.

Forest View Primary Academy increased its PAN from 45 to 60 in 2016.
St Anthony's Free School closed in July 2018.

Housing development at Cinderford Northern Quarter is expected to generate increased demand in the area, when it comes forward. However timescales for this is currently unknown. We have secured S106 developers funding to expand Steam Mills Primary School if necessary.

There is sufficient capacity in the planning area to meet demand throughout the forecasting period.

The Forest High School is the local secondary school. There is currently no anticipated impact on secondary provision as increased numbers can be accommodated within the school.

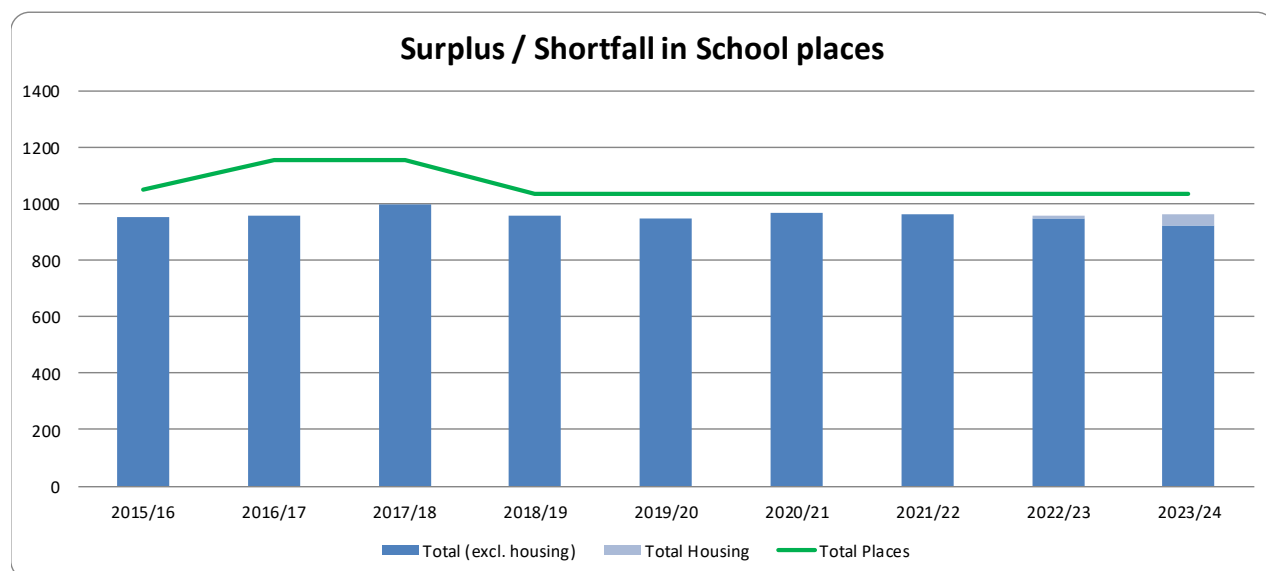

The following table shows the number of pupils in the primary age range across the Cinderford area based on the birth rate and the percentage of surplus places by age cohort both retrospectively and forecast.

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends. However, they do not include the pupil product from any housing that has yet to be completed.

Primary place demand in : Cinderford Planning Area 9161220

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)		Surplus - Shortfall Places	% Spare Year R	Total Places	Total (including students from housing)		Surplus - Shortfall Places	% Surplus Shortfall Places
2015/16	150	156		-6	-4%	1050	950		100	10%
2016/17	165	148		17	10%	1155	958		197	17%
2017/18	165	129		36	22%	1155	997		158	14%
2018/19	148	136		12	8%	1036	958		78	8%
2019/20	148	127		21	14%	1036	946		90	9%
2020/21	148	129	(0)	19	13%	1036	968	(0)	68	7%
2021/22	148	130	(0)	18	12%	1036	963	(0)	73	7%
2022/23	148	120	(2)	28	19%	1036	956	(10)	80	8%
2023/24	148	110	(6)	38	26%	1036	961	(40)	75	7%

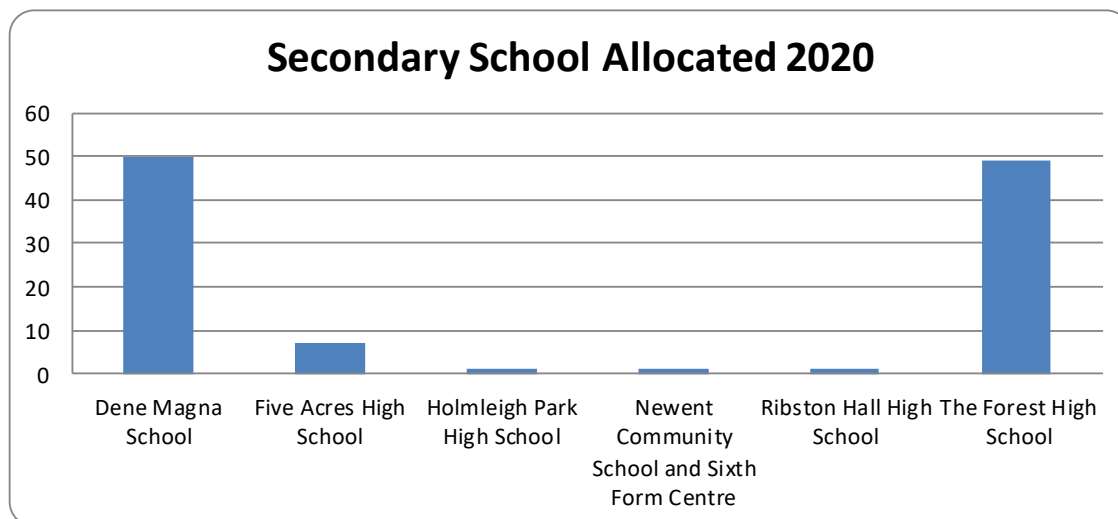

Overall, there are 98 houses identified in the Forest of Dean Local Plan to be built in the Cinderford area, should all of this housing come forward it is predicted to generate approximately 40 Primary aged pupils in the forecast period. Depending on when and in what quantities these housing developments are provided will inform what S106 developers contribution requirements Gloucestershire County Council will request.

Secondary Pupil Place demand in Cinderford

Dene Magna School and the Forest High School are the main secondary schools serving the Cinderford area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Cinderford planning area. 46% were allocated Dene Magna School and 45% were allocated the Forest High School and in the 2020 round

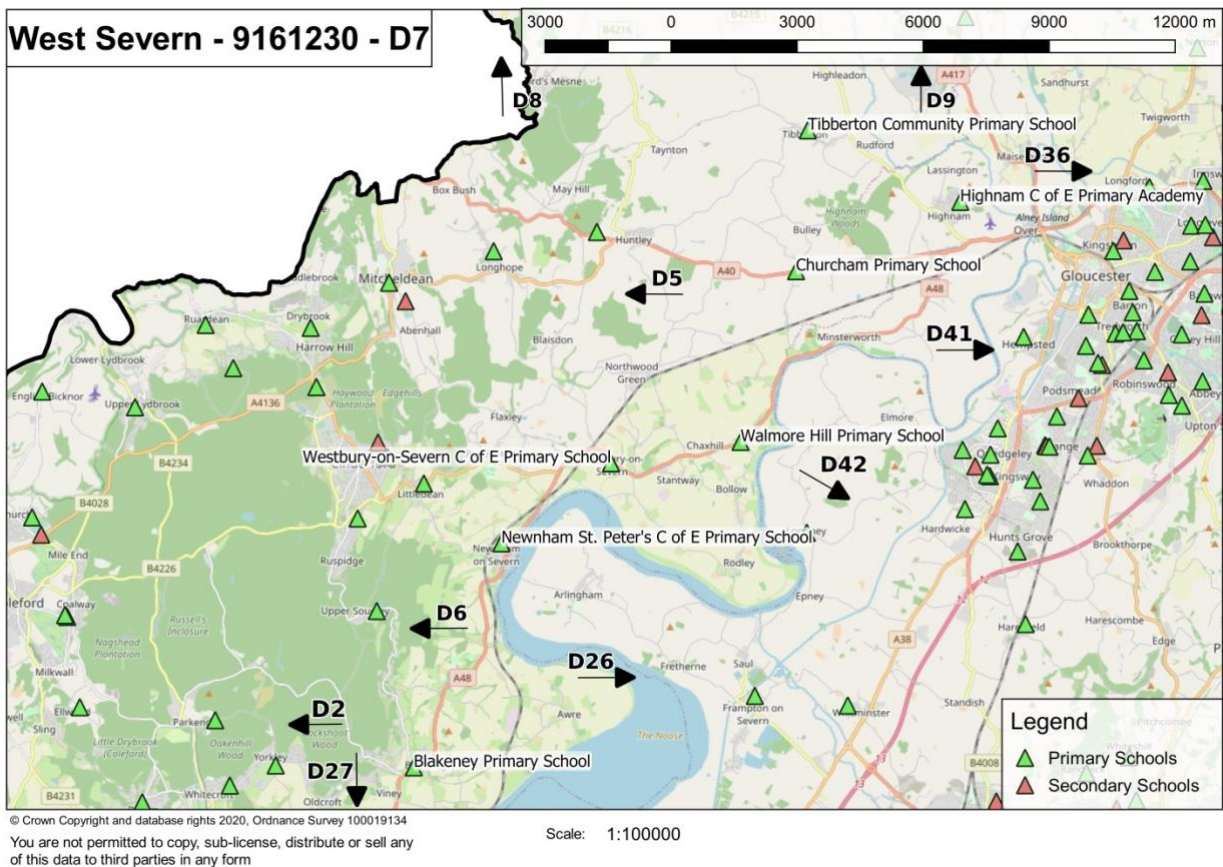

Information on Secondary Place Planning relating to Cinderford planning area can be found from page 232 to page 234

Cinderford Implementation Plan

Short term – 1 to 2 years Academic Years 2021/22 – 2022/23	Medium term – 3 to 5 years Academic Years 2023/24 – 2025/26	Long term – 5 to 10 years Academic Years 2026/27 – 2031/32
No action currently proposed.	We will continue to monitor progress of the Cinderford Northern Quarter development and once this commences, we will review the provision locally and assess the need for additional places locally.	

D7 West Severn

There were 8 primary age schools in the West Severn area, however Minsterworth Primary School closed in 2017 and 2 secondary schools catering for the 11 to 19 age range. The nearest special school in Gloucestershire is the Heart of the Forest School; however some pupils may opt to go to the provision in Monmouth (Over Monnow Primary) this is a primary provision only.

Primary	DFE	Type	District
Blakeney Primary School	2042	Community school	Forest of Dean
Churcham Primary School	2051	Community school	Forest of Dean
Highnam C of E Primary Academy	3084	Academy converter	Tewkesbury
Newnham St. Peter's C of E Primary School	3340	Voluntary aided school	Forest of Dean

Walmore Hill Primary School	2102	Community school	Forest of Dean
Westbury-on-Severn C of E Primary School	3350	Voluntary aided school	Forest of Dean

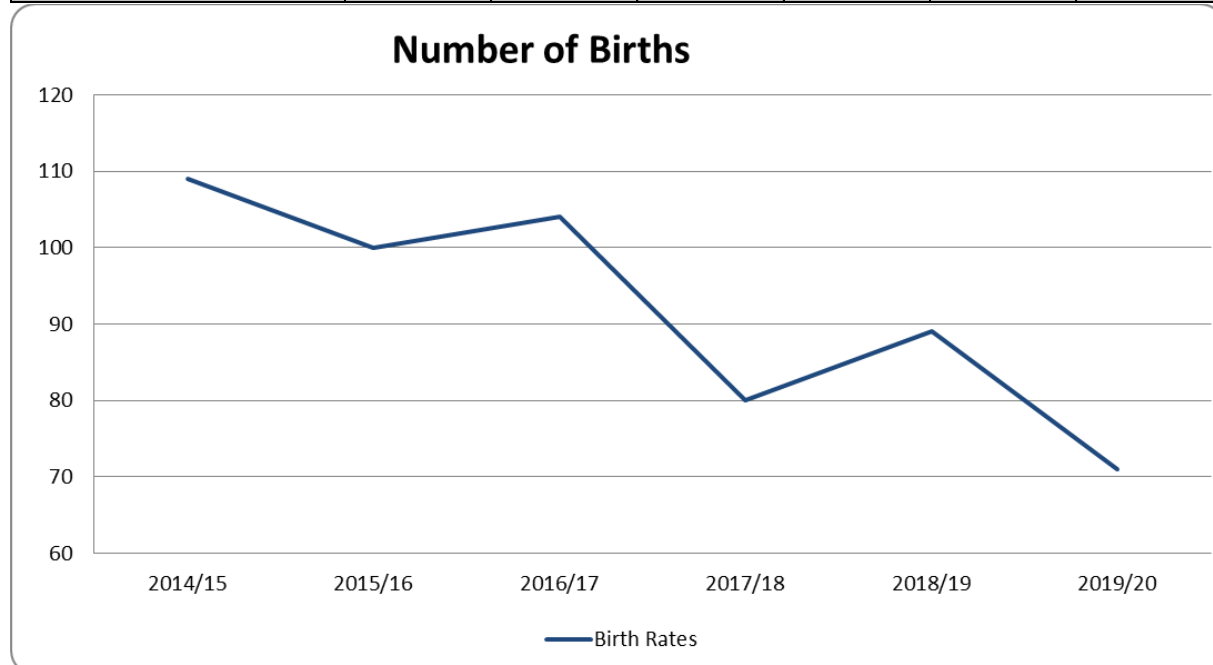

The Newent Community School is the main secondary school serving the West Severn area.

Secondary	DFE	Type	District
Newent Community School and Sixth Form Centre	5411	Academy converter	Forest (N)

Births in West Severn

The number of births in the West Severn area has decreased for the last five years having previously risen for the previous three years.

West Severn	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	109	100	104	80	89	71

Primary Pupil Place demand in West Severn

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

The closure of Minsterworth Primary School served to fill the other local schools, current capacity is meeting demand however; small housing developments underway will mean that some additional capacity at one or more of the local primary schools will be required to ensure sufficient places are available. In addition Blakeney, Highnam (housing locally) and Newnham are all likely to have demand for places that will exceed their capacity. All schools are more than two miles apart so local solutions will be needed to avoid transport implications. A watching brief on this area is in progress. If needed Walmore Hill School is able to increase its capacity by 0.5FE, but the other schools are on the 'hot spot' list of schools that would not be able to expand on their current sites to meet additional demand from new housing.

The following table shows the number of pupils in the primary age range across the West Severn area based on the birth rate and the percentage of surplus places by age cohort both retrospectively and forecast including anticipated pupil product.

Issues for Primary School Provision from 2021

Secondary	DFE	Type	District
Newent Community School and Sixth Form Centre	5411	Academy converter	Forest (N)

Births in Newent

The number of births in the Newent area has decreased in recent years following a peak in 2016/17.

Newent	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	100	99	125	98	89	78

Primary Pupil Place demand in Newent

Normally, the need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Forecasts for this area indicate a pattern of overall growth from housing development in and around Newent. Due to the legacy of surplus places across this area, these extra places can be accommodated within existing schools; however numbers will be kept under review.

Ann Cam C of E Primary School reduced their PAN from 20 to 15 in 2016

Redmarley C of E Primary School increased their PAN from 10 to 12 in 2014

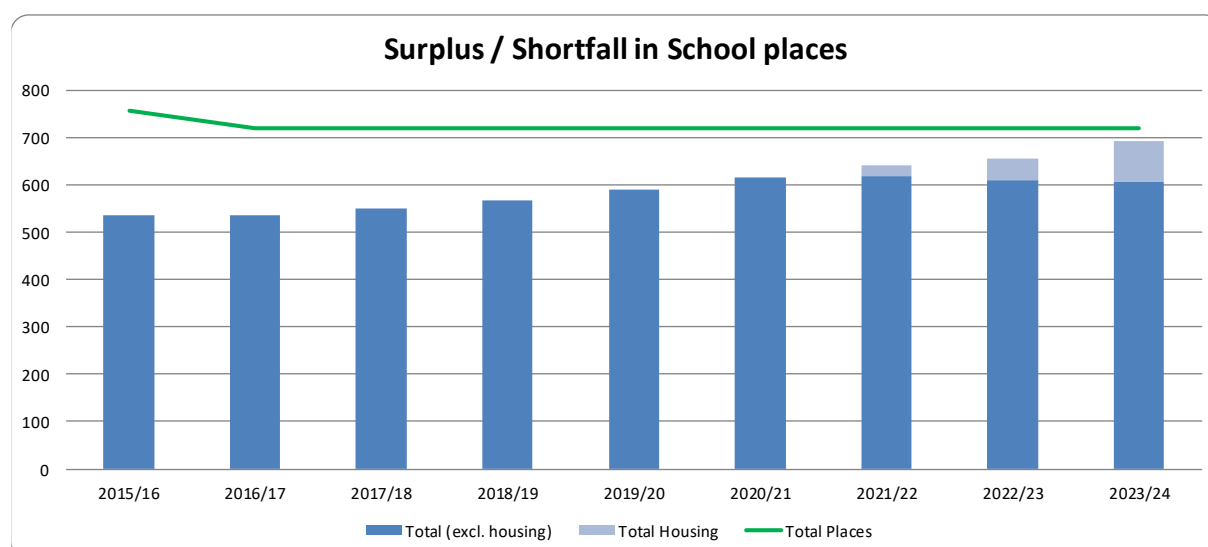

Newent Community School is the local secondary school. There is currently no anticipated impact on secondary provision as increased numbers can be accommodated within the school.

Issues for Primary School Provision from 2021

The table below is the current best estimate of provision required across Newent planning area taking account of current birth data and predicted housing. The figures are calculated by projecting forward the birth rate, the likely take up of places based on past trends and the pupil product from any housing that has yet to be completed.

Primary place demand in : Newent Planning Area 9161240

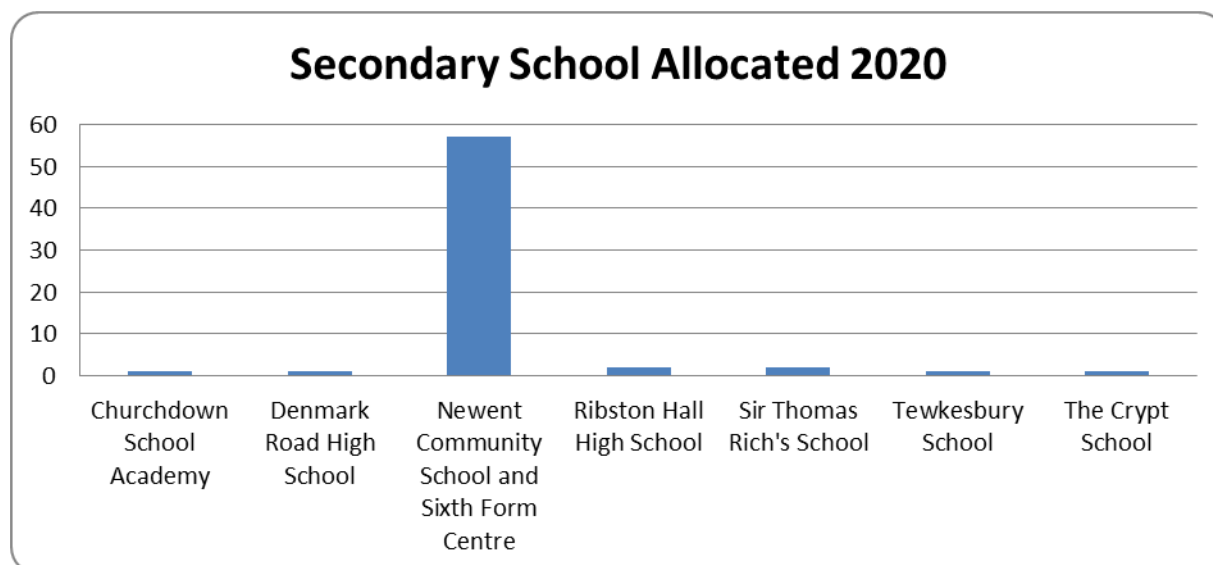

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)		Surplus - Shortfall Places	% Spare Year R	Total Places	Total (including students from housing)		Surplus - Shortfall Places	% Surplus - Shortfall Places
2015/16	107	83		24	22%	755	536		219	29%
2016/17	102	78		24	24%	720	536		184	26%
2017/18	102	73		29	28%	720	550		170	24%
2018/19	102	84		18	18%	720	568		152	21%
2019/20	102	80		22	22%	720	590		130	18%
2020/21	102	102	(0)	0	0%	720	615	(0)	105	15%
2021/22	102	90	(4)	12	12%	720	641	(22)	79	11%

2023/24	38	27	(4)	11	29%	266	253	(25)	13	5%

Overall, there are 62 houses identified in the Forest of Dean Local Plan to be built in the Hartpury area, should all of this housing come forward it is predicted to generate approximately 25 primary aged pupils in the forecast period. Depending on when and in what quantities these housing developments are provided will inform what S106 developers contribution requirements Gloucestershire County Council will request

Secondary Pupil Place demand in Hartpury

Newent Community School in the Forest North area is the main secondary school serving the Hartpury planning area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Newent planning area. 80% were allocated the Newent Community School in the 2020 round.

Information on Secondary Place Planning relating to Hartpury planning area can be found from page 230 to page 231.

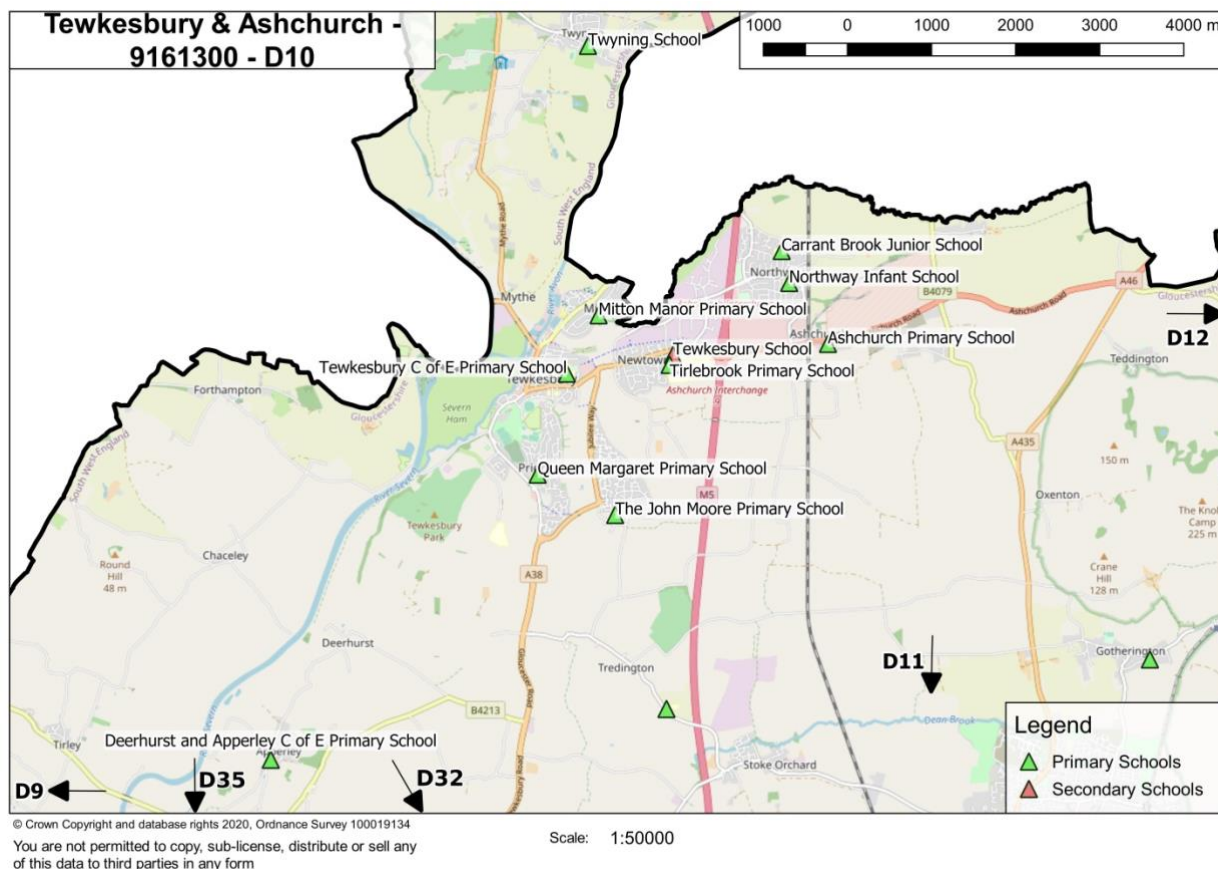

Hartpury Implementation Plan

TEWKESBURY DISTRICT

D10 Tewkesbury / Ashchurch

There are 10 primary age schools in the Tewkesbury Ashchurch area including one infant and junior school pair. There is one secondary school catering for the 11 to 19 age range. There is one special school, Alderman Knight, in the area.

Primary	DfE	Type	District
Ashchurch Primary School	2040	Community school	Tewkesbury
Carrant Brook Junior School	5220	Foundation school	Tewkesbury
Deerhurst and Apperley C of E Primary School	3030	Voluntary controlled school	Tewkesbury
Mitton Manor Primary School	2125	Academy converter	Tewkesbury
Northway Infant School	2119	Community school	Tewkesbury
Queen Margaret Primary School	2116	Community school	Tewkesbury
Tewkesbury C of E Primary School	3073	Voluntary controlled school	Tewkesbury
The John Moore Primary School	2180	Community school	Tewkesbury
Tirlbrook Primary School	5208	Foundation school	Tewkesbury
Twyning School	2101	Community school	Tewkesbury

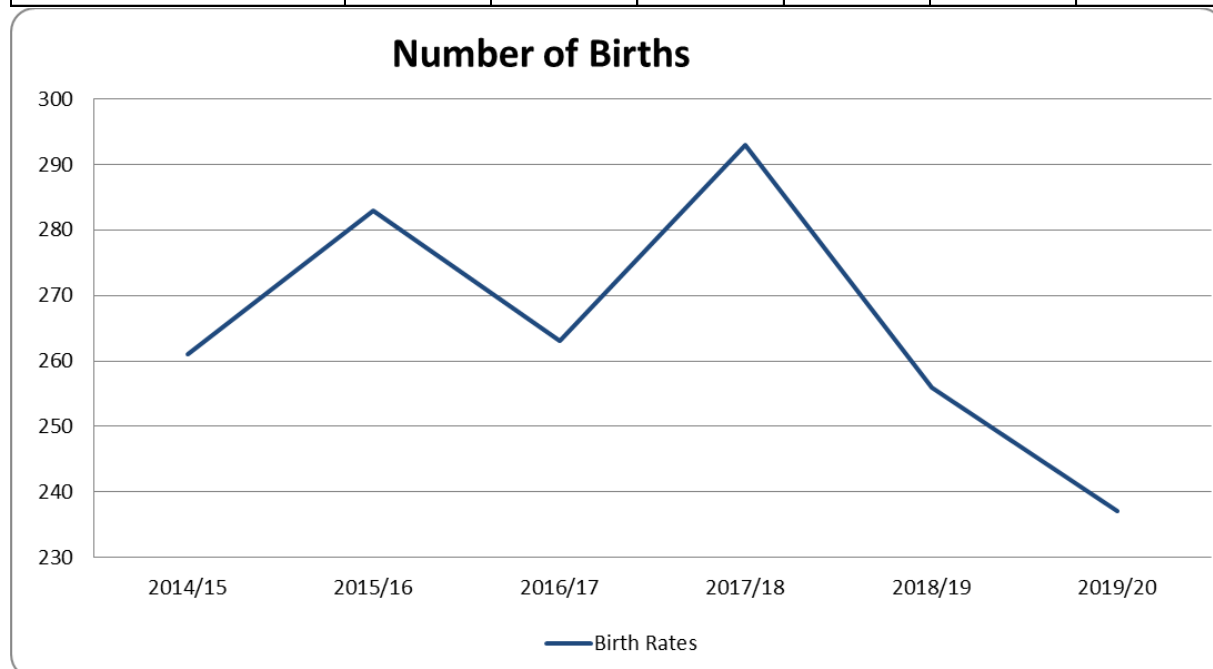

The three Secondary schools serving the Tewkesbury area are listed here:

Secondary	DfE	Type	District
Cleeve School	4024	Academy converter	Tewkesbury
Tewkesbury School	5405	Academy converter	Tewkesbury
Winchcombe School	5417	Academy converter	Tewkesbury

Births in Tewkesbury / Ashchurch

Tewkesbury is a large planning area, the number of births has decreased in the last two years after fluctuating in the previous years.

Tewkesbury / Ashchurch	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	261	283	263	293	256	237

Primary pupil place demand in Tewkesbury / Ashchurch

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

In this planning area we experience pressure for places at The John Moore Primary each year. Despite overall surplus in the planning area we need to look at individual schools because they are located some distance apart.

Ashchurch Primary School has benefitted from S106 funding linked to housing at Pamington Lane and increased its PAN from 19 to 21 in 2019 to accommodate children from new housing, with a possible further increase to 25 in future.

A development of 250 dwellings is underway at Walton Cardiff which is located directly opposite John Moore Primary School. The S106 developers contribution secured from this housing development will support additional places at John Moore Primary School. The school has sufficient land to accommodate a 0.5FE expansion.

A significant housing development is currently being planned across the border in Worcestershire. Whilst a new primary school is planned on the site of the development there may be a short term impact on Gloucestershire schools, such as Mitton Manor, which is the closest school to the development.

The Tewkesbury Academy is the local secondary school. There is currently no anticipated impact on secondary provision as increased numbers can be accommodated within the school, however this is being monitored closely as more housing developments are granted consents and where appropriate S106 is being secured to expand the school. The school has sufficient site to expand.

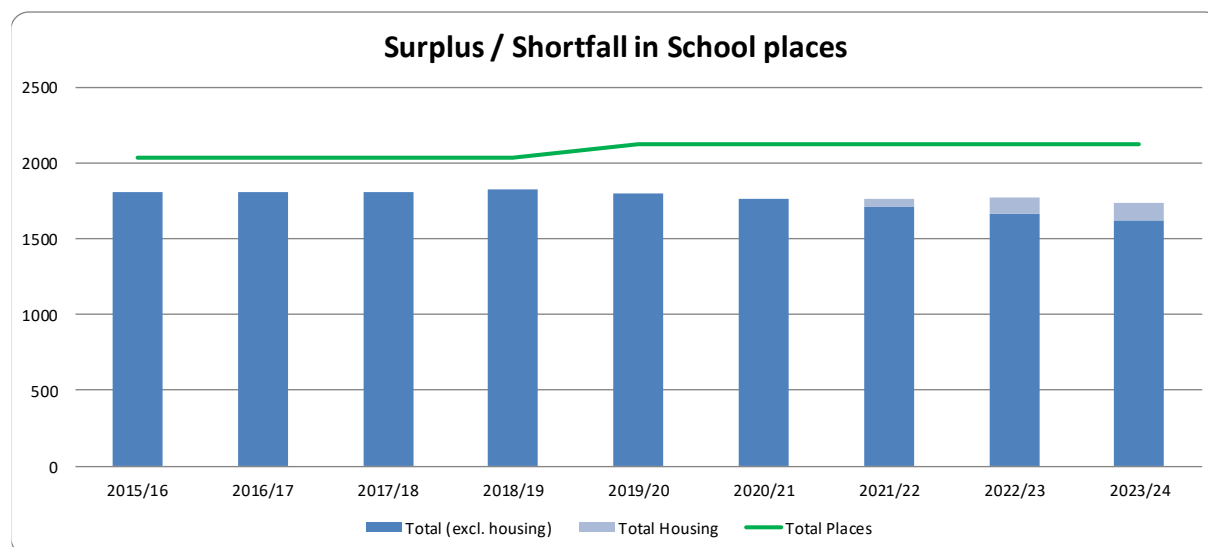

Issues for Primary School Provision from 2021

The following table shows the number of pupils in the primary age range across the Tewkesbury/Ashchurch area based on the birth rate and the percentage of surplus places by age cohort both retrospectively and forecast including anticipated pupil product.

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

For example a primary school expanding from 7 to 14 classes would originally have a capacity of 210 places (7 x 30) if the building extension is due to finish August 2019 the tables will reflect the capacity increase to 420 places (14 x 30) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 30 to 60 for the reception class and operationally the school will use 8 classes or capacity of 240 places. The balance of 6 classrooms or 180 places will not be in use until the higher intake works its way through the school

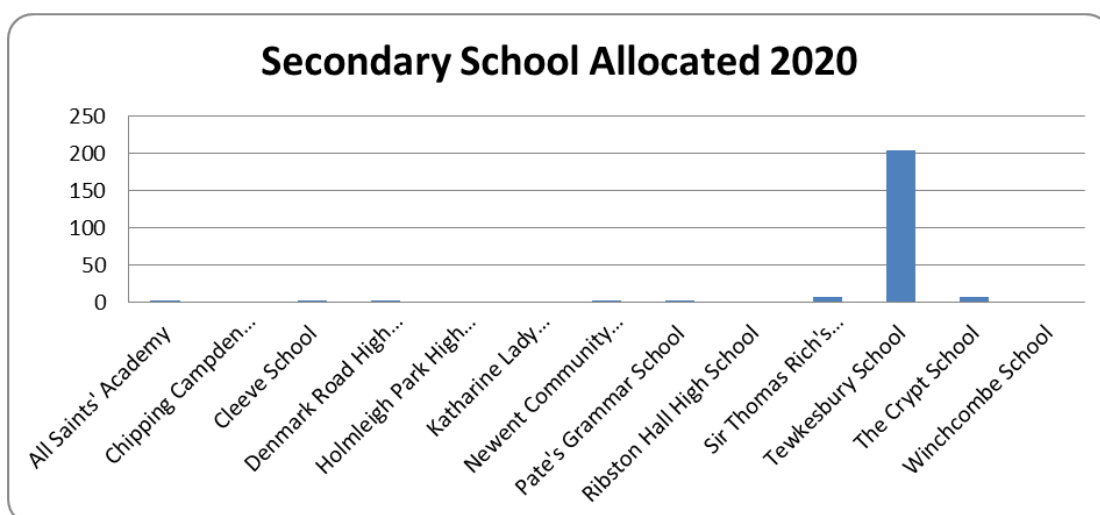

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)		Surplus - Shortfall Places	% Spare Year R	Total Places	Total (including students from housing)		Surplus - Shortfall Places	% Surplus - Shortfall Places
2015/16	286	258		28	10%	2032	1807		225	11%
2016/17	286	253		33	12%	2032	1810		222	11%
2017/18	286	257		29	10%	2032	1811		221	11%
2018/19	286	240		46	16%	2032	1826		206	10%
2019/20	303	260		43	14%	2121	1802		319	15%
2020/21	303	233	(0)	70	23%	2121	1763	(0)	358	17%
2021/22	303	254	(8)	49	16%	2121	1763	(51)	358	17%
2022/23	303	232	(15)	71	23%	2121	1767	(100)	354	17%
2023/24	303	224	(18)	79	26%	2121	1740	(121)	381	18%

Overall, there are 294 houses identified in the Tewkesbury Local Plan to be built in the Tewkesbury/Ashchurch area. Should all of this housing come forward it is predicted to generate approximately 121 primary aged pupils in the forecast period. Depending on when and in what quantities these housing developments are provided will inform what S106 developers contribution requirements Gloucestershire County Council will request. There is significant housing allocated for Tewkesbury within the JCS. In addition planned housing across the border in Worcestershire will also impact on this planning area as a result S106 new schools and contributions will be secured to support additional secondary places.

Secondary Pupil Place demand in Tewkesbury / Ashchurch

Tewkesbury school is the main secondary school serving the Tewkesbury / Ashchurch area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Tewkesbury / Ashchurch planning area. 86% were allocated the Tewkesbury school in the 2020 round.

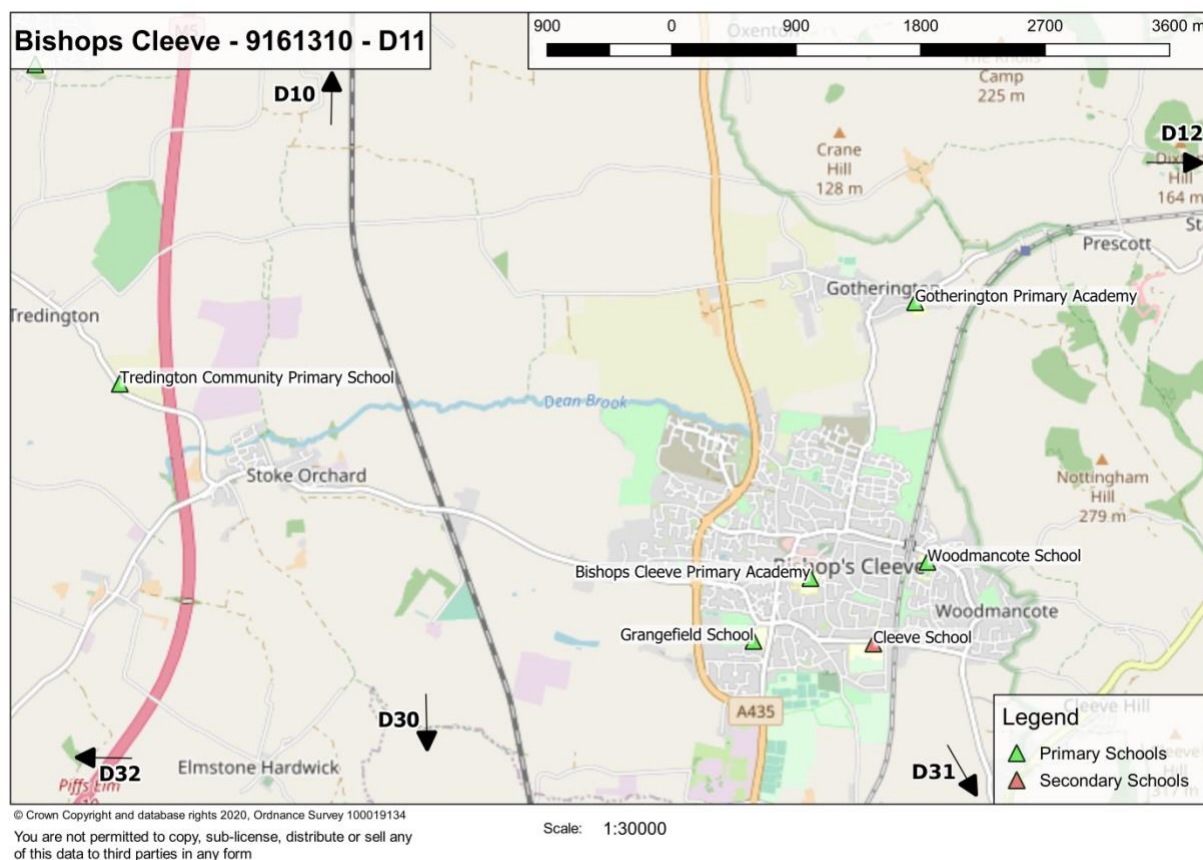

Information on Secondary Place Planning relating to Tewkesbury/Ashchurch planning area can be found from page 237 to page 239.

Tewkesbury / Ashchurch Implementation Plan

Short term – 1 to 2 years Academic Years 2021/22 – 2022/23	Medium term – 3 to 5 years Academic Years 2023/24 – 2025/26	Long term – 5 to 10 years Academic Years 2026/27 – 2031/32
Continue to monitor demand in this area and work with local schools to address any needs emerging from both the Admission rounds and Housing..	Work with colleagues at Worcestershire Council to monitor a large housing development at Bredon Road for 500 dwellings which could potentially impact Mitton Primary School. In addition a large housing development at Fiddington of up to 850 dwellings would secure a new Primary school and contribution to secondary provision.	No action currently required, continue to monitor housing developments and seek S106 if appropriate.

D11 Bishops Cleeve

There are 5 primary age schools in the Bishops Cleeve area and 1 secondary school catering for the 11 to 19 age range. There is 1 special school, Alderman Knight, in the area

Primary	DFE	Type	District
Bishops Cleeve Primary Academy	2135	Academy converter	Tewkesbury
Gotherington Primary Academy	2069	Academy converter	Tewkesbury
Grangefield School	2181	Community school	Tewkesbury
Tredington Community Primary School	2089	Community school	Tewkesbury
Woodmancote School	2141	Community school	Tewkesbury

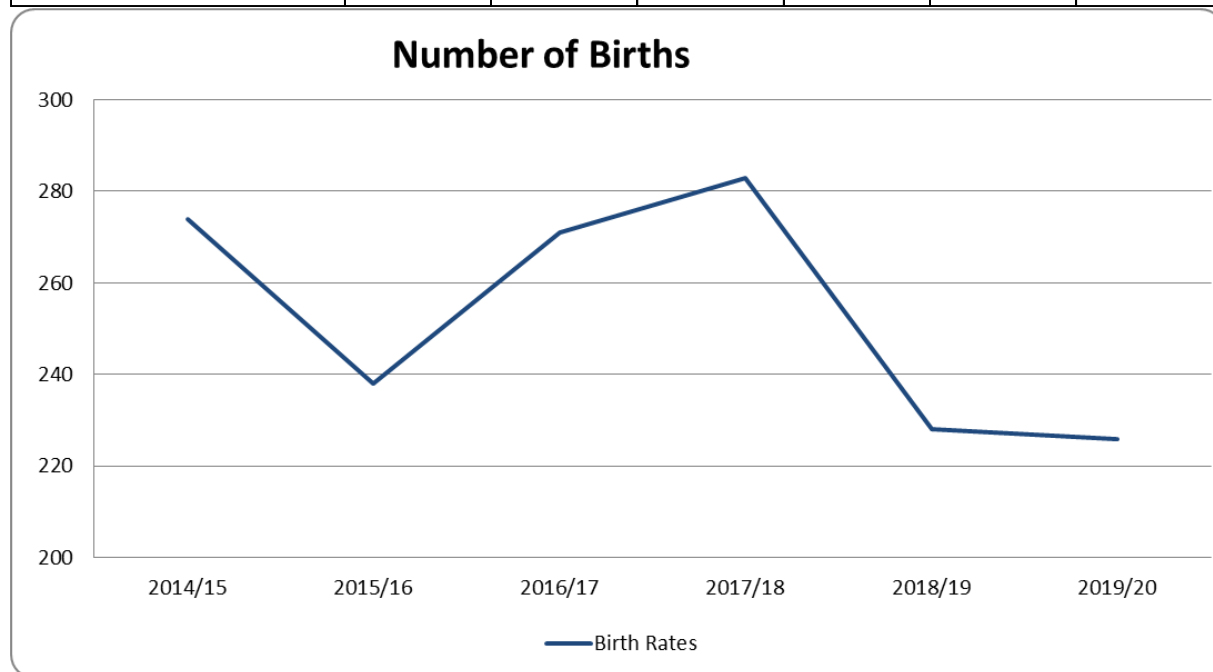

The 3 Secondary schools serving the Tewkesbury area are listed here:

Secondary	DFE	Type	District
Cleeve School	4024	Academy converter	Tewkesbury
Tewkesbury School	5405	Academy converter	Tewkesbury
Winchcombe School	5417	Academy converter	Tewkesbury

Births in Bishops Cleeve

The number of births in the Bishops Cleeve area has risen in recent years.

Bishops Cleeve	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	274	238	271	283	228	226

Primary Pupil Place demand in Bishops Cleeve

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

This area has seen significant housing growth over the last four years as a result of the large scale housing; all schools in the planning area with the exception of Gotherington have expanded.

Bishops Cleeve Primary Academy increased its PAN to 90 in September 2013.

Grangefield School temporarily increased its PAN from 30 to 45 for September 2015, and permanently to 60 in 2017.

Tredington Primary increased its PAN from 12 to 14 from 2015 to accommodate pupils from the Coal Research Establishment development. A further PAN increase from 14 to 18 was introduced in 2019

Woodmancote Primary temporarily increased its PAN from 45 to 60 for September 2015 and permanently from September 2016, to accommodate pupils from the Homelands 1 development.

There are several large housing developments underway including Cleevelands and Homelands, with more planned to start in the coming years, which will generate a significant number of additional primary pupils. With all current local primary schools full and with no

site capacity available to expand a new school is planned to open at the end of the forecasting period

There are two significant outline planning applications submitted to Tewkesbury Borough Council for 850 dwellings at Fiddington, Ashchurch and 500 dwellings at Gotherington, Bishops Cleeve. Gloucestershire County Council has indicated that new schools would be required should these developments be granted permission.

Cleeve Academy is predominantly the local secondary school although some pupils opt to travel to the Cheltenham schools. The significant housing growth has led to the expansion of Cleeve Academy by an additional 1FE in 2018 and a further 1FE in 2019 to support demand for places.

To date the significant housing developments at Bishop's Cleeve have resulted in all schools except one in the planning area expanding to meet demand arising from housing as detailed below.

With all schools now at site capacity, any further places will be by the provision of a new primary school provision to meet the shortfall. In the short term a bulge class will be required for 2021 with a new school provision by 2023/24.

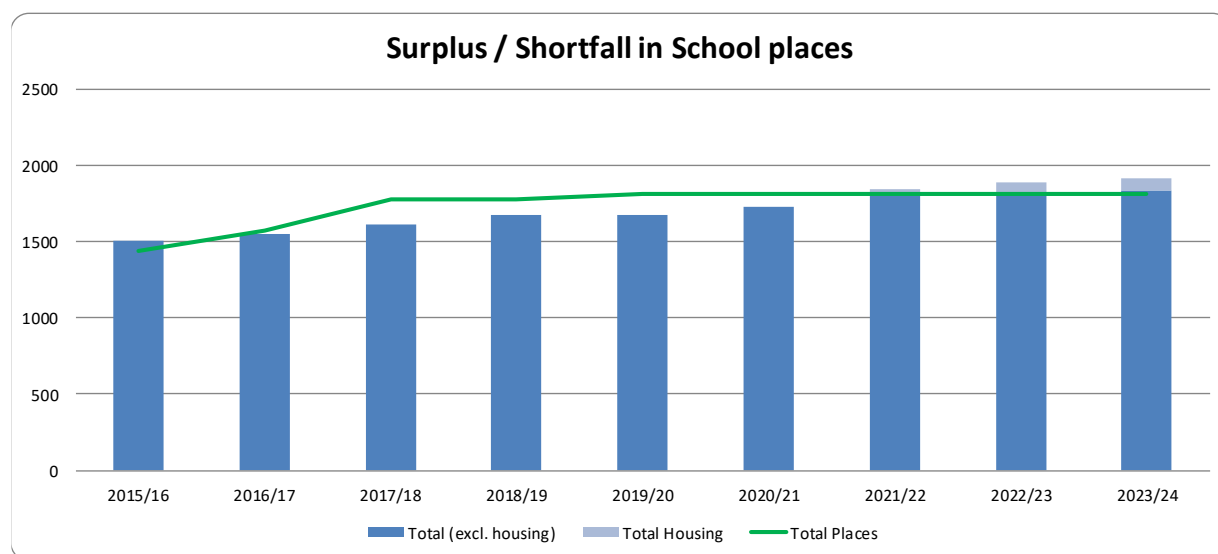

Issues for Primary School Provision from 2021

The following table shows the number of pupils in the primary age range across the Bishops Cleeve area based on the birth rate and the percentage of surplus/shortfall places by age cohort both retrospectively and forecast.

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

For example a primary school expanding from 7 to 14 classes would originally have a capacity of 210 places (7 x 30) if the building extension is due to finish August 2019 the tables will reflect the capacity increase to 420 places (14 x 30) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 30 to 60 for the reception class and operationally the school will use 8 classes or capacity of 240 places. The balance of 6 classrooms or 180 places will not be in use until the higher intake works its way through the school

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)	Surplus - Shortfall Places	% Spare Year R		Total Places	Total (including students from housing)	Surplus - Shortfall Places	% Surplus - Shortfall Places

D12 Winchcombe

There are 4 primary age schools (one split site) in the Winchcombe area and 1 secondary school catering for the 11 to 16 age range. For sixth form, young people travel to post 16 provisions in nearby community areas or to specialist college provision. There is 1 special school in the area, Alderman Knight School.

Primary	DfE	Type	District
Gretton Primary Academy	2113	Academy converter	Tewkesbury
Isbourne Valley School	3374	Community school	Tewkesbury
Oak Hill C of E Primary School	3099	Voluntary controlled school	Tewkesbury
Winchcombe Abbey C of E Primary School	3368	Academy converter	Tewkesbury

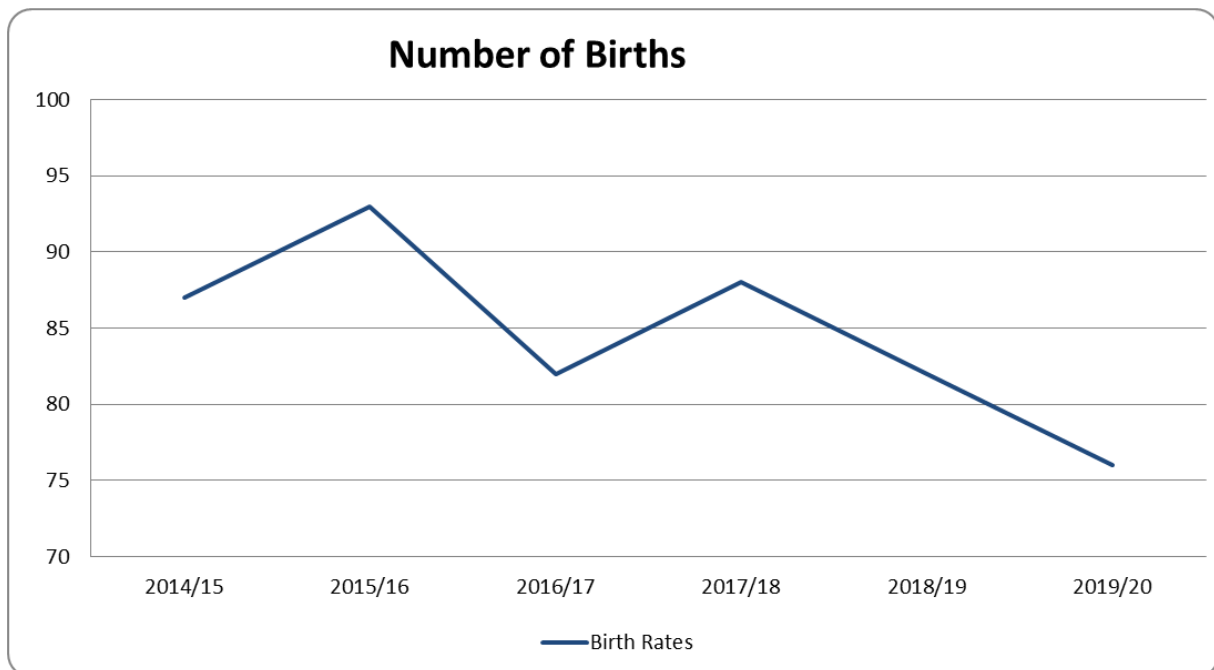

There are 3 Secondary schools serving the Tewkesbury area is listed here:

Secondary	DfE	Type	District
Cleeve School	4024	Academy converter	Tewkesbury
Tewkesbury School	5405	Academy converter	Tewkesbury
Winchcombe School	5417	Academy converter	Tewkesbury

Births in Winchcombe

The number of births in the Winchcombe area has decreased for the last three years after a peak in 2015/16.

Winchcombe	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	87	93	82	88	82	76

Primary Pupil Place demand in Winchcombe

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

This planning area has seen some medium scale housing developments over the last few years as a result S106 has supported growth at Winchcombe Abbey Primary School. In addition, demand for places locally has supported a small rise in PAN at Isbourne Valley.

Winchcombe Abbey C of E Primary temporarily increased its PAN from 30 to 45 for 2014 and 2015 and permanently from 2017.

Isbourne Valley Primary School moved to the Didbrook site on a permanent basis from September 2015. The school increased its PAN from 12 to 15 in 2019.

Previous forecasts showed a shortfall of over 30 (1FE) places by 2021 from new housing. These additional numbers of pupil have not yet arisen and plans to expand Winchcombe Abbey by a further 0.5 FE have been put on hold until the need can be demonstrated by future forecasts. Further housing developments cannot be ruled out and some additional capacity must be factored in to allow for future growth, or no further development will be supported.

Winchcombe Academy is predominantly the local secondary school although some pupils opt to travel to the Cheltenham schools. The local housing growth is expected to necessitate the school to expand in future.

Issues for Primary School Provision from 2021

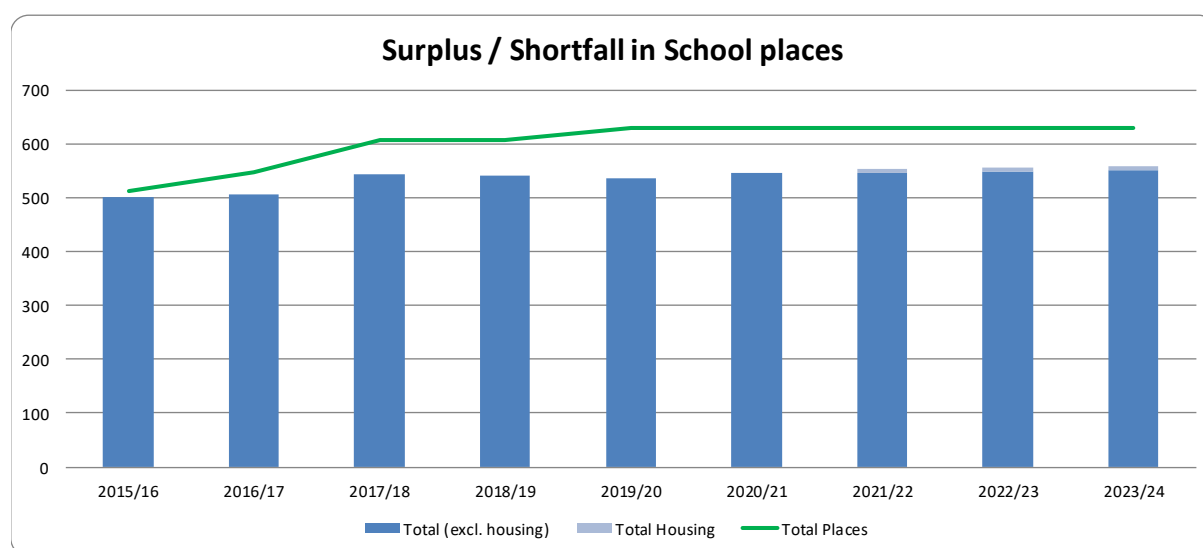

The following table shows the number of pupils in the primary age range across the Winchcombe area based on the birth rate and the percentage of surplus places by age cohort both retrospectively and forecast.

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

Work with Winchcombe Abbey Primary and Winchcombe Secondary School to plan the timing of expansion to meet demand generated by housing in the planning area.	Continue to monitor housing in the planning area and request S106 where appropriate.

COTSWOLD DISTRICT

D13 Chipping Campden

There are 7 primary age schools (including one split site primary) in the Chipping Campden area and 1 secondary school catering for the 11 to 19 age range. Children requiring special school provision could attend, Paternoster in Cirencester, Shrubberies in Stonehouse, Belmont in Cheltenham or The Peak in Dursley depending on the nature of their additional needs.

Primary	DFE	Type	District
Blockley C of E Primary School	3021	Academy converter	Cotswold
Longborough C of E Primary School	3045	Voluntary controlled school	Cotswold
Mickleton Primary School	2081	Community school	Cotswold
St. Catharine's Catholic Primary School	3354	Voluntary aided school	Cotswold
St. David's Church of England Primary School	5213	Academy converter	Cotswold
St. James' and Ebrington Church of England Primary	3364	Voluntary aided school	Cotswold
Willersey C of E Primary School	3081	Voluntary controlled school	Cotswold

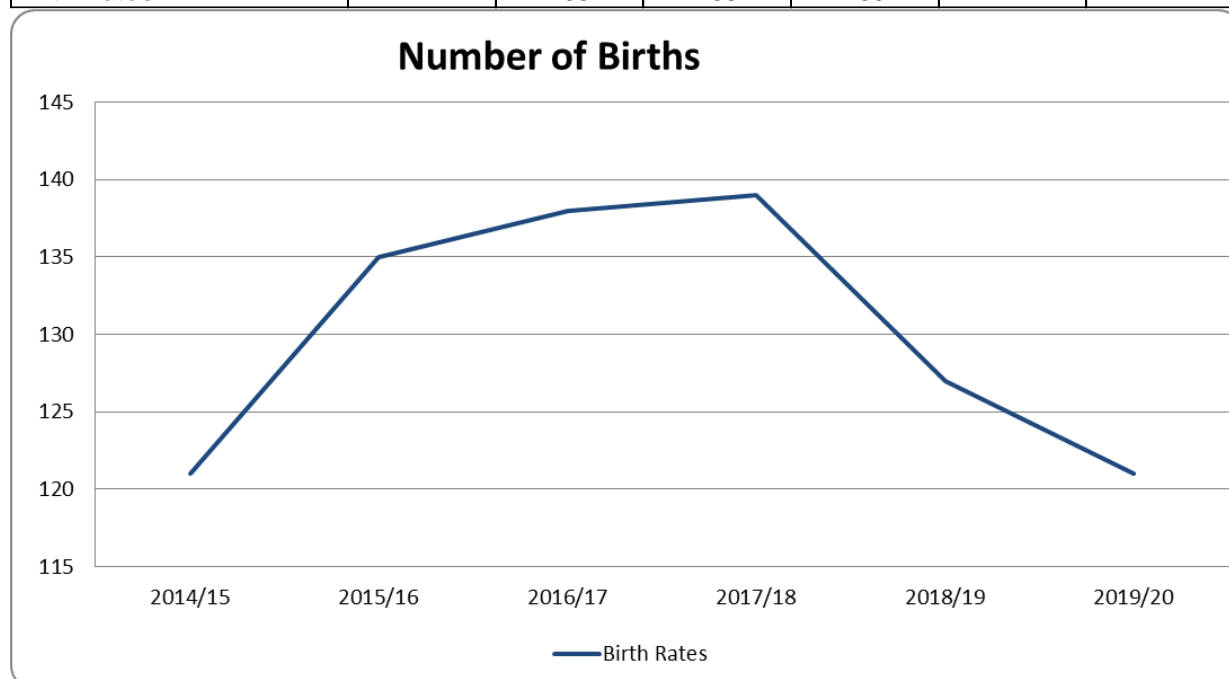

There are 2 Secondary schools serving the Cotswold North area are listed here:

Secondary	DFE	Type	District
Chipping Campden School	5414	Academy converter	Cotswold (N)
The Cotswold Academy	5410	Academy converter	Cotswold (N)

Births in Chipping Campden

The number of births in the chipping Campden area has generally risen in recent years with a high number in 2017/18. There has been a small decrease for the last two years.

Chipping Campden	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	121	135	138	139	127	121

Primary Pupil Place demand in Chipping Campden

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Projections in the planning area show that the numbers remain within the overall capacity for the planning area as a whole. However, there is new housing in Moreton in Marsh that will impact on St. David's Primary Schools for which S106 developers contributions have been secured.

Mickleton increased its PAN from 20 to 25 in 2018 and has site capacity to grow to 30 in line with the housing development needs. Capacity issues are contained to this planning area, however influenced by cross border migration into Mickleton.

Longborough increased its PAN from 8 to 11 in 2019.

St. David's will accept a bulge class of 15 additional pupils in 2021/22. Longer term plans for primary provision in Moreton in Marsh are being considered because the level of housing development planned would create a need for more than 0.5FE expansion, which is the maximum that could be achieved on the St David's site and a new primary school site is likely to be required.

Chipping Campden Academy is the local secondary school. The local housing growth has secured S106 and Chipping Campden Academy increased its PAN from 200 to 208 in 2017 and the PAN will increase again to 225 in 2021/22. Further housing may see the need for additional expansion which would be supported by S106.

Numbers of pupils in the primary age range across the Chipping Campden planning area based on the birth rate and the percentage of surplus places by age cohort both retrospectively and forecast.

Issues for Primary School Provision from 2021

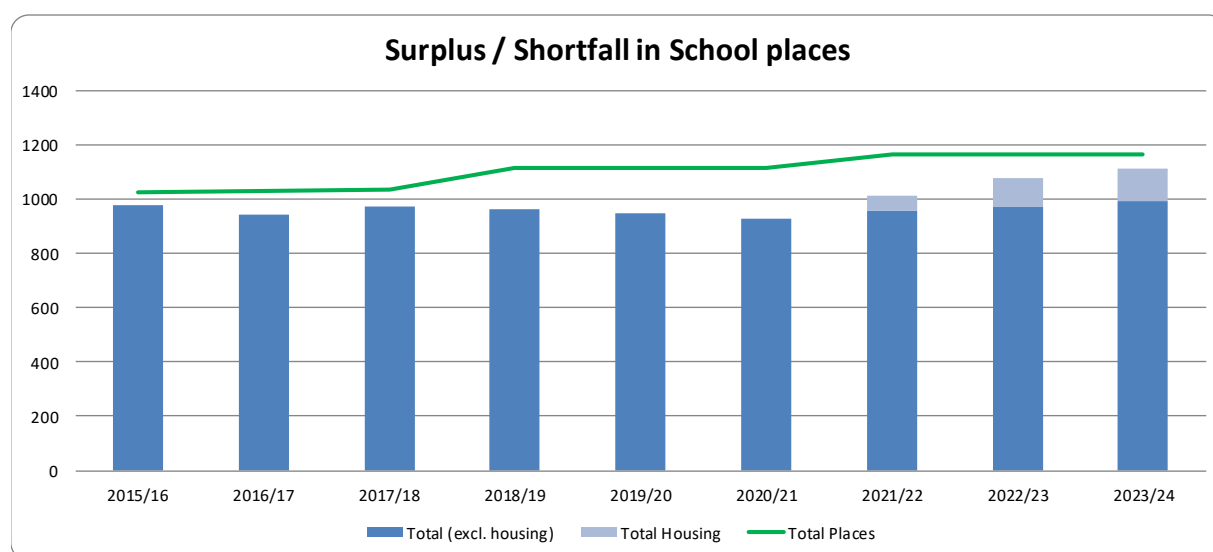

The below table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends.

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

For example a primary school expanding from 7 to 14 classes would originally have a capacity of 210 places (7 x 30) if the building extension is due to finish August 2019 the tables will reflect the capacity increase to 420 places (14 x 30) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 30 to 60 for the reception class and operationally the school will use 8 classes or capacity of 240 places. The balance of 6 classrooms or 180 places will not be in use until the higher intake works its way through the school

2023/24	164	163	(17)	1%		1163	1113	50	4%	

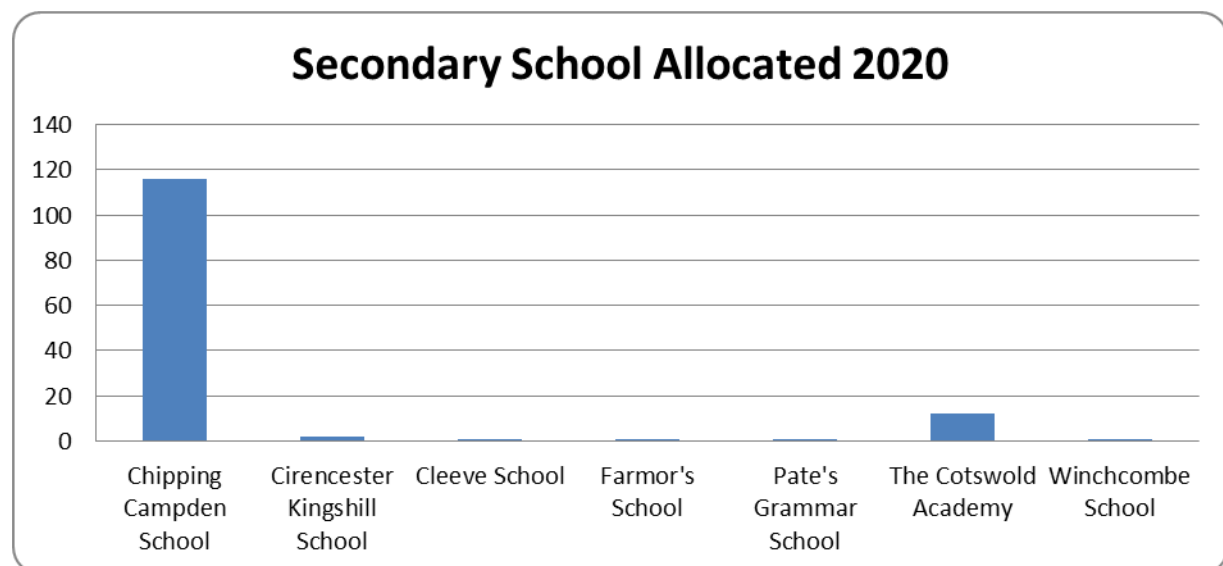

Overall, there are 291 houses identified in the Cotswolds Local Plan to be built in the Chipping Campden area, should all of this housing come forward it is predicted to generate

approximately 119 primary aged pupils in the forecast period. Depending on when and in what quantities these housing developments are provided will inform what S106 developers contribution requirements Gloucestershire County Council will request

Secondary pupil place demand in Chipping Campden

Chipping Campden School is the main secondary school serving the Chipping Campden area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

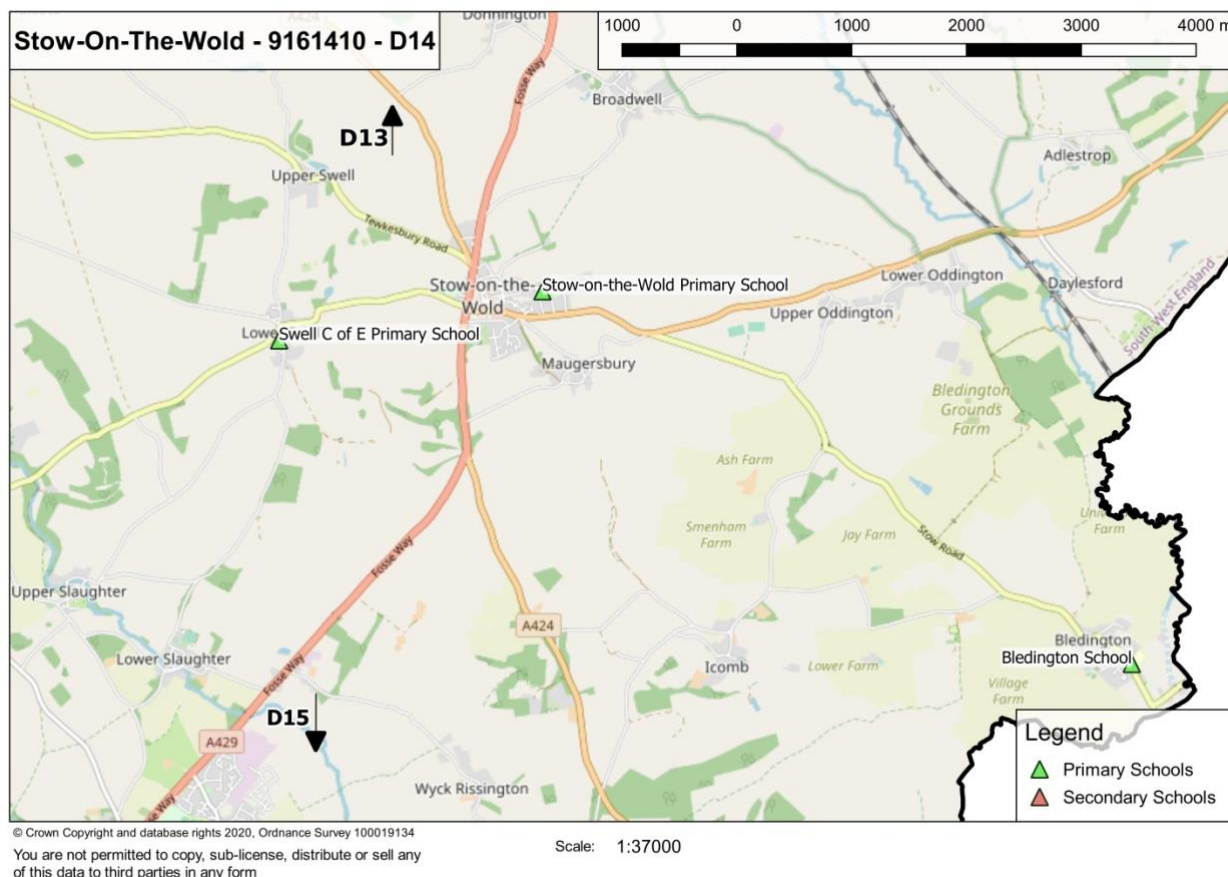

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Chipping Campden planning area. 87% were allocated the Chipping Campden School in the 2020 round.

Information on Secondary Place Planning relating to Chipping Campden planning area can be found from page 240 to page 241

D14 Stow on the Wold

There are 3 primary age schools in the Stow on the Wold area and 1 secondary school catering for the 11 to 19 age range. Children requiring special school provision could attend, Paternoster in Cirencester, Shrubberies in Stonehouse, Belmont in Cheltenham or The Peak in Dursley depending on the nature of their additional needs.

Primary	DFE	Type	District

Births in Stow on the Wold

Stow on the Wold is a small planning area consisting of three small schools. The number of births has risen slightly over the past few years.

Stow-On-The-Wold	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	36	22	23	24	24	26

Primary Pupil Place demand in Stow on the Wold

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

This planning area comprises three small schools. The projections show the intake and capacity are not exceeded in this planning period. There is currently no housing planned in the area that will impact on these schools.

Bledington primary has increased its PAN from 12 to 14 in 2015 providing 14 additional whole school places overall.

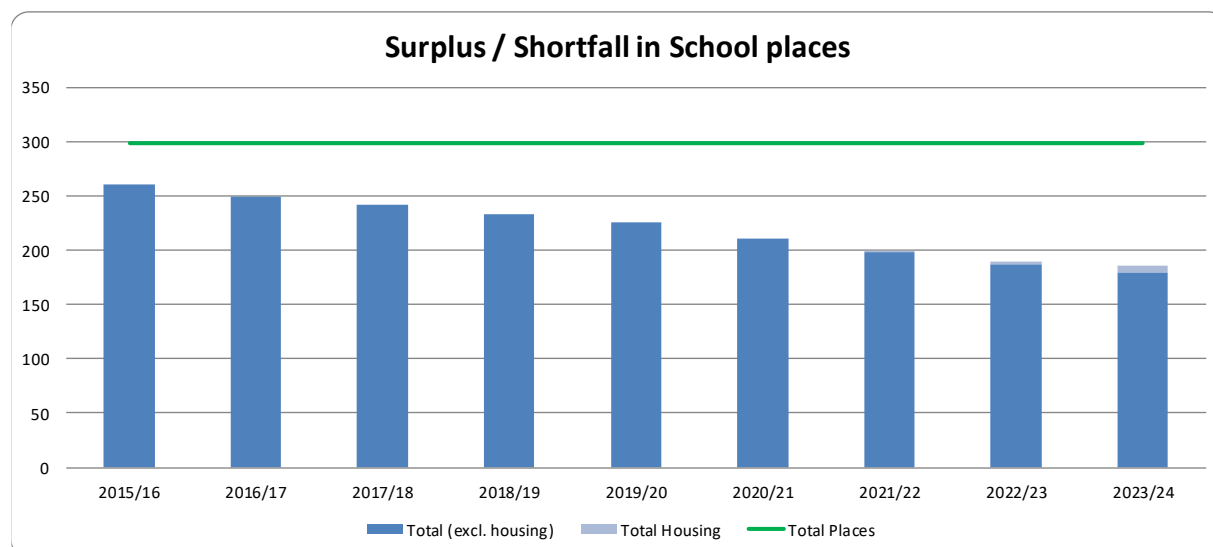

The Cotswold Academy is the local secondary school. The local housing growth has secured S106 and The Cotswold Academy increased its PAN from 210 to 220 for the 2018 intake creating 50 additional whole school places. Further housing may see the need for additional expansion which would be supported by S106.

Issues for Primary School Provision from 2021

The following table shows the number of pupils in the primary age range across the Stow on the Wold area based on the birth rate and the percentage of surplus places by age cohort both retrospectively and forecast including anticipated pupil product.

Primary place demand in : **Stow-On-The-Wold** Planning Area **9161410**

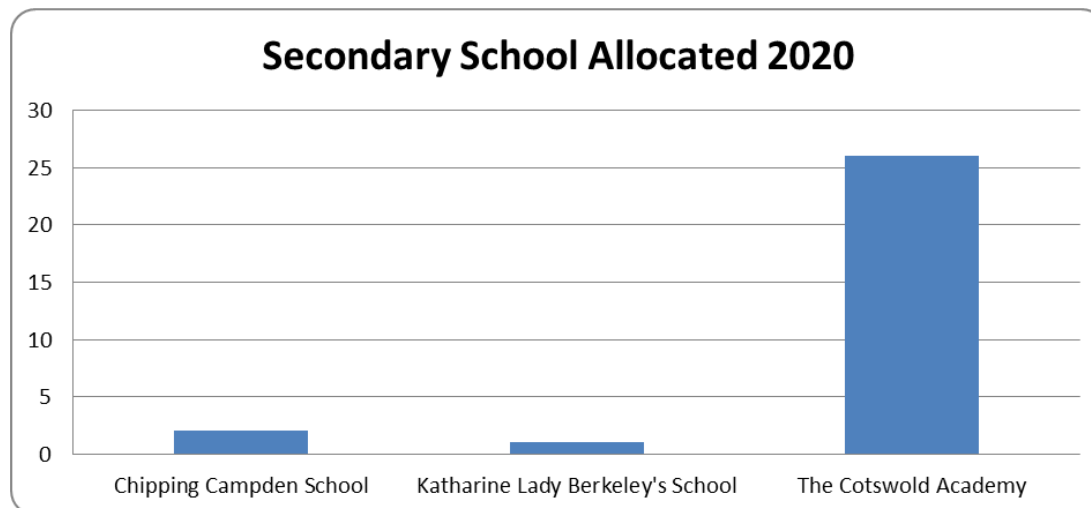

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)		Surplus - Shortfall Places	% Spare Year R	Total Places	Total (including students from housing)		Surplus - Shortfall Places	% Surplus Shortfall Places

Births in Bourton on the Water

The number of births in the Bourton on the Water area has fluctuated in the last three years, with a slight overall reduction in numbers.

Bourton On The Water	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	100	106	117	82	95	85

Primary Pupil Place demand in Bourton on the Water

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

There has been a significant new housing development in Upper Rissington. The S106 agreement provided a 0.5 FE building which enabled The Rissington School to expand across a second site, providing a split site school that provided a combined admission number of 27 and capacity of 189 for September 2016. For 2017 the PAN temporarily increased to 30. For September 2018 the school admitted a temporary bulge class before permanently increasing its PAN from 30 to 45 in 2019. Additional capacity will be provided to support this.

New housing at Bourton-on-the Water secured a S106 developers contribution. Bourton on the Water Primary Academy increased its PAN from 30 to 37 in 2017 and the school increased its PAN again to 45 in 2020.

Cold Aston School also increased its PAN from 12 to 15 in 2015 providing 21 additional whole school places overall.

The Cotswold Academy is the local secondary school. The local housing growth has secured S106 and The Cotswold Academy has increased its PAN from 210 to 220 for the 2018 intake creating 50 additional whole school places. Further housing may see the need for additional expansion which would be supported by S106.

Issues for Primary School Provision from 2021

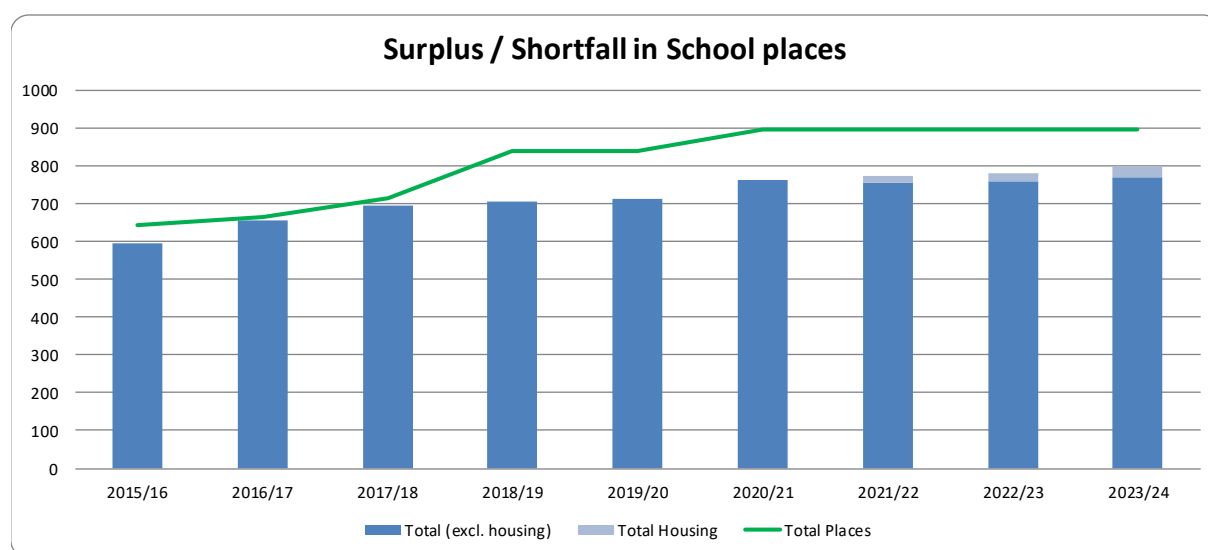

The following table shows the number of pupils in the primary age range across the Bourton on the Water area based on the birth rate and the percentage of surplus places by age cohort both retrospectively and forecast including anticipated pupil product.

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

For example a primary school expanding from 7 to 14 classes would originally have a capacity of 210 places (7 x 30) if the building extension is due to finish August 2019 the tables will reflect the capacity increase to 420 places (14 x 30) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 30 to 60 for the reception class and operationally the school will use 8 classes or capacity of 240 places. The balance of 6 classrooms or 180 places will not be in use until the higher intake works its way through the school

Primary place demand in : Bourton On The Water Planning Area 9161420

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)	Surplus - Shortfall Places	% Spare Year R		Total Places	Total (including students from housing)	Surplus - Shortfall Places	% Surplus Shortfall Places	
2015/16	92	89	3	3%		644	596	48	7%	
2016/17	95	103	-8	-8%		665	655	10	2%	
2017/18	102	79	23	23%		714	693	21	3%	
2018/19	120	93	27	23%		840	705	135	16%

There are 2 Secondary schools serving the Cotswold North area is listed here:

Secondary	DfE	Type	District
Chipping Campden School	5414	Academy converter	Cotswold (N)
The Cotswold Academy	5410	Academy converter	Cotswold (N)

Births in Northleach

The number of births in the Northleach area has fallen in recent years but recovered in 2015/16 before decreasing again.

Northleach	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	50	60	59	56	49	44

Primary Pupil Place demand in Northleach

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Projections in the planning area show that the numbers remain within the overall capacity and PAN.

The PAN at Coberley increased from 8 to 10 in September 2016.

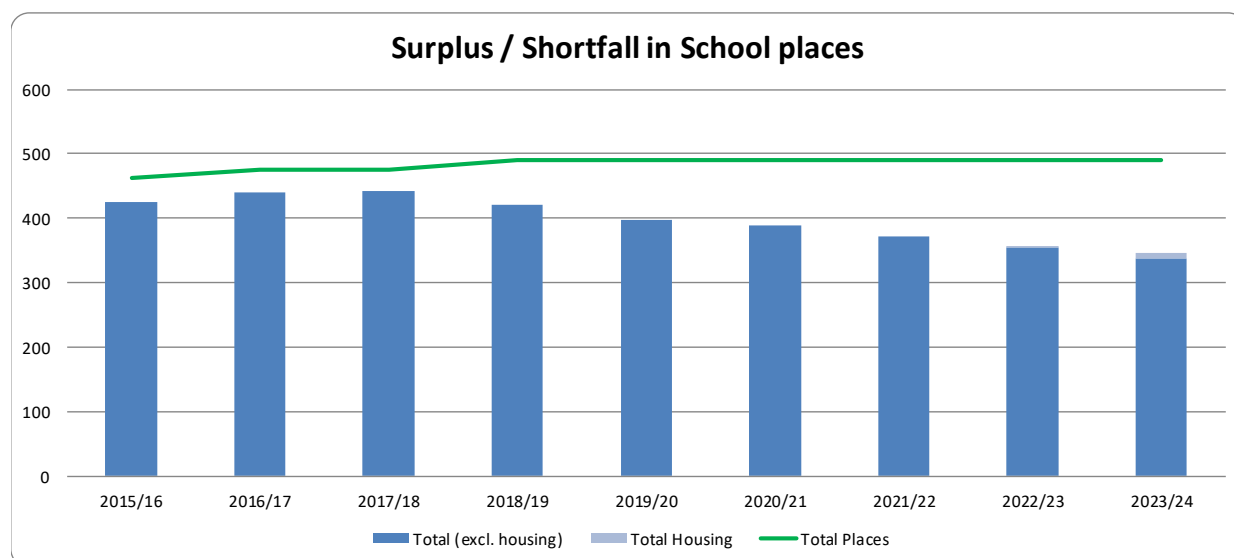

The PAN at St Andrews increased from 12 to 14 for the 2018 intake.

There is some housing that will impact on numbers at Northleach for which S106 contributions have been obtained.

Issues for Primary School Provision from 2021

The below table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends across the whole area.

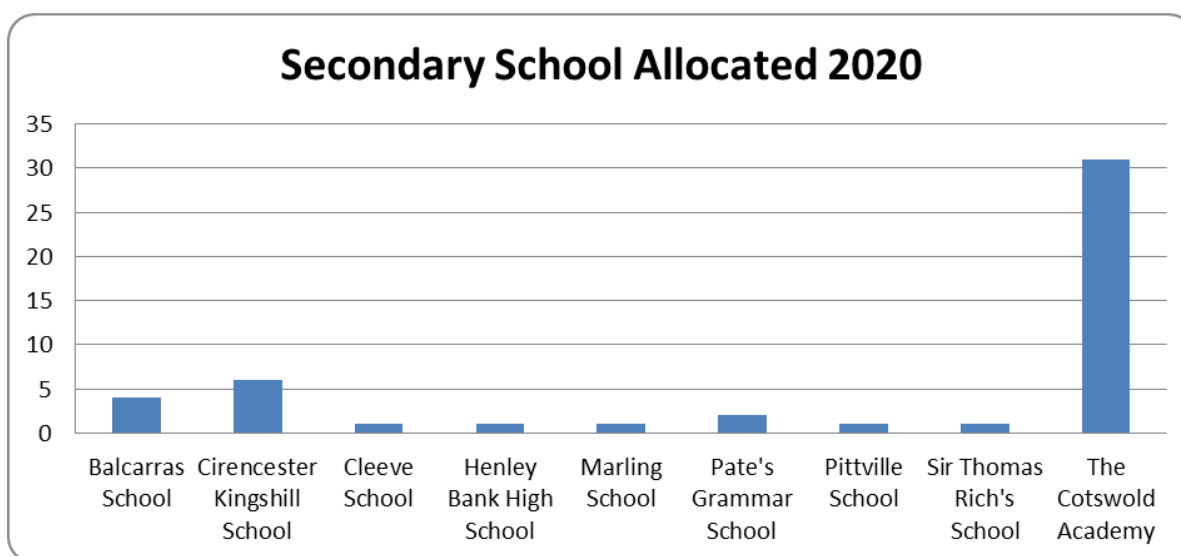

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)		Surplus - Shortfall Places	% Spare Year R	Total Places	Total (including students from housing)		Surplus - Shortfall Places	% Surplus Shortfall Places
2015/16	66	57		9	14%	462	425		37	8%
2016/17	68	62		6	9%	476	440		36	8%
2017/18	68	58		10	15%	476	442		34	7%
2018/19	70	39		31	44%	490	421		69	14%
2019/20	70	57		13	19%	490	397		93	19%
2020/21	70	52	(0)	18	26%	490	388	(0)	102	21%
2021/22	70	53	(0)	17	24%	490	371	(0)	119	24%

Sir William Romney's School	5428	Academy converter	Cotswold (S)

Births in Fairford

The number of births in the Fairford area have decreased in recent years.

Fairford	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	152	147	131	124	133	118

Primary Pupil Place demand in Fairford area

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

This planning area has a wide geographical spread of schools and borders Oxfordshire. There are some smaller village schools which serve distinct local communities.

Fairford Primary School admitted an additional 18 pupils in Reception in 2014 and an additional 17 pupils in Reception in 2017 as temporary increases to meet demand from a large cohort locally arising from housing developments locally. As a result S106 contribution was used to expand Fairford Primary permanently from 2019 increasing its PAN from 30 to 45.

Issues for Primary School Provision from 2021

The following table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends, including the pupil product from any housing that has yet to be completed.

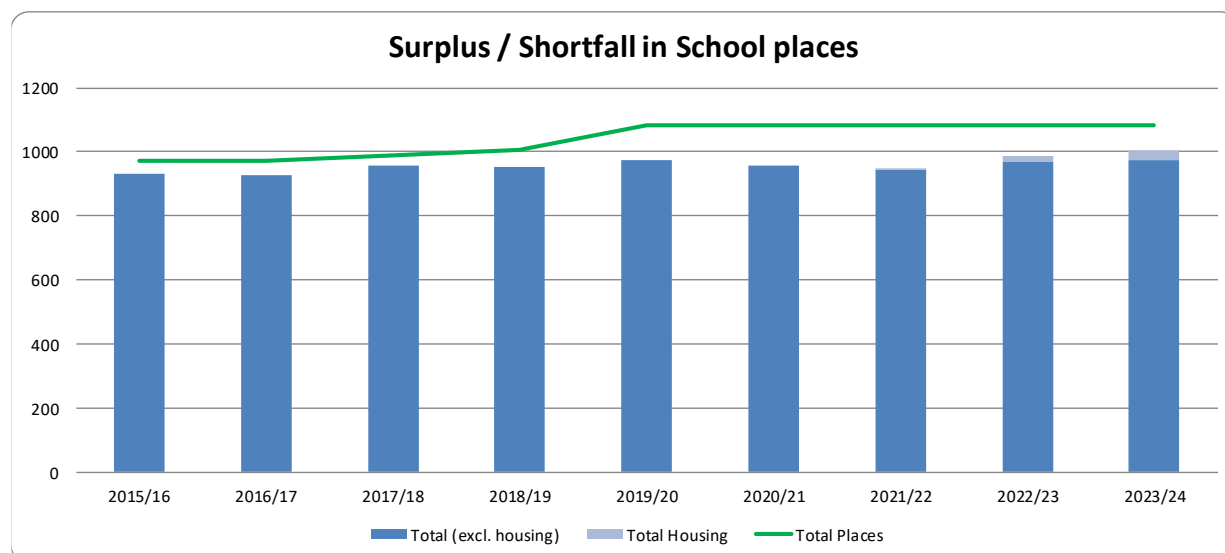

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

For example a primary school expanding from 7 to 14 classes would originally have a capacity of 210 places (7 x 30) if the building extension is due to finish August 2019 the

tables will reflect the capacity increase to 420 places (14 x 30) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 30 to 60 for the reception class and operationally the school will use 8 classes or capacity of 240 places. The balance of 6 classrooms or 180 places will not be in use until the higher intake works its way through the school

Primary place demand in : **Fairford** Planning Area **9161500**

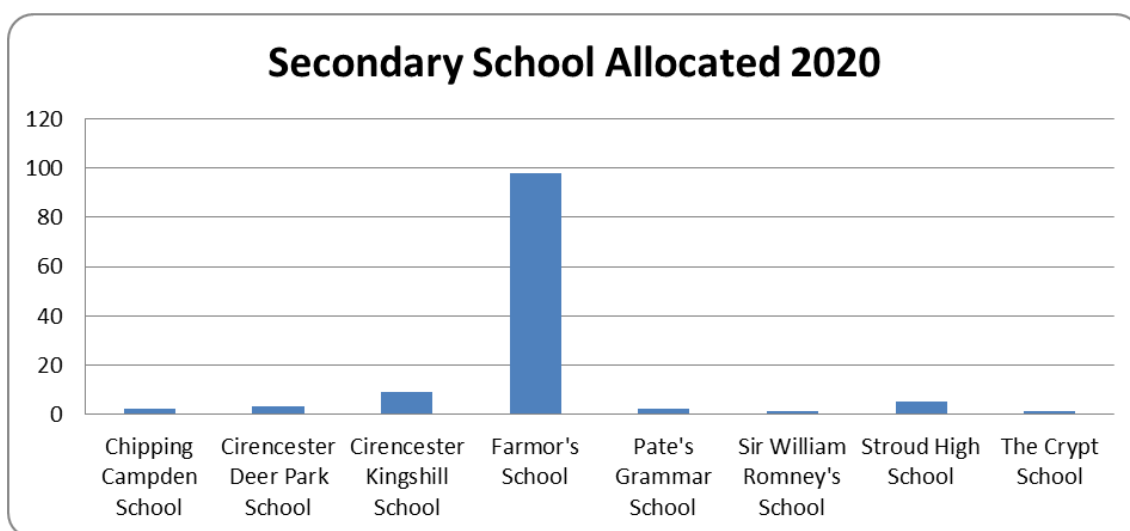

YEAR	Reception					Total School

Births in Cirencester

Cirencester is a large planning area where births have fluctuate for a number of years following a peak in 2013/14.

Cirencester	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	325	279	251	285	249	269

Primary Pupil Place demand in Cirencester

Normally, the need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

This planning area is made up of schools serving Cirencester town and schools serving the outlying villages around Cirencester. The demand for school places expected to arise from the Kingshill housing development was addressed through the expansion and relocation of Watermoor School to a new site and building.

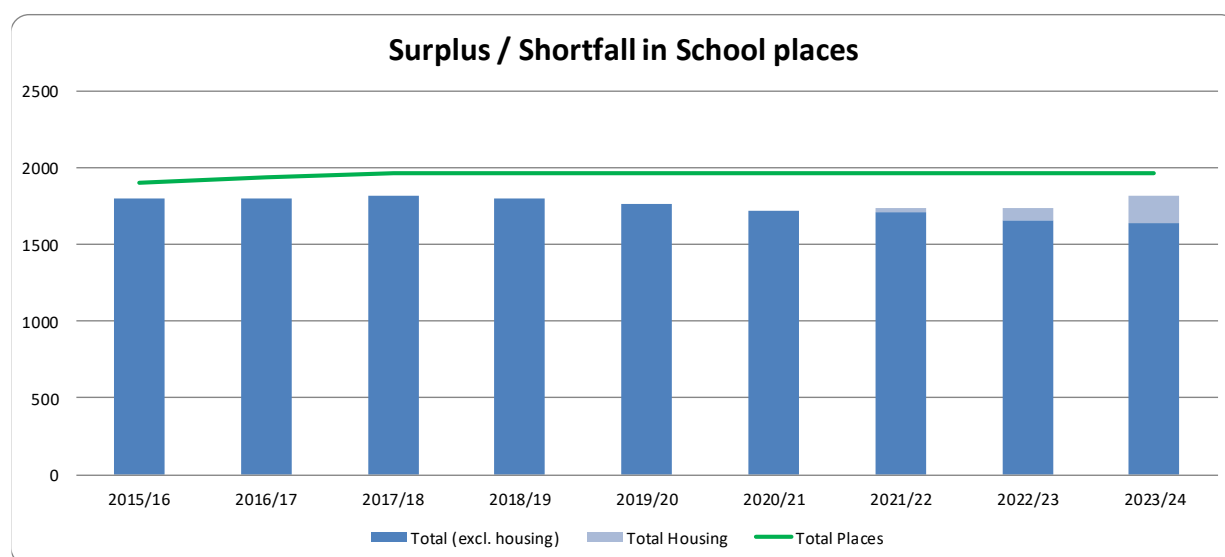

We are currently working with Planners and Developers on a significant strategic housing site for Chesterton that will deliver 2300 new homes. The development will secure a new 3FE primary school. This will be provided at the end of this forecasting period; however any growth from this development before 2023 will be supported by temporary provision either in existing schools or as a host school before the new school is built.

There are two Secondary academies that serve the Cirencester area, Kingshill and Deer Park, in addition there is Cirencester College and The Royal Agricultural University offering post 16 places. The local housing growth at Watermoor has secured S106 for Cirencester Kingshill School and the PAN increased from 182 to 189 in 2018 intake creating 35 additional whole school places. The PAN increased again to 196 in 2019 creating another 35 whole school places. The development at Chesterton will provide significant S106 contributions for expansions at the local secondary schools and college.

Issues for Primary School Provision in Cirencester from 2021

The table below shows capacity and anticipated demand for places at the schools listed above.

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)	Surplus - Shortfall Places	% Spare Year R		Total Places	Total (including students from housing)	Surplus - Shortfall Places	% Surplus Shortfall Places

2020/21	280	209	(0)	71	25%	1960	1718	(0)	242	12%
2021/22	280	245	(5)	35	13%	1960	1738	(32)	222	11%
2022/23	280	216	(12)	64	23%	1960	1738	(81)	222	11%
2023/24	280	256	(26)	24	9%	1960	1813	(177)	147	8%

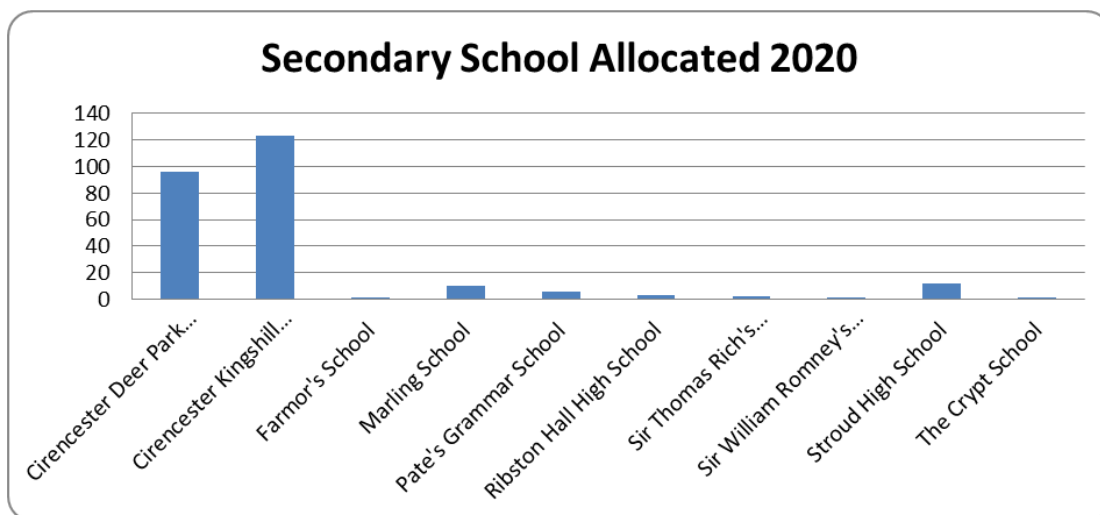

Overall, there are 432 houses identified in the Cotswold Local Plan to be built in the Cirencester area, should all of this housing come forward it is predicted to generate approximately 177 primary aged pupils in the forecast period. Depending on when and in what quantities these housing developments are provided will inform what S106 developers contribution requirements Gloucestershire County Council will request.

There are up to 2,500 houses identified in the Cotswold Local Plan to be built in the Cirencester community area. This is a Strategic site at Chesterton and will deliver a new 3FE primary school and S106 contributions to local Secondary Schools.

Secondary Pupil Place demand in Cirencester

Cirencester Deer Park and Cirencester Kingshill are the two main secondary schools serving the Cirencester area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Cirencester area. 48% were allocated Kingshill School and 38% allocated Deer Park in the 2020 round.

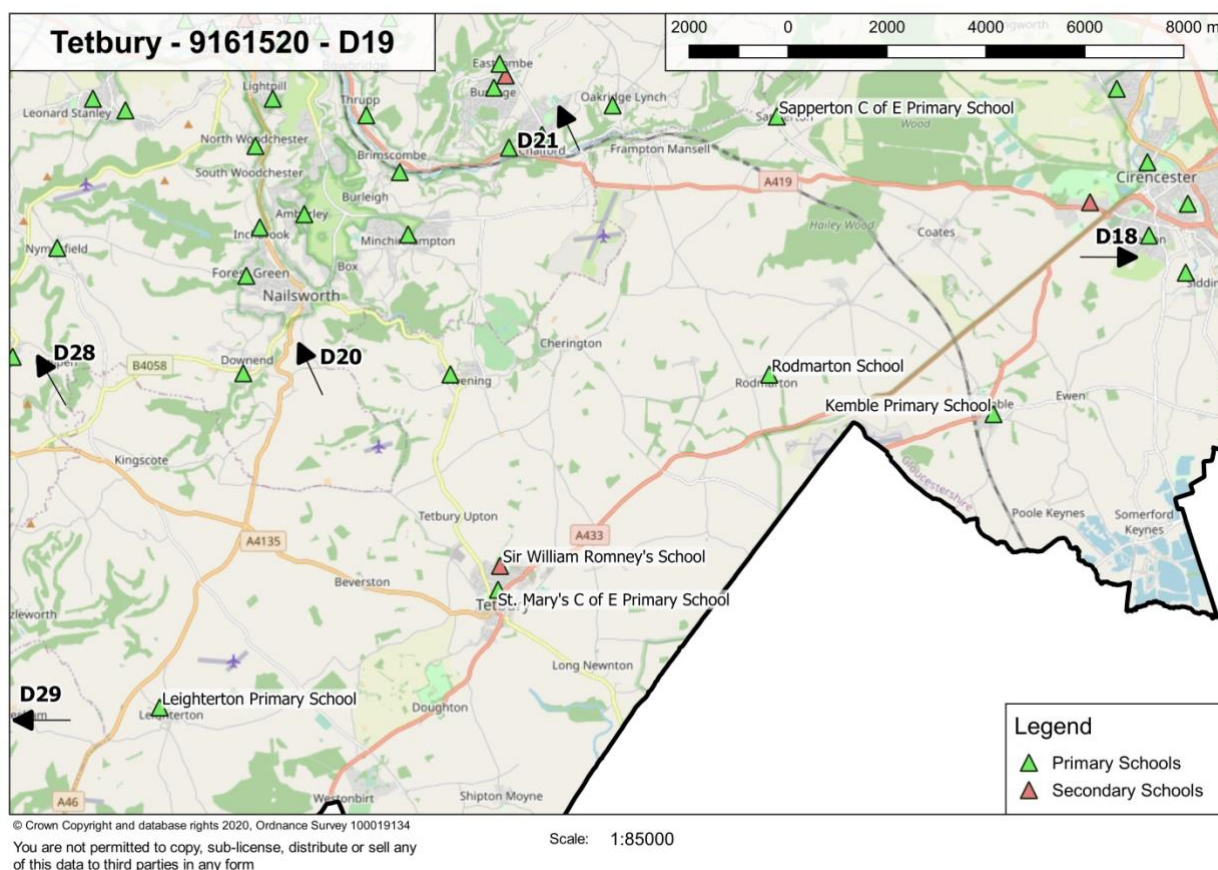

Information on Secondary Place Planning relating to Cirencester planning area can be found from page 242 to page 244.

Cirencester Implementation Plan

Short term – 1 to 2 years Academic Years 2021/22 – 2022/23	Medium term – 3 to 5 years Academic Years 2023/24 – 2025/26	Long term – 5 to 10 years Academic Years 2026/27 – 2031/32
The Local Authority is working with developers to secure a new 3FE primary School and Secondary contributions to support the additional places required as a result of the housing development at Chesterton.	The Strategic site at Chesterton will still be on going and the LA will continue to work with developers to ensure education places are provided.	The Strategic site at Chesterton will still be on going and the LA will continue to work with developers to ensure education places are provided.

D19 Tetbury

There are 5 primary age schools in the Tetbury area and 1 main secondary school catering for the 11 to 16 age range. Children requiring special school provision could attend, Paternoster in Cirencester, Shrubberies in Stonehouse, Belmont in Cheltenham or The Peak in Dursley depending on the nature of their additional needs.

Primary	DFE	Type	District
Kemble Primary School	2073	Academy converter	Cotswold
Leighterton Primary School	2047	Community school	Cotswold
Rodmarton School	2085	Community school	Cotswold
Sapperton C of E Primary School	3345	Voluntary aided school	Cotswold
St. Mary's C of E Primary School	3348	Voluntary aided school	Cotswold

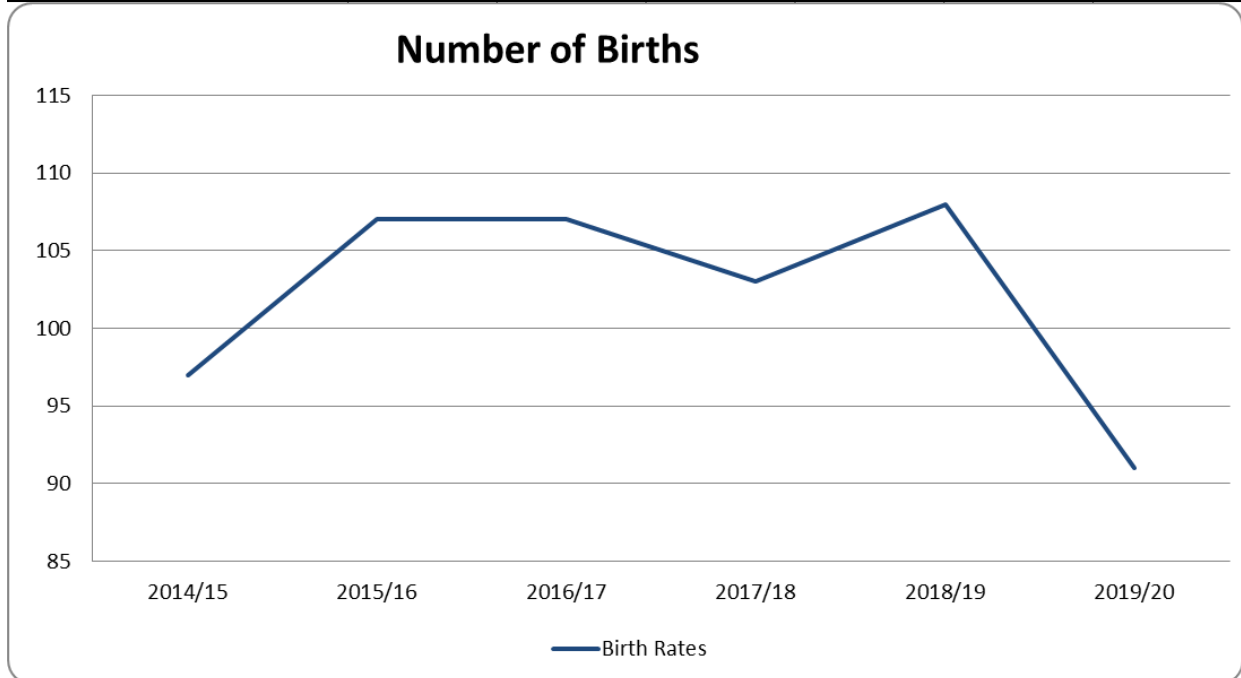

The 4 Secondary schools serving the Cotswold South area are listed here:

Secondary	DFE	Type	District
Cirencester Deer Park School	5420	Academy converter	Cotswold (S)
Cirencester Kingshill School	5419	Academy converter	Cotswold (S)
Farmor's School	4513	Academy converter	Cotswold (S)
Sir William Romney's School	5428	Academy converter	Cotswold (S)

Births in Tetbury

The number of births in the Tetbury area has remained steady until the current year..

Tetbury	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	97	107	107	103	108	91

Primary Pupil Place demand in Tetbury

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Projections in the planning area show that the numbers remain within the overall capacity and PAN. There is a small housing development that will generate 13 pupils for which S106 funding has been secured for St. Mary's.

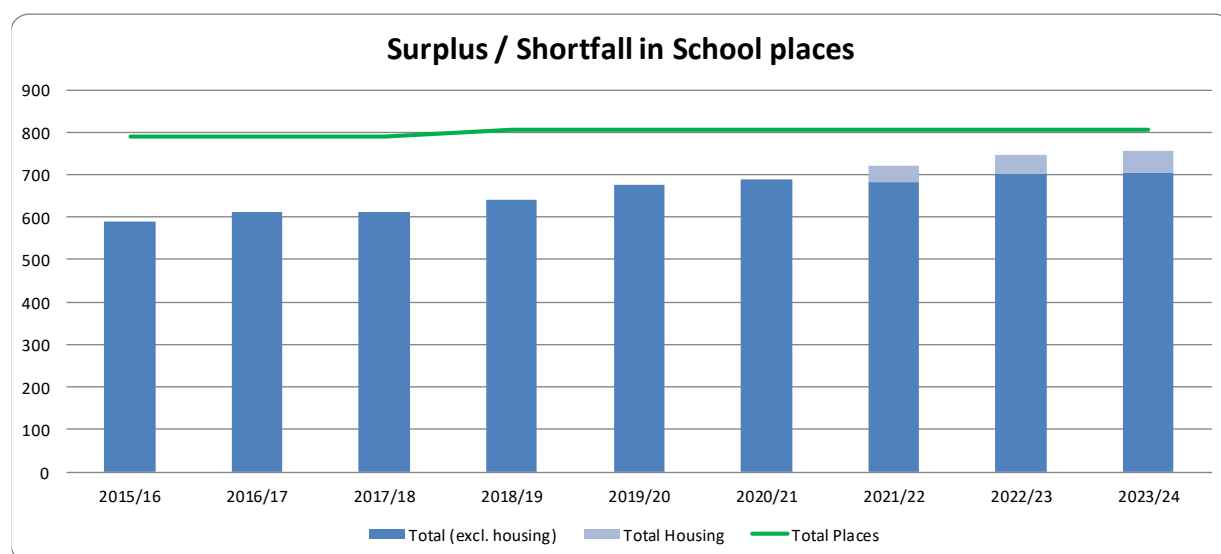

Sapperton increased its PAN from 10 to 12 for 2018 intake

Sir William Romney's School is the local secondary school. There are sufficient school places to accommodate demand.

Issues for Primary School Provision from 2021

The below table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends.

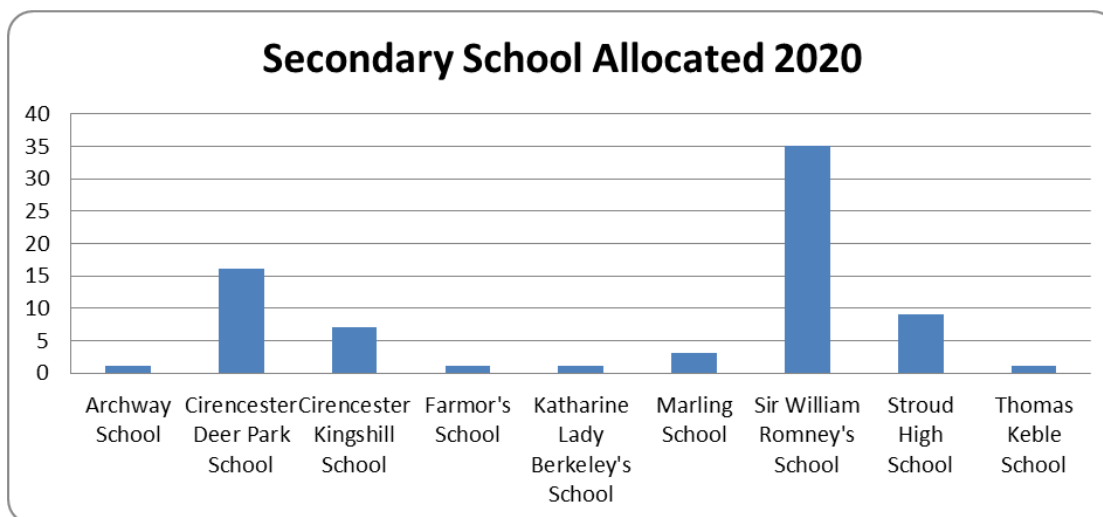

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)		Surplus - Shortfall Places	% Spare Year R	Total Places	Total (including students from housing)		Surplus - Shortfall Places	% Surplus - Shortfall Places
2015/16	113	87		26	23%	791	589		202	26%
2016/17	113	109		4	4%	791	613		178	23%
2017/18	113	85		28	25%	791	611		180	23%
2018/19	115	87		28	24%	805	640		165	21%
2019/20	115	98		17	15%	805	675		130	16%
2020/21	115	100	(0)	15	13%	805	688	(0)	117	15%

Births in Nailsworth

The number of births in the Nailsworth area has decreased in recent years.

Nailsworth	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	134	126	120	115	103	104

Primary Pupil Place demand in Nailsworth

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

The forecasts for this planning area show that there is sufficient capacity at local schools for the whole of the forecasting period..

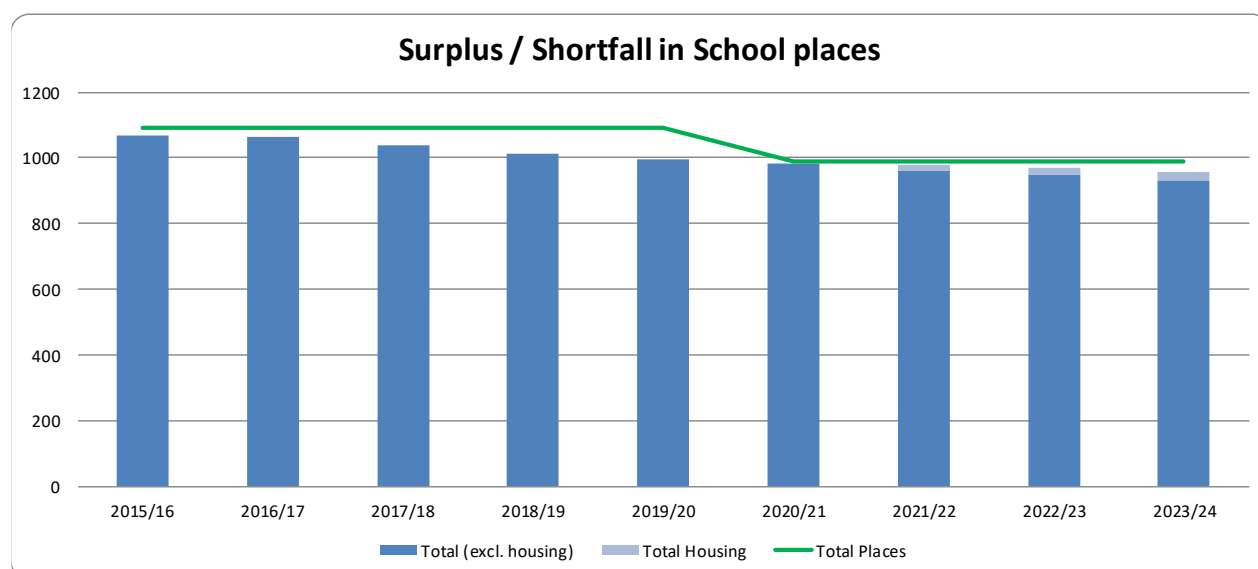

Pupils can select from a number of secondary schools including Sir William Romney's, Thomas Keble and Archway. There are currently sufficient school places to accommodate demand, however by 2023/24 across the secondary planning area there will be a shortfall of secondary places.

Issues for Primary School Provision from 2021

The below table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends.

Primary place demand in : Nailsworth Planning Area 9161600

Marling School	5401	Academy converter	East Stroud
Stroud High School	5402	Academy converter	East Stroud
Thomas Keble School	4068	Academy converter	East Stroud

Births in Eastcombe

The number of births in the Eastcombe area fluctuates slightly but is lower than the 2015/16 total.

Eastcombe	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	102	104	96	83	87	94

Primary Pupil Place demand in Eastcombe

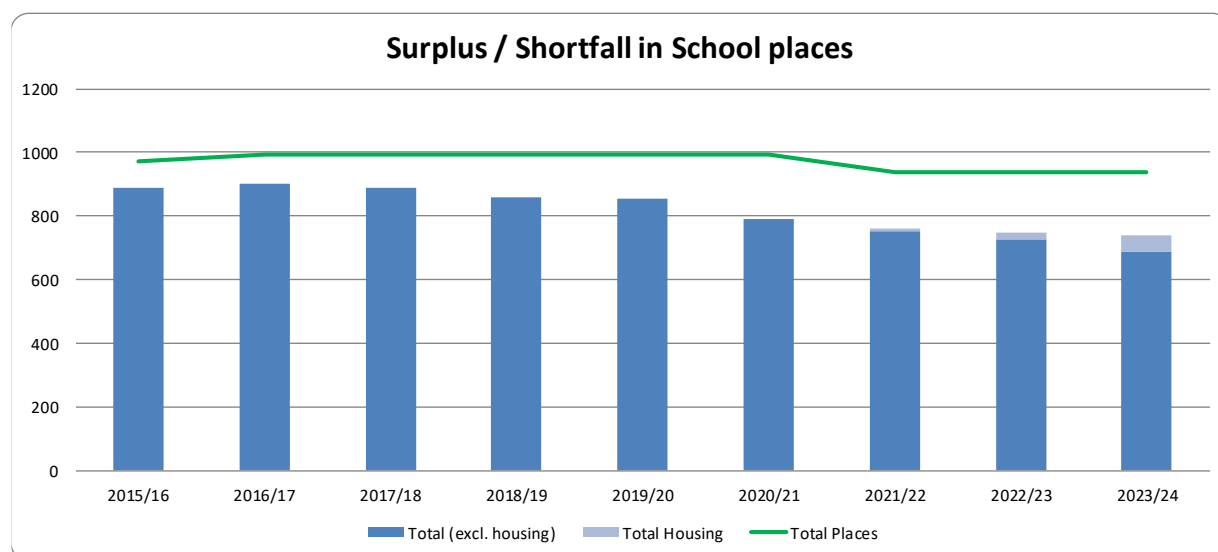

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

The forecasts for this planning area showed numbers fluctuating and by 2023/24 there would have been approximately 201 surplus primary places. A decision was taken to close Christ Church (Chalford) Primary School with effect from August 2021 because of low pupil numbers, with no pupils attending in Key Stage 1 by that time. The effect of this closure will be to reduce the number of surplus places in the planning area by 56.

Issues for Primary School Provision from 2021

The below table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed.

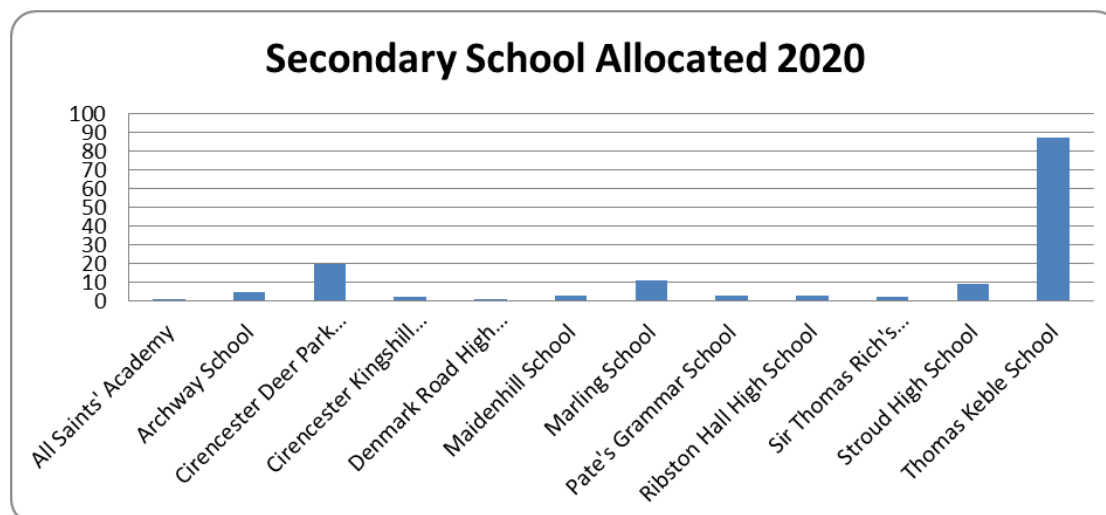

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)		Surplus - Shortfall Places	% Spare Year R	Total Places	Total (including students from housing)		Surplus - Shortfall Places	% Surplus - Shortfall Places

Births in Stroud Town

The number of births in the Stroud Town area has fluctuated in recent years with a decrease in the final year..

Stroud Town	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	144	155	143	141	151	110

Primary Pupil Place demand in Stroud Town

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Forecasts show there will be approximately 280 surplus primary places across the whole planning area by 2023/24. Reception intake numbers fluctuate in this area but remain well under the places available. There is one small housing development at Dudbridge Hill where a contribution has been secured to expand either Rodborough Primary or St Matthew's C of E Primary in the adjacent planning area.

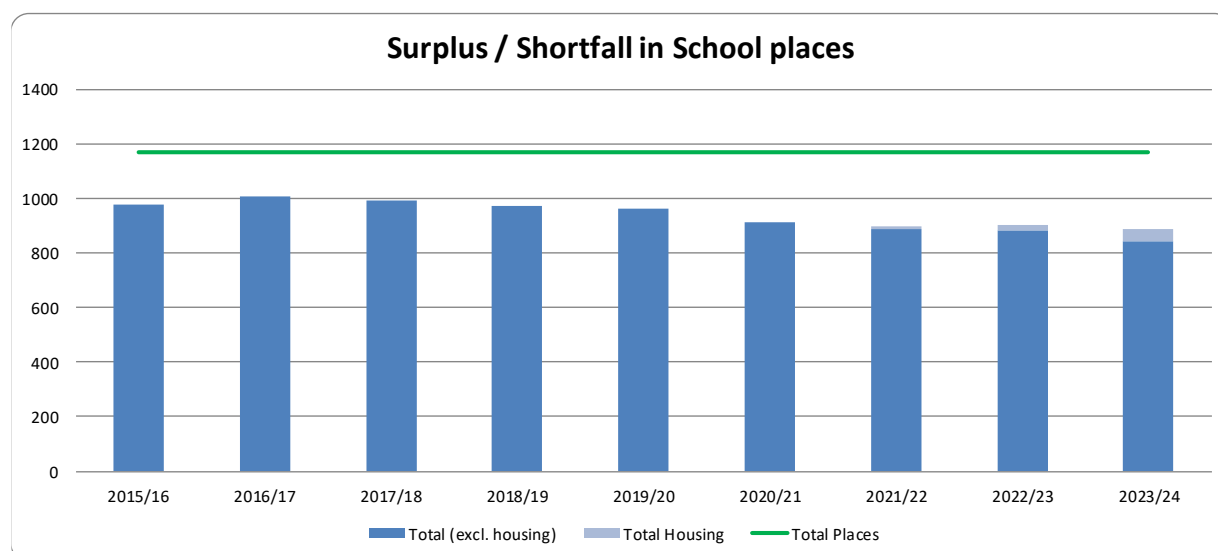

Maidenhill and Archway schools are the secondary schools nearest this planning area although parents can express a preference for any school. Both schools have sufficient capacity to accommodate pupils for the foreseeable future.

Issues for Primary School Provision from 2021

The below table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends. However, they do not include the pupil product from any housing that has yet to be completed.

Primary place demand in : Stroud Town Planning Area 9161620

Secondary Pupil Place demand in Cainscross/Whiteshill

Archway School is the main secondary school serving the Cainscross / Whiteshill area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Cainscross / Whiteshill area. 43% were allocated Archway school and 34% were allocated Maidenhill School in the 2020 round.

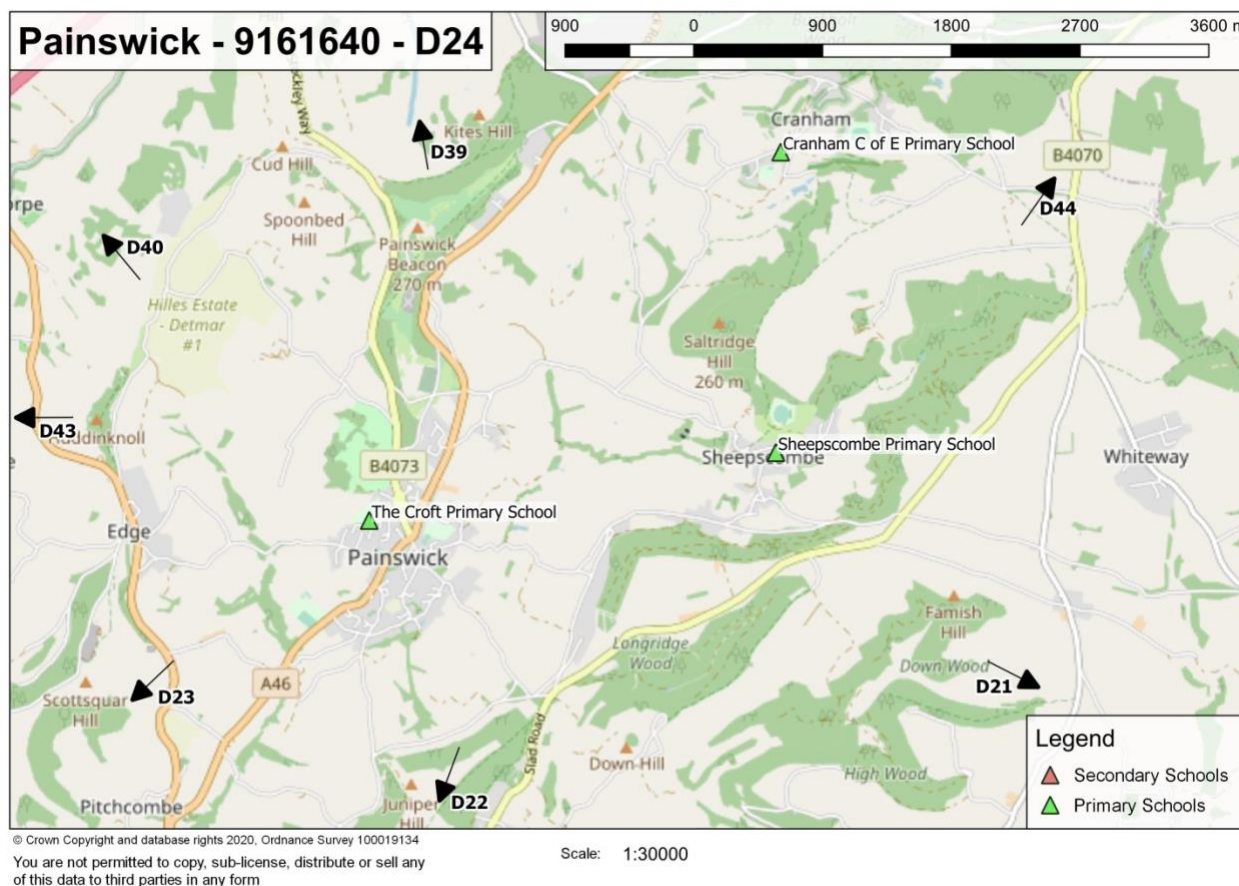

Information on Secondary Place Planning relating to Cainscross/Whiteshill planning area can be found from page 245 to page 247.

Cainscross /Whiteshill Implementation Plan

<i>Short term – 1 to 2 years</i> <i>Academic Years</i> <i>2021/22 – 2022/23</i>	<i>Medium term – 3 to 5 years</i> <i>Academic Years</i> <i>2023/24 – 2025/26</i>	<i>Long term – 5 to 10 years</i> <i>Academic Years</i> <i>2026/27 – 2031/32</i>
No action currently required. Continue to monitor for any new housing locally and seek S106 contributions if appropriate	No action currently required. Continue to monitor for any new housing locally and seek S106 contributions if appropriate	Monitor Secondary demand a low level of additional places may be required, but most of the additional demand is at other secondary schools in the Stroud planning area.

D24 Painswick

There are 3 primary age schools in the Painswick area and 5 secondary schools which cater for the 11 to 16 and 11 to 19 age ranges. Children requiring special school provision could attend, Paternoster in Cirencester, Shrubberies in Stonehouse, Belmont in Cheltenham or The Peak in Dursley depending on the nature of their additional needs

Primary	DFE	Type	District
Cranham C of E Primary School	3322	Voluntary aided school	Stroud

Thomas Keble School	4068	Academy converter	East Stroud

Births in Painswick

The number of births in this small planning area of Painswick is fairly steady with a small decrease overall in recent years.

Painswick	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	31	27	27	25	22	25

Primary Pupil Place demand in Painswick

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

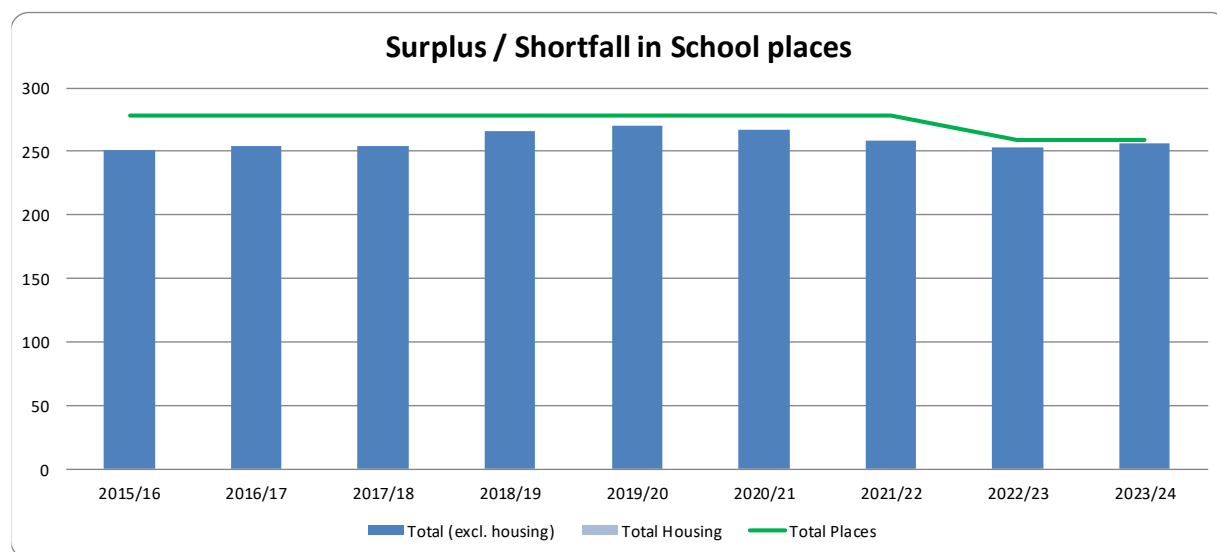

The Croft School temporarily increased its PAN in September 2015 from 20 to 30 to meet demand from a large intake cohort that year.

The forecasts show there will be sufficient primary places in the area during the forecasting period.

Issues for Primary School Provision from 2021

The below table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed.

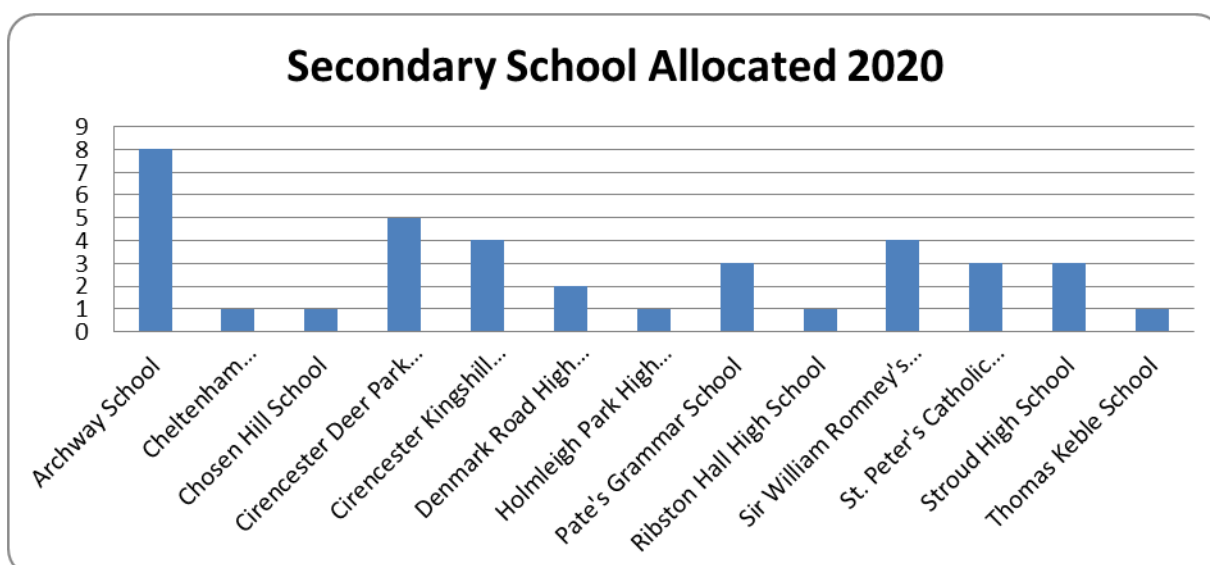

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)		Surplus - Shortfall Places	% Spare Year R	Total Places	Total (including students from housing)		Surplus - Shortfall Places	% Surplus Shortfall Places

Stroud High School	5402	Academy converter	East Stroud
Thomas Keble School	4068	Academy converter	East Stroud

Births in Stonehouse

The births in the Stonehouse planning area has fluctuated in recent years..

Stonehouse	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	160	139	155	151	130	139

Primary Pupil Place demand in Stonehouse

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Historically this planning area has had sufficient supply to meet demand. There have been no temporary or permanent expansions. Kings Stanley Infant and Junior Schools amalgamated in 2008 to form a 1FE primary school. Eastington is geographically isolated from the other schools in the group and is sometimes under pressure for places locally. Smaller housing developments in Eastington, Kings Stanley and Leonard Stanley have given rise to a need for some additional capacity. It is likely that each of the schools will look to create some additional capacity to accommodate the additional pupils.

A large strategic housing development at Stonehouse of approximately 1350 new dwellings will support a new 1.5FE school on a 2FE site that will also be able to support future expansion if required. This school will meet the needs of the large shortfall of places shown in the forecast table below.

Maidenhill and Archway schools are the secondary schools nearest this planning area although parents can express a preference for any school. Both schools have sufficient capacity to accommodate pupils for the foreseeable future.

Issues for Primary School Provision from 2021

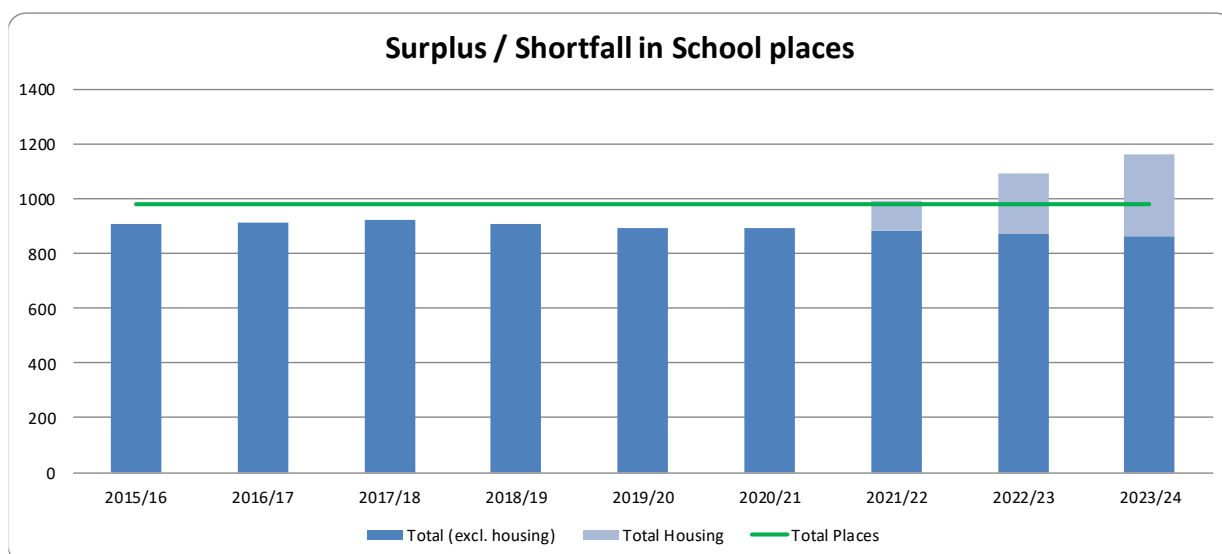

Primary place demand in :

Stonehouse

Planning Area

9161700

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)	Surplus - Shortfall Places	% Spare Year R		Total Places	Total (including students from housing)	Surplus - Shortfall Places	% Surplus - Shortfall Places	
2015/16	140	127	13	9%		980	909	71	7%	
2016/17	140	146	-6	-4%		980	911	69	7%	
2017/18	140	140	0	0%		980	921	59	6%	
2018/19	140	138	2	1%		980	908	72	7%	
2019/20	140	114	26	19%		980	891	89	9%	
2020/21	140	135	(0)	4%		980	890	90	9%	
2021/22	140	150	(16)	-7%		980	994	-14	-1%	
2022/23	140	150	(32)	-7%		980	1093	-113	-12%	
2023/24	140	180	(44)	-29%		980	1162	-182	-19%	

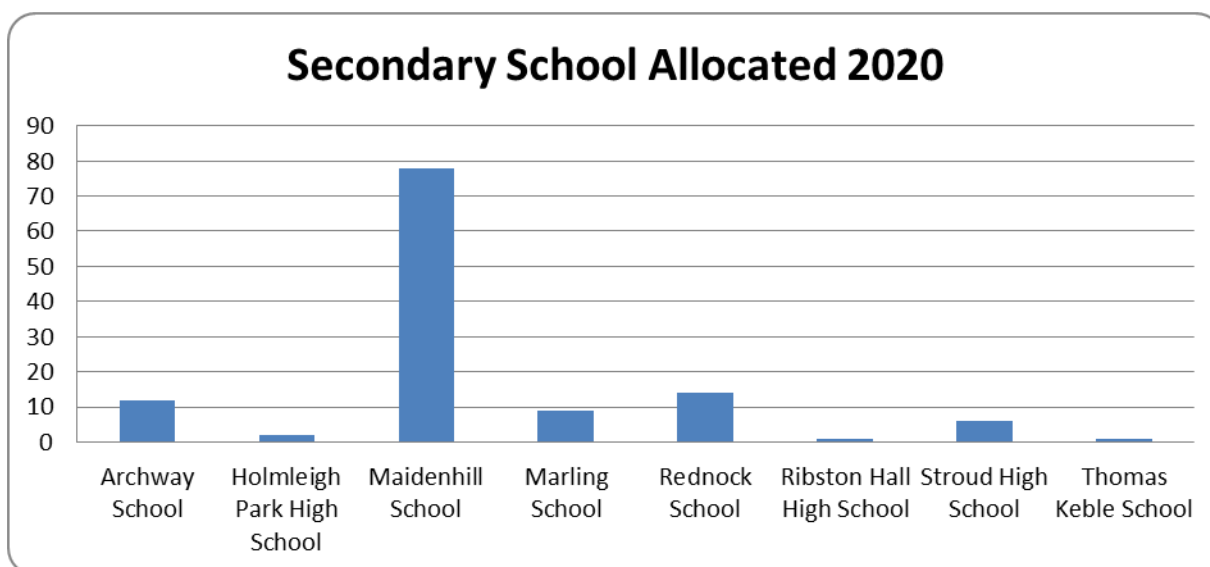

The above table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed.

Overall, there are 737 houses identified in the Stroud Local Plan to be built in the Stonehouse area, should all of this housing come forward it is predicted to generate approximately 302 primary aged pupils in the forecast period. Depending on when and in what quantities these housing developments are provided will inform what S106 developers contribution requirements Gloucestershire County Council will request

However, this includes a large strategic site of 1350 houses which will be supported with a new primary school and a S106 developer's contribution for Secondary provision.

Secondary Pupil Place demand in Stonehouse

Maidenhill is the main secondary school serving the Stonehouse area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Stonehouse area. 63% were allocated Maidenhill School in the 2020 round.

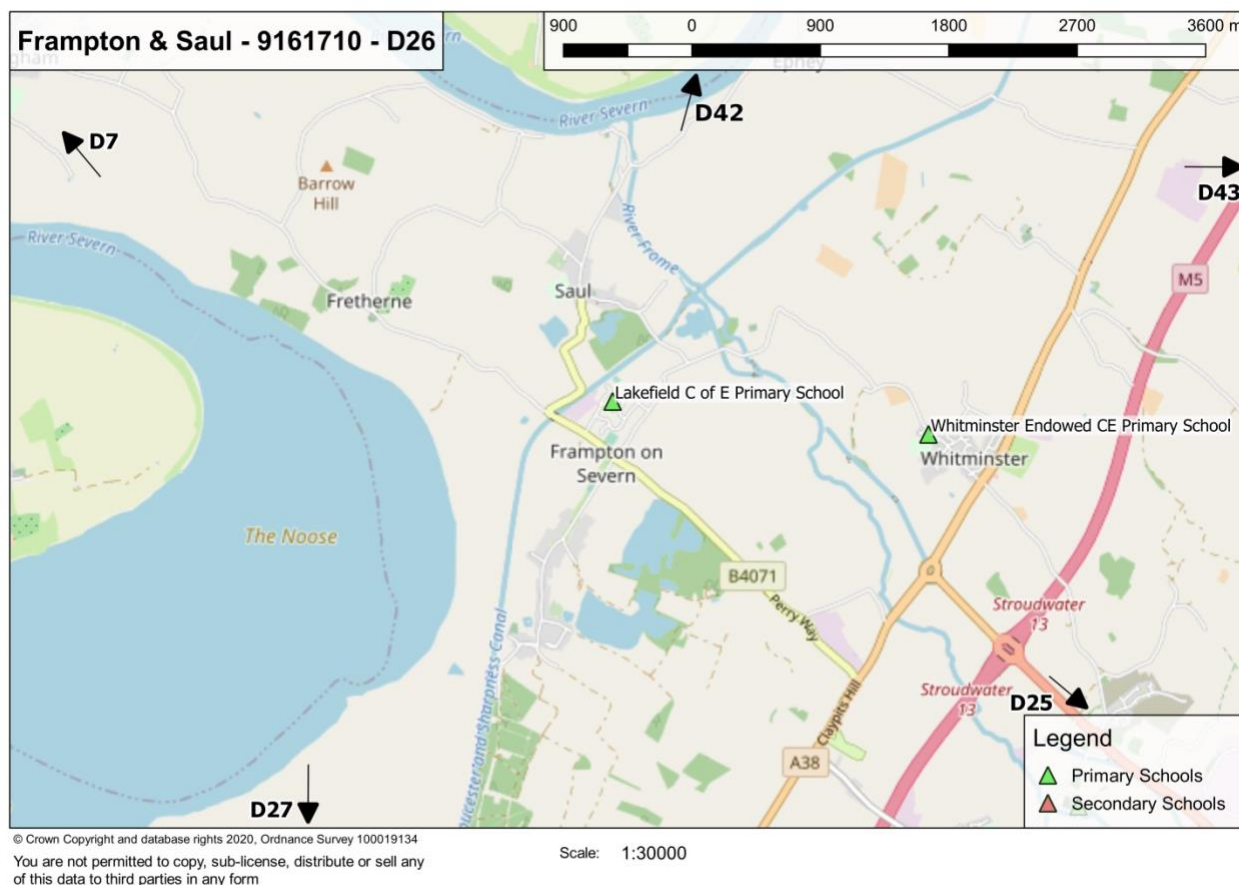

Information on Secondary Place Planning relating to Stonehouse planning area can be found from page 245 to page 247.

Stonehouse Implementation Plan

Short term – 1 to 2 years Academic Years 2021/22 – 2022/23	Medium term – 3 to 5 years Academic Years 2023/24 – 2025/26	Long term – 5 to 10 years Academic Years 2026/27 – 2031/32

Slimbridge Primary School	2086	Community school	Stroud
Stone with Woodford C of E Primary School	3038	Academy converter	Stroud

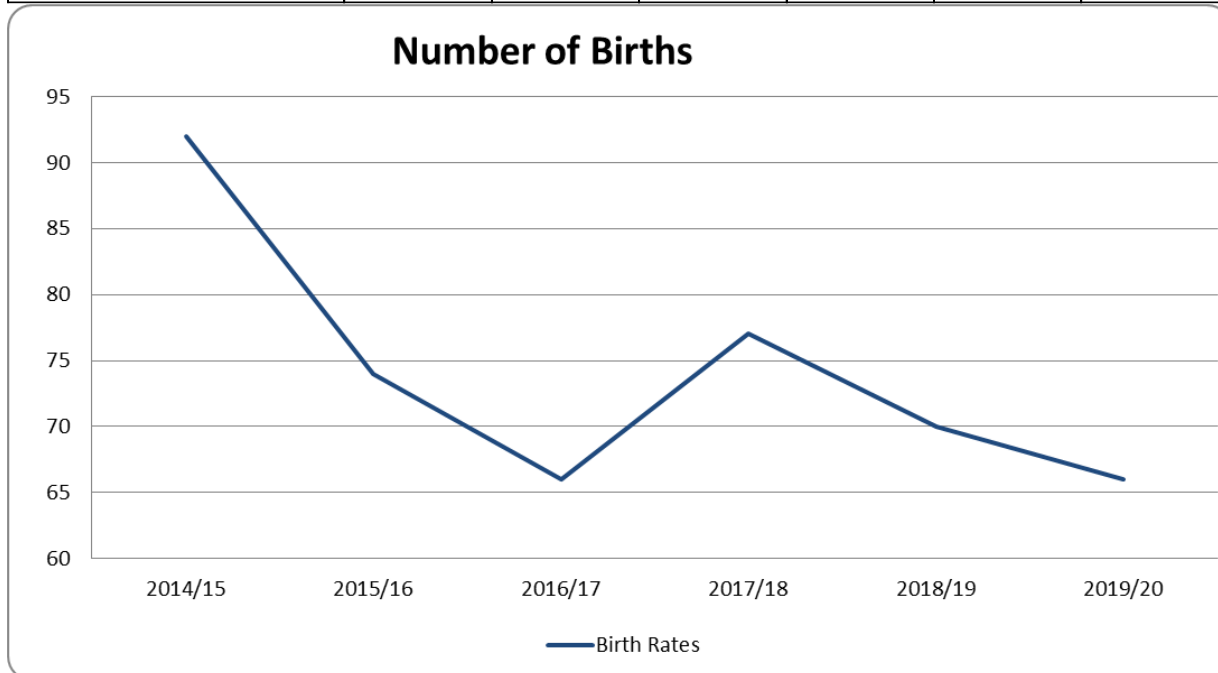

The 2 Secondary schools serving the West Stroud area are listed here

Secondary	DFE	Type	District
Katharine Lady Berkeley's School	5406	Academy converter	West Stroud
Rednock School	5407	Foundation school	West Stroud

Births in Berkeley

The number of births in the Berkeley area has decreased in recent years following a high number in 2014/15.

Berkeley	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	92	74	66	77	70	66

Primary Pupil Place demand in Berkeley

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Schools in this planning area are located across a wide area, making it difficult to look at the supply as a whole. As a planning area the supply of primary places has met demand, however due to fluctuating demand, local to specific schools, there has been some pressure at some schools.

Berkeley and Slimbridge primaries have both experienced high demand from local families. Slimbridge Primary in particular has had a high number of in-year applications and successful appeals which has pushed them over their PAN in most year groups. An additional building was installed at Slimbridge Primary for September 2015 to provide two groups spaces to help with the pressure of overcrowded classrooms. Further demand has now required that Slimbridge Primary open a fifth classroom and this will support a PAN increase from 15 to 20 in 2019.

A number of developments at Cam may affect numbers at Slimbridge as it is the nearest school, however poor walking routes that cross the A38 may deter parents and impact the Cam schools instead.

A potential new strategic site at Wisloe close to Slimbridge School would be large enough to require a new school for the development if approved.

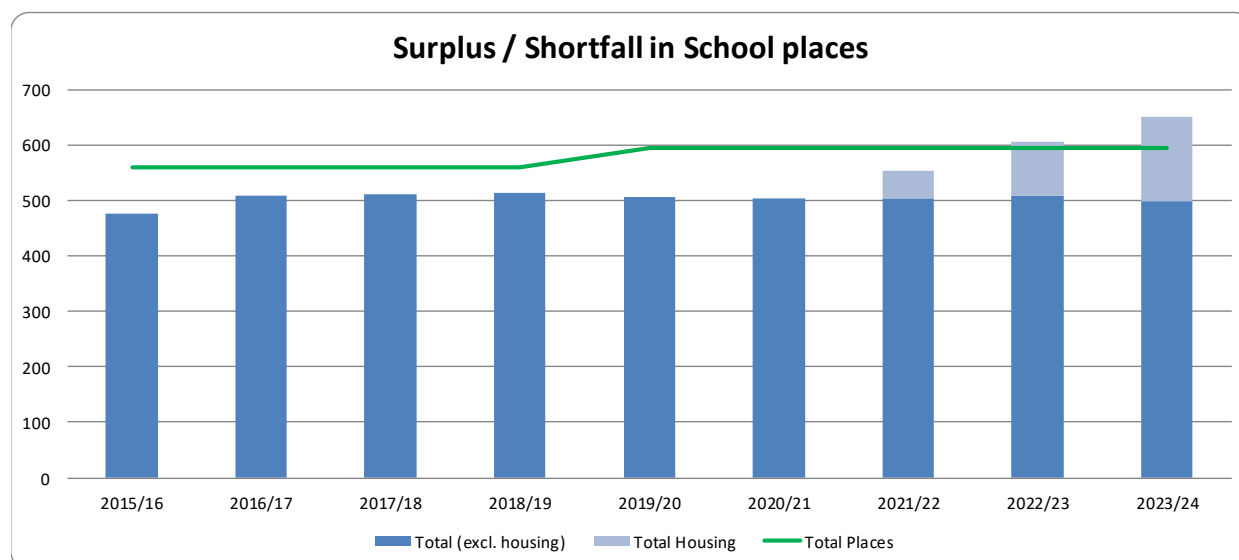

Rednock is the nearest secondary school for this planning area although parents can express a preference for any school. There are sufficient places available at Rednock School.

Issues for Primary School Provision from 2021

The following table shows the number of pupils in the primary age range across the Berkeley area based on the birth rate and the percentage of surplus/shortfall places by age cohort both retrospectively and forecast.

Primary place demand in : **Berkeley** Planning Area **9161720**

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)		Surplus - Shortfall Places	% Spare Year R	Total Places	Total (including students from housing)		Surplus - Shortfall Places	% Surplus Shortfall Places
2015/16	80	63		17	21%	560	477		83	15%
2016/17	80	82		-2	-3%	560	509		51	9%
2017/18	80	61		19	24%	560	512		48	9%
2018/19	80	77		3	4%	560	513		47	8%
2019/20	85	78		7	8%	595	507		88	15%
2020/21	85	65	(0)	20	24%	595	504	(0)	91	15%
2021/22	85	82	(8)	3	4%	595	553	(50)	42	7%
2022/23	85	84	(14)	1	1%	595	606	(97)	-11	-2%
2023/24	85	86	(22)	-1	-1%	595	650	(151)	-55	-9%

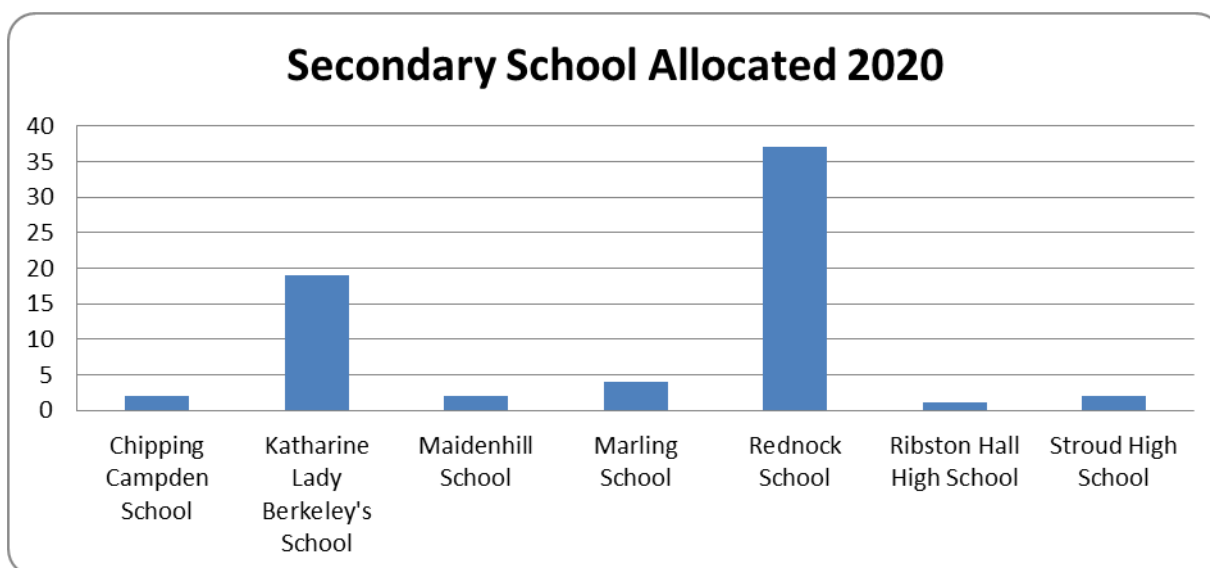

There are 367 houses identified in the Stroud Local Plan to be built in the Berkeley planning area. This would generate approximately 151 primary aged pupils.

We are also aware of a development in the early stages of consultation that would create a new settlement of approximately 1500 which would provide a new Primary school and S106 developers contribution for Secondary school places should the development go ahead, there is currently no timescale for this.

Secondary Pupil Place demand in Berkeley

Katherine Lady Berkeley's and Rednock schools are the main secondary schools serving the Berkeley area in the 2020 allocation round. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Frampton/ Saul area. 55% were allocated Rednock School and 28% were allocated Katherine Lady Berkeley's School in the 2020 round.

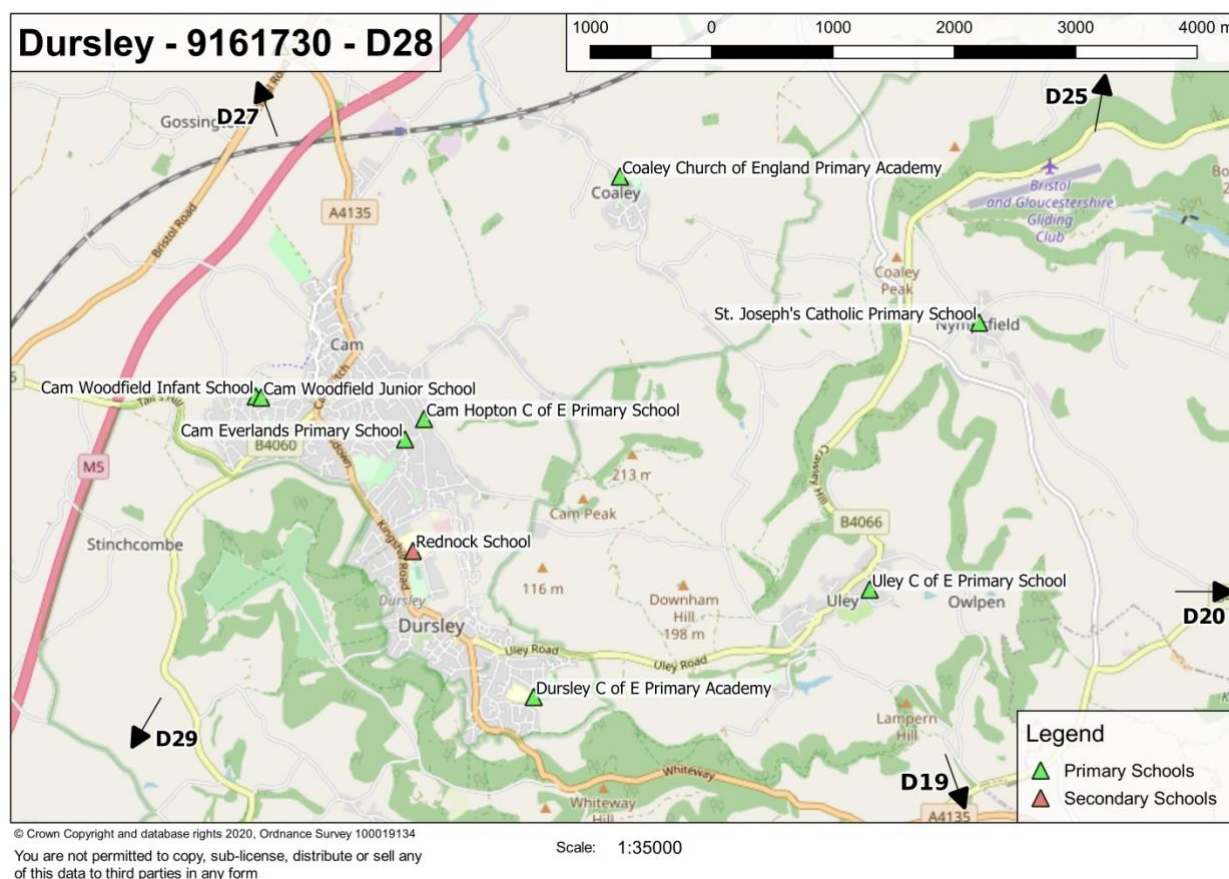

Information on Secondary Place Planning relating to Berkeley planning area can be found from page 248 to page 249.

Berkeley Implementation Plan

Short term – 1 to 2 years Academic Years 2021/22 – 2022/23	Medium term – 3 to 5 years Academic Years 2023/24 – 2025/26	Long term – 5 to 10 years Academic Years 2026/27 – 2031/32
Monitor demand for places at Slimbridge Primary School linked to housing demand. There is capacity at schools in Cam for the current developments, but some parents are applying to Slimbridge from that area.	Monitor demand for places at Slimbridge Primary School linked to housing demand. There is capacity at schools in Cam for the current developments, but some parents are applying to Slimbridge from that area.	Should the new development at Wisloe near Slimbridge go ahead we will work with developers to secure additional provision. Continue to monitor for any new housing locally and seek S106 contributions if appropriate

D28 Dursley

There are 6 primaries and 1 infant and 1 junior school in the Dursley area together with 2 secondary schools catering for the 11 to 19 age range. Children requiring special school provision could attend, Paternoster in Cirencester, Shrubberies in Stonehouse, Belmont in Cheltenham or The Peak in Dursley depending on the nature of their additional needs.

Primary	DFE	Type	District
Cam Everlands Primary School	2143	Community school	Stroud
Cam Hopton C of E Primary School	3313	Voluntary aided school	Stroud
Cam Woodfield Infant School	2138	Community school	Stroud

Births in Dursley

The number of births in the Dursley area has remained steady in recent years.

Dursley	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	200	204	223	204	192	194

Primary Pupil Place demand in Dursley

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

As a planning area there is sufficient supply to meet demand and a surplus of primary places remains; however Uley and Coaley are geographically isolated and therefore could be under pressure from local demand.

Capacity issues are mostly contained to this planning area, although planned housing developments at the periphery of Cam in the Dursley Planning Area are showing some impact at Slimbridge Primary School in the Berkeley Planning Area, which is the closest school to some of the developments. As spare capacity at Slimbridge reduces in future years it is likely that pupils from these developments will attend schools in Cam.

Coaley C of E Primary increased its PAN from 10 to 12 in 2018

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed.

Births in Wotton under Edge

The number of births in the Wotton under Edge area has fluctuated in recent years.

Wotton Under Edge	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	84	77	95	66	69	67

Primary Pupil Place demand in Wotton under Edge

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

As a planning area, there is sufficient supply to meet demand and a surplus of primary places remains, with the exception of Kingswood Primary where additional pupils are arising from recent developments for which secure S106 funding was not secured for Kingswood Primary. The remainder of the planning area has sufficient capacity to support the demand for places.

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed. This housing will be predominately concentrated in the town.

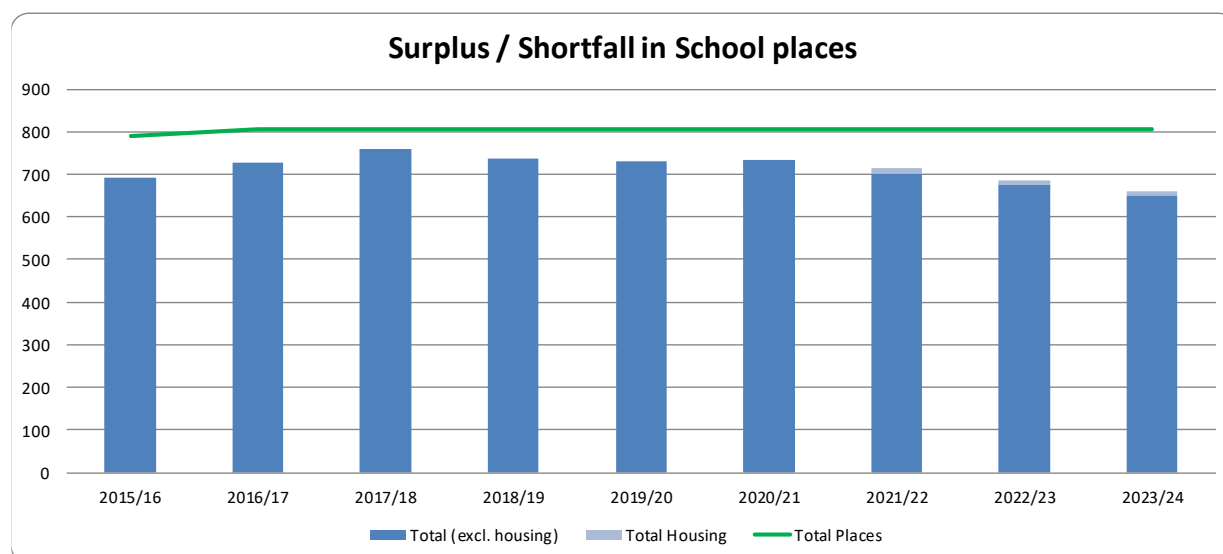

Primary place demand in :

Wotton Under Edge

Planning Area

9161740

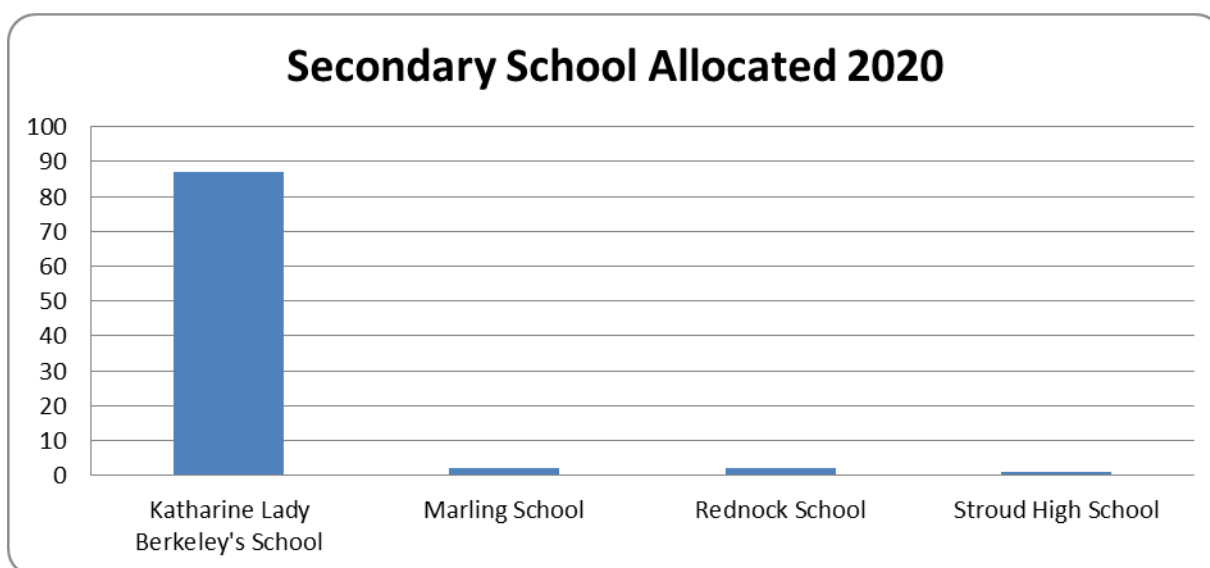

YEAR	Reception					Total School

Overall, there are 29 houses identified in the Stroud Local Plan to be built in the Wotton under Edge area, should all of this housing come forward it is predicted to generate approximately 12 primary aged pupils in the forecast period. Depending on when and in what quantities these housing developments are provided will inform what S106 developers contribution requirements Gloucestershire County Council will request

Secondary Pupil Place demand in Wotton under Edge

Katherine Lady Berkeley's school is the main secondary school serving the Wotton under Edge area in the 2020 allocation round. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Wotton under Edge area. 95% were allocated Katherine Lady Berkeley's school in the 2020 round

Information on Secondary Place Planning relating to Wotton under Edge planning area can be found from page 248 to page 249.

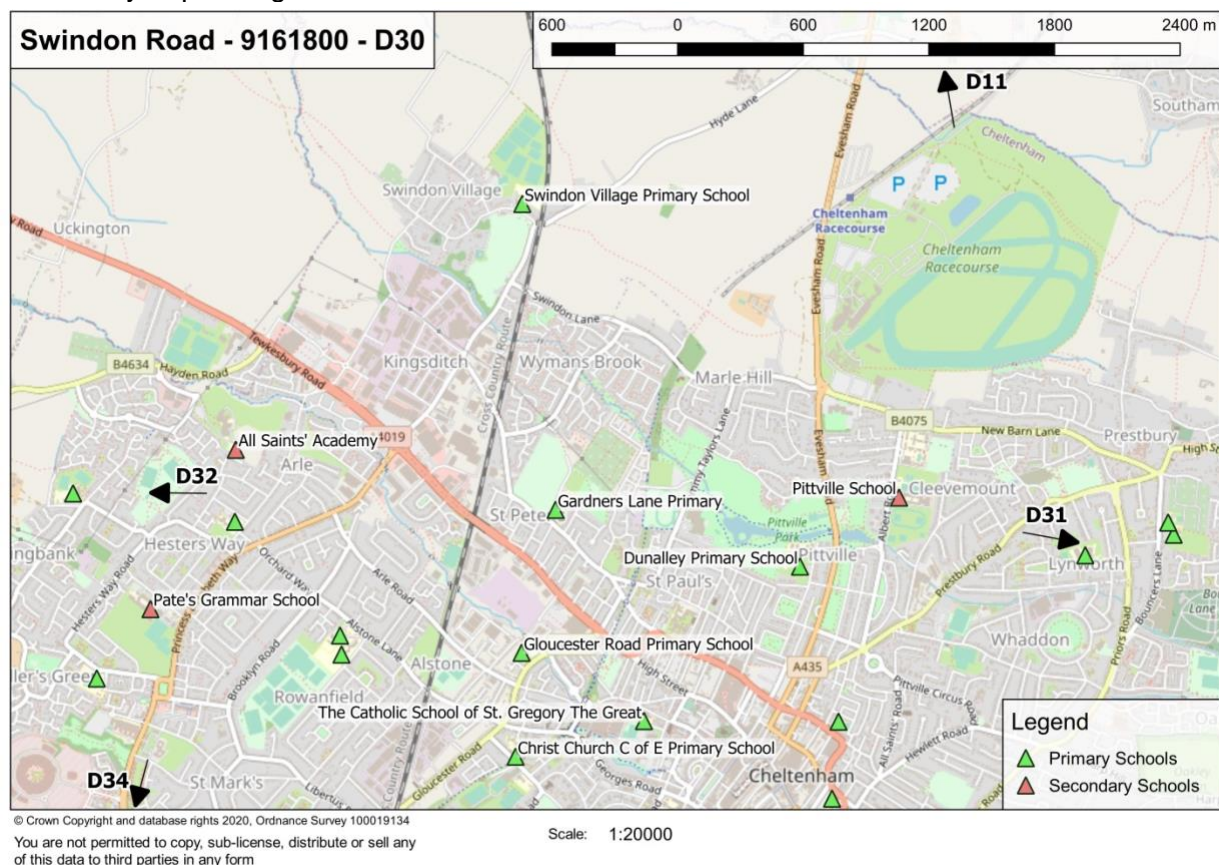

Wotton under Edge Implementation Plan

There are 5 Secondary schools serving the Cheltenham area is listed here:

Secondary	DfE	Type	District
All Saints' Academy	6905	Academy sponsor led	Cheltenham
Balcarras School	5408	Academy converter	Cheltenham
Cheltenham Bournside School & Sixth Form Centre	5418	Academy converter	Cheltenham
Pate's Grammar School	5403	Academy converter	Cheltenham
Pittville School	5421	Foundation school	Cheltenham

Births in Swindon Road

The number of births in the Swindon Road area has fluctuated in recent years.

Swindon Road	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	230	208	217	225	216	208

Primary Pupil Place demand in Swindon Road

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Demand for places has been rising in this planning area since 2012. We have managed the demand by temporary increases at Dunalley Primary and Gloucester Road Primary Schools and with the support of Gardner's Lane Primary School acting as a buffer by exceeding their PAN when necessary. The decision to permanently increase Gardners Lane by 0.5FE (105 places) in 2019, following earlier expansions of Dunalley Primary by 1FE (210 places), and Gloucester Road by 0.5FE (105 places) has offset the demand for primary school places in this planning area.

Of the two remaining schools, Christchurch C of E is on a restricted site and cannot expand and Swindon Village School underwent a significant internal remodelling and refurbishment project with no plans to expand. There has been some housing development locally, with S106 funding allocated to Gloucester Road and/or Christchurch C of E, and to the Rowanfield Schools in an adjacent planning area. This funding has been used to expand Gloucester Road and Rowanfield Infants.

All schools in this planning area are almost full and have little capacity for further expansion

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed.

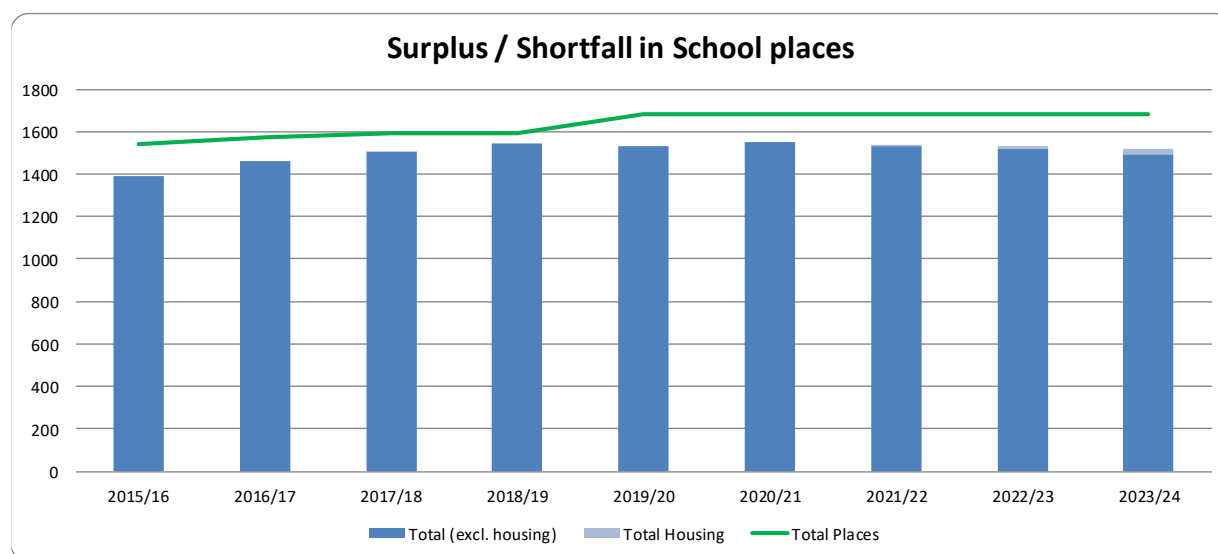

Primary place demand in :

Swindon Road

Planning Area

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)	Surplus - Shortfall Places	% Spare Year R		Total Places	Total (including students from housing)	Surplus - Shortfall Places	% Surplus - Shortfall Places	
2015/16	220	224	-4	-2%		1540	1392	148	10%	
2016/17	225	220	5	2%		1575	1460	115	7%	
2017/18	240	231	9	4%		1590	1509	81	5%	
2018/19	225	218	7	3%		1590	1542	48	3%	
2019/20	240	212	28	12%		1680	1531	149	9%	
2020/21	240	231	(0)	4%		1680	1552	128	8%	
2021/22	240	223	(1)	7%		1680	1536	144	9%	
2022/23	240	212	(2)	12%		1680	1529	151	9%	
2023/24	240	205	(4)	15%		1680	1517	163	10%	

Overall, there are 53 houses identified in the Cheltenham Local Plan to be built in the Swindon Road planning area, should all of this housing come forward it is predicted to generate approximately 22 primary aged pupils in the forecast period. Depending on when and in what quantities these housing developments are provided will inform what S106 developers contribution requirements Gloucestershire County Council will request

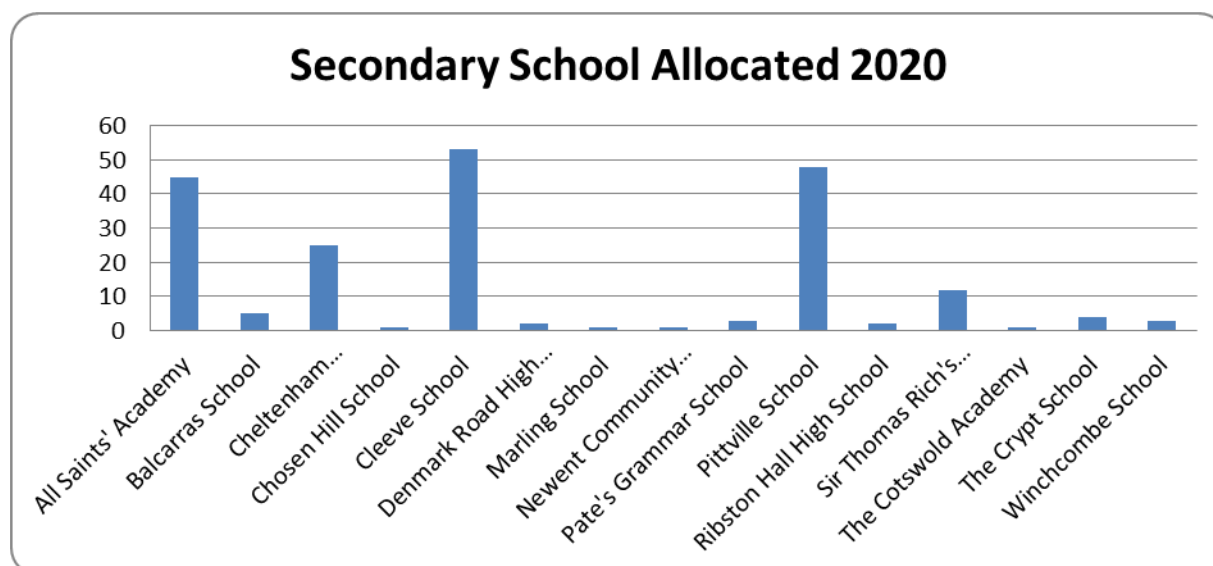

Two large strategic sites in North West Cheltenham and West Cheltenham of up to 4500 and 2300 new homes respectively is identified in the Joint Core Strategy plan. These are significant housing developments and will provide new primary schools on site. They may also require some additional primary places at existing schools, if site capacity allows depending on the final number of dwellings built.

Secondary Pupil Place demand in Swindon Road

Pittville School is the nearest school for this planning area although parents can express a preference for any school. Pittville School has recently increased its PAN from 135 to 150 in 2017 and from 150 to 175 in 2018. Pittville also admitted an additional temporary bulge class for the 2019 Y7 intake in order to meet demand for places locally. This will assist with capacity until the new 6FE school in South Cheltenham is opened.

The main secondary schools serving the Swindon Road area in the 2020 allocation round are Pittville School, All Saint's Academy, Cleeve School and Cheltenham Bournside School.

Pates grammar school is also local to this planning area as a selective option. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart above shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Swindon Road area. 26% were allocated Cleeve School, 23% were allocated Pittville School, 22% All Saint's Academy and 12% Cheltenham Bournside School in the 2020 round.

Information on Secondary Place Planning relating to Swindon Road planning area can be found from page 250 to page 253.

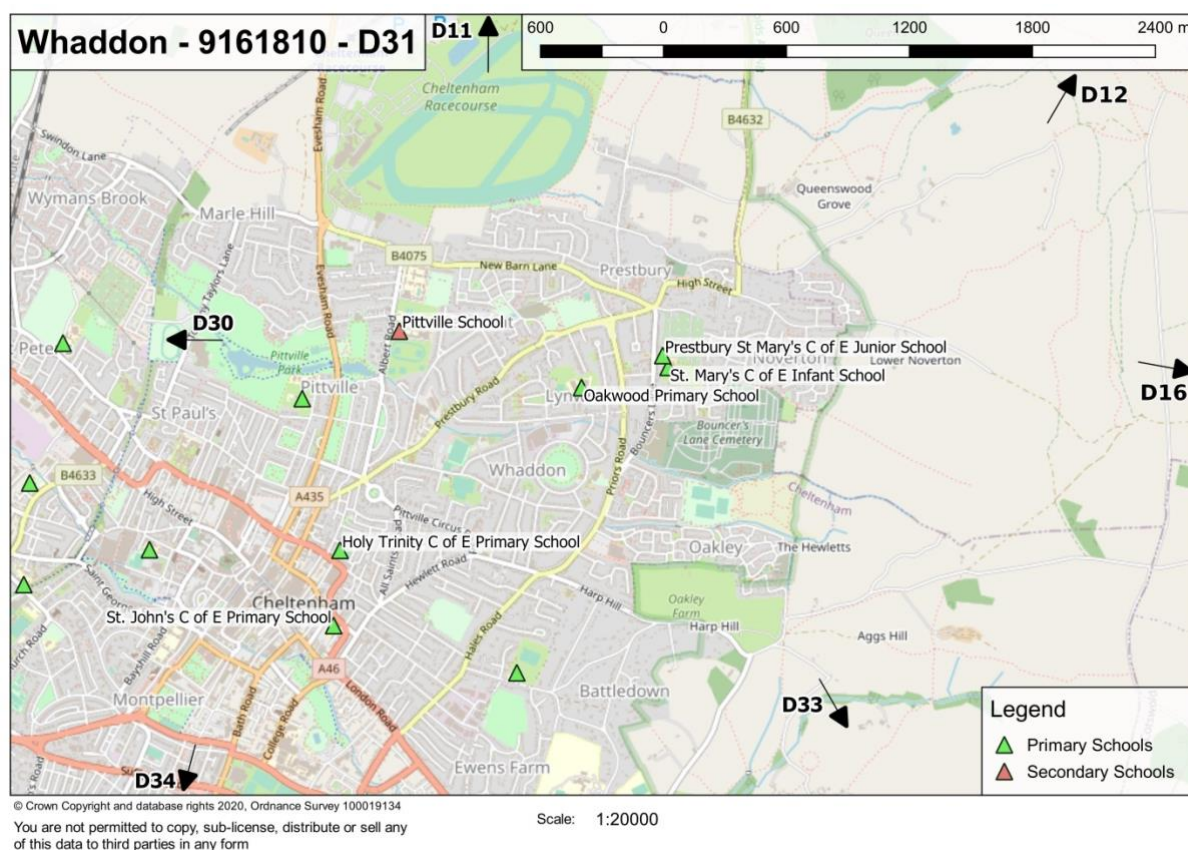

Swindon Road Implementation Plan

Pittville School	5421	Foundation school	Cheltenham

Births in Whaddon

The number of births in the Whaddon area has fluctuated considerably in recent years.

Whaddon	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	264	231	231	271	238	244

Primary Pupil Place demand in Whaddon

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

This area of Cheltenham until recently has managed with its current level of supply but this is due to the expansion of schools in adjacent planning areas.

Oakwood School is a newer primary school built in 2011 and was an amalgamation of two primary schools in close proximity. S106 funding arising from the GCHQ Oakley site provided approximately 0.5FE at this school to allow for pupils arising from the development.

Holy Trinity and St John's Primary Schools are both on restricted sites. There may be scope to increase the St Mary's schools or Oakwood if required in future..

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed.

Pittville School	5421	Foundation school	Cheltenham

Births in Hesters Way

The number of births in the Hester's Way area has fluctuated in recent years.

Hesters Way	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	338	369	374	334	371	322

Primary Pupil Place demand in Hesters Way

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Historically this planning area has had a significant surplus of places. However by 2012, this area, along with other Cheltenham localities, was experiencing significant growth in pre-school numbers as a result of rising births. Rowanfield Infant and Juniors Schools permanently increased their admission numbers from 75 to 90 from September 2015. S106 funding from local housing development was used to fund this expansion. In 2016 Springbank Primary and St Thomas More Primary both admitted a temporary bulge class of 30 at Reception to meet local demand for places. Current forecasts show that there are sufficient places to just meet demand.

There are two large strategic housing developments, the A5 North West Cheltenham (Uckington) and the West of Cheltenham development both listed in the JCS for Tewkesbury. S106 developer's contributions would support new primary schools on site for West Cheltenham and the Uckington development and will address the need for places arising from this new housing.

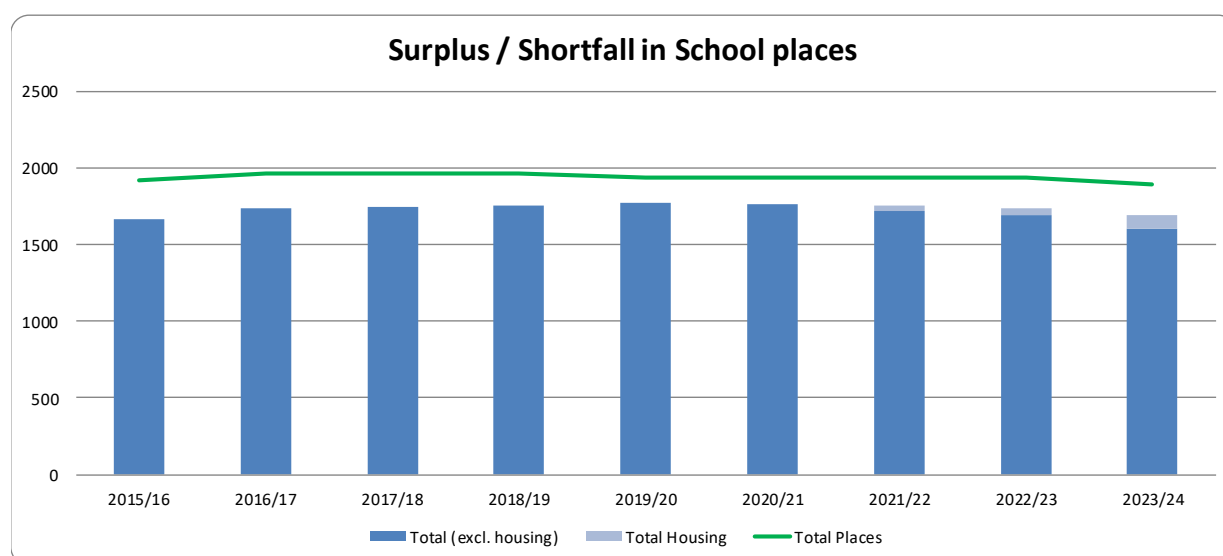

We would not expect any action to be necessary in the current schools in the planning area. However timing of the new schools and depending on the final number of dwellings built there may be a requirement for some additional primary places at existing schools, if site capacity allows.

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed.

Primary place demand in : Hesters Way Planning Area 9161820

YEAR	Reception					Total School				
	PAN	Total NOR in Reception (including students from housing)	Surplus - Shortfall Places	% Spare Year R		Total Places	Total (including students from housing)	Surplus - Shortfall Places	% Surplus Shortfall Places

2023/24	150	133	(2)	17	11%	1062	984	(10)	78	7%

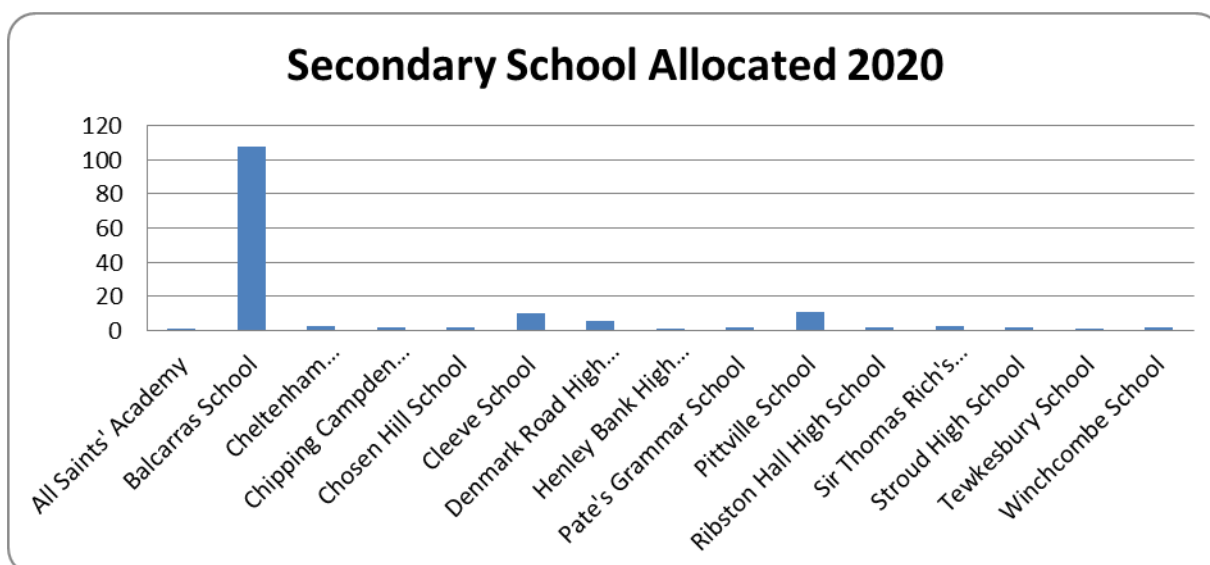

Overall, there are 25 houses identified in the Cheltenham Local Plan to be built in the Charlton Kings planning area, should all of this housing come forward it is predicted to generate approximately 10 primary aged pupils in the forecast period.

Secondary pupil place demand in Charlton Kings

Balcarras School is the nearest school for this planning area although parents can express a preference for any school. Balcarras School increased their PAN from 189 to 204 in 2013. The school admitted a temporary bulge class of 30 in 2017 and again in 2019 to assist Gloucestershire County Council with local demand until the new school for which Balcarras are sponsors opens.

The main secondary school serving the Charlton Kings area in the 2020 allocation round is Balcarras School. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Charlton Kings area. 69% were allocated Balcarras School, in the 2020 round

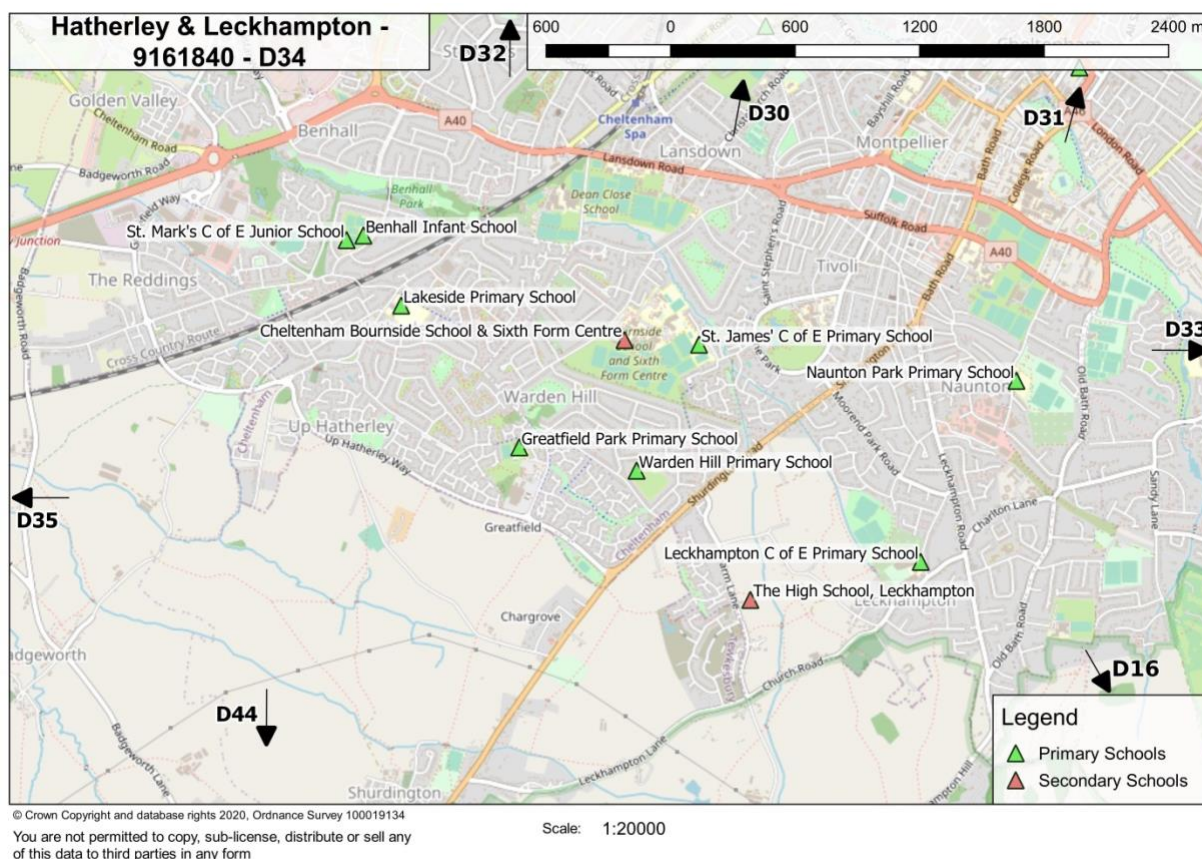

Information on Secondary Place Planning relating to Charlton Kings planning area can be found from page 250 to page 253.

Charlton Kings Implementation Plan

Short term – 1 to 2 years Academic Years 2021/22 – 2022/23	Medium term – 3 to 5 years Academic Years 2023/24 – 2025/26	Long term – 5 to 10 years Academic Years 2026/27 – 2031/32
No action currently required for primary but will continue to monitor for any new housing locally and seek S106 contributions if appropriate		
A new 6FE secondary school is planned for the South of Cheltenham linked to demographic demand and housing. This will support growth across the whole of mid and south Cheltenham and accommodate demand moving through from growth in the primary sector.		

D34 Hatherley / Leckhampton

There are 6 primary schools and 1 infant and junior school in the Hatherley/Leckhampton area together with 5 secondary schools catering for the 11 to 16 and 11 to 19 age range. Children requiring special school provision could attend, Bettridge and Belmont or The Ridge in Cheltenham or The Peak in Dursley for Secondary depending on the nature of their additional needs.

Primary	DfE	Type	District
Benhall Infant School	2165	Community school	Cheltenham
Greatfield Park Primary School	2151	Community school	Cheltenham
Lakeside Primary School	2160	Community school	Cheltenham
Leckhampton C of E Primary School	3094	Voluntary controlled school	Cheltenham
Naunton Park Primary School	2155	Community school	Cheltenham
St. James' C of E Primary School	3096	Academy converter	Cheltenham
St. Mark's C of E Junior School	3363	Voluntary aided school	Cheltenham
Warden Hill Primary School	5210	Foundation school	Cheltenham

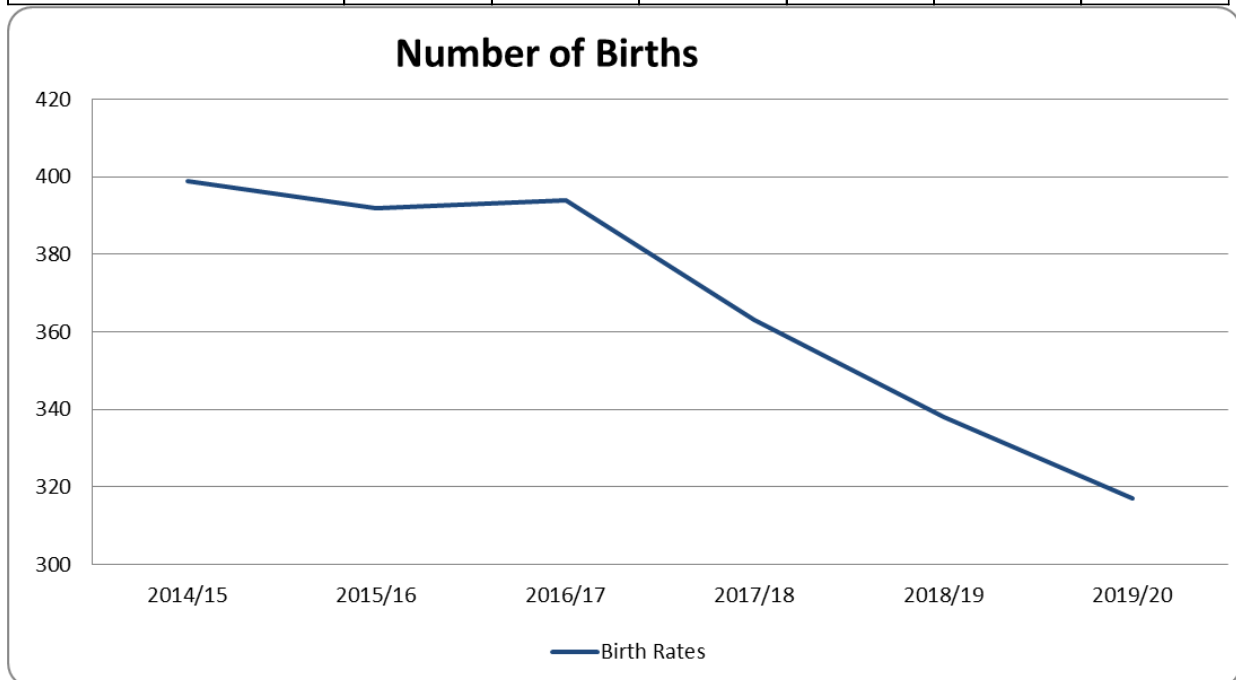

The 5 Secondary schools serving the Cheltenham area are listed here:

Secondary	DFE	Type	District
All Saints' Academy	6905	Academy sponsor led	Cheltenham
Balcarras School	5408	Academy converter	Cheltenham
Cheltenham Bournside School & Sixth Form Centre	5418	Academy converter	Cheltenham
Pate's Grammar School	5403	Academy converter	Cheltenham
Pittville School	5421	Foundation school	Cheltenham

Births in Hatherley / Leckhampton

The number of births in the Hatherley area has decreased in recent years from the previous high level for the area..

Hatherley / Leckhampton	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	399	392	394	363	338	317

Primary pupil place demand in Hatherley / Leckhampton

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

This planning area has seen the highest demand for primary places in Cheltenham and has undergone significant growth in pupil numbers and demand for places. All of the schools in this planning area have seen growth on a temporary or permanent basis.

2011 – Naunton Park – 30 temporary reception places – this cohort moved to secondary in September 2018

2012 – Benhall Infant - 22 temporary reception places – moved to St Marks Junior in September 2015

2014 – Lakeside – 30 temporary reception places became permanent in 2017 creating 210 additional whole school places.

2014 – Warden Hill - 30 temporary reception places.

2015 – Leckhampton – 30 temporary reception places and a further 30 temporary reception places in 2018. Leckhampton CofE Primary School expanded permanently by 1 FE from September 2019 taking the PAN from 60 to 90 places at intake.

2017 – Greatfield Park – 30 temporary reception places

Naunton Park Primary School took a small bulge, from 57 to 60 places at intake from September 2018, which became permanent from September 2019.

A housing development, A6 South Cheltenham (Leckhampton) development that is listed in the JCS for Cheltenham and Tewkesbury is still at planning stage and while we have not yet secured S106 developers contribution it is essential that we will seek funding to support primary expansions and to support the new secondary school to serve the needs of this community.

Cheltenham Bournside School is the nearest school for this planning area although parents can express a preference for any school. Cheltenham Bournside School increased its PAN from 270 to 300 in 2018.

The following table shows the number of pupils in the primary age range across the Hatherley / Leckhampton area based on the birth rate and the percentage of surplus/shortfall places by age cohort both retrospectively and forecast.

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed. This housing will be predominately concentrated in the town.

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

For example a primary school expanding from 7 to 14 classes would originally have a capacity of 210 places (7 x 30) if the building extension is due to finish August 2019 the tables will reflect the capacity increase to 420 places (14 x 30) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 30 to 60 for the reception class and operationally the school will use 8 classes or capacity of 240 places. The balance of 6 classrooms or 180 places will not be in use until the higher intake works its way through the school.

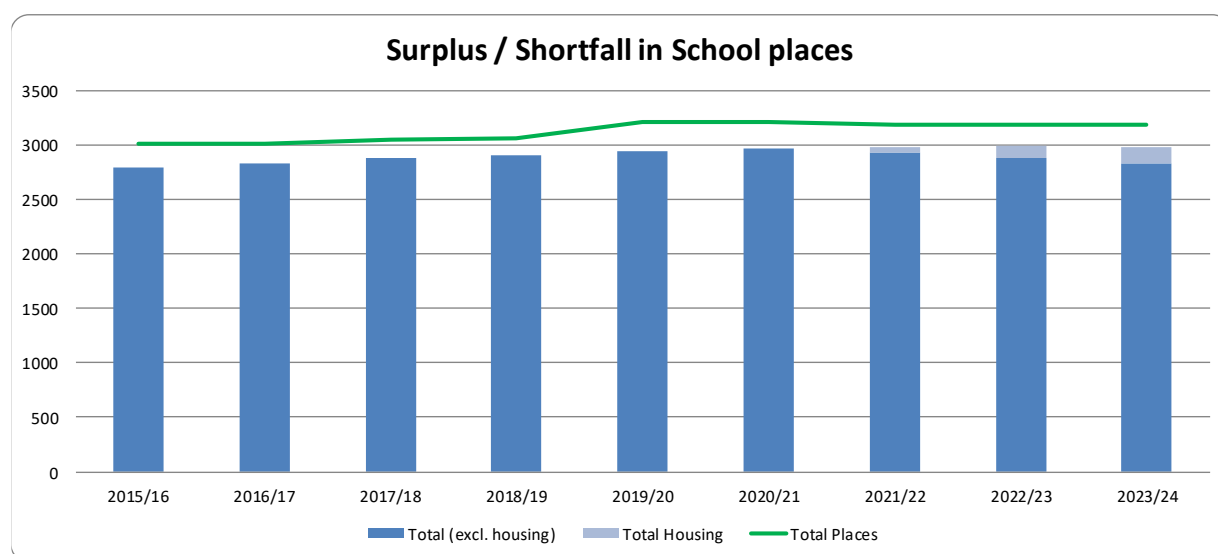

Primary place demand in :

Hatherley / Leckhampton

Planning Area

2023/24	450	381	(22)	69	15%	3180	2982	(149)	198	6%

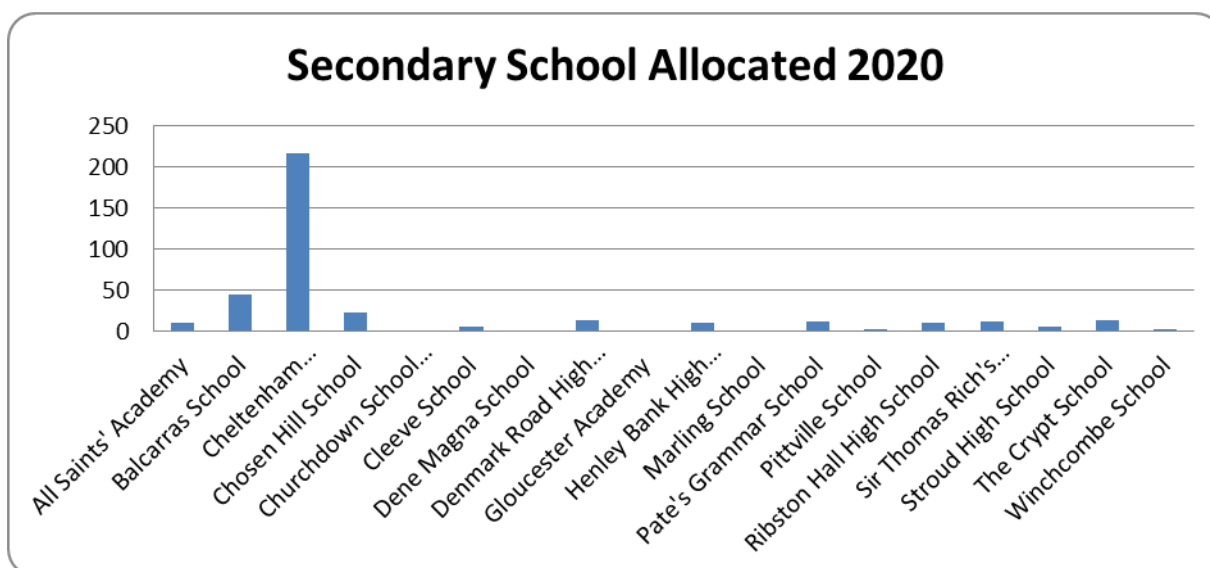

Overall, there are 357 houses identified in the Cheltenham Local Plan to be built in the Leckhampton planning area, should all of this housing come forward it is predicted to generate approximately 146 primary aged pupils in the forecast period in addition 7 houses were identified in the Tewkesbury Plan should all of this housing come forward it is predicted to generate approximately 3 primary aged pupils in the forecast period.

Secondary Pupil Place demand in Hatherley / Leckhampton

Cheltenham Bournside School is the main secondary school serving the Hatherley/ Leckhampton area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Hatherley / Leckhampton area 56% were allocated Cheltenham Bournside School in the 2020 round.

Information on Secondary Place Planning relating to Hatherley/Leckhampton planning area can be found on pages 250 to 253.

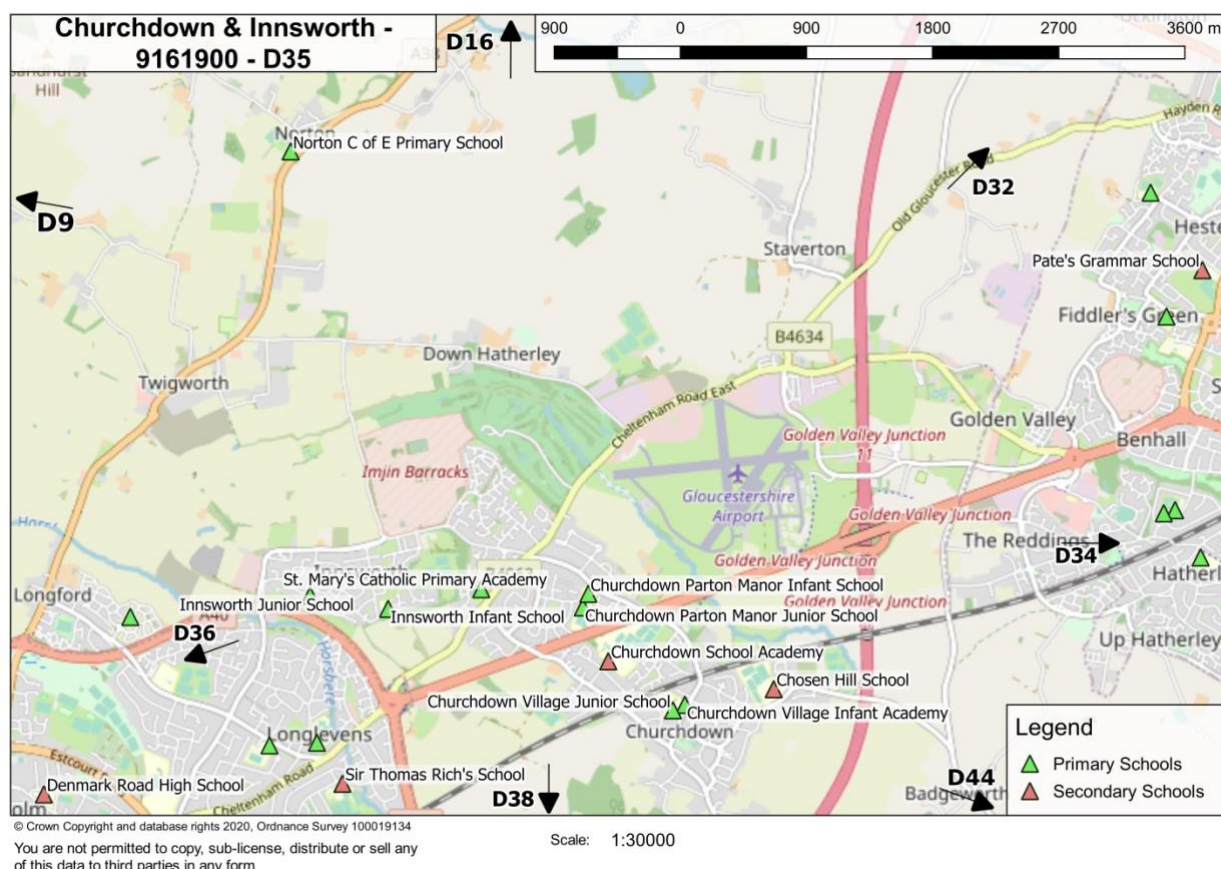

Hatherley/Leckhampton Implementation Plan

Short term – 1 to 2 years Academic Years 2021/22 – 2022/23	Medium term – 3 to 5 years Academic Years 2023/24 – 2025/26	Long term – 5 to 10 years Academic Years 2026/27 – 2031/32
Increased capacity at Leckhampton Primary by 1FE will meet the planned shortfall of primary places.		Continue to monitor need for places and any further housing allocations..
A new Secondary school is planned for the South of Cheltenham linked to demographic demand and housing. This will support growth across the whole of mid and south Cheltenham and accommodate demand moving through from growth in the primary sector.		

GLOUCESTER DISTRICT

D35 Churchdown / Innsworth

There are 2 primary schools and 3 infant and junior school pairs in the Churchdown/Innsworth area together with 2 secondary schools catering for the 11 to 19 age range locally. There are 12 secondary schools in the Gloucester planning area including 4 grammar schools. Children requiring special school provision could attend, Milestone or travel to Bettridge and Belmont or The Ridge in Cheltenham or The Peak in Dursley for Secondary depending on the nature of their additional needs.

Primary	DFE	Type	District

Births in Churchdown / Innsworth

The number of births in the area has remained steady in recent years after a peak in 2014/15..

Churchdown / Innsworth	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	227	167	200	156	168	159

Primary Pupil Place demand in Churchdown / Innsworth

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

In 2012, additional temporary capacity was provided at Parton Manor Infant School for the Reception intake. This large year group of 60 pupils transferred to Parton Manor Junior School in 2015. The Infant School subsequently requested a permanent increase to its PAN from 45 to 60 that became effective in 2014.

The two Innsworth schools have both previously had PAN's of 60 which were reduced to 45 in 2008. In recent years they have both increased their intake to 50. The Infant and Junior

Schools federated in 2015; both schools increased their PAN to 60 temporarily in 2018, which became permanent in 2019.

Norton CofE Primary School has been operating over its PAN of 16 for several years and additional accommodation was provided in 2020 to increase its PAN to 20.

The HQ Allied Rapid Reaction Corps (ARRC) moved from Germany to Innsworth in 2010. Many military personnel moved here, including over 500 families. The routine changeover of service personnel can create an element of fluctuation in local pupil numbers. In this area as a whole, the forecasts indicated overall growth of almost 400 primary age pupils by 2019, with a small shortfall in places evident from 2016. This included the first pupils to emerge in this locality as a result of the proposed new housing at Twigworth, Churchdown and Innsworth in the Joint Core Strategy (JCS).

In total we are expecting approximately 3500 new dwellings across the three areas and Gloucestershire County Council has responded to planning discussions by requesting new schools to support the demand arising from these developments.

This planning area is being closely monitored due to large housing developments in this and the adjacent planning area.

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed.

2023/24	230	207	(16)	10%		1610	1518	92	6%	

Overall, there are 207 houses identified in the Tewkesbury Local Plan to be built in the Churchdown/Innsworth planning area, should all of this housing come forward it is predicted to generate approximately 111 primary aged pupils in the forecast period.

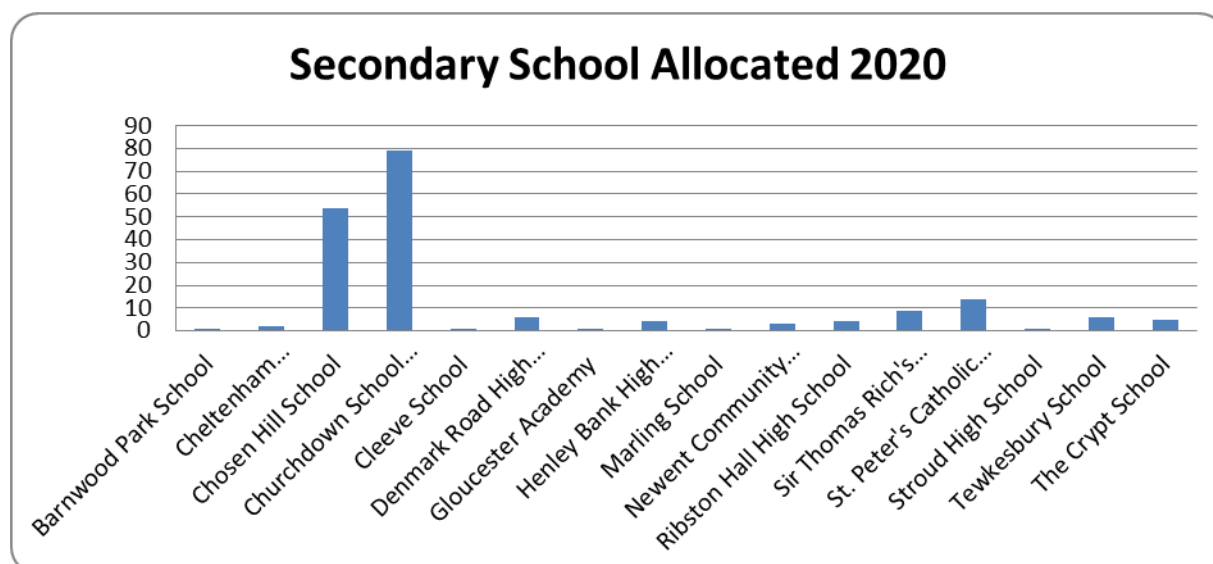

These houses are part of the 3,395 houses identified in the Joint Core Strategy to be built in the Churchdown / Innsworth community area.

This proposed strategic housing will equate to an additional need to provide a new 3FE equivalent school or schools, however depending on final housing numbers there may also be a requirement for additional places which could be met by expansion at one of the existing schools in the planning area. Discussions with developers regarding provision of these primary places are underway.

Secondary Pupil Place demand in Churchdown / Innsworth

Churchdown Academy and Chosen Hill School are the nearest schools for this planning area although parents can express a preference for any school. Churchdown Academy is forecast to be oversubscribed, however, the school has historically admitted over its PAN; similarly Chosen Hill School is full with pupils obtaining places at appeal taking them over PAN in some year groups. By 2022 all schools in the Gloucester Secondary Planning Area will be full. The growth from the strategic sites at Brockworth, Twigworth, Churchdown and Innsworth will provide a S106 developers contribution to support additional capacity. This

could be used to expand existing schools or contribute to a new secondary school in the Gloucester area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Churchdown / Innsworth area 41% were allocated Churchdown School Academy and 28% were allocated Chosen Hill School in the 2020 round.

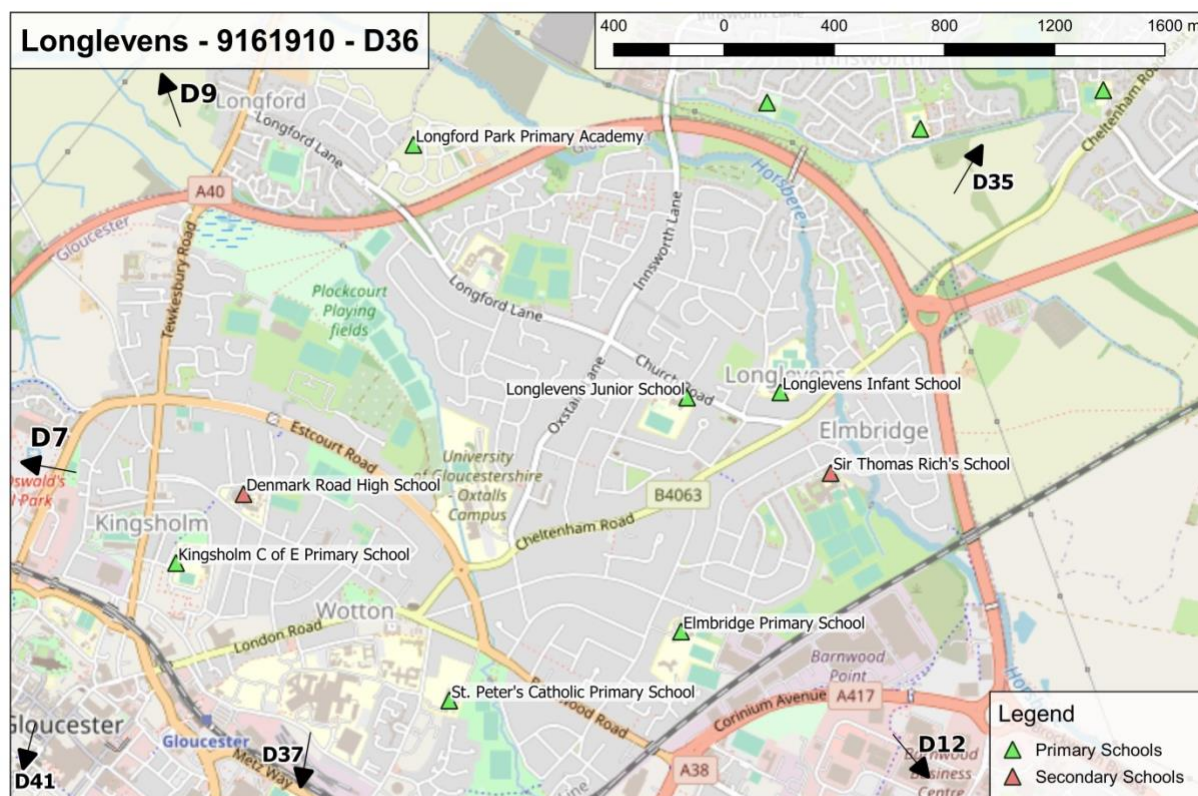

Information on Secondary Place Planning relating to Churchdown/Innsworth planning area can be found from page 254 to page 258.

Churchdown / Innsworth Implementation Plan

Short term – 1 to 2 years Academic Years 2021/22 – 2022/23	Medium term – 3 to 5 years Academic Years 2023/24 – 2025/26	Long term – 5 to 10 years Academic Years 2026/27 – 2031/32
Monitor the local housing growth and seek S106 as appropriate. Work with Norton Primary School to plan for a potential expansion to 1FE to meet demand.	Work with developers of large strategic sites to put in place S106 agreements to provide additional education infrastructure for both primary and secondary education	
Land search for potential new secondary school for Gloucester District	Monitor Secondary place need and explore the potential for a new secondary school for Gloucester.	

D36 Longlevens

There are 3 primary schools and 1 infant and junior school in the Longlevens area together with 1 secondary school catering for the 11 to 19 age range locally. There are 12 secondary schools in the Gloucester planning area including 4 grammar schools. Children requiring special school provision could attend, Milestone or travel to Bettridge and Belmont or The Ridge in Cheltenham or The Peak in Dursley for Secondary depending on the nature of their additional needs.

Births in Longlevens

The number of births in the Elmbridge/Longlevens area has decreased generally since 2011/12.

Longlevens	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	293	283	277	269	267	268

Primary pupil place demand in Longlevens

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

In 2016 Elmbridge Primary School was established by the amalgamation of the Infant and Junior Schools. Historically both schools had previously had PAN's of 90 which were reduced to 75 in 2008. In 2012, additional temporary capacity was provided at the Infant School for the Reception intake. This large year group of 90 pupils transferred to the Junior School in 2015. The Infant School subsequently requested to permanently increase its PAN from 75 to 90 from 2013. The Junior School made the same permanent change from 2015.

In 2011, Longlevens Infant School established a PAN of 120, bringing it in line with the Junior School.

In 2011, additional temporary capacity was provided at Kingsholm C of E Primary School for the Reception intake. This was directly linked to population growth. After further temporary increases, the school was subsequently asked to permanently increase its PAN from 60 to 90 from 2013.

A new Longford Park Primary Academy (1FE) opened in September 2017 with a phased PAN, starting with a PAN of 15 at intake, which increased to 30 at intake for September 2018. This new school was provided by the developer of the new housing development at Longford to support the pupils arising from the development of 630 new homes. The number of pre-school age children resident in this development now exceeds 30 per year group with 44 applications to the school for September 2021. Whilst the additional children can be accommodated at other schools in the planning area it is an indication of the large numbers of pupils generated by new housing.

Growth is anticipated in this area, with forecasts indicating over 200 additional primary age pupils by 2022/23 which will fill any spare capacity putting places under pressure in the future.

Local schools are popular with parents from other neighbourhoods and therefore the potential need for extra places may need to be contained within neighbouring schools.

This planning area is being closely monitored due to continued large housing developments in this and the adjacent planning area.

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends. However, they do not include the pupil product from any housing that has yet to be completed.

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

For example a primary school expanding from 7 to 14 classes would originally have a capacity of 210 places (7 x 30) if the building extension is due to finish August 2019 the tables will reflect the capacity increase to 420 places (14 x 30) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 30 to 60 for the reception class and operationally the school will use 8 classes or capacity of 240 places. The balance of 6 classrooms or 180 places will not be in use until the higher intake works its way through the school

2023/24	330	321	(13)	3%		2310	2304	6	0%	

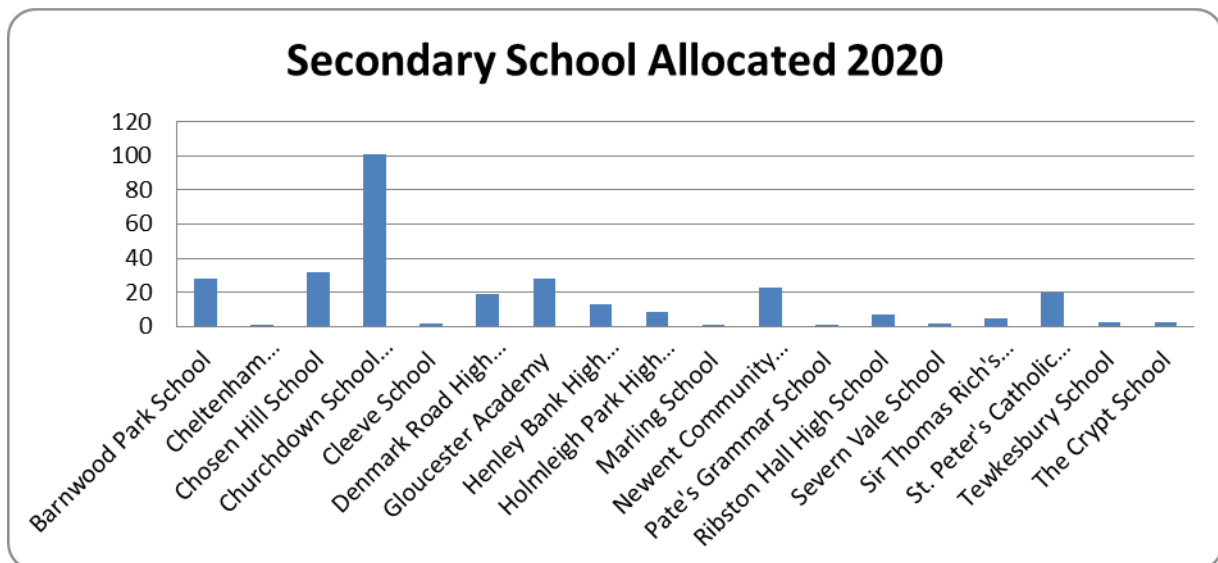

Overall, there are 174 houses identified in the Gloucester Local plan to be built in the Longlevens planning area should all of this housing come forward it is predicted to generate approximately 71 primary aged pupils in the forecast period in addition 24 houses were identified in the Tewkesbury Plan should all of this housing come forward it is predicted to generate approximately 10 primary aged pupils in the forecast period.

Secondary Pupil Place demand in Longlevens

Gloucester Academy and Barnwood Park College are the nearest schools for this planning area although parents can express a preference for any school. Historically pupils from this planning area look to seek a place at Churchdown and Chosen Hill schools; with pressure on numbers this may become more difficult. Discussion is therefore underway on how additional places may be provided after 2024 with the potential for a new secondary school in the Gloucester area.

Churchdown School Academy is the main secondary school serving the Longlevens area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Longlevens area 34% were allocated Churchdown school academy in the 2020 round.

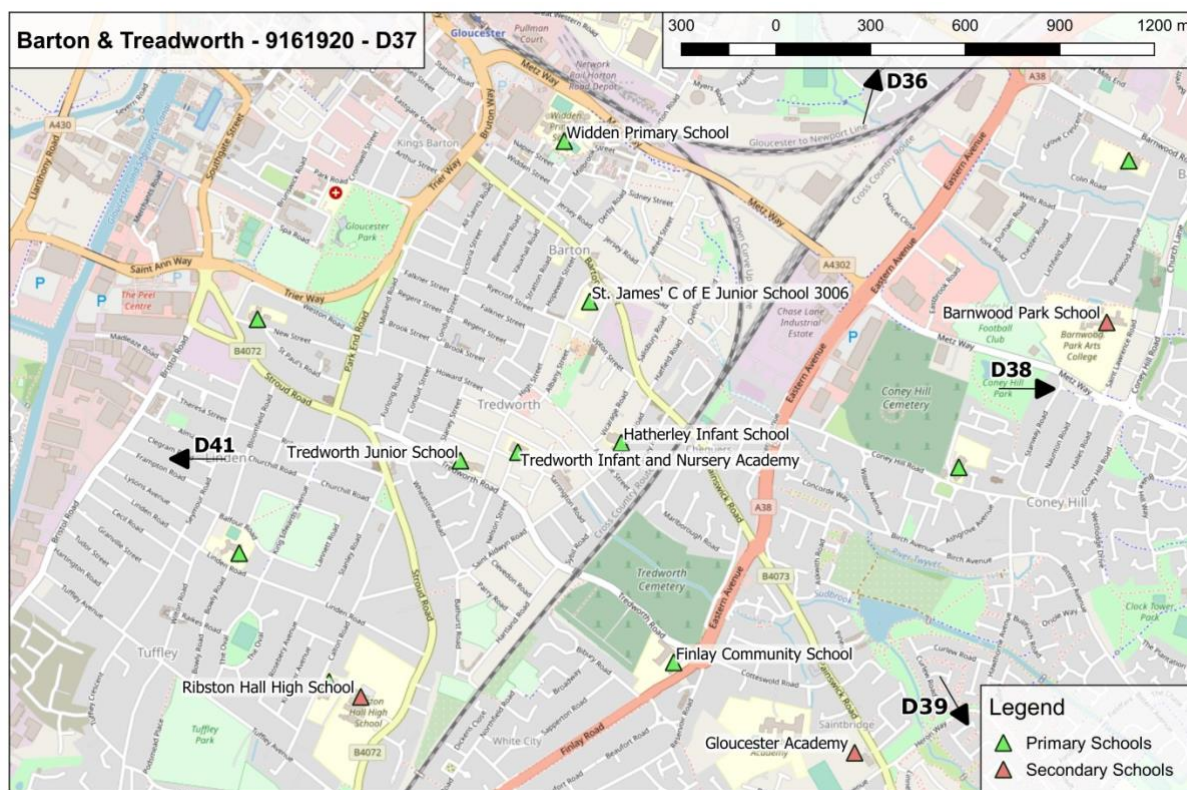

Information on Secondary Place Planning relating to Longlevens planning area can be found from page 254 to page 258.

Births in Barton / Tredworth

The number of births in the Barton/Tredworth area has fluctuated in recent years.

Barton / Tredworth	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	321	322	374	341	316	294

Primary Pupil Place demand in Barton / Tredworth

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

In 2012, additional temporary capacity was provided at Finlay Primary School for the Reception intake to meet basic need; two further temporary expansions in 2016 and 2018 became a permanent expansion to the school to a 2FE school in 2019. This is to give the flexibility to take pupils from the adjacent planning area Abbey/Matson/Upton as well as local pupils and reflects a need for places across the three planning areas of Finlay/Barnwood and Abbeymead in response to parental preference.

With this additional 1FE in place there is currently sufficient capacity to accommodate basic need, however if further housing comes forward more places may be needed and developers contributions would be requested to support this.

In 2013, additional temporary capacity was provided at Widden Primary School for the Reception intake.

Issues for Primary School Provision from 2021

The following table shows the number of pupils in the primary age range across the Barton / Tredworth area based on the birth rate and the percentage of surplus/shortfall places by age cohort both retrospectively and forecast.

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

For example a primary school expanding from 7 to 14 classes would originally have a capacity of 210 places (7 x 30) if the building extension is due to finish August 2019 the tables will reflect the capacity increase to 420 places (14 x 30) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 30 to 60 for the reception class and operationally the school will use 8 classes or capacity of 240 places. The balance of 6 classrooms or 180 places will not be in use until the higher intake works its way through the school

Overall, there are 10 houses identified in the Gloucester Local plan to be built in the Barton/Tredworth planning area should all of this housing come forward it is predicted to generate approximately 4 primary aged pupils in the forecast period.

Secondary Pupil Place demand in Barton / Tredworth

Gloucester Academy and Barnwood Park College are the nearest schools for this planning area although parents can express a preference for any school. By 2022 all schools in the Gloucester Secondary Planning Area will be full. The growth from the strategic sites at Brockworth, Twigworth, Churchdown and Innsworth to the north and Tuffley, Quedgeley and Hardwicke to the south will provide S106 developers contribution for additional capacity. This could be used to expand existing schools or support the provision of a new secondary school in the Gloucester area.

Gloucester Academy is the main secondary school serving the Barton / Tredworth area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Barton / Tredworth area 31% were allocated Gloucester Academy and 24% were allocated St Peter's High School in the 2020 round.

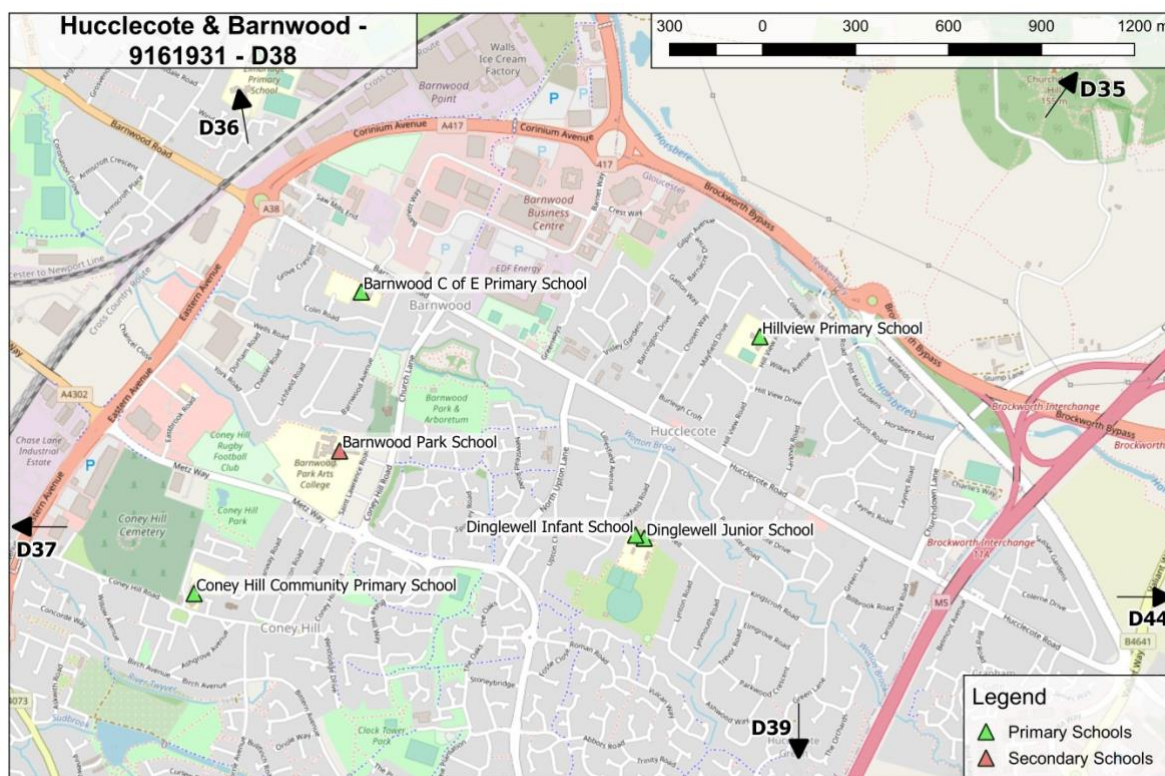

Information on Secondary Place Planning relating to Barton/Tredworth planning area can be found from page 254 to page 258.

D38 Hucclecote / Barnwood

There are 3 primary schools and 1 infant and junior school in the Hucclecote/Barnwood area together with 3 secondary schools catering for the 11 to 16 and 11 to 19 age range locally. There are 12 secondary schools in the Gloucester planning area including 4 grammar schools. Children requiring special school provision could attend, Milestone or travel to Bettridge and Belmont or The Ridge in Cheltenham or The Peak in Dursley for Secondary depending on the nature of their additional needs.

Births in Hucclecote / Barnwood

Births in the Hucclecote/Barnwood area have decreased in recent years.

Hucclecote / Barnwood	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	194	173	192	158	141	129

Primary pupil place demand in Hucclecote / Barnwood

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

An additional 30 temporary places were made available at Coney Hill Primary School to meet basic need arising from a large intake cohort in the locality for the September Reception intake 2015 and again in 2017. Site area restrictions make it impossible to expand permanently. There is no more site capacity to expand further. There is some drift in the preferences for schools between this and the neighbouring planning area below.

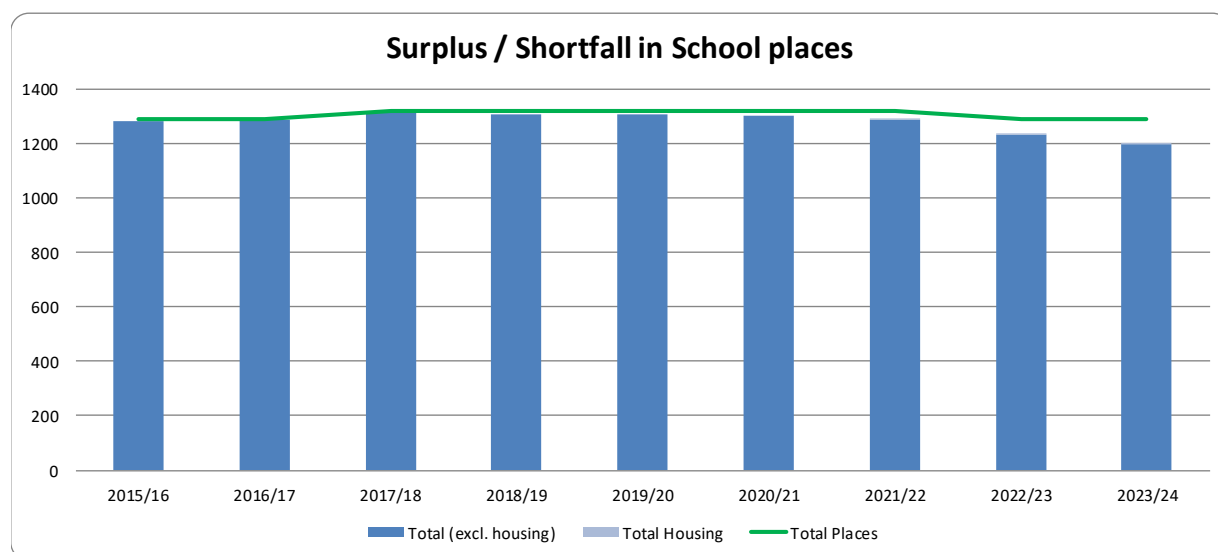

With no available sites that are able to expand permanently in this planning area we have expanded a school in the adjacent planning area as there is some drift in the preferences for schools between this and the neighbouring planning areas. The expansion of Finlay Primary by 1FE will help with demand for places in this planning area due to the close geographical locations.

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends. However, they do not include the pupil product from any housing that has yet to be completed.

Primary place demand in : Hucclecote / Barnwood Planning Area 9161931

Births in Abbey/Matson/Upton

Births in the Abbey/Matson/Upton area have decreased in recent years..

Abbey / Matson / Upton	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	373	392	344	352	377	301

Primary Pupil Place demand in Abbey/Matson/Upton

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

This planning area continues to face pressure on places. By 2022/23 forecasts show a shortfall of 8 Reception places. Two schools in the adjacent planning areas, Finlay Primary and Brockworth Primary Academy, have been permanently expanded by 1FE each in order to support demand across the three planning areas. The additional capacity added at Finlay and Brockworth Primary Schools have added sufficient places in to the area for current requirements but additional places may be required to meet demand from proposed housing developments in future years.

Pupils in this planning area will arise from housing under three district councils - Stroud, Tewkesbury and Gloucester. The development at Coopers Edge is still a work in progress, but a new 2FE primary school to serve this development opened in 2011, funded via a S106 agreement. However the capacity at this school fell short of the demand arising from the development putting pressure for more places on existing schools. Schools in this area are popular with parents from the neighbouring planning area and in 2016, 30 temporary Reception places were provided at Abbeymead School. Therefore the potential need for extra places may be contained within neighbouring schools/localities.

If more housing comes forward we will require a new school. Gloucestershire County Council owns a site within this planning area located at The Wheatridge East, which is being retained for future need.

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed.

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

For example a primary school expanding from 7 to 14 classes would originally have a capacity of 210 places (7 x 30) if the building extension is due to finish August 2019 the tables will reflect the capacity increase to 420 places (14 x 30) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 30 to 60 for the reception class and operationally the school will use 8 classes or capacity of 240 places. The balance of 6 classrooms or 180 places will not be in use until the higher intake works its way through the school

Births in Tuffley

Births in the Tuffley area have fluctuated in recent years.

Tuffley	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	166	189	202	172	189	156

Primary Pupil Place demand in Tuffley

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Harewood Infant and Junior Schools offered an additional 15 temporary places to accommodate basic need in 2016 and 2017 and this increase became permanent as of 2018 with both schools increasing their PAN from 75 to 90. Some of this need is emerging from pressure in the Quedgeley South East planning area due to the geographical location and parent's ability to walk from the development to Harewood schools. The additional places at the Harewood schools are sufficient to meet the level of need throughout the current forecasting period.. However, a large housing development of 200 dwellings has consent in

Tuffley for which a S106 developer's contribution has been secured for the expansion of an existing school locally when demand arises.

Issues for Primary School Provision from 2021

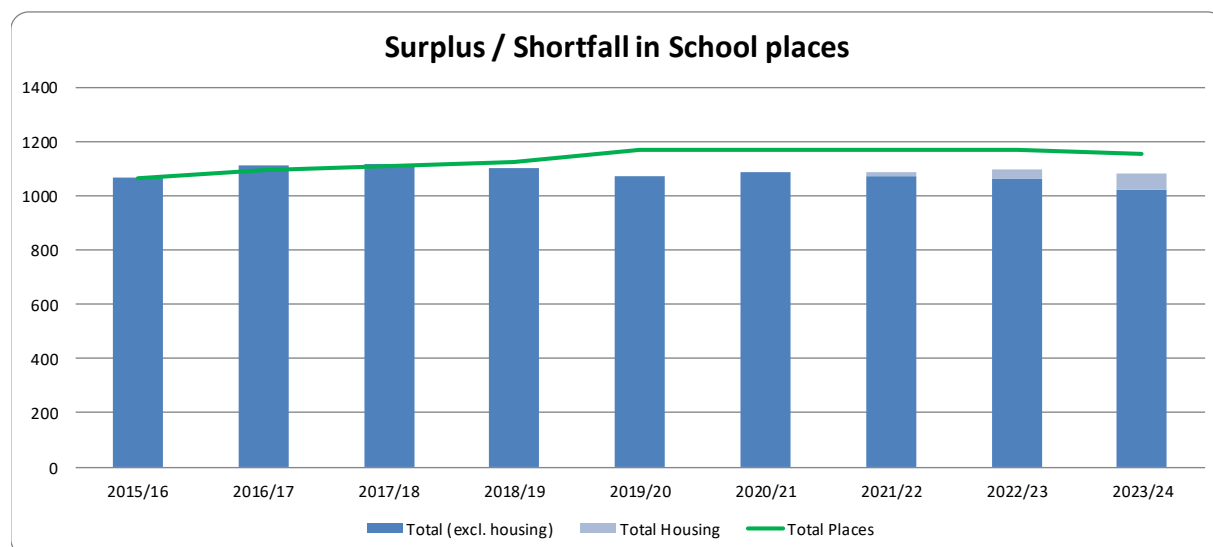

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed.

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

For example a primary school expanding from 7 to 14 classes would originally have a capacity of 210 places (7 x 30) if the building extension is due to finish August 2019 the tables will reflect the capacity increase to 420 places (14 x 30) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 30 to 60 for the reception class and operationally the school will use 8 classes or capacity of 240 places. The balance of 6 classrooms or 180 places will not be in use until the higher intake works its way through the school

Birth Rates	209	204	229	195	220	195

Primary Pupil Place demand in Linden

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Calton Primary School expanded from a 2FE to a 3FE school in September 2016, providing an extra 210 places in total. There are four housing developments in the area for which we have secured S106 funding, which could produce approximately 60 more pupils in this area. The expansion at Calton Primary School will provide places for these children.

Hempsted Primary School may need to expand by 0.5FE to provide local places for families from new housing developments local to Hempsted..

If further places are required in future years either a new site will be needed or expansion in the adjacent planning areas of Tuffley or Quedgeley will be required

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed.

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

For example a primary school expanding from 7 to 14 classes would originally have a capacity of 210 places (7 x 30) if the building extension is due to finish August 2019 the tables will reflect the capacity increase to 420 places (14 x 30) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 30 to 60 for the reception class and operationally the school will use 8 classes or capacity of 240 places. The balance of 6 classrooms or 180 places will not be in use until the higher intake works its way through the school

Overall, there are 764 houses identified in the in the Gloucester Local plan to be built in the Linden planning area should all of this housing come forward it is predicted to generate approximately 313 primary aged pupils in the forecast period.

Secondary Pupil Place demand in Linden

Holmleigh Park High School is the main secondary school serving the Linden area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

By 2020 all schools in the Gloucester Secondary Planning Area will be full. The growth from the strategic sites at Brockworth, Twigworth, Churchdown and Innsworth to the north and Tuffley, Quedgeley and Hardwicke to the south will provide S106 developers contribution for additional capacity. This could be used to expand existing schools or support the provision of a new secondary school in the Gloucester area.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Linden area. 30% were allocated Holmleigh Park High School in the 2020 round.

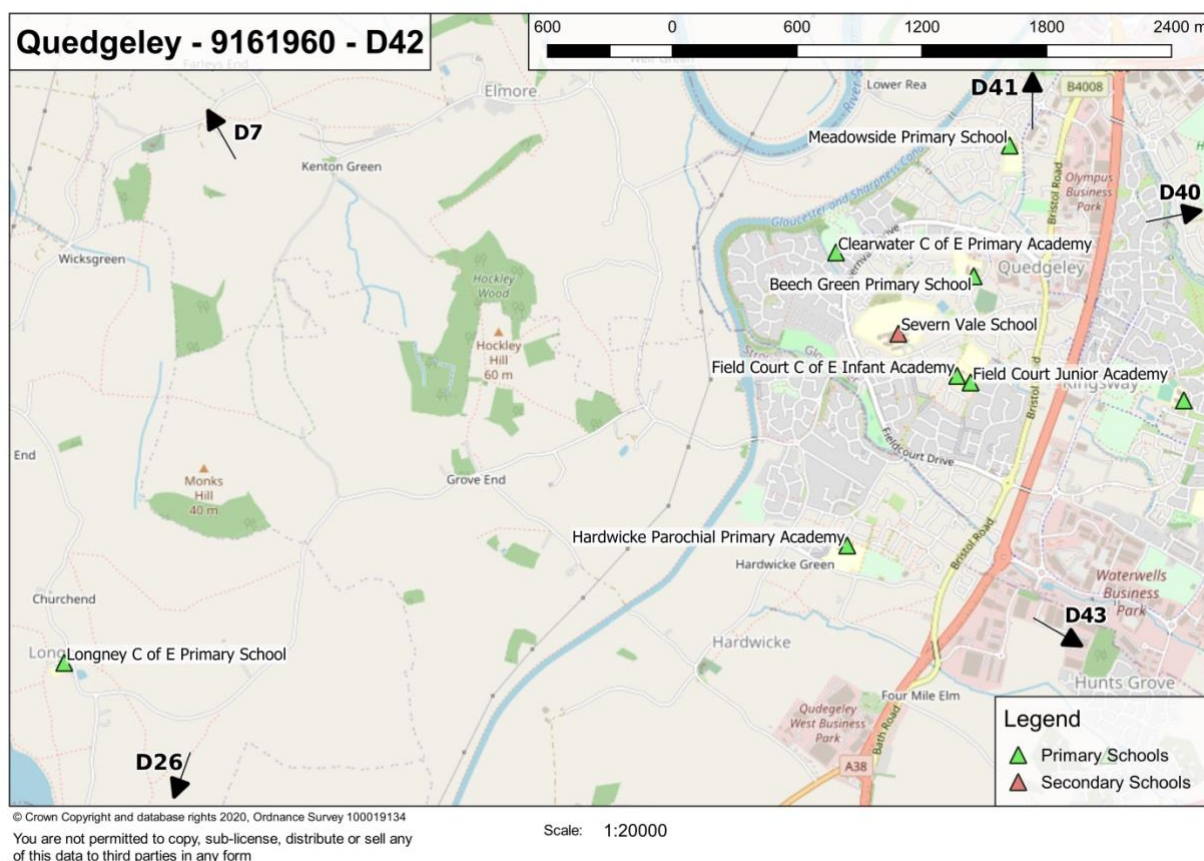

Information on Secondary Place Planning relating to Linden planning area can be found from page 254 to page 258.

Births in Quedgeley

The number of births in the Quedgeley area has fluctuated in recent years.

Quedgeley	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	243	261	228	193	225	225

Primary pupil place demand in Quedgeley

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Following basic need forecast projections of demand; in July 2016 the Diocese of Gloucester Academies Trust (DGAT) was successful in the Wave 12 Free School programme and secured funding for a new 2FE primary Free School in the Quedgeley planning area. The new school Clearwater C of E Primary opened on a host site in 2017 with a PAN of 30 at intake and will increase to PAN of 60. Following objections to the planned siting of

Clearwater CofE Primary, the school remains on its host site and the planning decision will be challenged through the appeal process. This school will support the demand for places arising from housing growth in the Quedgeley area.

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed.

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

For example a primary school expanding from 7 to 14 classes would originally have a capacity of 210 places (7 x 30) if the building extension is due to finish August 2019 the tables will reflect the capacity increase to 420 places (14 x 30) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 30 to 60 for the reception class and operationally the school will use 8 classes or capacity of 240 places. The balance of 6 classrooms or 180 places will not be in use until the higher intake works its way through the school

There is no housing development identified in district plans that will affect this planning area in the forecast period.

Secondary pupil place demand in Quedgeley

Severn Vale School is the nearest school for this planning area although parents can express a preference for any school. Severn Vale has recently expanded by 1FE and increased its PAN from 235 to 265 to support growth from the Kingsway, Waterwells and Hunts Grove Developments. Severn Vale is unable to sustain further expansion due to site constraints. By 2022 all schools in the Gloucester Secondary Planning Area will be full. The growth from the strategic sites at Brockworth, Twigworth, Churchdown and Innsworth to the north and Tuffley, Quedgeley and Hardwicke to the south will provide a S106 developers contribution for additional capacity. This could be used to expand existing schools or support the provision of a new secondary school in the Gloucester area.

Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Quedgeley area. 66% were allocated Severn Vale in the 2020 round.

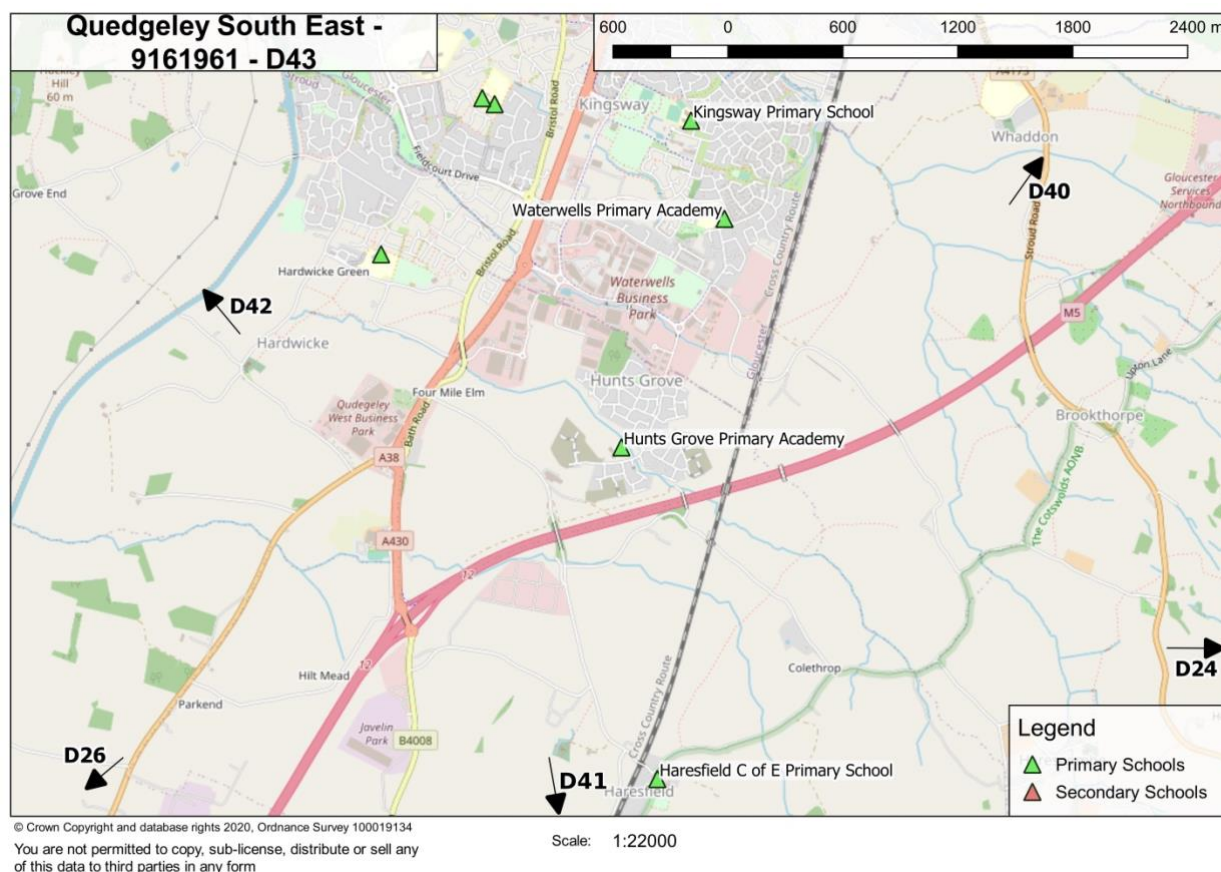

Information on Secondary Place Planning relating to Quedgeley planning area can be found from page 254 to page 258.

Quedgeley Implementation Plan

Short term – 1 to 2 years Academic Years 2021/22 – 2022/23	Medium term – 3 to 5 years Academic Years 2023/24 – 2025/26	Long term – 5 to 10 years Academic Years 2026/27 – 2031/32
Clearwater School established in permanent accommodation	Monitor the secondary need and a further 1FE expansion of Holmleigh Park would be considered if required (no capacity to expand Severn Vale further)

Births in Quedgeley South East

The number of births in the Quedgeley South East area has fluctuated in recent years.

Quedgeley South East	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	172	176	202	174	187	171

Primary Pupil Place demand in Quedgeley South East

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

Significant housing development in south east area of Quedgeley resulted in two new 2FE primary schools being built, with potential for 840 primary places. Hunts Grove new school opened in 2015 on a temporary site - PAN increased from 15 to 30 for the September 2016 intake. The school opened on its new site in September 2019 and expanded to its planned size of 2FE or 420 places in September 2020. These schools will meet the needs of this growing community throughout this forecasting period. However, additional places and a

new school site may be required in the longer term to meet future phases of housing development in the area. Recent surveys undertaken in this area have evidenced very high pupil product ratios from these developments.

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends and include the pupil product from any housing that has yet to be completed.

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

For example a primary school expanding from 7 to 14 classes would originally have a capacity of 210 places (7 x 30) if the building extension is due to finish August 2019 the tables will reflect the capacity increase to 420 places (14 x 30) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 30 to 60 for the reception class and operationally the school will use 8 classes or capacity of 240 places. The balance of 6 classrooms or 180 places will not be in use until the higher intake works its way through the school

Births in Brockworth

The number of births in the Brockworth area has fluctuated in recent years.

Brockworth	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Birth Rates	132	142	145	127	141	123

Primary Pupil Place demand in Brockworth

The need for school places essentially derives from the local child population, so pressure for primary places lags 4 years behind the number of births, and pressure for secondary places follows another 7 years later.

In 2012, additional temporary capacity was provided at Brockworth Primary School for the Reception intake. Further temporary accommodation was provided at Shurdington Primary School in 2013. Both Brockworth and Shurdington Primary Schools expanded temporarily again for September 2015 to meet demand in the area. After further temporary expansions at Brockworth Primary Academy in 2017 and 2018 and Shurdington in 2016 and 2017 the decision was taken to permanently expand both schools. Shurdington Primary increased

capacity to 1FE (210 places) from 2018 and Brockworth Primary Academy increased capacity to 2FE (420 places) from 2019 .

The planning areas of Hucclecote, Barton/Tredworth and Abbey/Upton/Matson together with this planning area create a geographical corridor from the centre to the north of Gloucester City. New housing developments at Brockworth and natural churn of the Abbeymead/Abbeydale housing developments have created a level of demand exceeding 2FE of additional places across the area. The LA had hoped for a new Free school in Wave 13, however the bid did not meet the criteria set out for Wave 13. The LA is currently awaiting the results of a bid for a new school in Wave 14. The announcement of Wave 14 allocations has been delayed since Spring 2020.

Issues for Primary School Provision from 2021

The table uses figures calculated by projecting forward the birth rate and the likely take up of places based on past trends. However, they do not include the pupil product from any housing that has yet to be completed.

The capacity for new and expanding schools has been shown as the total capacity constructed at the date of project completion. In most cases the working capacity of the school will be lower while a PAN increase or phased opening works its way through over subsequent academic years.

For example a primary school expanding from 7 to 14 classes would originally have a capacity of 210 places (7 x 30) if the building extension is due to finish August 2019 the tables will reflect the capacity increase to 420 places (14 x 30) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 30 to 60 for the reception class and operationally the school will use 8 classes or capacity of 240 places. The balance of 6 classrooms or 180 places will not be in use until the higher intake works its way through the school

Overall, there are 6 houses identified in the Tewkesbury Local Plan to be built in the Brockworth planning area should all of this housing come forward it is predicted to generate approximately 3 primary aged pupils in the forecast period in addition 4 houses were identified in the Cotswold District Plan should all of this housing come forward it is predicted to generate approximately 2 primary aged pupils in the forecast period..

A large strategic housing development at Perry Brook of up to 1500 dwellings will be supported by a new primary school and site as part of the S106 agreement.

Secondary Pupil Place demand in Brockworth

Henley Bank High School is the nearest school for this planning area although parents can express a preference for any school. HBHS currently has some capacity; however, by 2022 all schools in the Gloucester Secondary Planning Area will be full. The growth from the strategic sites at Brockworth, Twigworth, Churchdown and Innsworth to the north and Tuffley, Quedgeley and Hardwicke to the south will provide a S106 developers contribution for additional capacity. This could be used to expand existing schools or support the provision of a new secondary school in the Gloucester area.

Henley Bank and Chosen Hill Schools are the main secondary schools serving Brockworth area. Estimates of the future need for secondary places is based on the number of pupils leaving primary schools at the age of 11+, applying historic transfer ratios to take account of pupils moving to independent schools and schools in other areas.

The bar chart shows the secondary schools allocated in 2020 of the pupils transferring from a primary school in the Brockworth. 41% were allocated Henley Bank High School and 28% were allocated Chosen Hill in the 2020 round.

Information on Secondary Place Planning relating to Brockworth planning area can be found from page 254 to page 258.

Brockworth Implementation Plan

Overall, there are 435 houses identified in the Forest of Dean Local Plan to be built in the Forest North area, should all of this housing come forward it is predicted to generate approximately 87 11-16 aged pupils in the forecast period in addition there are 19 houses identified in the Tewkesbury Local Plan to be built in the Forest North area, should all of this housing come forward it is predicted to generate approximately 4 11-16 aged pupils in the forecast period. Depending on when and in what quantities these housing developments are provided will inform what S106 developers contribution requirements Gloucestershire County Council will request

Post 16

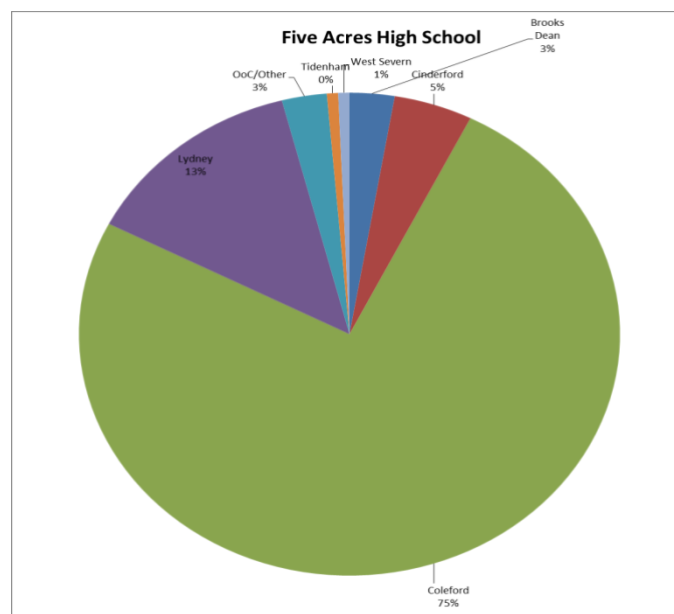

Newent Community School offers Post 16 provision in this area.

D46 Forest Central

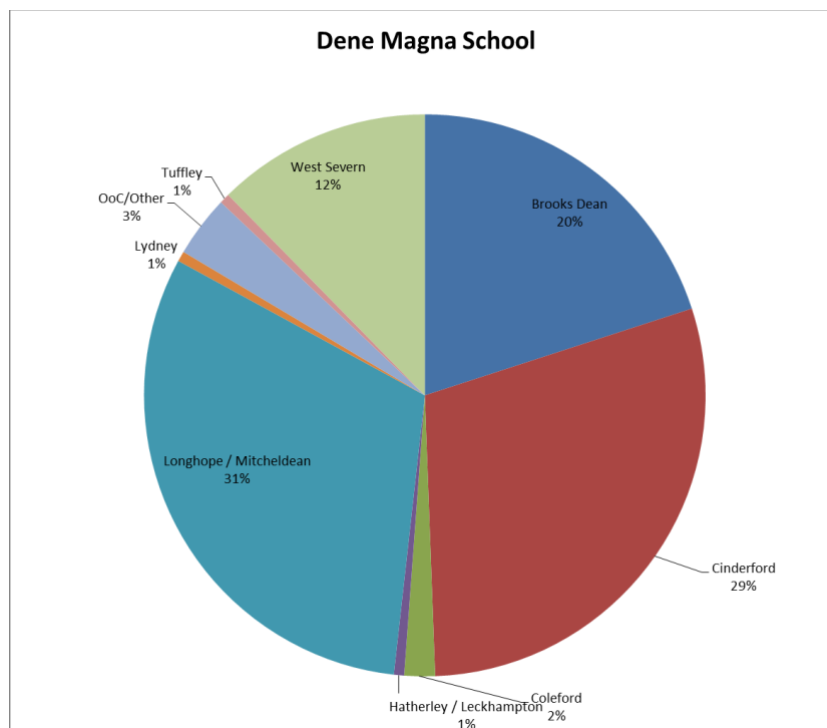

The Forest Central is served by Dean Magna, Five Acres High, The Dean Academy and The Forest High Schools. The graphs below show the feeder schools and capacity of the secondary schools

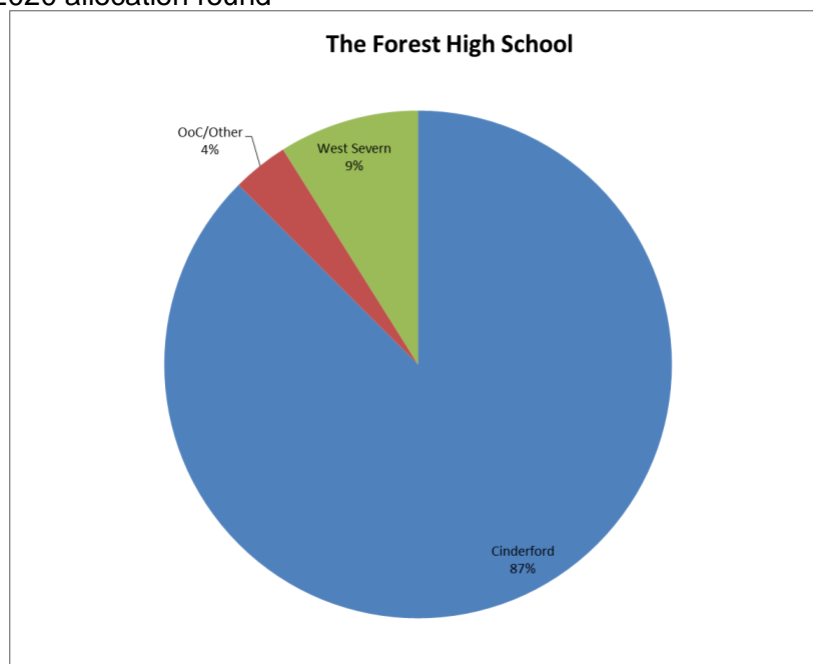

85% of the pupils allocated to The Dean Academy School in the 2020 round previously attended a primary school in the Lydney planning area

75% of the pupils allocated to The Five Acres High school in the 2020 round previously attended a primary school in the Coleford planning area, 13% from the Lydney area.

Pie chart shows, by primary schools planning areas, the pupils allocated to Dene Magna School in the 2020 allocation round

87% of the pupils allocated to The Forest High School in the 2020 round previously attended a primary school in the Cinderford planning area,

Implications for Secondary School Provision from 2021

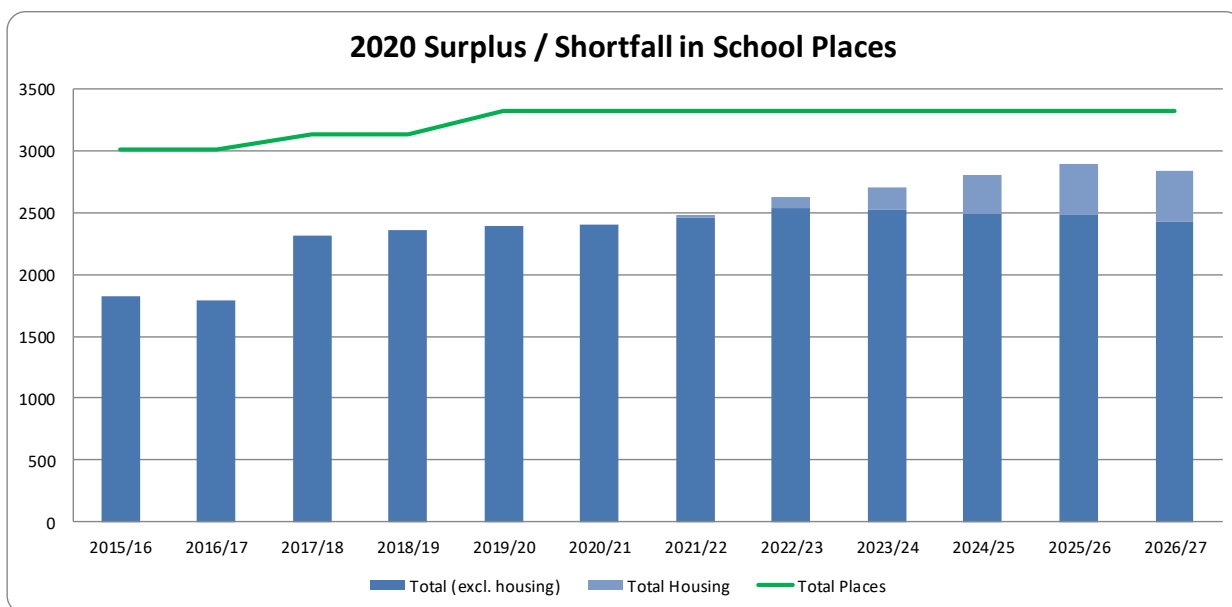

The table below shows pupils at 4 Secondary schools within the Forest Central area with the percentage of surplus/shortfall places by age cohort both retrospectively and forecast including anticipated pupil product.

Secondary pupil place demand in : Forest (C)

Planning Area

9162110

2025/26	664	551	(82)	113	17%	3320	2887	(409)	433	13%
2026/27	664	540	(82)	124	19%	3320	2831	(409)	489	15%

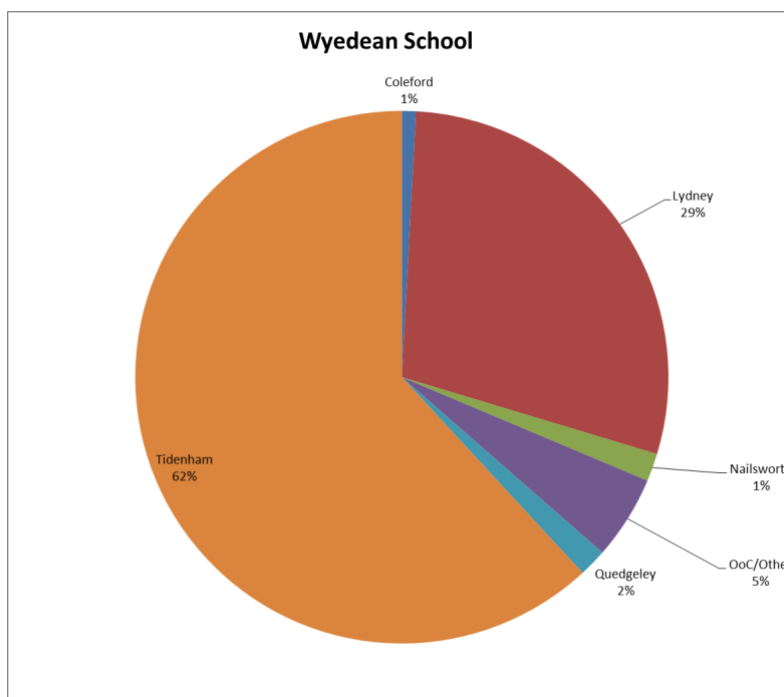

There are approximately 2044 dwellings identified in the Forest of Dean housing trajectories to be built in the Forest Central area. This would generate approximately 409 11-16 aged pupils over the forecast period

Post 16 – There is no provision for Post 16 at Dean Academy, for sixth form, young people travel to post 16 provisions in the nearby community areas at Newent and Sedbury or travel

into Cheltenham or Gloucester for other sixth forms and college options. A new college opened in Cinderford in 2018. Dean Magna School has proposed to open a 6th Form.

D47 Forest South

The Forest South is served by Wyedean School. The graphs below show the feeder schools and capacity of the secondary schools

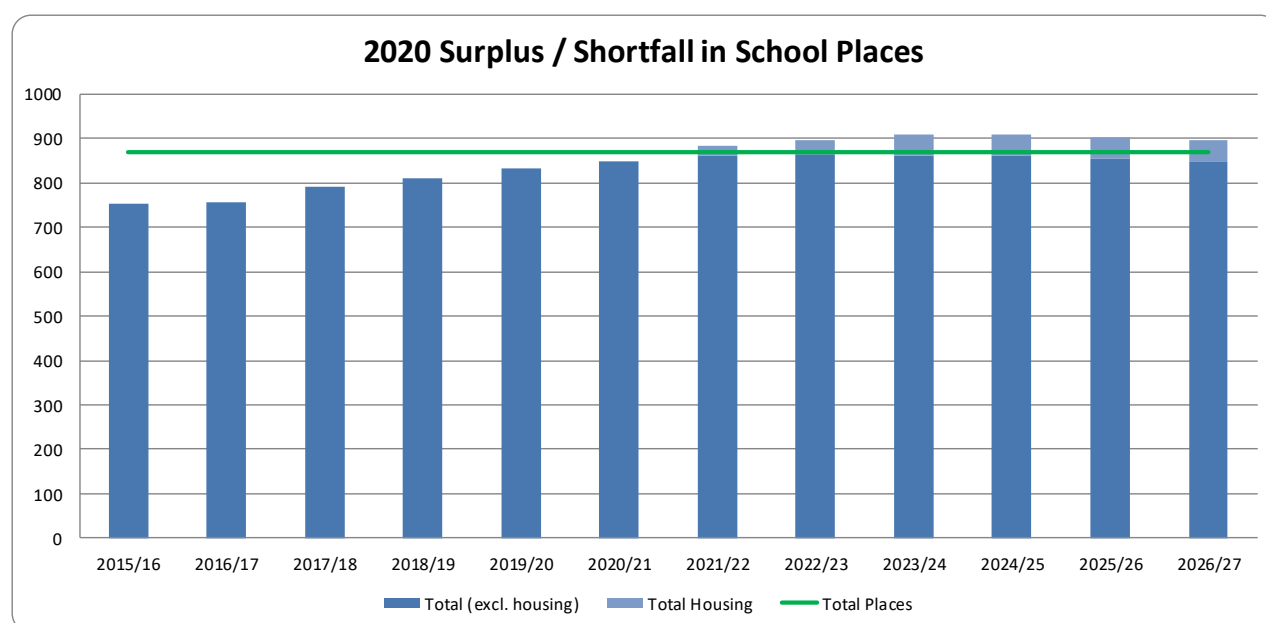

62% of the pupils allocated to Wyedean School in the 2020 round previously attended a primary school in the Tidenham planning area, 29% from Lydney

Implications for Secondary School Provision from 2021

The table below shows pupils at Wyedean School within in the Forest South area, with the percentage of surplus/shortfall places by age cohort both retrospectively and forecast including anticipated pupil product.

YEAR	Year 7					Total School - Years 7-11				
	PAN	Total NOR in Year 7 (including students from housing)		Surplus - Shortfall Places	% Spare Year 7	Total Places	Total (including students from housing)		Surplus - Shortfall Places	% Surplus - Shortfall Places

2026/27	174	177	(10)	-3	-2%	870	896	(48)	-26	-3%

There are approximately 238 dwellings identified in the Forest of Dean housing trajectories to be built in the Tidenham area. This would generate approximately 48 11-16 aged pupils over the forecast period that, due to the legacy of surplus places, can be contained within existing provision in the short term.

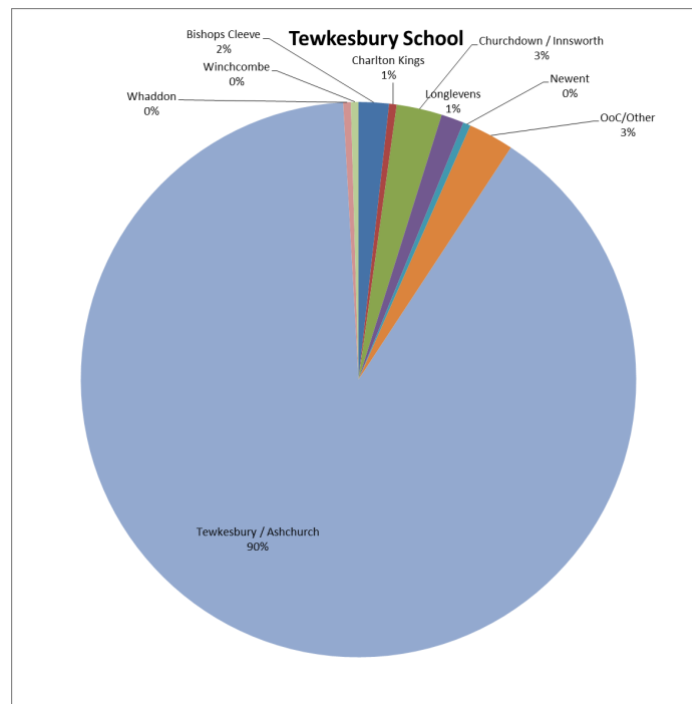

Post 16

The Wydean School and other further education settings offer post 16 education for the young people in this area.

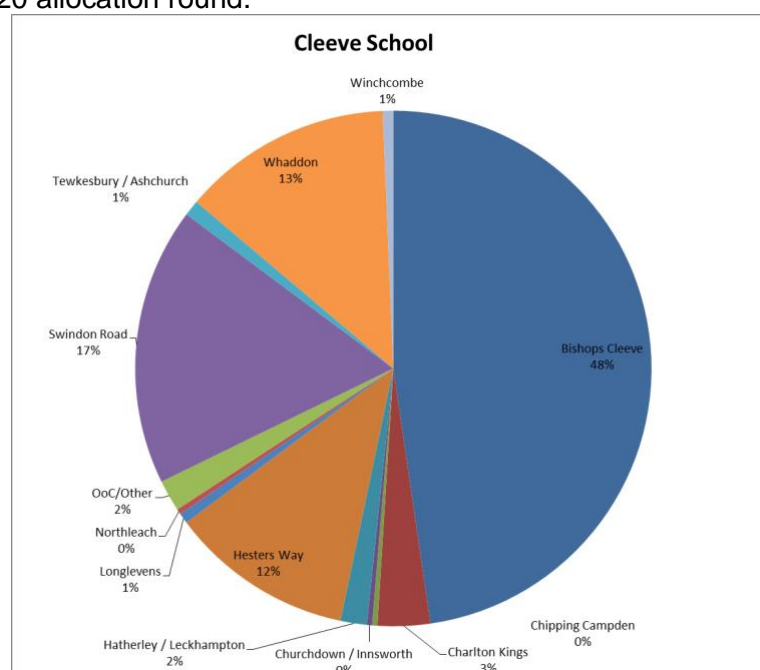

Tewkesbury

D48 Tewkesbury

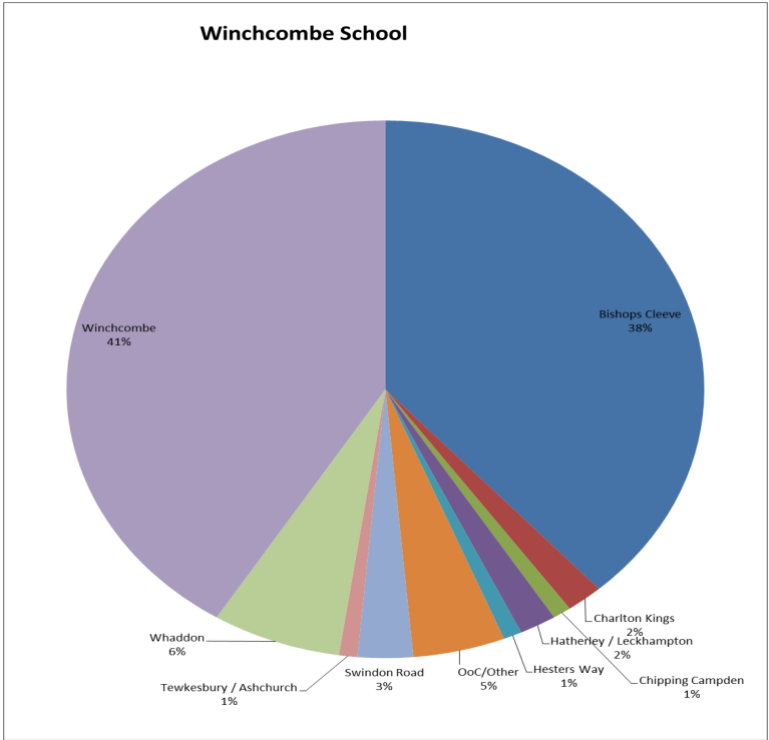

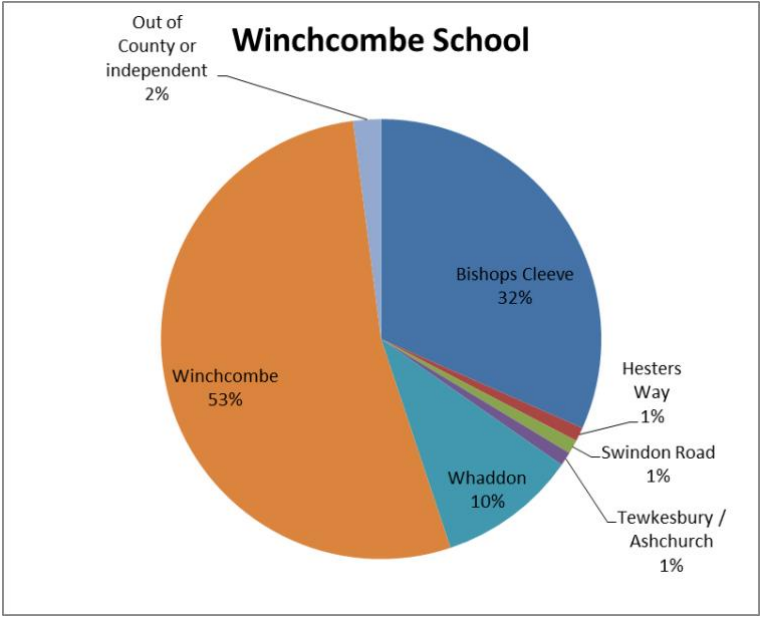

Tewkesbury is served by Tewkesbury Academy, Cleeve and Winchcombe Schools. The graphs below show the feeder schools and capacity of the secondary schools

Pie chart shows, by primary schools planning areas, the pupils allocated to Tewkesbury school in the 2020 allocation round.

Pie chart above shows, by primary schools planning areas, the pupils allocated to Cleeve School in the 2020 allocation round.

Pie chart above shows, by primary schools planning areas, the pupils allocated to Winchcombe School in the 2020 allocation round.

Implications for Secondary School Provision from 2021

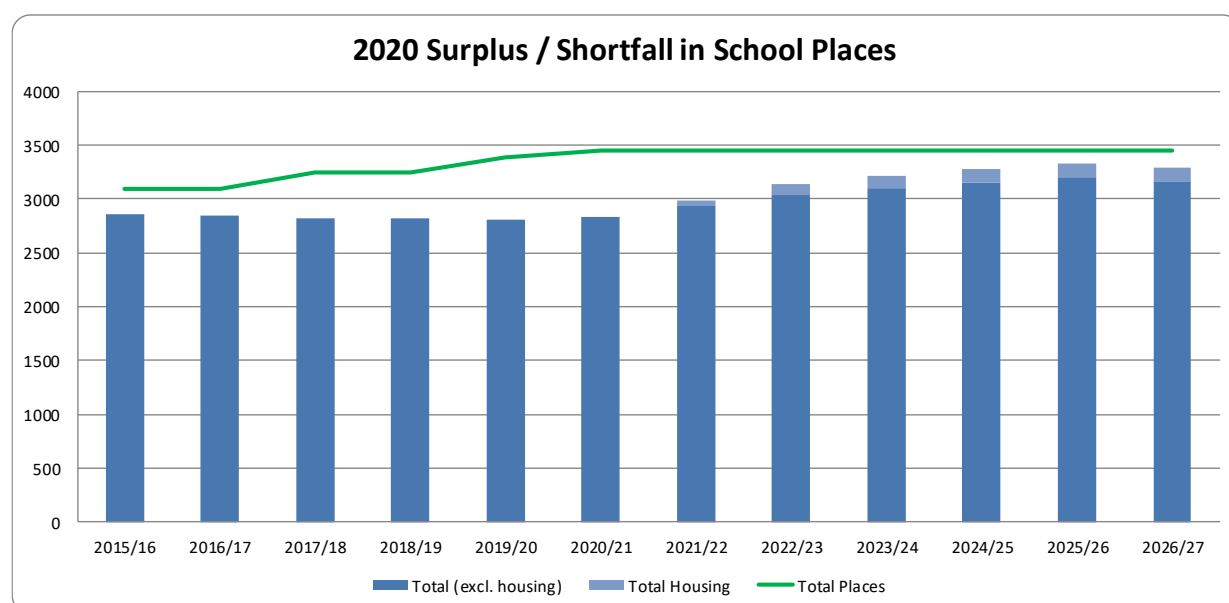

The table below shows pupils at the Secondary schools within the Tewkesbury area with the percentage of surplus/shortfall places by age cohort both retrospectively and forecast including anticipated pupil product.

Secondary pupil place demand in : Tewkesbury

Planning Area

9162200

YEAR	Year 7					Total School - Years 7-11

2025/26	690	671	(25)	19	3%	3450	3325	(124)	125	4%
2026/27	690	649	(25)	41	6%	3450	3289	(124)	161	5%

The majority of secondary schools are academies and the capacity of these schools is recorded in the academy funding agreement. This should be updated where a PAN is changed. The 11 – 16 capacity identified in these tables for expanding schools has been shown as the total capacity at the date of a permanent PAN increase. In most cases the working capacity of the school will be lower while a PAN increase works its way through over subsequent academic years.

For example a secondary school expanding from 5 to 6 forms of entry would originally have a capacity of 750 places (5 x 150) if the PAN increase takes effect from Sept 2019 the tables will reflect the capacity increase to 900 places (5 x 180) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 150 to 180 for the Year 7 intake

and operationally the school may use a capacity of 780 places. The balance 120 places will not be in use until the higher intake works its way through the school

Overall, there are 620 houses identified in the Tewkesbury Local Plan to be built in the Tewkesbury area, should all of this housing come forward it is predicted to generate approximately 124 11-16 aged pupils in the forecast period. Depending on when and in what quantities these housing developments are provided will inform what S106 developers contribution requirements Gloucestershire County Council will request

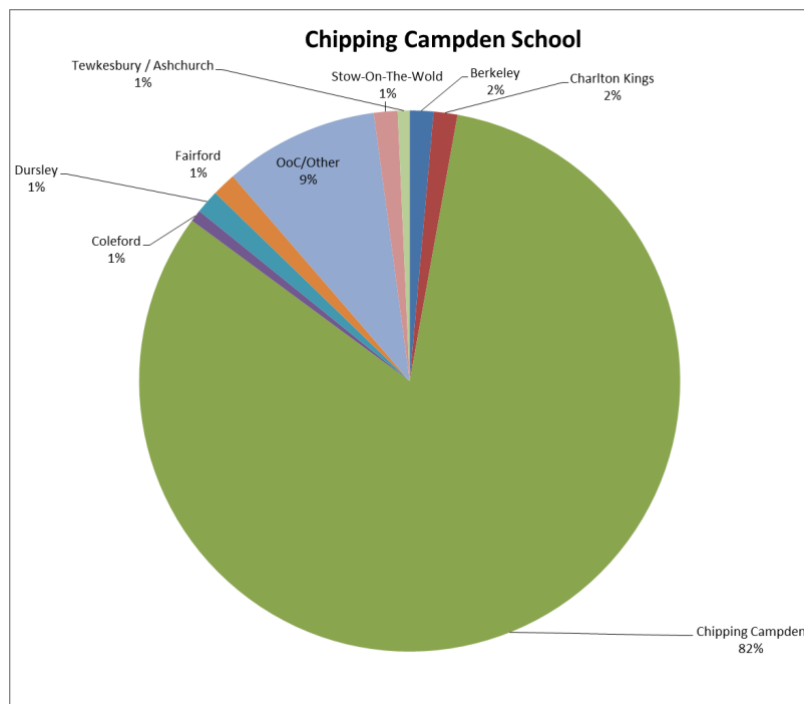

Post 16

Both Tewkesbury and Cleeve Schools offer Post 16 provision in the wider planning area, however there are a range of Post 16 providers that pupils can access across Gloucestershire.

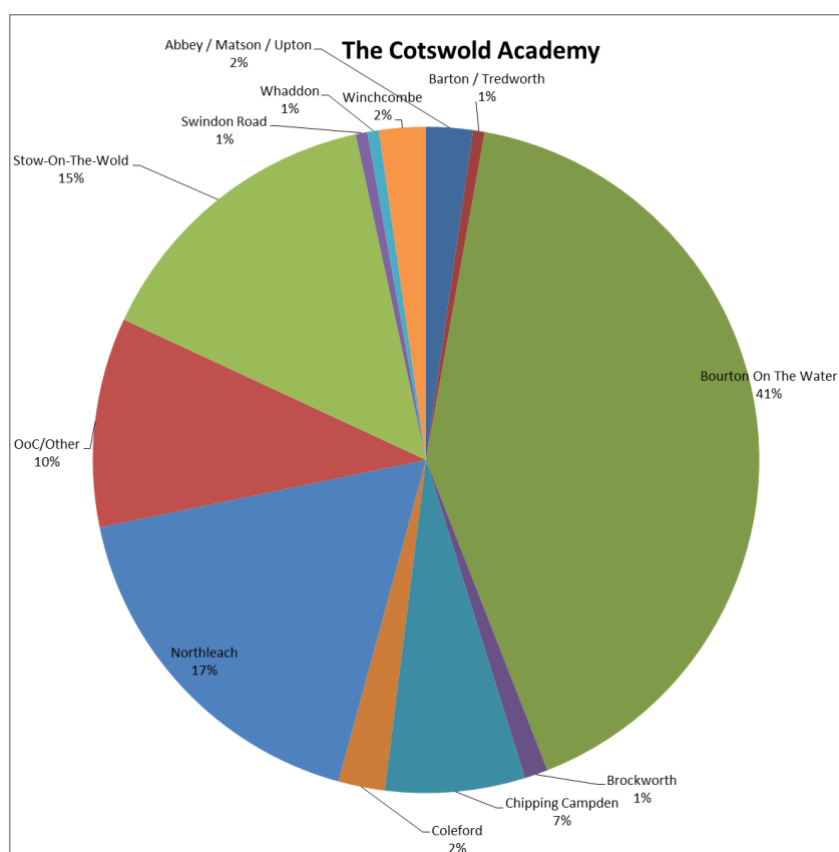

Cotswolds

D49 Cotswold North

The Cotswold North is served by Chipping Campden and The Cotswold Schools. The graphs below show the feeder schools and capacity of the secondary schools

Pie chart above shows, by primary schools planning areas, the pupils allocated to Chipping Campden School in the 2020 allocation round.

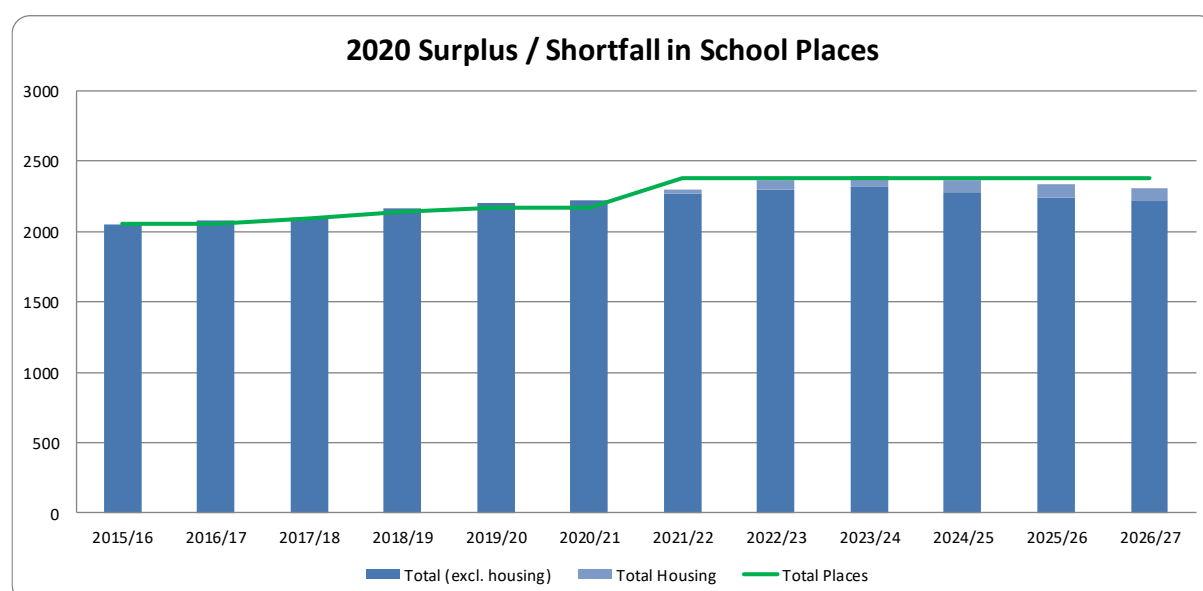

Pie chart above shows, by primary schools planning areas, the pupils allocated to The Cotswold academy school in the 2020 allocation round.

Implications for Secondary School Provision from 2021

The table below shows pupils at the Secondary school within the Cotswold North area with the percentage of surplus/shortfall places by age cohort both retrospectively and forecast including anticipated pupil product.

YEAR	Year 7					Total School - Years 7-11				
	PAN	Total NOR in Year 7 (including students from housing)		Surplus - Shortfall Places	% Spare Year 7	Total Places	Total (including students from housing)		Surplus - Shortfall Places	% Surplus - Shortfall Places
2015/16	410	425		-15	-4%	2050	2050		0	0%
2016/17	410	432		-22	-5%	2050	2075		-25	-1%

2018/19	428	444		-16	-4%	2140	2161		-21	-1%
2019/20	458	464		-6	-1%	2170	2198		-28	-1%
2020/21	428	430	(0)	-2	0%	2170	2218	(0)	-48	-2%
2021/22	475	484	(7)	-9	-2%	2375	2300	(35)	75	3%
2022/23	475	493	(13)	-18	-4%	2375	2359	(63)	16	1%
2023/24	475	475	(16)	0	0%	2375	2388	(77)	-13	-1%
2024/25	475	448	(17)	27	6%	2375	2358	(81)	17	1%
2025/26	475	413	(19)	62	13%	2375	2334	(93)	41	2%
2026/27	475	470	(19)	5	1%	2375	2308	(93)	67	3%

Overall, there are 463 houses identified in the Cotswolds Local Plan to be built in the Cotswold North area, should all of this housing come forward it is predicted to generate approximately 93 11-16 aged pupils in the forecast period. Depending on when and in what quantities these housing developments are provided will inform what S106 developers contribution requirements Gloucestershire County Council will request

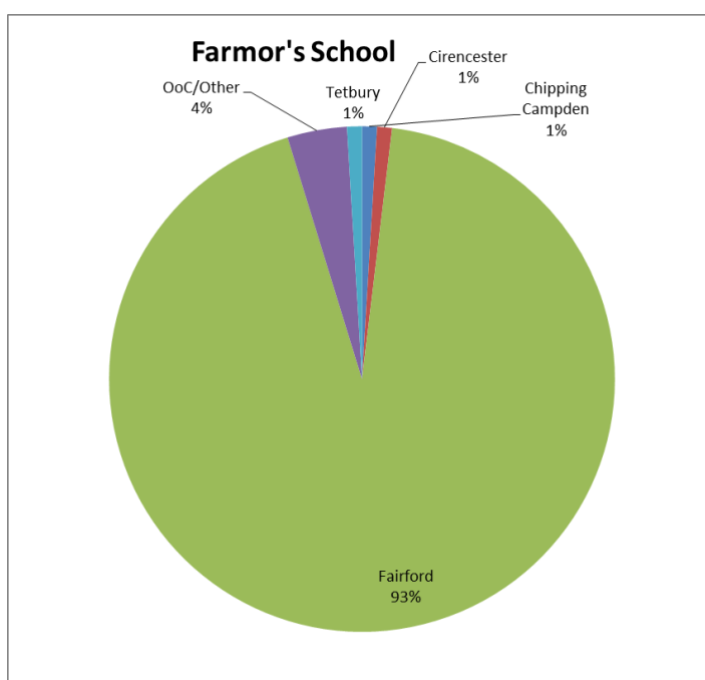

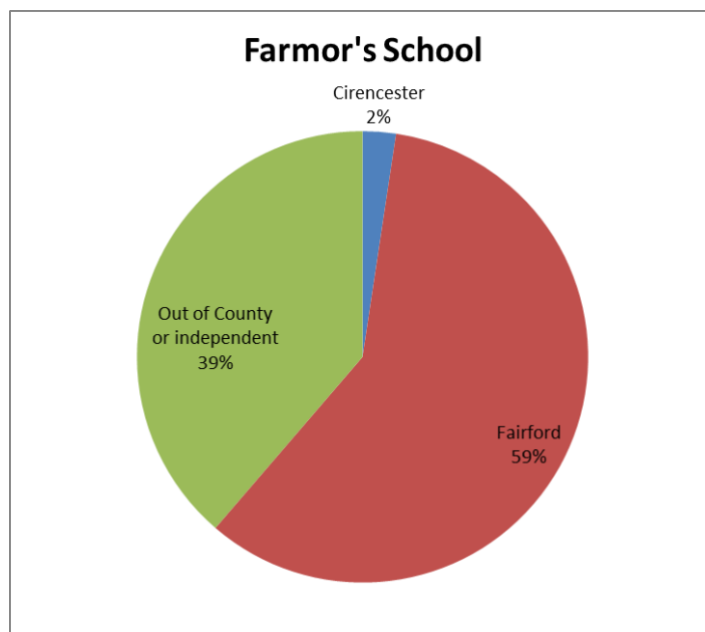

The Cotswold Academy is the local secondary school. The local housing growth has secured S106 and The Cotswold Academy has increased its PAN from 210 to 220 for the 2018 intake creating 50 additional whole school places. Further housing may see the need for additional expansion which would be supported by S106.

Post 16

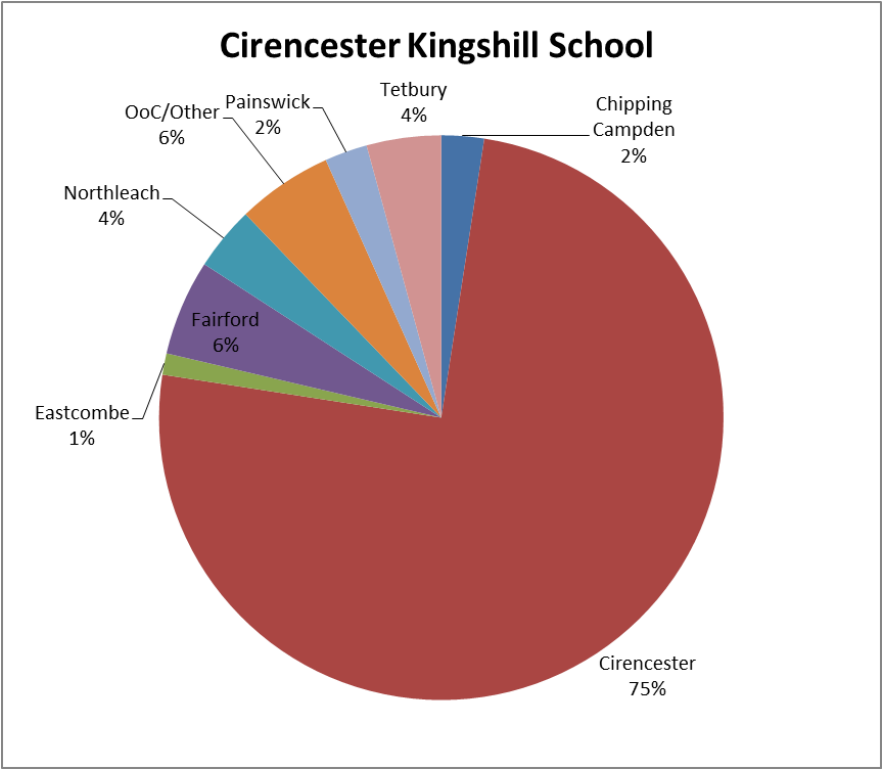

Cotswold School offers Post 16 provision in the area.

D50 Cotswold South

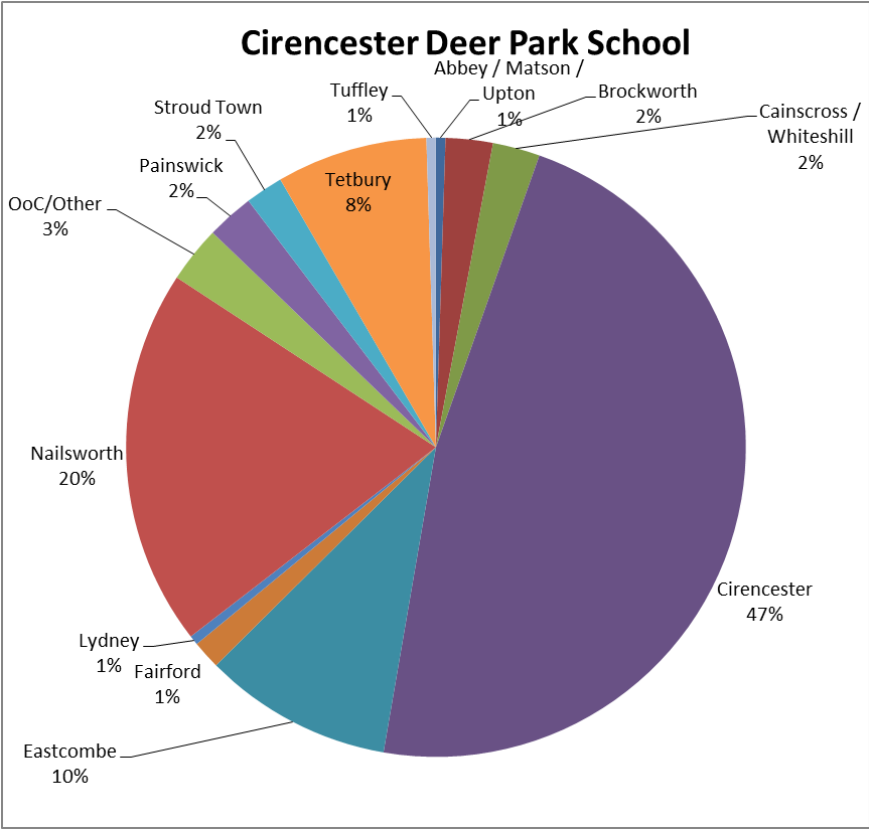

The Cotswold South is served by Cirencester Deer Park, Cirencester Kingshill, Farmors and Sir William Romney's Schools. The graphs below show the feeder schools and capacity of the secondary schools

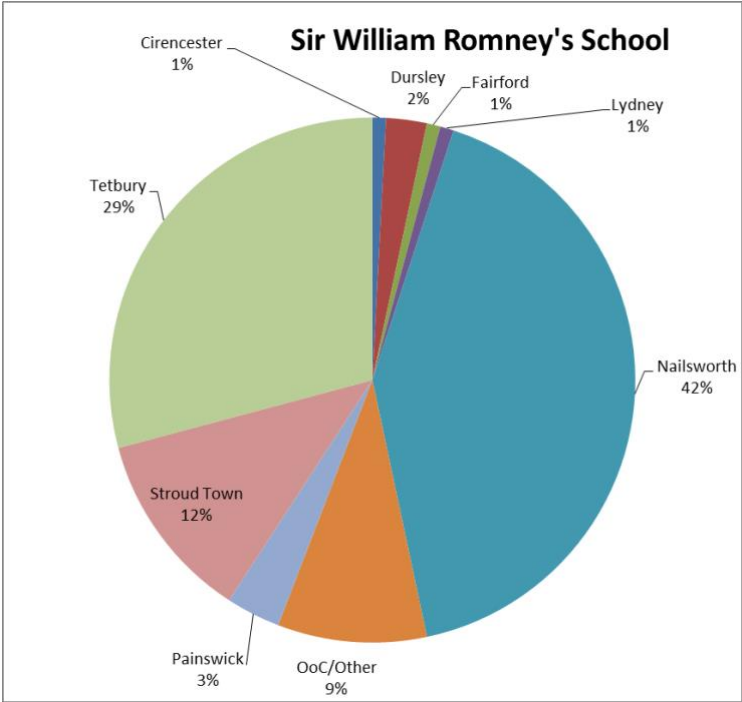

Pie chart above shows, by primary schools planning areas, the pupils allocated to Farmor's school in the 2020 allocation round.

Pie chart below shows, by primary schools planning areas, the pupils allocated Cirencester Kingshill School in the 2020 allocation round.

Pie chart above shows, by primary schools planning areas, the pupils allocated Cirencester Deer Park school in the 2020 allocation round.

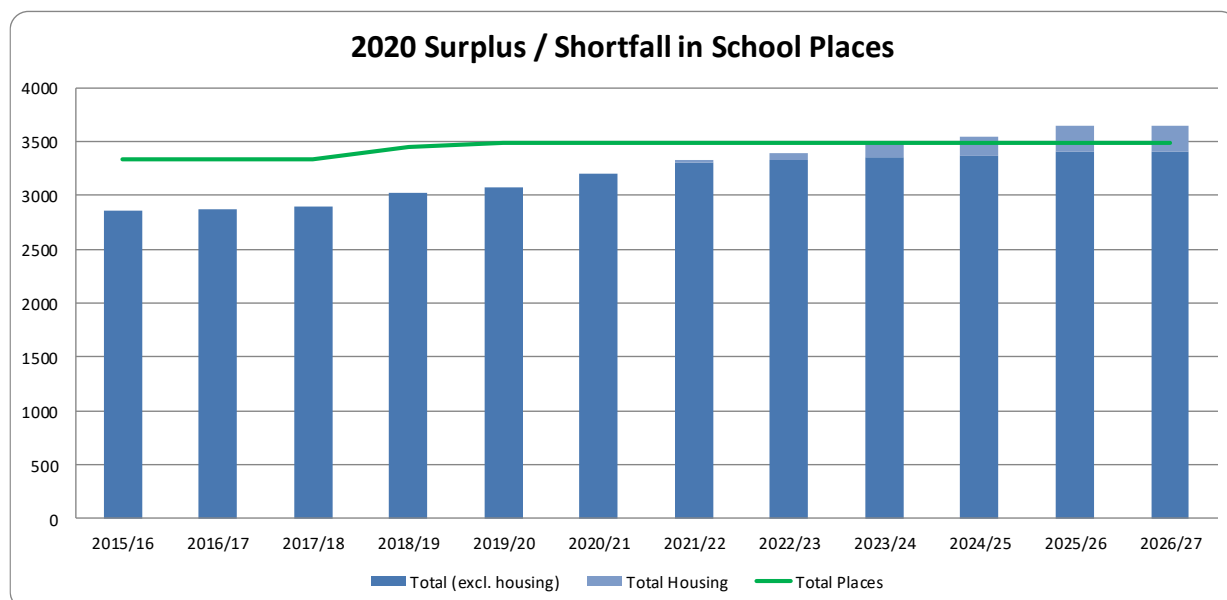

Pie chart above shows, by primary schools planning areas, the pupils allocated to Sir William Romney’s school in the 2020 allocation round.

Implications for Secondary School Provision from 2021

The table below shows pupils at the Secondary school within the Cotswold South area with the percentage of surplus/shortfall places by age cohort both retrospectively and forecast including anticipated pupil product.

YEAR	Year 7					Total School - Years 7-11				
	PAN	Total NOR in Year 7 (including students from housing)		Surplus - Shortfall Places	% Spare Year 7	Total Places	Total (including students from housing)		Surplus - Shortfall Places	% Surplus - Shortfall Places
2015/16	666	553		113	17%	3330	2861		469	14%
2016/17	666	564		102	15%	3330	2871		459	14%
2017/18	673	621		52	8%	3337	2900		437	13%

2022/23	698	679	(14)	19	3%	3490	3396	(69)	94	3%
2023/24	698	713	(27)	-15	-2%	3490	3482	(131)	8	0%
2024/25	698	714	(37)	-16	-2%	3490	3543	(181)	-53	-2%
2025/26	698	752	(50)	-54	-8%	3490	3651	(246)	-161	-5%
2026/27	698	719	(50)	-21	-3%	3490	3645	(246)	-155	-4%

Overall, there are 1228 houses identified in the Cotswold Local Plan to be built in the Cotswold South area, should all of this housing come forward it is predicted to generate approximately 246 11-16 aged pupils in the forecast period. Depending on when and in what quantities these housing developments are provided will inform what S106 developers contribution requirements Gloucestershire County Council will request

There are up to 2,500 houses identified in the Cotswold Local Plan to be built in the Cirencester community area. This is a Strategic site at Chesterton and will deliver a new 3FE primary school and S106 contributions to local Secondary Schools. It is expected to generate 325 Secondary aged pupils.

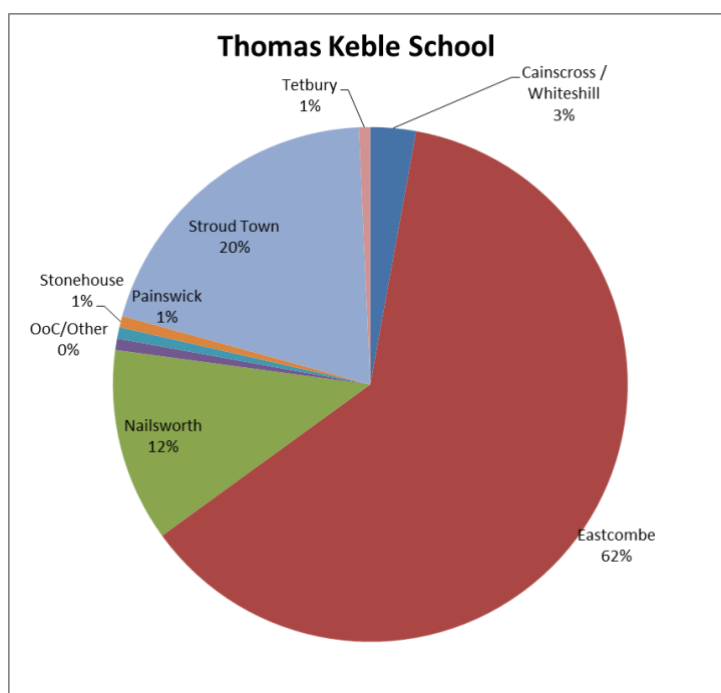

Post 16

Farmer's School offers Post 16 provision in the area. Cirencester College offers post 16 education locally

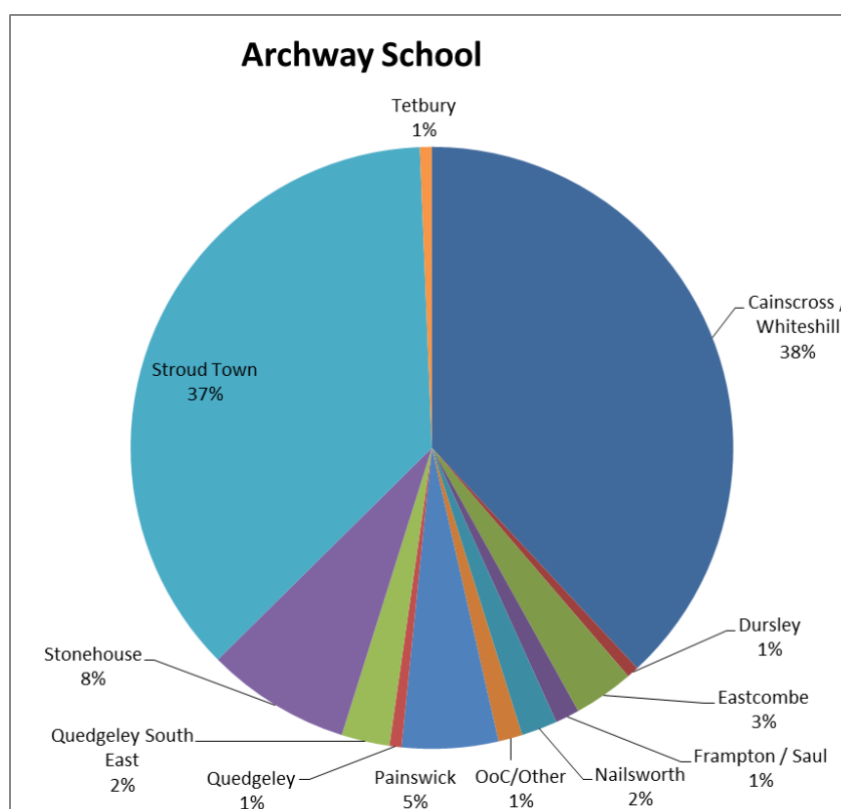

Stroud

D51East Stroud

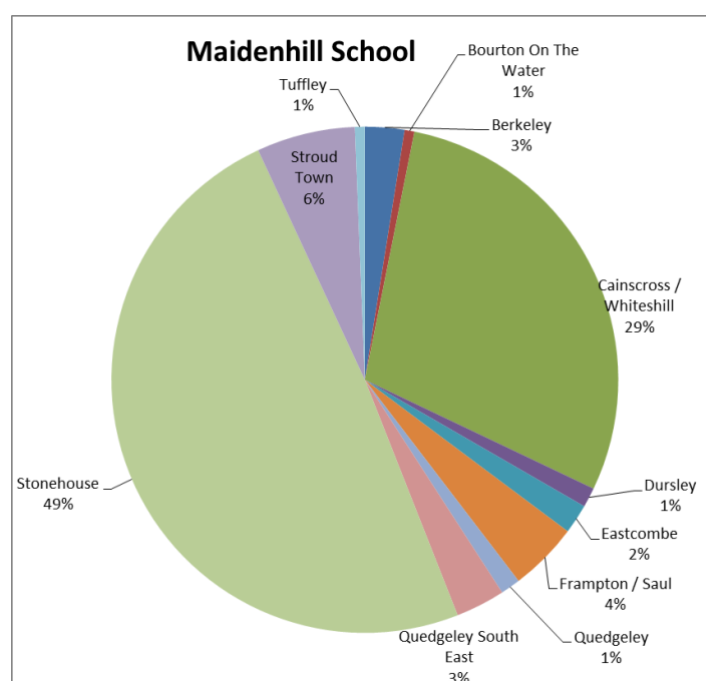

The East Stroud is served by Archway, Maidenhill, Marling, Stroud High and Thomas Keble Schools. The graphs below show the feeder schools and capacity of the secondary schools

Pie chart above shows, by primary schools planning areas, the pupils allocated to Thomas Keble School in the 2020 allocation round.

Pie chart above shows, by primary schools planning areas, the pupils allocated to Archway school in the 2020 allocation round.

The pie chart above shows, by primary schools planning areas, the pupils allocated to Maidenhill School in the 2020 allocation round.

Implications for Secondary School Provision from 2021

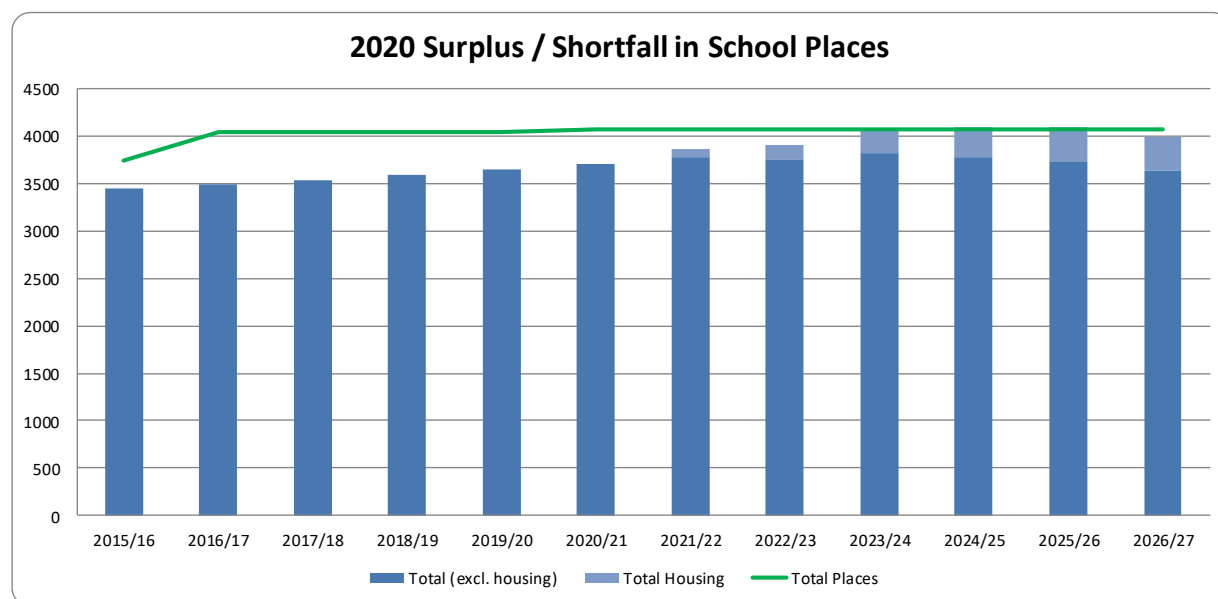

The table below shows pupils at the Secondary school within the East Stroud area with the percentage of surplus/shortfall places by age cohort both retrospectively and forecast including anticipated pupil product.

Secondary pupil place demand in : East Stroud

Planning Area

9162400

2022/23	999	1135	(25)	-136	-14%	5055	5416	(122)	-361	-7%
2023/24	999	1138	(37)	-139	-14%	5055	5599	(181)	-544	-11%
2024/25	999	1165	(47)	-166	-17%	4995	5720	(231)	-725	-15%
2025/26	999	1187	(54)	-188	-19%	4995	5858	(269)	-863	-17%
2026/27	999	1168	(54)	-169	-17%	4995	5845	(269)	-850	-17%

The majority of secondary schools are academies and the capacity of these schools is recorded in the academy funding agreement. This should be updated where a PAN is changed. The 11 – 16 capacity identified in these tables for expanding schools has been shown as the total capacity at the date of a permanent PAN increase. In most cases the working capacity of the school will be lower while a PAN increase works its way through over subsequent academic years.

For example a secondary school expanding from 5 to 6 forms of entry would originally have a capacity of 750 places (5 x 150) if the PAN increase takes effect from Sept 2019 the tables will reflect the capacity increase to 900 places (5 x 180) from Sept 2019. However, in most cases, the school will only increase its intake (PAN) from 150 to 180 for the Year 7 intake and operationally the school may use a capacity of 780 places. The balance 120 places will not be in use until the higher intake works its way through the school

Overall, there are 1346 houses identified in the Cheltenham Local Plan to be built in the Cheltenham planning area, should all of this housing come forward it is predicted to generate approximately 269 11-16 aged pupils in the forecast period.

Two large strategic sites in North West Cheltenham and West Cheltenham of up to 4500 and 1200 new homes respectively is identified in the Joint Core Strategy plan. These are significant housing developments and will provide three new primary schools. It may also require some additional primary places at existing schools, if site capacity allows depending on the final number of dwellings built.

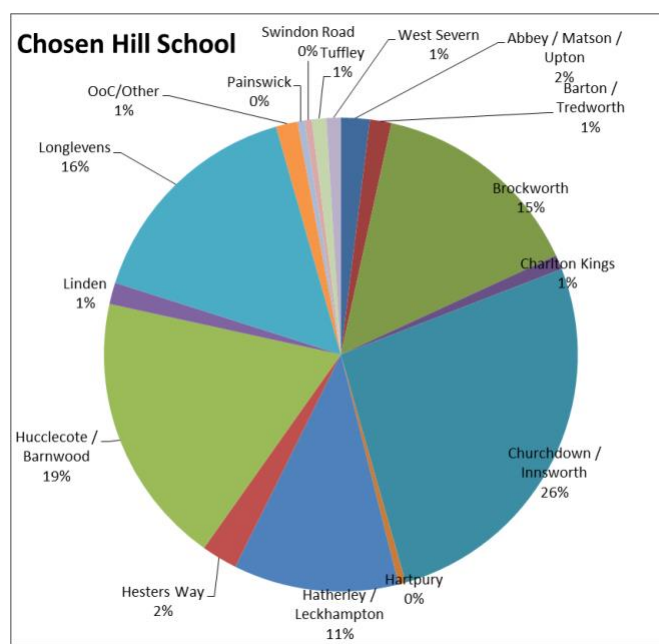

Post 16

A number of local secondary schools offer post 16 education.

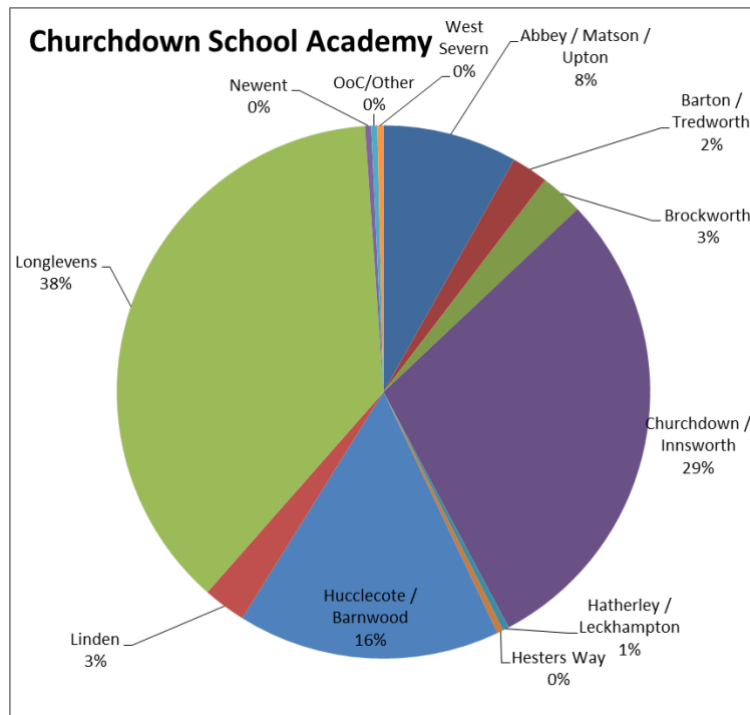

Gloucester

D54 Gloucester

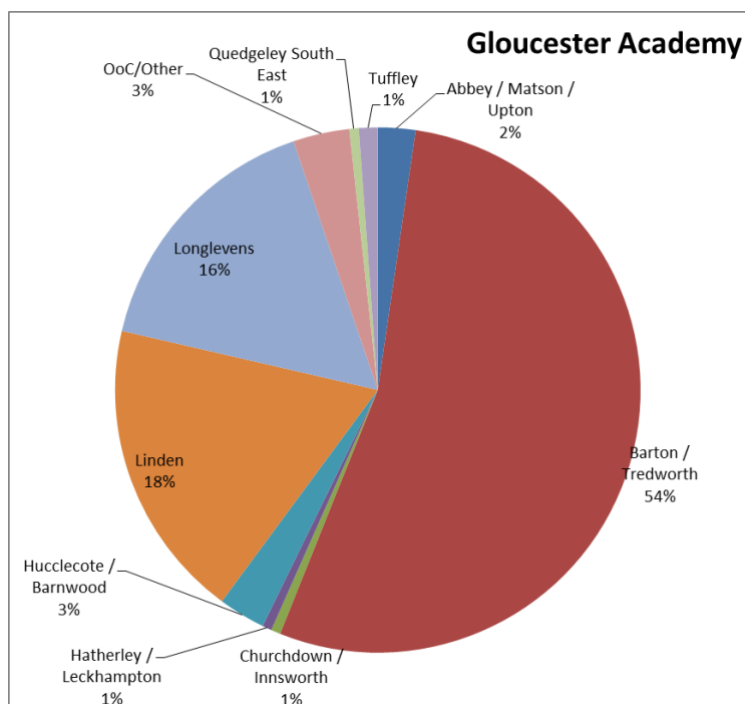

Gloucester is served by Barnwood Park College, Holmleigh Park High School, Chosen Hill, Churchdown, Gloucester Academy, Henley Bank High, Denmark Road High School, Ribston Hall High, Severn Vale, Sir Thomas Rich's St Peters Catholic High School & Sixth Form and The Crypt Schools. The graphs below show the feeder schools and capacity of the secondary schools

- Indicates a Temporary PAN Increase

GLOSSARY

The Council, The County Council , The LA - refers to Gloucestershire County Council

SCAP Return – School Capacity Return – refers to the annual data return sent to central government to show deficit or surplus places in Gloucestershire schools

Universal Commissioning Team – refers to the team responsible for School Place Planning and ensuring sufficient places are available

Admissions Team – refers to the team responsible for overseeing the Reception entry to school and Y7 transfer to secondary school admissions.

Academic Year – refers to A period commencing with 1st August and ending with the next 31st July as defined by Section 88M of the SSFA 1998.

School Year – refers to The period beginning with the first school term to begin after July and ending with the beginning of such term after the following July, as defined by Section 579 of the Education Act 1996.

Basic Need and Maintenance – refers to types of capital funding allocated from central government to the LA to cover cost of supply of new places and maintenance of schools.

S106 and CIL – refers to Section 106 developer's contributions and Community Infrastructure Levy are two forms of capital monies received from developers when new dwellings are built to be used to fund school places. The Community Infrastructure Levy is being introduced slowly and is a tax payable on each new dwelling rather than a negotiated S106 payment for the whole development.

Bulge Class – refers to an additional number of places at Reception in a one off year only. For example - if a school normally admits 30 pupils into Reception but there is a requirement that for one year only they are requested to admit 60, that cohort will remain in the school for the seven years, however the following years cohort will return to 30.

In Year Applications – refers to pupils that arrive into the county after the September Admissions round is completed and require a school place. This would be administered by the In Year Admissions Team.

Joint Core Strategy – refers to Housing Strategy of two or more District Councils in this case refers to Cheltenham, Gloucester and Tewkesbury's joint housing strategy.

EFA / ESFA – refers to Education & Skills Funding Agency, the body that funds all Academies and Free Schools.

High Needs Places – refers to school places required by pupils who have specific and additional needs to mainstream school places.

Implementation Plans – refers to set of plans used to support and provide new school places.

Academies—Academies are publicly funded independent schools. They don't have to follow the national curriculum and can set their own term times. They still have to follow the same rules on admissions, special educational needs and exclusions as other state schools. Academies get money directly from the government, not the local council. They're run by an academy trust which employs the staff. Some academies have sponsors such as businesses, universities, other schools, faith groups or voluntary groups. Sponsors are responsible for improving the performance of their schools.

Free schools – refers to schools funded by the government but aren't run by the local council. They have more control over how they do things. They're 'all-ability' schools, so can't use academic selection processes like a grammar school. Free schools can set their own pay and conditions for staff and change the length of school terms and the school day. They don't have to follow the national curriculum.

Community Schools – refers to schools where the local authority employs the school's staff, owns the school's land and buildings and is the admissions authority (it has primary responsibility for deciding the arrangements for admitting pupils).

Voluntary Aided – refers to a school where the governing body is the employer and the admissions authority. The school's land and buildings (apart from playing fields which are normally owned by the local authority) will normally be owned by a charitable foundation.

Foundation Schools – refers to a school where the governing body is the employer and the admissions authority. The school's land and buildings are either owned by the governing body or by a charitable foundation.

UTC – refers to a school that are a kind of free school specialising in subjects like engineering and construction. They usually teach these subjects along with business skills and IT. Pupils study academic subjects as well as practical subjects leading to technical qualifications. The curriculum is designed by the university and employers, who also provide work experience for students. University technical colleges are sponsored by:

- universities
- employers
- further education colleges

New School Competition Arrangements – refers to the process for selecting an Academy Trust to run a new school.

Free School Proposal – refers to the process to establish a Free School.

Collaborative and Federated – refers to two or more schools working together under one governing body.

All through School Models – refers to schools age range that covers 4 – 19 year olds (if 6th form is included) or 4 to 16 year olds in one school establishment.

Specialist Commissioning – refers to the team that arrange school places for pupils with specific and or additional needs that cannot be met in mainstream schools.

Two Tier Authorities – refers to a County Council which overarches a number of District Councils. Gloucestershire is a Two Tier Authority.

PAN – Published Admission Number – refers to the number of places a school can offer at intake.

NC – Net Capacity – refers to the total number of school places a school has the space to support.

Multi Academy Trust – refers to a body that has a number of schools within its administration.

Priority Schools Building Programme – refers to a government funded programme (PSBP) to provide new schools and included a bidding process.

Devolved Formula Capital – refers to an allocated amount of capital funding given to each school by formula to be used to support capital projects at their school.

Capital Receipts - refers to any capital monies received by the Local Authority from housing developers or sale of assets

Housing Audits – refers to work undertaken by a consultant to review the number of school aged children arising from recent housing developments and used to evidence need for S106 funding.

Academy Conversion Programme – refers to the process a school has to follow to move from a county maintained school to an Academy.

Regional Schools Commissioner – RSC – refers to the body that administrates decisions on behalf of the Secretary of State for all Academies and Free Schools

Diocese – refers to the area covered by a Bishop's jurisdiction and only applies to Catholic and Church of England schools.

Children's Centre – refers to a centre offering early childhood services, including education, childcare, social services and health services.
